A period of over twenty years of coalition government came to an end in April 1966 with the formation of a cabinet composed of the People's Party only. In the 1970 general elections for the Nationalrat (First Chamber) no party could achieve an absolute majority and though a coalition government was expected the Socialist Party, with three seats more than the People's Party, decided to take office, led by Dr. Bruno Kreisky as Federal Chancellor. The Socialists had already gained control of the Bundesrat (Second Chamber) in 1969. However, another election was called in October 1971 at which the Socialist Party also achieved an absolute majority in the Nationalrat. In 1973 elections in the provinces of Vienna and Upper Austria changed the parties' representation in the Bundesrat, both now having 29 seats.

Government

Austria is a federal republic divided into nine provinces, each of which has its own Provincial Assembly (Landtag). There is a bi-cameral parliamentary system. The first chamber, the Nationalrat (National Council), is elected on a basis of proportional representation by universal adult suffrage. The second chamber, the Bundesrat (Federal Council), is composed of representatives of the Provincial Assemblies. Members of the Nationalrat are elected for four years. The Federal President, elected for six years, is the Head of State. The Federal Chancellor is the Head of Government.

Defence

After the ratification of the State Treaty in 1955, Austria declared her permanent neutrality. To protect her independence, the armed forces were instituted; a numerical limitation of the total strength of the armed forces is not defined by the State Treaty. Military service

consists of six months' initial training, followed by 60 days' reservist training. Usually about 40,000 men are conscripted each year. In 1974 the total armed forces numbered 12,300 regulars and 25,000 conscripts (of which the army consisted of 10,000 regulars and 23,000 conscripts, and the air force of 2,300 regulars and 2,000 conscripts, and the air force of units are an integral part of the army.) The 1974 defence budget totalled 5,879 million Schilling, about 3.69 per cent of the total Federal budget.

Economic Affairs

The Austrian economy is no longer mainly dependent on tourism and agriculture. Mining and manufacturing industries provided 38 per cent of the Gross Domestic Product in 1973.

Austria possesses iron ore and oil deposits, lignite, magnesite, lead and some copper. Hydro-electric power resources are also being developed and electricity is now being supplied to neighbouring countries. After the war about a quarter of Austrian industry was nationalized, including most of the heavy industry. Industrial relations are good and the proportion of working days lost through strikes is lower than in almost any other country in Europe. There is very little unemployment and almost 250,000 foreigners are now working in Austria, comprising nearly 10 per cent of the work force. In the last decade production has risen steadily and increased by 53.6 per cent between 1964 and 1973.

Tourism is a valuable source of income, winter and summer. The Danube is popular with excursionists and foreign tourists and is important commercially and as a source of energy, about 5 million tons of freight being transported annually. Although most river trade is with Federal Germany, an increasing traffic passes between Austria and Czechoslovakia, Hungary, Yugoslavia and the Soviet Union. Barges carrying up to 1,000 tons can be accommodated.

In spite of recent trends in agriculture towards mechanization and larger holdings, 16 per cent of the working population were engaged in agriculture and forestry in 1973, and the system is still based mainly on small holdings. However, the country still produces over 79 per cent of its agricultural needs.

Economic growth has been steadily maintained for the last 15 years, and in 1973 there was an increase of 5.5 per cent in the Gross Domestic Product, which reached 546,255 million Schilling. The strength of the economy was shown in May 1971 by the 5.05 per cent revaluation of the Schilling and in March and July 1973 by revaluations of 2.25 per cent and 4.8 per cent respectively. The living standard is still somewhat below that of most advanced European economies but it is rising steadily and may be soon expected to reach the level of her neighbours. The national income per head was about 54,700 Schilling in

Austria became a member of the European Free Trade Association in 1960, since which time exports to member countries have risen from 12 to 29 per cent of Austria's total, and now about one-eighth of her total trade is with these countries; one-tenth is with Eastern Europe. However, although the proportion of Austria's exports to the European Economic Community dropped from 50 to 49.2 per cent between 1960 and 1973, two of her principal markets remain Federal Germany and Italy, and after applications for a form of associate membership of the EEC which would not compromise her neutrality, two treaties were signed in 1972 providing for eventual free trade of industrial goods between EEC and EFTA members, and for some concessions on agricultural produce between Austria and the Community.

Transport

Austria has a highly developed system of public transport by road, rail, air and river. The Danube provides Austria with an artery particularly important for the transport of coal, steel, petroleum and other raw materials. A passenger service is maintained on the Upper Danube and between Vienna and the Black Sea. There are commercial airports. Railways total about 5,900 kilometres (3,666 miles), roads 95,000 kilometres (60,000 miles), and commercial waterways 351 kilometres (228 miles).

Social Welfare

Social insurance in Austria dates back to the 1880s. The present social insurance system covers all wage earners and salaried employees, agricultural and non-agricultural self-employed and dependants, regardless of nationality. The coverage is compulsory and provides earnings-related benefits in case of old-age, invalidity, death, sickness and maternity and work injury. About 95 per cent of the population are protected. There are separate programmes providing unemployment insurance, family allowance, benefits for war victims, etc.

Education

Since 1962 education has been free and compulsory between the ages of 6 and 15. The central controlling body is the Federal Ministry of Education and Art (Bundesministerium für Unterricht und Kunst), higher education and research coming under the competence of the Federal Ministry of Higher Education and Research (Bundesministerium für Wissenschaft und Forschung). Provincial boards (Landesschulräte) supervise school education in each of the nine federal provinces, and district school boards (Bezirhsschulräte) in local regions.

Starting at the age of 6, all children undergo four years of education at a primary school (Volksschule). At the age of 10 they may transfer to secondary education, or continue until the age of 14 in the Hauptschule (upper primary school). The senior division of the primary school (Volksschuloberstufe) is limited to rural areas and is losing ground due to the extension of the Hauptschule and the (academic) general secondary schools (Allgemeinbildende höhere Schulen). In the ninth year of general compulsory schooling the polytechnic course (Polytechnischer Lehrgang) includes all pupils who do not attend a school leading to higher levels of education.

After completion of primary education about 20 per cent of the pupils (school year 1972/73) enter one of the two forms of (academic) general secondary education (Allgemeinbildende höhere Schulen) leading to higher education, i.e. the Gymnasium (generally arts biased) or the Realgym-

nasium (generally science and mathematics biased), in which they may study until the age of 18. Success in the Reifeprüfung ("Maturity examination") constitutes a qualification for university or comparable further education.

At the age of 14 there are numerous possibilities for transfer between those schools mentioned and various types of intermediate and (upper) secondary technical, vocational and otherwise specialized educational establishments, secondary technical, vocational and agricultural schools (Berufsbildende höhere Schulen), which also give access to higher education.

Austria has twelve scientific institutions of higher learning (Wissenschafiliche Hochschulen), among which are the Universities of Vienna (f. 1365), Graz, Innsbruck and Salzburg. Six art schools (Künstlerische Hochschulen) rank as universities.

Tourism

Austria's mountains, forests and valleys make it an ideal resort in both summer and winter. Celebrated beauty spots are the Salzkammergut Lake District, the Tyrol and Vorarlberg valleys and the Vienna woodlands. Vienna is a centre for music and art lovers and historians, with its opera houses and concert halls, art galleries and museums. In winter thousands of visitors go to Austrian skiing resorts. Festivals are held all over Austria in the summer. Internationally famous are the Vienna Festival and the Salzburg Music Festival.

Receipts from tourism totalled 42,895 million Schilling in 1973.

Visas are not required for nationals of the following countries: Argentina, Australia, Barbados, Belgium, Bolivia, Brazil, Bulgaria, Canada, Chile, Colombia, Costa Rica, Cyprus, Denmark, Dominica, Ecuador, El Salvador, Finland, France, Federal Republic of Germany, Gibraltar, Greece, Iceland, Ireland, Israel, Italy, Jamaica, Japan, Luxembourg, Malta, Mexico, Monaco, Morocco, the Netherlands, New Zealand, Norway, Pakistan, Paraguay, Peru, Poland, Portugal, Romania, South Africa, Spain, Sweden, Switzerland, Tunisia, Turkey, the United Kingdom, the U.S.A., Uruguay and Yugoslavia.

Saart

Skiing and football are the most popular sports.

Public Holidays

1975: May 1st (Labour Day), May 8th (Ascension Day), May 19th (Whit Monday), May 29th (Corpus Christi), August 15th (The Assumption), October 26th (National Day), November 1st (All Saints' Day), December 25th and 26th (Christmas).

1976: January 1st (New Year's Day), January 6th (Epiphany), April 19th (Easter Monday).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rates

roo Groschen = 1 Schilling.

Exchange rates (December 1974):

£1 sterling = 41.00 Schilling.

U.S. \$1 = 17.63 Schilling.

THE CONSTITUTION

Austria is a democratic republic, having a president (Bundespräsident), elected directly by the people, and a two-chamber government. The republic is organized on the federal system, comprising the provinces (Länder) of Burgenland, Carinthia, Lower Austria, Upper Austria, Salzburg, Styria, Tyrol, Vorarlberg and Vienna. There is universal suffrage for men and women over the age of 19.

The National Council (Nationalrat) consists of 183 members, elected by universal direct suffrage, according to a system of proportional representation. It functions for a period of four years.

The Federal Council (Bundesrat) represents the federal provinces. Vienna sends 12 members, Lower Austria 11, Styria 9, Upper Austria 9, Carinthia 4, Tyrol 4, and the other provinces 3 each, making 58 in all. The seats are divided between the parties according to the number of seats they hold in the provincial assemblies and are held during the life of the provincial government which they represent. Each province in turn provides the chairman for six months.

For certain matters of special importance the two chambers meet together; this is known as a Bundesversammlung.

The President is the head of the State, and he holds office for six years. His powers include appointing ambassadors, conferring honours, etc. Although he is invested with special emergency powers, he normally acts on the authority of the Government, and it is the Government which is responsible to the National Council for governmental policy.

The Government consists of the Chancellor, the Vice-Chancellor and the other ministers, who may vary in number. The Chancellor is chosen by the President from the party with the strongest representation in the newy elected National Council, and the other ministers are then chosen by the President on the advice of the Chancellor.

All new acts must be read and put to the vote in both houses. A new bill goes first to the National Council, where it usually has three readings, and secondly to the Federal Council, where it can be held up, but not vetoed.

The Constitution also provides for appeals by the Government to the electorate on specific points by means of referendum. There is further provision that if 200,000 or more electors present a petition to the Government, the Government must lay it before the National Council.

The Provincial Diet (Landtag) exercises the same functions in each province as the National Council does in the State. The members of the Landtag elect a government (Landesregierung) consisting of a provincial governor (Landeshauptmann) and his councillors (Landesräte). They are responsible to the Landtag.

The spheres of legal and administrative competence of both national and provincial governments are clearly defined. The constitution distinguishes four groups:

- 1. Law-making and administration are the responsibility of State: e.g. foreign affairs, justice and finance.
- 2. Law-making is the responsibility of the State, administration is the responsibility of the provinces: e.g. elections, population matters and road traffic.
- 3. The State lays down the rudiments of the law, the provinces make the law and administer it: e.g. charity, rights of agricultural workers, land reform.
- 4. Law-making and administration are the responsibility of the provinces in all matters not expressly assigned to the state: e.g. municipal affairs, building, theatres and cinemas.

THE GOVERNMENT

HEAD OF THE STATE

Federal President: Dr. RUDOLF KIRCHSCHLÄGER.

THE GOVERNMENT

(January 1974)

(Socialist Party, formed November 1971)

Federal Chancellor: Dr. Bruno Kreisky.

JUDICIAL SYSTEM

SUPREME ADMINISTRATIVE COURTS

Verlassungsgerichtshof (Constitutional Courf): Vienna I, Judenplatz 11; f. 1919; deals with matters affecting the Constitution, examines the legality of legislation and administration; Pres. Univ. Prof. Dr. Walter Antoni-Olli; Vice-Pres. Prof. Dr. Leopold Werner.

Verwaltungsgerichtshof (Administrative Court): Vienna I, Judenplatz 11; deals with matters affecting the legality of administration; Pres. Hon. Prof. Dr. Edwin Loebenstein; Vice-Pres. Dr. Josef Strau.

SUPREME JUDICIAL COURT

Oberster Gerichtshof: Vienna I, Museumstrasse 12; Pres. Dr. Franz Pallin; Vice-Pres. Dr. Wolfgang Lassmann and Dr. Johann Mayer.

The Austrian Legal System is based on the principle of a division between legislative, administrative and judicial power. There are three supreme courts (Verfassungsgerichtshof, Verwaltungsgerichtshof and Oberster Gerichtshof). The judicial courts are organized into 228 local courts (Bezirksgerichte), 20 provincial and district courts (Landesund Kreisgerichte), and 4 higher provincial courts (Oberlandesgerichte) in Vienna, Graz, Innsbruck and Linz.

POLITICAL PARTIES

Österreichische Volkspartei (ÖVP) (Austrian People's Party): 1010 Vienna I, Kärntnerstrasse 51; f. 1945; Christian-Democratic party; the "Salzburg programme" (1972) defines it as "progressive centre party". Chair. Dr. KARL SCHLEINZER; Sec. Dr. HERBERT KOHLMAIER; party organs: Volkszeitung (Kärnten), Südost Tagespost, Tiroler Nachrichten, Salzburger Volkszeitung, Linzer Volksblatt, Niederösterreichisches Volksblatt.

Sozialistische Partei Österreichs (SPÖ) (Socialist Party of Austria): 1014 Vienna I, Löwelstrasse 18; founded as the Social-Democratic Party in 1889; 700,000 mems.; Chair. Dr. BRUNO KREISKY; Vice-Chair. Dkfm. Dr. HANNES AN-DROSCH, HANS CZETTEL, Dr. HERTHA FIRNBERG, LEOPOLD GRATZ, ADALBERT SEBASTIAN; Sec. FRITZ MARSCH; publ. Arbeiter-Zeitung, Kärniner Tageszeitung, Neue Zeit (Graz), Salzburger Tagblatt, Tagblatt (Linz), Die Zukunft (fortnightly).

Freiheitliche Partei Österreichs (FPÖ) (Liberal Party of Austria): 1010 Vienna I, Kärntnerstrasse 28; f. 1955; this Liberal party partially succeeds the "Verband der Unabhängigen" (League of Independents) dissolved in April 1956, and it stands for moderate social reform, for the participation of workers in management, for European co-operation and for good relations with all the countries of Free Europe; Chair. and Leader of Parliamentary Group FRIEDRICH PETER; publ. Neue Freie Zeitung

Kommunistische Partei Österreichs (KPÖ) (Communist Party of Austria): 1201 Vienna, Höchstädtplatz 3; f. 1918; this Party is strongest in the industrial centres and trade unions; advocates a policy of strict neutrality and friendly relations with neighbouring states and with the Soviet Union; Chair. Franz Muhri; Secs. Erwin Scharf, WALTER WACHS; party organs: Volksstimme (daily), Weg und Ziel (monthly).

The judicial courts are organized into 228 local courts (Bezirksgerichte), 20 provincial and district courts (Landesund Kreisgerichte), and 4 higher provincial courts (Oberlandesgerichte) in Vienna, Graz, Innsbruck and Linz.

RELIGION

THE ROMAN CATHOLIC CHURCH

The vast majority of Austrians belong to the Roman Catholic church. There are two Archbishoprics and seven Bishoprics.

Archbishoprics:

Vienna . H.E. Cardinal D.Dr. FRANZ KÖNIG, 1010

Vienna, Rotenturmstrasse 2.

Salzburg . D.Dr. KARL BERG, Kapitelplatz 2, Post-

fach 62, 5010 Salzburg.

Bishoprics:

St. Pölten . Dr. Franz Zak, 3100 St. Pölten, Dom-

platz 1.

Linz . D.Dr. Franz Zauner, 4010 Linz, Herren-

strasse 19.

Graz-Seckau Johann Weber, 8010 Graz, Bischofplatz

Gurk. D.Dr. Josef Köstner, 9010 Klagenfurt, Mariannengasse 2.

Eisenstadt . D.Dr. STEFAN LASZLÓ, 7001 Eisenstadt,

St. Rochus-Strasse 21.

Innsbruck D.Dr. Paul Rusch, 6020 Innsbruck, Wilhelm-Greil-Strasse 7.

Feldkirch . D.Dr. Bruno Wechner, 6800 Feldkirch, Bahnhofstrasse 13.

Evangelische Kirche A.u.H.B. in Österreich (Evangelical Church of the Augsburgian and Helvetic Confession): 1180 Vienna, Severin-Schreiber-Gasse 3; 424,000 mems.; Bishop Oskar Sakrausky; publs. Amtsblatt, Die Saat (tortnightly), Anut und Gemeinde, Glaube und Heimat (annual), Informationsdienst (monthly), Evang. Pressedienst für Österreich (2 per week).

Evangelisch-reformierte Kirche Helvetischen Bekenntnisses (Reformed Church): 1010 Vienna, Dorotheergasse 16; approx. 18,000 mems.; Landes-superintendent Pfr. IMRE GYENGE; publ. Reformiertes Kirchenblatt für Österreich (monthly).

Old Gatholic: 1010 Vienna, Schottenring 17; mems. approx. 30,000; Bishop Nikolaus Hummel; Auxiliary Bishop Ludwig Paulitschke.

THE PRESS

Austria's Wiener Zeilung, founded in 1703, is the oldest daily paper published in the world, and Austria's Press history dates back to 1605, when its first newspaper was published. The Press Law of 1922 states that "The freedom of the Press is assured and subject only to the limitations defined in this law".

Newspapers pay 8 per cent value added tax on copy sales price and 16 per cent on advertising revenue. Reform has been demanded in the Press Law with particular regard to right of reply. According to this section of law, any person or persons who feel themselves to have been subject to an incorrect statement in the Press can (and often do) demand to have a formal reply of equal volume and position published in the offending newspaper. This is considered by the majority of the Press as an obstacle to its freedom. Other objections have been raised on such points as the lack of constitutional guarantees for freedom of opinion and circulation, and the compulsory supply of copy to the Ministry of the Interior. The Austrian Press is still subject to Nachzensur (after-censorship) and a paper's registered Verantwortlicher Redakteur (Responsible Editor) is penally liable for material printed which contravenes the law on such points as libel or "corruption of minors". For many years no "Responsible Editor" has been imprisoned, although fines have been imposed and issues confiscated. In practice there is complete freedom of opinion and circulation in the Austrian Press subject to the restrictions of the 1922 Press Law.

In 1961 the Austrian Press Council (Presseral) was founded. It consists of representatives of the publishers and journalists and its principal duties are to watch over the freedom of the Press and to ascertain grievances of the Press. The political parties each have at least one newspaper, and independent papers tend to follow a political line. Although there is a strong provincial Press in Graz, Linz, Salzburg and Innsbruck, the country's Press is centered in Vienna. The four highest circulation dailies are the Neue Kronen-Zeitung, the Kurier, the Kleine Zeitung and the Arbeiter Zeitung. Die Presse (independent), the Arbeiter-Zeitung (socialist) and the Salzburger Nachrichten

are the country's most respected dailies. In November 1970 the highly respected *Volksblatt*, the most important People's Party daily, ceased publication owing to financial difficulties.

DAILIES

Arbeiter-Zeitung: Vienna V, Rechte Wienzeile 97; f. 1889; Socialist Party; morning; Editor Dr. Manfred Scheuch; circ. weekdays 97,040, Sunday 111,996.

TRADE UNIONS

- Österreichischer Gewerkschaftsbund (Austrian Federation of Trade Unions): 1011 Vienna I, Hohenstaufengasse 10-12; non-party union organization with voluntary membership; f. 1945; Pres. Anton Benya, Exec. Secs. E. Hofstetter, A. Stroer; 1,559,513 mems.; organized in 16 trade unions, affiliated with ICFTU, Brussels; publ. Solidarität.
 - Gewerkschaft der Arbeiter der chemischen Industrie (Chemical Workers' Union): Vienna 6, Stumpergasse 60; 71,346 mems.; Chair. W. HRDLITSCHKA; publ. Der Chemiearbeiter.
 - Gewerkschaft der Arbeiter in der Land und Forstwirtschaft (Union of Agricultural and Forestry Workers):
 1061 Vienna VI, Loquaiplatz 9; 26,506 mems.;
 Chair. HERBERT PANSI; publ. Der Landbote.
 - Gewerkschaft der Bau- und Holzarbeiter (Union of Building Workers and Woodworkers): 1082 Vienna, Ebendorferstrasse 7; 201,481 mems.; Chair. HANS Böck; publ. Bau-Holz.
 - Gewerkschaft der Eisenbahner (Union of Railwaymen): 1051 Vienna V, Margarethenstrasse 166; 115,037 mems.; Chair. Fritz Prechtl.; publ. Der Eisenbahner.
 - Gewerkschaft der Gemeindebediensteten (Union of Municipal Employees): 1090 Vienna IX, Maria-Theresien-Strasse 11; 142,964 mems.; Chair. ROBERT WEISZ; publ. Der Gemeindebedienstete.
 - Gewerkschaft der Lebens- und Genussmittelarbeiter (Union of Food, Beverage and Tobacco Workers): 1080 Vienna VIII, Albertgasse 35; 48,576 mems.; Chair. Josef Staribacher; publ. Der Lebensmittelarbeiter.
 - Gewerkschaft der Metall- und Bergarbeiter (Union of Metalworkers and Miners): 1041 Vienna IV, Plösslgasse 15; 285,432 mems.; f. 1890; Chair. Anton Benya; publ. Glück Aufl
 - Gewerkschaft der öffentlich Bediensteten (Union of Public Employees): 1010 Vienna I, Teinfaltstrasse 7: f. 1945; 148,240 mems.; Chair. Alfred Gasperschitz; Gen. Secs. Alfred Stifter, Hanns Waas; publ. Der öffentlich Bedienstete.

- Gewerkschaft der Post- und Telegraphenbediensteten (Union of Postal and Telegraph Workers): 1010 Vienna I, Biberstrasse 5; 63,281 mems.; Chair. JOSEF SCHWEIGER; publ. Post und Telegraphie.
- Gewerkschaft der Privatangestellten (Union of Commercial, Clerical and Technical Employees): 1013 Vienna, Deutschmeisterplatz 2; 280,183 mems; Chair. Alfred Dallinger; publ. Der Privatangestellte.
- Gewerkschaft der Textil-, Bekleidungs- und Lederarbeiter (Union of Textile, Garment and Leather Workers): 1043 Vienna, Treitlstrasse 3; f. 1945; 70,775 mems.; Chair. Stefan Steinle; publ. Der Aufstieg.
- Gewerkschaft Druck und Papier (Union of Printing and Paper Trade Worhers): 1072 Vienna, Postfach 91, Seidengasse 15-17; f. 1842; 25,106 mems.; Chair. ARNOLD STEINER; publs. Vorwärts, Graphische Revue Österreich (monthly).
- Gewerkschaft gastgewerblicher Arbeitnehmer (Union of Hotel and Restaurant Workers): 1043 Vienna IV, Treitlstrasse 3; f. 1906; 17,424 mems.; Chair. FRITZ SAILER; publ. Wir Arbeiter im Gastgewerbe.
- Gewerkschaft Handel, Transport, Verkehr (Union of Workers in Commerce and Transport): 1010 Vienna, Teinfaltstrasse 7; f. 1904; 28,678 mems.; Chair. Јонанн Roposs; publ. Zeitrad.
- Gewerkschaft Kunst und freie Berufe (Union of Musicians, Actors, Artists, etc.): 1090 Vienna IX, Maria-Theresien-Strasse 11; f. 1945; 14,726 mems.; Chair, Karl Rössel-Majdan; publ. Kunst und freie Berufe.
- Gewerkschaft persönlicher Dienst (Union of Workers in Personal Services): 1043 Vienna, Treitlstrasse 3; 19.758 mems.; Chair. Adalbert Busta; publ. Persönlicher Dienst.
- Bundesfraktion Christlicher Gewerkschafter im Österreichischen Gewerkschaftsbund (Christian Trade Unionists' Section of the Austrian Federation of Trade Unions):
 1011 Vienna I, Hohenstaufengasse 12; Pres. Erwin
 Altenburger; Scc. Karl Wedenig; organized in
 Christian Trade Unionists' Sections of the above sixteen
 trade unions; affiliated with WCL, Brussels.

NATIONALIZED INDUSTRIES

After the Second World War the National Council passed a law giving the state control in the sectors concerned with coal and ore mining, iron and non-ferrous metals, mineral oil production and processing, transportation, chemical production, machine engineering and motor vehicle construction. More than seventy firms were nationalized and these were reorganized into 16 major concerns. In 1972 the four chief concerns, Voest (United Austrian Iron and Steel Works), Alpine Montan, Böhler and Schooller Blechmann, were merged to form a single concern, leaving 13 main concerns in all. Following the discontinuation of the Montanwerke Brixlegg, G. Rumpel A.G. and Vereinigte Wiener Metallwerke A.G. there are now only 10 major industries. They now employ about one-sixth of the total labour force and contribute onefifth of the country's industrial production. In order to rationalize the administration of the State's interest in these 10 concerns and their subsidiaries, a Federal Law passed in January 1970 transferred the controlling interest to the Austrian Industry Administration Company.

Österreichische Industrieverwaltungs-Aktiengesellschaft (ÖIAG) (Austrian Industry Administration Company): 1015 Vienna I, Kantgasse I, Postfach 99; f. 1970 to form an effective co-ordination of the nationalized

- enterprises on the basis of economic management and to promote research activities in the subsidiary companies; Chair. Board of Dirs. Dipl.-Ing. Dr. Franz Geist; Chair. Managing Board Dr. Josef Taus; 103,000 employees; controls the following 13 concerns and their subsidiaries:
- Bleiberger Bergwerks-Union A.G.: 9010 Klagenfurt, Radetzkystr. 2, Postfach 95; f. 1867; lead and zinc mining; Chair. Board of Dirs. Gen. Dir. KmzR. Martin Schützel Hofer; Chair. Managing Board Kammeramtsdir. Franz Kottek; 1,658 employees.
- Chemie Linz A.G. Österreichische Stickstoffwerke: 4021 Linz, St. Peter 224, Postfach 296; f. 1939; chemical products; Chair. Board of Dirs. Gen. Dir. KmzlR. Dr. Hans Buchner; Chair. Managing Board Präs. KmzlR. Wilhelm Poeschl; 6,614 employees.
- Elin Union A.G. für elektrische Industrie: 1141 Vienna, Penzingerstr. 76; f. 1892; electrical engineering; Chair. Board of Dirs. KmzlR. Dr. Rudolf Kohl-Russ; Chair. Managing Board Präs, Gen. Dir. a.D.Dkfm. Dr. Hans Igler; 7,450 employees.
- Österreichische Mineralölverwaltung A.G.: 1091 Vienna, Otto Wagnerpl. 5, Postfach 15; mining and processing of oil and gas; Chair. Board of Dirs. Gen. Dir. KmzlR. Ludwig Bauer; Chair. Managing Board Gen. Dir. Stv. Dr. Paul Schärf; 7,094 employees; with subsidiary branches: Martha-Erdöl Gesellschaft m.b.H.; Elan-Mineralölvertriebs-A.G.
- Österreichische Schiffswerften A.G. Linz-Korneuburg: 4010 Linz, Hafenstrasse 61, Postfach 45; f. 1840; Dir. Kmzl. R. Ing. Max-Petersell; Managing Board Gen. Dir. Konsul Dipl.-Ing. Karl Rabus.
- Kupferbergbau Mitterberg Gesellschaft m.b.H.: 5505 Mühlbach am Hochkönig; copper mining; Chair. Board Dirs. Dir. Dipl. Ing. Sebastian Biangard; Chair. Managing Board Dir. i.R. SC Dipl.-Ing. Mil.os Franc; 380 employees.
- Vereinigte Metallwerke Ranshofen-Berndorf A.G.: 5280
 Braunau am Inn, Postfach 94; f. 1956; aluminium
 processing; Chair. Board of Dirs. Gen. Dir. Kom.
 Rat Dipl.-Ing. Walter A. Wimberger; Chair.
 Managing Board R. A. Dr. Wolfgang Holzinger;
 4,448 employees.
- Simmering-Graz-Pauker A.G. für Maschine-, Kesselund Waggonbau: 1071 Vienna, Mariahillerstr. 32, Postfach 270; f. 1941; heavy engineering; Chair. Board of Dirs. Gen. Dir. KmzlR. Dr. Walter Zach; Chair. Managing Board Gen. Dir. Stv. KmzlR. Johann Holzer; 4,250 employees.
- Vereinigte Österreichische Eisen-und StahlwerkeAlpine Montan A.G.: 4010 Linz, P.O.B. 2; iron and
 steel works; Pres. and Chair. Board of Dirs. KmzR.
 Dr. Herbert Koller; Chair. Managing Board of
 Dirs. Dipl.-Ing. Dr. Franz Geist; 80,000 employees;
 includes the following subsidiaries: Gebrüder Böhler
 & Co. A.G.; Schoeller-Bleckmann Stahlwerke A.G.;
 Steirische Gussstahlwerke A.G.; Kärntnerische
 Eisen- und Stahlwerke A.G.; St. Egyder Eisen- und
 Stahlindustrie Gesellschaft; Hütte Krems Gesellschaft m.b.H.
- Wolfsegg-Traunthaler Kohlenwerkes A.G.: 4020 Linz, Waltherstr. 22, Postfach 65; f. 1911; lignite mining; Chair. Board of Dirs. Bergdir. Dipl. Ing. ANTON HINTEREGGER; Chair. Managing Board R.A. Dr. ARTHUR KOCH: 1,000 employees; includes the following subsidiary branch: Graz-Köflacher Eisenbahn- und Berghau Gesellschaft.

TRADE FAIRS .

Trade Fairs play an important part in the economic life of Austria. The largest are held during the spring and autumn at Vienna, but there are also a number of important fairs held in the provinces.

Vienna International Trade Fair: 1071 Vienna, Messeplatz; f. 1921; twice yearly (March and September); exhibits of all categories except cars, lorries, etc.; 40 countries represented; average number of visitors 650,000; Pres. Eduard Strauss; Dirs. Alfred Draxler, Alfred Hintschig; publ. Fachjournale.

Grazer Süd-Ost-Messe: Messeplatz 1, P.O.B. 63, 8011 Graz; f. 1906; twice yearly (May and October); exhibits of all categories, but special emphasis on agriculture, iron and steel, hotel and building equipment; average number of visitors 500,000; Dir. JOSEPH STOEFFLER.

Export- und Mustermesse Ges. m.b.H. Dornbirn: Realschulstrasse 6, 6850 Dornbirn; annually July; main emphasis on the textile industry; average, number of visitors 250,000.

Innsbrucker Messe Ges. m.b.H.: 6020 Innsbruck, Maria-Theresien-Strasse 45; annually (September); mainly devoted to tourism and equipment for the tourist; average number of visitors 200,000.

Österreichische Holzmesse-Klagenfurter Messe (Austrian Timber Fair): Messedirektion 902x Klagenfurt, Postfach 79, Valentin-Leitgeb-Strasse 11; annually (summer season); main emphasis on timber and articles made of wood; average number of visitors 300,000.

Welser Messe or Österreichische Landwirtschaftsmesse (International Agricultural Fair): P.O.B. 61, 4910 Ried; annual; held alternately in Wels and Ried; agriculture, cattle-breeding, industry, trade; average number of visitors 1,300,000; 310,000 square metres with 23 halls; international participation.

TRANSPORT

RAILWAYS

Österreichische Bundesbahnen (Austrian Federal Railways): Head Office: 1010 Vienna, Elisabethstrasse 9; Dir.-Gen. Dr. Karl Kalz.

Vienna Divisional Management: 1020 Vienna, Nordbahnstrasse 50; Pres. Dr. ERHARD D'ARON.

Linz Divisional Management: 4020 Linz/Donau, Bahnhofstrasse 3; Pres. Dipl.-Ing. WILHELM HAAGER.

Villach Divisional Management: 9501 Villach, 10. Oktoberstrasse 20; Pres. Dipl.-Ing. Franz Bachler.

Innsbruck Divisional Management: 6020 Innsbruck, Claudiastrasse 2: Pres. Dr. Adolf Rauch.

The Austrian Federal Railways operate 90 per cent of all the railway routes in Austria. Of a total length of 5,882 km., 2,468 km. are at present electrically operated.

There are ten other railway companies: Achensee Railway, Graz-Köflach Railway, Györ-Sopron-Ebenfurt Railway, Montafon Railway, Stern and Hafferl Light Railways Co., Styrian Provincial Railways, Tirol Zugspitze Railway, Vienna Local Railways, Vienna Metropolitan Railway, Zillertal Railway (Jenbach-Mayrhofen).

ROADS

There are 94,831.5 km. of classified roads in Austria of which 588 km. are modern motorway, 9,259.7 km. main roads and 22,593.4 km. secondary roads.

A 300-km. autobahn connects Salzburg and Vienna and a further section of the Süd-Autobahn connects Vienna with the Italian border.

MOTORISTS' ORGANIZATION

Österreichischer Automobil-, Motorrad- und Touring Club (Ö.A.M.T.C.): 1010 Vienna I, Schubertring 3; Tel. 72 990; formed 1946 from Österreichischer Touring Club and Österreichischer Automobil Club; 600,000 mems.; Pres. Dir. KmzlR. Dkfm. Heinz Sauer; Sec.-Gen. Dr. Rolf E. Vett; publs. Auto-Touring (fortnightly), annual Touring Guides and maps.

Most of the provinces also have their own motoring organizations, affiliated to the Ö.A.M.T.C.

INLAND WATERWAYS

Ministry of Transport: 1010 Vienna, Elisabethstrasse 9; responsible for the administration of inland waterways.

Erste Donau-Dampfschiffahrtsgesellschaft (The Danube Shipping Co.): Vienna: fleet consists of 8 passenger vessels, 11 towboats and pushers, 25 motor-cargoships, 109 cargobarges and lighters, 6 motor tankships, 36 tankbarges and lighters.

Österreichische Bundesbahnen (Austrian Federal Railways):
1010 Vienna, Elisabethstrasse 9; administers steamboat
services on the Bodensee (Lake Constance) and the
Wolfgangsee.

Only the Danube is navigable. It enters Austria from Germany at Passau and flows into Hungary near Hainburg. The length of the Austrian section of the river is 351 km. Danube barges carry 700-1,000 tons, but loading depends on the water level which varies much during the year. Cargoes are chiefly mineral oil and derivatives, coal. coke, iron-ore, iron, steel, timber and grain.

CIVIL AVIATION

The main International Airport is at Schwechat, nearly II miles from Vienna. Transport is provided by the airlines between the capital and the airport. There are also international flights from Innsbruck, Salzburg, Graz, Klagenfurt and Linz, and internal flights between these cities.

Österreichische Luftverkehrs-Aktiengesellschaft (Austrian Airlines): 1031 Vienna, Salesianergasse 1; f. 1957; external flights from Vienna, Graz, Linz, Klagenfurt and Salzburg to Amsterdam, Ankara, Athens, Beirut, Belgrade, Berlin, Bucharest, Budapest, Copenhagen, Frankfurt, Geneva, Istanbul, London, Milan, Moscow, Munich, Paris, Prague, Rome, Salonica, Sofia, Tel Aviv, Warsaw and Zurich; Aircraft fleet: 9 DC-9-30, I DC-8-61CF, 2 DC-9-50 on order plus one option; Chair, and Dir.-Gen. Otto BINDER; Dirs. D.Dr. A. HESCHGL, Dr. H. PAPOUSEK.

Austria is served by 27 foreign airlines.

TOURISM

Österreichische Fremdenverkehrswerbung (Austrian National Tourist Office): Vienna I, Hohenstaufengasse 3-5.

Main Branches

Belgium: rue Royale 170-172, 1000 Brussels.

Denmark: Vimmelskastet 30, 1161 Copenhagen K.

France: 12 rue Auber, 75009 Paris.

Germany, Federal Republic of: Tauentzienstrasse 16, 1 Berlin 30; Rossmarkt 12-Passage, 6 Frankfurt; Tesdorpfstrasse 19, 2 Hamburg 13; Komödienstrasse 1, 5 Cologne.

Italy: Via IV Novembre 143, 00187 Rome; Via Larga 23, 20123 Milan.

Japan: 1-1-1, Marunouchi, Chiyoda-ku, 100 Tokyo.

Netherlands: Singel 464, Amsterdam.

Spain: Torre de Madrid, Planta 11/8, Madrid 13.

Sweden: Grev Turegatan 11c, Box 5217, 10245 Stockholm 5.

Switzerland: Bahnhofplatz 3, 8001 Zurich 1.

United Kingdom: 16 Conduit Street, London, W1R oAL; 19 Mosley Arcade, Piccadilly Plaza, Manchester M1 4AF.

U.S.A.: 545 Fifth Ave., New York, N.Y. 10017; Standard Oil Building, Suite 5130, 200 E. Randolph Drive, Chicago, Illinois 60601; 3440 Wilshire Blvd., Los Angeles, California 90010; 1007 N.W. 24th Ave., Portland, Oregon 97210.

There are also branches (managed by Honorary Representatives of the Austrian National Tourist office) in: Abidjan, Ankara, Athens, Beirut, Bombay, Buenos Aires, Caracas, Casablanca, Christchurch, Dublin, Hong Kong, Johannesburg, Karachi, Lima, Lisbon, Manifa, Mexico City, Montevideo, Montreal, Nairobi, Nicosia, Prágue, Rio de Janeiro, Singapore, Sydney, Taipei, Teheran, Tel-Aviv, Tokyo, Toronto, Vancouver, Wellington, Zagreb.

CULTURAL ORGANIZATION

Ministry of Education and the Arts: 1014 Vienna, Minoritenplatz 5; f. 1848; Minister Dr. Fred Sinowatz.

. NATIONAL THEATRES

Staatsoper: 1010 Vienna, Opernring 2; opera and ballet; Gen. Man. Prof. Dr. Egon Seefehlner.

Volksoper: 1090 Vienna, Währingerstrasse 78; f. 1898; opera, operettas; Gen. Man. KARL DÖNCH.

Burgtheater: 1014 Vienna I, Dr. Karl Lueger-Ring 2; classical and modern drama; Dir. GERHARD KLINGEN-

PRINCIPAL ORCHESTRAS

drama; associated with the Burgtheater.

Akademietheater: 1030 Vienna, Lisztstrasse 1; f. 1922;

Wiener Philharmoniker (Vienna Philharmonic Orchestra): 1010 Vienna, Bösendorferstr. 12; f. 1842; orchestra of the State Opera; also independent concerts; receives some State subsidies.

Orchester Wiener Symphoniker (Vienna Symphony Orchestra): 1030 Vienna, Bayerngasse 1/15; f. 1891; receives subsidies from the State and the City of Vienna.

Niederösterreichisches Tonkünstler-Orchester: 1090 Vienna, Colingasse 19; f. 1934; is subsidized by the Ministry of Education and Art and by the Government of the Province of Lower Austria.

ATOMIC ENERGY

Österreichische Studiengesellschaft für Atomenergie Ges. m.b.h.—SGAE (Austrian Company for Atomic Energy Studies): 1082 Vienna, Lenaugasse 10; f. 1956; Technical Scientific Dir. Prof. Dr. Hans Grümm; Admin. Dir. Dkfm. Wolfgang Baderle; Chair. Dipl.-Ing. Dr. Wilhelm Erbacher; Deputy Chair. Sekt. Chef. Dr. Robert Tschech, Dr. Hans Hecke; 58 mems.; publs. SGAE-Reports.

The SGAE is a limited company of which the capital is shared by the Austrian Government (51 per cent), State industries (26 per cent) and private enterprises (23 per cent).

UNIVERSITIES

Universität in Graz (Karl Franzens-Universität): Graz; f. 1585; 1,160 teachers, 7,880 students.

Leopold-Franzens-Universität in Innsbruck (Leopold Franzen University of Innsbruck): Innsbruck; f. 1669; 250 teachers, 6,000 students.

Universität Salzburg (University of Salzburg): Salzburg; f. 1619; 586 teachers, 3,678 students.

Universität Wien (University of Vienna): Vienna; f. 1365; 2,850 teachers, 21,000 students.

TECHNICAL UNIVERSITIES

Technische Hochschule in Graz (Technical University of Graz): Graz; science and technology; 513 teachers, 3,770 students.

Technische Hochschule in Wien (Technical University of Vienna): Vienna; science and technology; 833 teachers, 6,640 students.

BELGIUM

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Kingdom of Belgium lies in north-west Europe bounded to the north by the Netherlands, to the east by Luxembourg and Germany, to the south by France, and to the west by the North Sea. The climate is temperate. Dutch, spoken in the north (Flanders), and French, spoken in the south (Wallonia), are the two main official languages. The Law of August 1963 established four linguistic regions, the French, Dutch and German-speaking areas and Brussels, which is situated in the Flemish part and has bilingual status. Approximately 55 per cent of the population are Dutch-speaking, 44 per cent French-speaking and 0.6 per cent speak German. The population is overwhelmingly Roman Catholic. The national flag (proportions 15 by 13) carries three vertical stripes—black, yellow and red. The capital is Brussels.

Recent History

Since the Second World War, Belgium has emerged as one of the leaders of international co-operation in Europe. It is a founder member of the Benelux Economic Union, the Western European Union, the Council of Europe, the Organization for Economic Co-operation and Development, the European Coal and Steel Community and the European Economic Community (the Common Market). As the headquarters of EEC, NATO and over 100 other international organizations, Brussels has become an important European capital. Belgium granted independence to her former colony, the Belgian Congo (now Zaire), in 1960 and the Trusteeship Territory of Ruanda-Urundi became independent in 1962 as the Republic of Rwanda and the Kingdom (now the Republic) of Burundi.

The language dispute between the French-speaking Walloons and the Dutch-speaking Flemings has been the main problem in politics since the war. In 1970, after a period of relative calm under Gaston Eyskens' government, the conflict came to a fresh head. After successive moves by Flemings and Walloons for reform in economic and cultural decentralization and the delimitation of the Brussels region, the government was forced to concede constitutional reforms acceptable to both groups.

Now Belgians are officially recognized as either Flemings or Walloons, and each community has regional powers in economic and cultural affairs. Legislation in 1973 safeguarded linguistic equality in central government and Parliament and gave compulsory status to Dutch in industrial and commercial circles in the Flanders region.

General elections in autumn 1971 recorded new advances in the standing of federalist linguistic parties on both sides, reinforcing the position of the French-speaking federalist parties in Brussels. Though the main political parties held their ground, Mr. Eyskens was unable to form a new Government until January 1972.

Disagreement between the Social Christian and the Socialist coalition parties on several keypoints of the linguistic programme, caused the Government to resign ten months later, on November 22nd. The formation of

a coalition government of the Social Christian, Socialist and Freedom and Progress (Liberal) parties was officially announced on January 26th, 1973. Various concessions had been made in order to meet the demands of both linguistic groups. For the first time, a German-speaker represented the interests of the small German-speaking community in the Government, led by Edmond Leburton.

However, disagreement over a proposed Belgo-Iranian oil project led to the resignation in January 1974 of the coalition Government. The general election in March produced a minority coalition of Christian Socialists and Liberals under Leo Tindemans. However, despite its success in June in bringing for the first time in Belgium a federalist party, the Rassemblement Wallon, into the government, and winning votes of confidence in both Houses for its "preparatory regionalization" plans, the Tindemans government has as yet failed to win, largely through disagreement with the other federalists (the Front Démocratique des Francophones and the Volksunie) over plans for the Brussels region, the two-thirds majority necessary for the full implementation of regionalization policy.

Government

Legislative power is vested in the King, the Senate and the Chamber of Deputies. The Senate has three classes of members: directly elected, elected by Provincial Councils, and co-opted. Members of the Chamber of Deputies are elected directly by universal adult suffrage. The members of each house are elected for four years. Proportional representation is used. There are nine provinces.

Defence

Belgium is a member of NATO and maintains an army, navy and air force. The headquarters of SHAPE was transferred to Casteau in Belgium during 1967. Military service lasts 10-12 months and the total strength of the armed forces is 89,700 (of whom nearly 50 per cent are conscripts), comprising army 65,400, navy 4,200, air force 20,100. The defence budget for 1974 totalled 41,104 million Belgian francs. Compulsory national service has recently been reviewed and the Government plans to replace it by a professional army by 1978.

Economic Affairs

Because of its geographical position, Belgium is well situated for international trade and is one of the most successful importers and exporters in the world, maintaining a large merchant fleet. Belgium's population represents 0.25 per cent of the world total, yet accounts for 4 per cent of total international trade, its rate of increase being an annual 10 per cent during the 1960's. Over half Belgium's external trade is with the other members of the EEC. Principal trade partners are the Federal Republic of Germany, the Netherlands, France, Zaire and the U.S.A. Since 1921 Belgium and Luxembourg have formed an Economic Union, and in 1960 the Benelux Treaty, incor-

porating the Netherlands, came into force. The country is among the most densely populated in Europe and is mainly industrial. Industrial activity has concentrated in recent years in the increasingly populous Flemish areas of the North, but the Government is encouraging re-investment in the southern, Walloon, region. There are two Ministers of Regional Economy. Apart from coal, and to a lesser extent clay, sand and stone, the country has no natural resources and purchases essential raw materials abroad; thus the export trade—of vital importance to the economy—is dependent largely on the state of the world market. About 40 per cent of Belgium's G.N.P. is exported. Major exports are iron and steel products, machinery, chemical and pharmaceutical goods, textiles and glass. Agriculture provides Belgium with about four-fifths of its food.

The year 1969 saw near record expansion, accompanied by a marked acceleration in price increases and wage rises. In the second half of 1970 the boom began to ease off as a result of tight budget policy and restrictive monetary measures. 1970 saw the near completion of total economic union between the three Benelux countries; this established Benelux as a single customs area and also introduced coordination between the Prime Ministers on social affairs and industrial and transport policies.

The Bank Rate underwent six increases between December 1968 and September 1969, rising from 37 per cent to 71 per cent, and although it dropped to 5 per cent at the end of 1972, it now stands high once more at 83 per cent. To avoid the risk of inflation, the introduction of the Value Added Tax, imposed by the EEC, was postponed until January 1971. The inflationary pressure resulting from the rapid expansion of the previous three years was held in check during 1971, a year of relative stagnation, but the recovery during 1972 caused renewed pressure. In the summer of 1973 Belgium sought to protect domestic employment and avoid devaluation by ignoring the OECD's recommendations and severing monetary links with the revalued guilder and, despite a rate of inflation of 7.3 per cent, G.N.P. grew by 6 per cent, compared with 5.4 per cent in 1972. During the same period the balance of payments remained healthy and investment was strong. The peak seems to have passed, however, and, in common with other EEC countries which have been enjoying a minor boom, Belgium saw a considerable deceleration in its economy in 1974 with the Ministry of Economic Affairs forecasting an overall 3 per cent increase in G.N.P. and the OECD foreseeing a rate of growth of some 4 per cent. The slowing down of the economy was, of course, aggravated for Belgium-a country that relies very heavily on imported energy-by the reduction of oil supplies by the Arab states as a result of the 1973 Middle East conflict.

The Government is faced with the prospect for 1975 of high unemployment: the October 1974 rate was 4.6 per cent, approaching twice the figure for the corresponding month in 1973 and the highest figure since the last war. After a brief slow-down in the autumn of the rise in consumer prices, which led the Government to relax credit restrictions, the November index was 16 per cent higher than the November 1973 figure. Restrictions on certain areas of fuel consumption have been imposed and, as 1974 ended, the National Committee for Economic Expansion was contemplating the necessity of a general price freeze.

Transport and Communications

The Société Nationale des Chemins de Fer Belges maintains 4,124 km. of main line railway. On the roads, buses and trams (Société Nationale des Chemins de Fer Vicinaux) are much used There are over 23,700 km. of main and secondary roads and seven international motorways with a total length of over 1,000 km. The navigable inland waterways cover over 1,768 km., and in 1973 handled a total of 121,497 metric tons of cargo The modernized port of Antwerp (now the second biggest in Europe), handles a large tonnage of inland and ocean traffic and specializes in general cargo and containers. SABENA is one of the oldest and largest airlines in the world. Belgium's merchant fleet comprised 88 ships, totalling 1,090,458 tons, in 1974.

Social Welfare

Social Welfare is administered by the National Office for Social Security. Contributions are paid by employers and employees towards family allowances, health insurance, unemployment and pensions. Most allowances and pensions are tied to the cost of living index. Workers and employees are entitled to 4 weeks holiday for every twelve month period of work. They also receive a "holiday bonus". They are insured against accidents occurring on the work premises or on the way to and from work, though only bodily injuries are liable to such reparations. Family allowances in 1973 were as follows: 736 francs for the first child, 1,240 francs for the second child, and for the third and for each of the following 1,736 francs per month. There is no housing problem in Belgium; on average 33,350 houses are built annually.

Education

Education in Belgium is compulsory from 6 to 14. The school-leaving age is to be raised to 16. A characteristic of Belgian education is the co-existence of two separate education systems: the *école officielle* is a state secular school and the *école libre* is a private denominational school receiving state subsidies. In 1967, 43 per cent of children attended *écoles officielles* and 57 per cent attended *écoles libres*. Under the 1963 Language of Instruction Act teaching is given in the language of the region; in the Brussels district teaching is done in the mother language of the pupil.

Primary education is from 6-12; for children who do not continue with secondary education, a two-year course attached to the primary school is provided, but this is now generally being replaced by the lower secondary school.

Secondary education consists of: general education, normale (for the training of primary school teachers), technical and artistic (vocational). General education at secondary level is divided into (a) humanites anciennes: traditionally based on classical literature, the course is essentially literary though including some scientific education; (b) humanites modernes centred either on mathematics, science or economics. Both sectors are divided into two three-year cyles and pupils may change from one sector to the other during the first four years of their course.

University Education: University entrance requirements are a minimum pass mark at the end of the last year of secondary school plus a maturity examination. Courses are divided into a 2-3 year course of general preparation, known as degree candidature, followed by 2-3 years of specialization. There are four Universities, two of which are

divided into French and Flemish-speaking sections, and two University Centres.

The National Study Fund provides grants where necessary and nearly 35 per cent of students are receiving scholarships. Annual educational expenditure amounts to some 20 per cent of the total budget. Since the reforms of 1970, two Ministers of Education have been responsible for the French and Dutch-speaking regions respectively.

Tourism

Ostend and other seaside towns attract many visitors. The forest-covered Ardennes is excellent hill-walking country. There are towns of rich historic and cultural interest such as Bruges, Ghent, and Antwerp.

Visas are not required for nationals of the following countries: Andorra, Argentina, Australia, Austria, Barbados, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cyprus, Denmark, Dominican Republic, Ecuador, El Salvador, Finland, France, The Gambia, the Federal Republic of Germany, Greece, Guatemala, Haiti, Honduras, Iceland, Iran, Ireland, Israel, Italy, Ivory Coast, Jamaica, Japan, the Republic of Korea, Lesotho, Liechtenstein, Luxembourg, Malawi, Malaysia, Malta, Mauritius, Mexico, Monaco, Morocco, The Netherlands, New Zealand, Nicaragua, Niger, Norway, Pakistan, Panama, Paraguay, Peru, Philippines, Portugal, San Marino, Senegal, Sing-

apore, South Africa, Spain, Swaziland, Sweden, Switzerland, Thailand, Togo, Tunisia, Turkey, United Kingdom, U.S.A., Upper Volta, Uruguay, Vatican, Venezuela, Yugoslavia.

Sport

The most popular sport is football.

Public Holidays

1975: May 1st (Labour Day), May 8th (Ascension Day), May 19th (Whit Monday), July 21st (Independence Day), August 15th (The Assumption), November 1st (All Saints' Day), November 11th (Armistice Day), December 25th (Christmas Day).

1976: January 1st (New Year's Day), April 19th (Easter Monday).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

100 centimes (centiemen) = 1 Belgian franc (frank). Exchange rates (December 1974):

fr sterling = 86,50 francs. U.S. \$1 = 37.03 francs.

THE CONSTITUTION

The Belgian Constitution has been considerably modified by amendment since its origin in 1831. Belgium is a constitutional monarchy. The central legislature consists of a Chamber of Representatives, and a Senate. The Chamber of Representatives consists of 212 members, who are elected for four years unless the Chamber is dissolved before that time has elapsed. Belgium entered 1971 with a rewritten Constitution, differing from its predecessor mainly in its treatment of the two cultural entities. Since then all Belgians have been officially recognized as either Flemings or Walloons, and each community has regional powers in cultural and economic affairs.

ELECTORAL SYSTEM

Members must be twenty-five years of age, and they are elected by secret ballot according to the system of Proportional Representation. Suffrage is universal for citizen of eighteen years or over. (A Bill giving all women electoral franchise was approved in March 1948.) Voting is compulsory for everyone over 18.

The Senate, or Second Chamber, is chosen in the following manner. It is composed of:

(1) Half as many members as the Chamber of Representatives, elected directly by the same electors.

(2) Members chosen by the Provincial Councillors, in the proportion of one for every 200,000 population.

(3) Members co-opted by groups (1) and (2), up to half the number of group (2).

There are now 181 Senators.

All Senators must be over 40, with the exception of a small number of members of the Royal Family, who become Senators by right at the age of 18. Members are elected for four years.

THE CROWN

The King has the right to veto legislation, but he does not exercise it. Though he is supreme Head of the Executive, he in fact exercises his control through the Cabinet, which is responsible for all acts of government to the Chamber of Representatives. Though the King, according

to the Constitution, appoints his own ministers, in practice, since they are responsible to the Chamber of Representatives and need its confidence, they are generally the choice of the Representatives. Similarly, the Royal initiative is in the hands of the ministry.

LEGISLATION

Legislation is introduced either by the Government or the members in the two Houses, and as the party complexion of both Houses is generally almost the same, measures passed by the Chamber of Representatives are usually passed by the Senate. Each House elects its own President at the beginning of the session, who acts as an impartial Speaker, although he is a party nominee. The Houses elect their own committees, through which all legislation passes. They are so well organized that through them the Legislature has considerable power of control over the Cabinet. Nevertheless, according to the Constitution (Art. 68), certain treaties must be communicated to the Chamber only as soon as the "interest and safety of the State permit". Further, the Government possesses an important power of dissolution which it uses: a most unusual feature is that it may be applied to either Houses separately or to both together (Art. 71).

Revision of the Constitution is to be first settled by an ordinary majority vote of both Houses, specifying the article to be amended. The Houses are then automatically dissolved. The new Chambers then determine the amendments to be made, with the provision that in each House the presence of two-thirds of the members is necessary for a quorum, and a two-third majority of those voting is required.

LOCAL ADMINISTRATION

The system of local government conforms to the general European practice of being based on a combination of central officials as the executive agent and locally elected councillors as the deliberating body. The areas are the provinces and the communes, and the latter are empowered by Art. 108 of the Constitution to associate for the purposes of better government.

THE GOVERNMENT

HEAD OF THE STATE

King of the Belgians: H.M. KING BAUDOUIN (took the oath July 17th, 1951).

THE CABINET

(December 1974)

(A coalition of the Christian Social, Liberal and Rassemblement Wallon Parties, formed in June 1974.) (C.S.) Christian Social; (L.) Liberal (Freedom and Progress Party); (R.W.) Rassemblement Wallon (Walloon Federalists); (D.) Dutch speaking; (Fr.) French speaking.

Prime Minister: Leo TINDEMANS (C.S.) (D.).

Minister of Defence and Brussels Affairs: PAUL VANDEN BOEYNANTS (C.S.) (Fr.).

Minister of Finance: WILLY DE CLERCQ (L.) (D.).

POLITICAL PARTIES

Parti Social Chrétien (P.S.C.), Christelijke Volkspartij (C.V.P.) (Christian Social Party): 41 rue des Deux Eglises, B-1040 Brussels; f. 1945; mems. 200,000; the successor to the former Catholic Party. Based on Christian democratic principles, the new party which, being undenominational, includes non-Catholics among its adherents, favours considerable social and economic reforms; governing in coalition with the P.S. B.; National Sec. Frank Swallen; Pres. (French-speaking) Georges Gramme; Pres. (Dutch-speaking) Wilffied Martens; party publs. ZEG | Télé-ZEG, Lettre à chacun, Action, Provincie en Gemeente | Province et Commune.

Pres. of Chamber of Representatives Bureau Adhémar d'Alcantara; Pres. (French-speaking) Joseph Michel; Pres. (Dutch-speaking) Karel Blanckaert; Pres. of Senate Bureau Hubert Leynen; Pres. (Dutch-speaking) Raf Hulpiau; Pres. (French-speaking) Jacques Hambye.

Parti Socialiste Belge (P.S.B.), Belgische Socialistische Partil (B.S.P.) (Belgian Socialist Party): Maison du P.S.B., 13 boulevard de l'Empereur, B-1000 Brussels; f. in 1885 as the Parti Ouvrier Belge by César de Paepe, Volders, Anseele and Bertrand. With the development of co-operative societies and trade unions it quickly made great progress, especially in industrial centres. It led a vigorous campaign in favour of social reform and the extension of the franchise. The party has always strongly opposed Fascism; from 1973-74 in coalition government with the P.S.C./C.V.P. (Catholics) and the P.L.P./P.V.V. (Liberals). Pres. (French-speaking) André Cools; Pres. (Dutch-speaking) Jos VAN EYNDE; Secs. André Leonard, Jan Luyten; official party organs: Le Peuple, Vooruit, Volksgazet.

Parti pour la Liberté et le Progrès (P.L.P.), Partij voor Vrijheid en Vooruitgang (P.V.V.) (Freedom and Progress Party): 39 rue de Naples, B-1050 Brussels; f. 1961; succeeded the former Liberal Party; stands for tight control of public expenditure, special consideration for farmers and independent workers; respects religious

opinion; 100,000 mems.; Pres. (French-speaking) André Damseaux; Pres. (Dutch-speaking) Frans Grootjans.

Parti Communiste de Belgique—Kommunistische Partij van België (Communist Party): 29-31 ave. Stalingrad, B-1000 Brussels; f. 1921; c. 14,000 mems.; Pres. Louis van Geyt; Vice-Pres. (French-speaking) Jen Terrye; Vice-Pres. (Dutch-speaking) Jef Turf; Pres. of Parliamentary Group Marcel Levaux; Secs. Albert de Coninck, Urbain Coussement, Claude Renard; party publs. Le Drapeau Rouge, De Rode Vaan, Cahiers Marxistes, Vlaams Marxistisch Tijdschrift.

Volksunie (People's Union): Wetstraat 12. B-2000 Antwerp; f. 1954; mems. 350,000; Flemish nationalist party aiming at Federalist structure for the country; Pres. Hugo Schiltz.

Front Démocratique des Francophones (F.D.F.) (French-Speaking Front): 42 rue P. E. Janson, B-1050 Bruxelles; members from Mouvement Populaire Wallon and the Christian Rénovation Wallonne; combined forces with the Rassemblement Wallon in 1968 elections and shared a common President with it until late 1974; Pres. André Lagasse.

Rassemblement Wallon (Walloon Federalists): 2 Place du Parc, B-4000 Liège; f. 1971 by amalgamation for the elections of the Front Wallon and the Parti Wallon des Travailleurs; concerned with economic and cultural reform to the advantage of the Walloon population; joined coalition government in 1974; Pres. PAUL-HENRY GENDEBIEN.

Partei der Deutschsprachigen Belgier (P.D.B.) (Germanspeaking Party): 1. 1972; to promote the interests of the German-speaking minority; Leaders: Johann Weynand (Elsenborn), Reiner Pankert (Eupen), Michel Louis.

Parti Féministe Unifié (P.F.U.)—Verenigde Feministische Partij (V.F.P.): 4 avenue du Nouveau Rhode, 1640 Rhode St. Genèse; f. 1972; for radical re-evaluation of women's role in society; Leader NINA ARIEL; Sec. CLAIRE BIHIN.

- Zambia: Bonn-Bad Godesberg, Federal Republic of Germany (E).

JUDICIAL SYSTEM

The independence of the judiciary is based on the constitutional division of power between the legislative, executive and judicial bodies, each of which acts independently. Judges are appointed by the Crown for life, and cannot be removed except by judicial sentence. The law of 1967, in force since 1970, unified civil procedure in the district courts, and reorganized the courts' areas of competence. Each of Belgium's nine provinces is divided into judicial districts. The judiciary is organized on four levels, from the judicial canton to the district, regional and national courts. The lowest courts are those of the Justices of the Peace, of which there are 222, and the Police Tribunals (20); each type of district court numbers 26, I in each canton, including the Tribunals of the First Instance, Tribunals of Commerce, and Labour Tribunals. There are 3 regional Courts of Appeal, 3 regional Labour Courts, and I Court of Assizes in each province. The highest courts are the 3 civil and criminal Courts of Appeal and the supreme Court of Cassation. The Military Court is in Brussels.

SUPREME COURT OF JUSTICE (COUR DE CASSATION)

First President: CH. L. LOUVEAUX.

President: CH. J. RUTSAERT.

THE JEWISH COMMUNITY

There are about 35,000 Jews in Belgium.

Consistoire Central Israélite de Belgique (Central Council of the Jewish Communities of Belgium): 2 rue Joseph Dupont, Brussels; Leadership M. Paul Philippson.

THE PRESS

Article Eighteen of the Belgian constitution states: "The Press is free; no form of censorship may ever be instituted; no cautionary deposit may be demanded from writers, publishers or printers. When the author is known and is resident in Belgium, the publisher, printer or distributor may not be prosecuted."

There are 43 general information dailies, 21 of which are autonomous, the remainder depending largely or totally on the former (some are only, under a different title, regional editions of a larger paper).

Of the dailies, 26 are in French, 16 in Dutch and one is in German. Seven deal with economic and financial matters, and two are devoted to sport. There is a trend towards concentration. The "Le Soir" group now consists of six dailies with a total circulation of 540,039 copies. The only other significant group consists of five Catholic papers, with 340,148 total circulation, linked with De Standaard.

Most of the important newspapers are family concerns, and family interests predominate even when newspapers have multiple ownership. Examples of family ownership of major papers are as follows: Le Soir (Rossel), Het Laatste Nieuws (Hoste), La Libre Belgique (Jourdain), La Dernière Heure (Brébart), De Standaard and De Gentenaar-Landwacht (Sap), Het Belang van Limburg (Theelen).

It should also be mentioned that Le Peuple and De Volksgazet are semi-official organs of the Belgian Socialist Party. Het Volk and La Cité are published by the Christian Workers Movement, There are few official political organs.

Workers Movement. There are few official political organs. Nearly all the Belgian dailies have political leanings and are divided between the three traditional parties: Social Christian Party, Belgian Socialist Party, Freedom and Progress Party. It is not, however, possible to establish a parallel between the supporters of the parties and the readership of the dailies. For example, the readers of the Socialist newspapers are far fewer than those who vote for that party, and though Le Soir claims its neutrality with regard to the parties, it nevertheless adopts a decided viewpoint in many cases.

Although there is no easy division of the daily papers into popular and serious press, most papers attempting to provide a serious news coverage, La Libre Belgique and De Standaard stand out amongst the most influential and respected. The widest circulating dailies in French are: Le Soir (270,709), La Lanlerne (186,496), La Libre Belgique (160,000) and La Dernière Heure (160,000); and in Dutch: Het Laatste Nieuws (307,989), De Standaard (340,148), Het Volk (222,508), and Gazet van Antwerpen (210,823). The major weeklies include: Panorama Ons Land (250,000), Le Soir Illustré (110,000), and Le Patriote Illustré (51,000), the latter two associated with the dailies Le Soir and La Libre Belgique respectively; and the cultural periodicals Pourquoi Pas? (95,000), Knock (65,000) and Europe Magazine (30,000). The popular women's periodical Fenmes d'Aujourd'hui (211,337) has the distinction of considerable sales in France. Some periodicals are printed in French and in Dutch.

INLAND WATERWAYS

Administration des Voies Hydrauliques: 155 rue de la Loi, Brussels; Dir.-Gen. F. EELEN.

Length of Inland Waterways: 1,768 km.

Under the Investment Plan started in 1957: canals and rivers widened and deepened to allow passage of 1,350-ton barges; Meuse system down to French border widened and deepened; under a new investment plan, studies for the harbour docks on the Left Bank of the Scheldt river between Antwerp and the Holland/Belgium frontier. Modernization of the ports of Ghent and Zeebrugge. Work has started on the widening and deepening of the Albert canal to allow the passage of 9,000-ton ore convoys (pushed convoys); the building of a new giant lock in the port of Zeebrugge to take one 125,000-ton vessel.

Following the ratification of the Scheldt-Rhine Treaty a new canal about 54 miles long is being constructed between Antwerp and Dordrecht, connecting the Scheldt with the Rhine. The canal is scheduled to be in operation in 1975 and 92 per cent of the cost is being met by Belgium.

SHIPPING

Antwerp is the principal port of Belgium and handles by sea and inland waterways So per cent of the country's foreign trade. It is also the largest railway port on the Continent. The harbour area covers 13,200 acres and is equipped with 40 miles of deep-water quays, 500 miles of railway track and 16 dry docks. Over 45,000 million francs have been invested since 1960 in the modernization and industrialization of the port, which includes one of the largest petroleum refining complexes in Europe. Other ports include Zeebrugge, Ostend, Ghent, Liege and Brussels.

Régie belge des Transports Maritimes: 30 rue Belliard, 1040 Brussels; Gen. Man. P. Muyldermans; Ostend-Dover/ Folkestone lines: 4 cross-Channel steamers, 4 car ferries (2 multi-purpose vessels to come into operation in 1975).

ATOMIC ENERGY

Commissariat à l'Energie Atomique (Atomic Energy Commission): Ministère des Affaires Economiques, 24-26 rue J. A. De Mot, 1040 Brussels; f. 1950.

The Commission co-ordinates the promotion of nuclear affairs in Belgium.

Centre d'Etude de l'Energie Nucléaire/Studiecentrum voor Kernenergie—CEN/SCK: 144 avenue Eugène Plasky, 1040 Brussels; laboratories: 2400 Mol; f. 1952; Pres. André Beynens.

The Centre's Board is composed of representatives of industry, science and public administration. The main objectives of the Centre are the training of personnel, the conduct of research and the provision of experimental facilities for industry.

There are three reactors and two critical assemblies at the Centre's laboratories at Mol-Donk, North Belgium. Radioisotopes are produced there.

Institut Interuniversitaire des Sciences Nucléaires: 5 rue d'Egmont, 1050 Brussels, f. 1947; 150 scientific researchers; Pres. A. Devrecker; Sec.-Gen. P. Levaux, Dr.sc.

The object of the Institute is to promote research in nuclear science in advanced teaching and research establishments. These include departments in the universities, see below, and centres at the Polytechnic Institute of Mons and the Royal Military School at Brussels.

UNIVERSITIES

Université Libre de Bruxelles (Free University of Brussels):
Brussels; 2,082 teachers, 13,673 French-speaking students.

Vrije Universiteit Brussel (Free University of Brussels):
Brussels; 328 teachers, 3,516 Dutch-speaking students.

Rijksuniversiteit te Gent (State University of Ghent): Ghent; 389 teachers, 12,537 students.

Université de Liège (University of Liège): 4000 Liège 335 teachers, 9,303 students.

Université Catholique de Louvain (Catholic University of Louvain): 3000 Louvain; 1,200 teachers, c. 16,000 French-speaking students.

Katholieke Universiteit to Leuven (Catholic University of Louvain): 3000 Louvain; 1,500 teachers, 17,201 Dutch-speaking students.

BULGARIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Bulgaria, in the eastern Balkans, is bounded to the north by Romania and to the east by the Black Sea. Turkey and Greece lie to the south and Yugoslavia to the west. The climate is one of fairly sharp contrasts between winter and summer. The language is Bulgarian, a branch of the Slavonic group, written in the Cyrillic alphabet. Most people adhere to the Bulgarian Orthodox Church and there is a substantial minority of Muslims. The national flag (proportions 3 by 2) has three horizontal stripes of white, green and crimson, with the white uppermost; in the top left-hand corner is the state emblem, surmounted by a five-pointed red star. The capital is Sofia.

Recent History

The Fatherland Front, a left-wing alliance formed in 1942, seized power with help from the Soviet Union in 1944 and set up a government under Kimon Georgiev. The constitutional monarchy formally ended when Bulgaria was declared a republic in 1946, and in elections soon after Georgi Dimitrov became both Prime Minister and First Secretary of the Communist Party in a government formed from members of the Communist-dominated Fatherland Front. All opposition parties were abolished and a new constitution based on the Soviet model was adopted. On his death in 1949, Dimitrov was succeeded by Vassil Kolarov as Prime Minister in the same year and as First Secretary in 1950. Kolarov died in 1950 and was succeeded by Vulko Chervenkov. The political trials and executions which were common during this period and into the fifties became less frequent after the death of Stalin, and rehabilitation of those who had been disgraced began in 1956. Bulgaria has remained, however, a satellite under the influence of the Soviet Union.

Todor Zhivkov became First Secretary in 1954 and, following an ideological struggle within the Communist Party, succeeded Anton Yugov as Prime Minister in 1962. In 1965 a coup against the government failed. When a new constitution was adopted in May 1971, Zhivkov relinquished his position as Prime Minister to become the first Chairman of the newly formed State Council. This move was seen to strengthen his position at the head of the government. In the last decade relations with Western states have improved and since 1971 there has been increased co-operation with Greece in economic and technical fields. Bulgaria was one of the five Warsaw Pact countries whose forces occupied Czechoslovakia in 1968. Disagreements have arisen between Bulgaria and Yugoslavia over the Macedonian question, but in 1973 diplomatic moves were made to encourage good relations between the two countries.

Government

The People's Republic of Bulgaria is a socialist state. The National Assembly is the supreme organ of State power and is elected for a term of five years. It elects the State Council from the people's representatives. The State Council of the People's Republic of Bulgaria is a supreme

and permanently acting organ of State power, which is responsible for taking decisions and supervising their implementation. As a supreme organ of the National Assembly, the State Council performs a combination of legislative and executive duties. The Council of Ministers is the supreme executive and administrative organ of State power. The Bulgarian Communist Party is the leading force in the society and state.

Defence

Bulgaria is a member of the Warsaw Pact. Military service is for two years in the Army and Air Force, and three years in the Navy. The total strength of the armed forces is 152,000, comprising an Army of 120,000, Air Force22,000 and Navy 10,000. Para-military forces number 17,000, including border troops, and there is a voluntary People's Militia of 150,000. The Defence budget in 1973 totalled 422 million leva.

Economic Affairs

Bulgaria is a very fertile country and since the end of the Second World War her agriculture has been organized on a large-scale co-operative and mechanized basis, Recently a reorganization into 168 huge agro-industrial complexes has been carried out. Nearly 40 per cent of the population are employed on the land, and wheat, maize, beet and barley are the chief crops. Farm produce is being marketed in more than 60 countries and 42 per cent of Bulgaria's exports are agricultural, including fruit, vegetables, tomatoes and tobacco. Industry is publicly owned and output has increased by more than 13 per cent annually from 1949 to 1974. It is now in the process of being reorganized into 69 massive combines, each controlling many related enterprises. The 1971-75 Five-Year Plan envisages a 55-60 per cent increase in industrial production. Engineering, in particular, has been greatly developed, as have the chemical fertilizer and metallurgical industries. Bulgaria's first nuclear power station, constructed by Soviet engineers, was opened in September 1974. Coal, iron ore, copper, lead and zinc are mined and some oil is extracted on the Black Sea coast. Foreign trade is a state monopoly and 80 per cent is with the other Comecon countries, mainly the Soviet Union. Considerable tourist development has played an important part in alleviating Bulgaria's shortage of foreign exchange; in 1972 more than 3 million tourists visited the country.

The gross national product increased by 7 per cent each year in 1971 and 1972. In 1973, however, agricultural production had increased by only 3 per cent against 5.7 per cent in the previous year. On the other hand, industrial production had grown by 10.6 per cent and investment had risen to 4.300 million leva. The minimum wage had been raised by 12 per cent. In 1973 a commission on the standard of living was set up, wage increases were announced for many industrial and professional workers, and a new emphasis was put on the production of consumer goods. These measures aimed at improving the conditions of Bulgarian workers.

Transport and Communications

Inland transport is by rail, road and waterway: There are 6,164 km. of railway track and 37,740 km. of roads; a major motorway is under construction from Sofia to the coast. The Danube is the main waterway, the total tonnage of vessels sailing on it exceeding 227,000 tons. External services link Black Sea ports to Russia, the Mediterranean and West Europe. Balkan, the state airline, maintains services with East European capitals and other capitals in Europe and the Middle East.

Social Welfare

State social insurance is directed by the Department of Public Insurance and the Pensions Directorate under the Ministry of Labour and Social Welfare. State insurance contributions are compulsory for all workers irrespective of the nature of their work but contribution payments, rights and benefits are scaled according to the following three categories: workers and employees, labour co-operative farmers, private craftsmen and private farmers. Insurance contributions are determined by the Council of Ministers. Depending on the category of worker, contributions are either paid by the enterprises, employers, etc., who in turn levy the employees and workers, or they are paid by the workers individually.

Insured persons are paid money compensation during the time of sick leave, the amount of compensation depending on the duration of uninterrupted years of service. Every woman who is insured is entitled to full paid leave for so many days before and after childbirth—the amount of leave allowed depending on the number of children in the family already, and the number of years the woman has been insured. In 1967 the Bulgarian government increased the size of grants paid to mothers of large families. Disablement and old age pensions are paid to those who have contributed to the insurance scheme. The amount of pension will vary according to the nature of work the disabled or retired person was formerly engaged in, his length of service and his age. In 1973 increased pensions for certain old and disabled persons were introduced, and the period of paid leave for women after childbirth was greatly extended.

Since 1951 all medical services and treatment have been free for the whole population, and these are provided for by the state medical authorities. All medical treatment establishments and medical schools, training colleges and research institutes are controlled by the Ministry of Public Health. Departments of Public Health in the Regional People's Councils actually supervise medical work together with the Bulgarian Red Cross.

Education

The Bulgarian educational system follows the Soviet system more closely than the other Eastern European countries. Much importance has been attached to the development of education in Bulgaria. A series of educational acts were passed between the years 1944 and 1950 and these provided for expansion in the educational field.

In 1972, 383,000 children between the ages of one and seven years attended non-compulsory crèches (yasli) or kindergartens (detski gradini). Education is compulsory for children between the ages of seven and sixteen years, when

they attend the elementary eight-class school (osnovno uchilishte), and are taught both general and specialized subjects. The elementary eight-class school provides the first two stages of the "eleven-year school". More than 95 per cent of all Bulgarian children continue with their education after the age of sixteen years, when education is no longer compulsory. There are three types of school in Bulgaria to which a student may progress after he has completed the basic school. The gimnazia provides a general education and completes the third stage of the "eleven-year school" the tekhnikum is a vocational school offering a general curriculum together with a course leading to vocational qualifications in various branches of industry, agriculture, etc. The third type of secondary school is the profesionalno tekhnichesko uchilishte (vocational technical school), which gives theoretical knowledge on a certain vocation with practical work in the appropriate enterprises and plants and in agriculture. About 80 per cent of the students who have completed their education at the elementary school continue their studies at tekhnikum (technical schools) and the vocational technical schools. In 1972, 2,616 pupils were being trained at special schools for art, and 14.236 pupils attended schools where subjects are taught in foreign languages.

Higher education in Bulgaria can be divided into two main categories, Poluvisshi instituti and Visshi uchebni zavedeniya. Poluvisshi instituti train teachers for elementary schools and some other specialists. The course lasts two to three years. There are over 14,000 students trained in them. Visshi uchebni zavedeniya are establishments of higher education. Nearly 101,000 students study university courses in them.

Tourism

Black Sea resorts are very popular, visitors coming from Russia and East Europe. In 1962 the Government launched a campaign to attract tourists from the West and the number of visitors has since increased rapidly, reaching 3,247,796 in 1973. The growth rate of 20 per cent a year is well above the average 8 per cent for Europe as a whole. Bulgaria has dispensed with visas since 1967 on a basis of reciprocity. A favourable exchange rate of 2.80 leva to £1 sterling exists for tourists.

Sport

Sport receives state encouragement, football being the most popular game.

Public Holidays

1975: May 1st, 2nd (Labour Days), May 24th (Education Day), September 9th, 10th (National Days), November 7th (October Revolution).

= 97 stotinki.

1976: January 1st (New Year's Day).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

U.S. \$1

100 stotinki = 1 lev.

Exchange rates (December 1974):
1 Soviet rouble = 1.30 leva;
£1 sterling = 2.26 leva;

THE CONSTITUTION

Bulgaria was formerly a monarchy, but on September 15th, 1946, King Simeon was deposed and Bulgaria was declared a Republic. The Constitution of 1947 was replaced by a new Constitution adopted by a referendum held on May 16th, 1971 and proclaimed by the Fifth National Assembly on May 18th. The following are its salient

The People's Republic of Bulgaria is a socialist state of the working people of towns and villages, headed by the working class. The Bulgarian Communist Party is the leading force in society and in the State. It guides the construction of a developed socialist society in the country in close fraternal co-operation with the Bulgarian Agrarian Union.

The State serves the people. It defends their interests and socialist acquisitions; directs the country's socioeconomic development according to a plan; creates conditions for the constant improvement of the welfare, education and health services of the people, as well as for the all-round development of science and culture; ensures the free development of man, guarantees his rights and protects his dignity; organizes the defence of national independence, state sovereignty and the country's territorial integrity; develops and consolidates the friendship, co-operation and mutual assistance with the Union of the Soviet Socialist Republics and the other socialist countries; conducts a policy of peace and understanding with all countries and peoples.

In the People's Republic of Bulgaria all power comes from the people and belongs to the people. It is realized by the people through the freely elected representative organs—the National Assembly and the People's Councils or directly. The representative organs are elected on the basis of a general, equal and direct right to vote by secret

All the citizens of the People's Republic of Bulgaria who are 18 years of age, irrespective of sex, nationality, race, religion, education, profession, official, public or property status, excluding those under restraint, are eligible to vote and to be elected.

The People's Republic of Bulgaria is governed strictly in accordance with the Constitution and the country's laws. It belongs to the world socialist community, which is one of the main conditions for its independence and allround development.

SOCIAL-ECONOMIC ORGANIZATION

The economic system of the People's Republic of Bulgaria is socialist. It is based on public ownership of the means of production.

The forms of ownership are: state (all people's) ownership, co-operative ownership, ownership of public organizations, and personal ownership.

Plants and factories, banks, underground resources, the natural sources of power, nuclear energy, forests, pasture land, roads, railway, water and air transport, posts, telegraphs, telephones, the radio and television are state (all people's) property.

Co-operative property belongs to collective bodies of working people who have united of their own free will for the joint carrying out of economic activity, to co-operative unions and inter-co-operative organizations. The State fosters and aids the activity of co-operatives and of co-operative farms.

The property of public organizations serves for achieving their goals, including the realization of the activities entrusted to them by state organs, and for meeting public

The citizens of the People's Republic of Bulgaria have the right of personal ownership on real and movable property to meet personal needs and those of the family. The State protects the personal property, including savings, . acquired by work or in some other lawful manner. Citizens cannot exercise their rights of personal ownership and their other property rights to the detriment of the public interest. The right to inherit is recognized and guaranteed.

The State directs the national economy and the other spheres of public life on the basis of unified plans for social-economic development.

Foreign trade is the exclusive right of the State.

Labour is a fundamental social-economic factor. The socialist principle "From everyone according to his abilities, to everyone according to his work" is applied in the People's Republic of Bulgaria. The protection of labour is dealt with by the law.

THE NATIONAL ASSEMBLY

The National Assembly is the supreme representative organ which expresses the will of the people and their sovereignty. As a supreme organ of state power it combines the legislative and executive activities of the State and exercises supreme control. The term of its mandate is 5 years. It is composed of 400 people's representatives who are elected in constituencies with an equal number of inhabitants. The people's representatives are responsible and account to their electorate. They may be recalled before the expiry of the term for which they have been elected. Their recall is effected by decision of the electorate in a manner laid down by law. It is convened to sessions by the State Council at least three times a year.

The National Assembly is the only legislative organ of the People's Republic of Bulgaria and the supreme organizer of the planned management of social development. It realizes the supreme leadership of the home and foreign policy of the State; approves and amends the Constitution; determines which questions and in what manner should be decided by referendum; passes, amends and revokes laws; passes the unified plans for the socialeconomic development of the country and the reports for their fulfilment and the State budget and the report of the Government for its realization the preceding year; establishes taxes and fixes their rate; grants amnesty; decides the questions of declaring war and concluding peace; appoints and relieves of his duties the Commanderin-Chief of the Armed Forces; may set up state-public organs with the status of ministries; elects and relieves of their duties the State Council, the Council of Ministers, the Supreme Court and the Chief Prosecutor of the People's Republic; passes laws, decisions, declarations and appeals.

Legislative initiative belongs to the State Council, the Council of Ministers, the permanent commissions of the National Assembly, the people's representatives, the Supreme Court and the Chief Prosecutor. The right of legislative initiative belongs also to public organizations in the person of the National Council of the Fatherland Front, the Central Council of Bulgarian Trade Unions, the Central Committee of the Dimitrov Young Communist League and the Executive Council of the Central Cooperative Council on questions referring to their activity.

THE STATE COUNCIL

The State Council of the People's Republic of Bulgaria is a supreme permanent organ of state power which unites the taking of decisions with their realization. Being a supreme organ of the National Assembly, the State Council ensures the blending of legislative with executive activities. It is responsible for all its activities and reports on them to the National Assembly. At its first session the National Assembly elects a State Council from among the people's representatives by a majority of more than half the total number of deputies.

The powers of the State Council are in force until the newly elected National Assembly elects a State Council.

The State Council realizes the general leadership of the home and foreign policy of the State. It represents the People's Republic of Bulgaria in her international relations The President of the State Council receives the credentials and letters of recall of foreign diplomatic representatives

in the country.

The State Council appoints elections for a National Assembly and for people's councils; determines the date for holding a referendum when a decision has been passed by the National Assembly that a referendum should take place on a certain question and in a certain manner; convenes the National Assembly at sessions; issues decrees and other juridical acts on the basic questions arising from the laws and the decisions of the National Assembly; issues decrees also on questions of principle; in urgent cases by decree amends or amplifies individual provisions of the laws; carries out the general guidance of the country's defence and security; appoints and relieves of their duties the members of the State Defence Committee and of the supreme commanding staff of the Armed Forces; controls the activities of the Council of Ministers and of the heads of the Ministries and of the other Departments; at the proposal of the Chairman of the Council of Ministers relieves of their duties and appoints individual members of the Council of Ministers-it is the duty of the State Council to submit this decision to be approved at the next session of the National Assembly; issues decrees and passes decisions, appeals and declarations.

THE COUNCIL OF MINISTERS

The Council of Ministers (the Government) is a supreme executive and administrative organ of the State Power. The Council effects its activities under the leadership and control of the National Assembly, and when the latter is not in session—under the leadership and control of the State Council.

The Council of Ministers is responsible for the conducting of the internal and external policy of the State. It exercises the right of legislative initiative and secures conditions for carrying through the rights and freedoms of citizens. It also ensures public order and the country's security. It is responsible for the general leadership of the Armed Forces and concludes international agreements. It directly guides, co-ordinates and controls the activities of the ministries and other departments. The Council organizes both the implementation of the acts of the National Assembly, and of the State Council. It guides and controls the activities of the executive committees of the people's councils. It adopts decrees, instructions and decisions.

LOCAL GOVERNMENT

The territory of the Republic is divided for administrative purposes into Municipalities and Counties, which are governed by Municipal and County People's Councils, elected by the local population for a period of two and a half years. Their function is to implement all economic, social and cultural undertakings of local significance in conformity with the laws of the country. They prepare the economic plan and budget of the Municipality and the County within the framework of the State Economic Plan and the State Budget, and direct its execution. They are responsible for the correct administration of State property and economic enterprises in their areas, and for the maintenance of law and order. These councils report at least once a year to their electors on their activities.

JUSTICE

The judicial authorities apply the law. Justice is independent and subject only to the law. Lay judges (Assessors) also take part in the dispensation of justice. Judges of all ranks and assessors are elected except in special cases fixed by law. Supreme judicial control over every kind of court is exercized by the Supreme Court of the People's Republic, which is elected by the National Assembly for a term of five years.

Citizens whose rights have been violated by government organs may appeal against such violations before higher-ranking organs and courts, in accordance with the Law of

Administrative Procedure, 1970.

The Chief Prosecutor, who is also elected by the National Assembly for five years, and is answerable to it alone, has supreme supervision over the correct observance of the law by Government organs, officials, and all citizens. It is his particular duty to attend to the prosecution and punishment of crimes which are detrimental to the national and economic interests of the Republic or affect its independence.

THE RIGHTS AND DUTIES OF CITIZENS

All citizens are equal before the law. No privileges or restrictions in rights based on nationality, origin, religion, sex, race, education or property are recognized. All preaching of racial, national or religious hatred is punishable by law.

Women have equal rights with men in all spheres, including equal pay for equal work. The State pays special attention to the needs of mothers and children. Marriage and the family are under State protection, although only civil marriage is legally valid. Children born out of wedlock have equal rights with legitimate offspring.

All citizens have the right to free medical treatment in

hospitals.

Labour is recognized as the basic factor of public and economic life. All citizens have the right to work, and it is their duty to engage in socially useful labour, according to their abilities. Holidays, limited working hours, pensions and medical treatment are guaranteed.

All citizens have the right to free education, which is secular and democratic. Elementary education is compulsory. National minorities have the right to be educated in their own tongue, and to develop their national culture, although the study of Bulgarian is compulsory.

The Church is separate from the State. Citizens have freedom of religion and conscience. However, misuse of the Church and religion for political ends and the formation of religious organizations with a political basis is prohibited.

Citizens are guaranteed freedom of speech and of the Press, secrecy of correspondence, inviolability of persons and dwellings, and the right of meetings and rallies.

Military service is compulsory for all male citizens.

JUDICIAL SYSTEM

Justice in the People's Republic of Bulgaria is administered by the district, regional and military courts and by the Supreme Court. All labour disputes are considered by the conciliation committees of the enterprises and by the regional courts. Civil law disputes among state enterprises, offices and co-operative and public organizations are heard by the State Court of Arbitration, and disputes connected with international trade by the Foreign Trade Court of Arbitration at the Bulgarian Chamber of Commerce and

The district court judges and assessors are elected by the district people's councils for a term of five years. Judges and assessors of the Supreme Court are elected for a term of five years by the National Assembly. Judicial control over the activities of all courts is exercised by the Supreme

Court. Control for the correct observance of the law by Governmental local government authorities and officials, and by the citizens, is exercised by the Attorney-General of the Republic, who is elected by the National Assembly for a term of five years. All other prosecutors of courts are appointed and discharged by the Attorney-General, All courts and prisons are under the Ministry of Justice. All lawyers are organized in consultation offices and citizens have the right to choose their own legal representatives from among the members of any such group. State enterprises may employ their own legal adviser.

Minister of Justice: SVETLA DASKALOVA.

President of the Supreme Court: Angel Yelev.

Attorney-General: Ivan Vachrov.

- "White Brotherhood" Religious Community: Sofia, Kvartal Izgrev, Desseta St. 2; Head NIKOLA ANTOV VULCHEV.

THE PRESS

As in most Communist countries, the press in Bulgaria is considered a powerful instrument of the Party and part of the educational system, and for that reason it is subject to strict control by the Government. Its structure closely resembles that of the Soviet press, being dominated by the Communist Party and by organizations attached to the Fatherland Front, and much of its news originates from TASS, the Soviet news agency. Censorship is not usually necessary, since editors are Party members and aware of their responsibility to the Government.

The style of the Bulgarian press is serious and articles continually defend the Communist system. However, advertising is on the increase with the realization of its usefulness in the economy, and newspapers are beginning to take on a western appearance. Most publications enjoy a steady increase in circulation.

A total of 710 newspapers of varying frequency is published in Bulgaria; there are 14 daily papers in Bulgaria, eight of which are published in Sofia, and their total circulation is 6,448,000 copies. Most of them are usually made up of four pages. The most important is Raboinichesko Delo (circ. 666,000), the organ of the Communist Party. Other important newspapers are Otechestven Front (circ. 225,000), the Fatherland Front daily, and Narodna Mladeth (circ. 222,000), the youth newspaper. These dailies set the tone of the rest of the press.

There are 826 magazines and periodicals published in Bulgaria with a total circulation of 51,169,000 copies; they cater for almost every possible interest and are extremely popular. Several magazines are also published in foreign languages for export.

- Sinodalno Izdatelstvo: Sofia; religious publishing house; Dir. Hariton Popov.

STATE ORGANIZATION

Jusautor: Sofia, Slaveikov Square 11; Bulgarian literary and copyright agency; represents Bulgarian authors and deals with all formalities connected with the grant of options, authorization for translations, drawing up of contracts for the use of their works by foreign publishers; acts an an intermediary between foreign authors and publishers and Bulgarian publishing houses, theatres, etc.; Dír.-Gen. Trayan Ivanov.

WRITERS' UNION

Union of Bulgarian Writers: Sofia, Angel Kanchev 5; f. 1913; Pres. Academician Panteley Zarev; publs. Literaturen front, Septemuri, Plamak, Savremennik, Slaveyche.

RADIO AND TELEVISION

Committee for Television and Radio of the Council of Ministers: 4 Dragan Tsankov Blvd., Sofia; Chair. Todor Stoyanov; First Deputy Chair. (TV) Ivan Slavkov; Deputy Chair. (Radio) Boyan Traikov.

RADIO

Bulgarian Radio: 13 medium-wave transmitters at Vidin (1,000 kW.), Pleven (250 kW.), Sofia (100 kW.), and Plovdiv, Blagoegrad, Kurdjali, Shoumen, Stara Zagora, Pleven, Sofia (30 kW. each) and Varna (10 kW.). There are 16 ultra-short-wave transmitters at Sofia (three), Peak Botev (two), Sunny Beach (three), Kyustendil (three), Kurdjali (three), Snezhanka and Plovdiv. There are three relay stations at Varna, Petrich and Sliven.

There are three Home Service programmes broadcasting 48 hours (the national programmes) and 12½ hours (the regional programmes). The Foreign Service broadcasts for 27 hours on weekdays and nearly 31 hours on Sunday

in Bulgarian, Turkish, Greek, Serbo-Croat, French, Italian, German, English, Spanish, Esperanto and Arabic.

There were 1,435,107 radio receivers and 837,475 wired receivers in October 1974.

TELEVISION

Bulgarian Television: Channel VII 0.5-0.25 kW at Sofia started operating in November 1959 with two programmes a week. These were increased to four in 1962. Programmes are now transmitted daily, with 72 viewing hours weekly. There are TV transmitters at Peak Botev (Channel XI), Slanchev Briag (Channel VII), Sofia (Channel VII), Kurdjali (Channel IX), Petrohan (Channel IX), Varna (Channel IX), Kyustendil (Channel X), Tolbukhin (Channel XII), Travnik (Channel VI). There are 145 minor relay transmitters.

There were 1,448,578 television receivers in October 1974.

FINANCE

BANKING

- Bulgarska Narodna Banka (National Bank of Bulgaria):
 Sofia, 9th September Square; f. 1879 c.; in 1947 the
 National Bank of Bulgaria took over all the commercial banks of the country; in 1968 it took over the
 business of the Bulgarian Investment Bank; Pres.
 Prof. VESSELIN NIKIFOROV.
- Bulgarian Foreign Trade Bank: Sofia, 2 Sofiiska Komuna Street; f. 1964; shares held by National Bank of Bulgaria and other state institutions; incorporating the Maritime Commercial Bank Ltd.; cap. 40m. leva; Pres. DIMITUR KALINOV; Vice-Pres. ASSEN ZLATANOV, TSVETAN PETKOV, VESSELIN RANKOV.

State Savings Bank: Sofia, Moskovska 19; f. 1951; provides general individual banking services.

INSURANCE

- The State Insurance Institute: Sofia, 102 Rakovsky Street; all insurance firms were nationalized during 1947, and were re-organized into one single State insurance company; Chair. D. Velchev.
- Bulstrad: (Bulgarian Foreign Insurance and Reinsurance Co.), Sofia, 5 Dunay St.; f. 1961; deals with all foreign insurances and reinsurances; Man. G. Anaptey.

TRADE AND INDUSTRY

CHAMBER OF COMMERCE

Bulgarian Chamber of Commerce and Industry: Sofia, 11A Blvd. Al. Stamboliisky; maintains and promotes trade relations between Bulgaria and foreign firms and trade organizations; organizes participation in international fairs and exhibitions; registers patent and trade marks; publishes economic publications in foreign languages; Pres. Penko Penkov.

TRADE ORGANIZATIONS

Ministry of Foreign Trade: Sofia, 12 Sofiiska Komuna St.; contacts all foreign trade through the Commercial State Enterprises listed below:

COMMERCIAL STATE ENTERPRISES

- Agromachina: Sofia, r Belogradchik St.; export and import of agricultural machines, etc.; Dir.-Gen. Ретко Реткоv.
 - Agromachinaimpex: Sofia, 5 Aksakov St.; carries out the foreign trade activity of Agromachina.
- Balkancar: Sofia, Blvd Totleben 34.; production and export of electric and motor trucks, electric hoists and storage batteries; Dir.-Gen. Ing. H. Kunev. Associated unit:
 - Balkancarimpex: Sofia, 56 Alabin St.; export, import and service of electric and motor trucks, electric hoists and storage batteries.
- Bezalkoholni Napitki i Mineralni Vodi: Sofia, 131 Hr. Botev Blvd.; Production, export and import of soft drinks, mineral waters and concentrates; Dir.-Gen. Raho Avramov.
- Bitovo Machinostroene: Sofia, 2 Serdika St.; manufacture of electric household appliances, metal consumer products; Dir.-Gen. Todor Mutarov.
- Bulgarcoop: Sofia, Rakovski St. 99; export of live snails, tortoises, snakes; honey and bee products; medicinal plants, rose hips and rose-hip shells, aniseed, coriander, fennel, etc.; onions and mushrooms; consumer goods; Gen. Man. P. Petrrov.
- Bulgarplod: Sofia, 22 Alabin St.; f. 1947; production, import and export of fresh and preserved fruit and vegetables; Dir.-Gen. ROUMEN BOYADJIEV.
- Bulgarska Photografia: Sofia, 31 Tzar Shishman St.; f. 1948; photo information, propaganda and photo services.
- Bulgarska Zakhar: Sofia, 19 Exarch Yossif St., production export and import of sugar, candy and alcohol, etc.; Dir.-Gen. T. Sirakov.
- Bulgarsko Pivo (Bulgarian Beer): Sofia 4, 22 San Stefano St.; production, export and import of beer, hops and barley; Dir.-Gen. Stefan Sandulov.
- Bulgartabac (State Tobacco Monopoly): Sofia, 14 Blvd. Al. Stamboliisky; covers manufacture, import and export of raw and manufactured tobacco; Dir.-Gen. D. YADKOV.
- Cementmramor: Sofia, 8 Sveta Sofia Sq.; imports and exports cement, marble, mosaics, bricks etc.
- Chimimport (Chemical Export and Import Company): Sofia, Stephan Karadja St. 2; import and export of chemicals, fertilizer, plant protection preparations, tyres, synthetic rubber and rubber wares, photographic paper, aniline dyes, plastic and plastic products, etc.; Gen. Man. NAIDEN ELENKOV.

- Electroimpex (Electrical Export and Import Company):
 Sofia, 17 George Washington Street; covers the export
 and import of electrical and power equipment; Gen.
 Man. St. Popov.
- Elektroni Elementi: Botevgrad; production of electronic components; Dir.-Gen. LAZAR DANCHEV.
- Hemus: Sofia, Pl. Slaveikov 11; import and export of literature, records, cameras and office materials.
- Himichesko Machinostroene: Devnya; manufacture of machinery for the chemical, oil refining, pharmaceutical industries, etc.; Dir.-Gen. Ing. T. KIRYAKOV.
- Hranexport (Miscellaneous Export and Import Company):
 Sofia, 10 Graf Ignatiev Street; import and export of
 grain, seeds, coffee, tea and spices, etc.; Gen. Man.
 Velichko Kudrinov.
- Industrialimport (Industrial Export and Import Company):
 Sofia. Pozitano St. 3: import and export of textile raw
 materials, chemical fibres (rayon, acetate, non-cellulose
 materials, etc.), ready-made goods and garments, knitwear, fur and leather goods and glassware; Gen. Man.
 MARIN MARINOV.
- Intercommerce (Amalgamated State Commercial Enterprise):
 Sofia, 21 Aksakov St.; all kinds of multilateral and
 barter deals, import and export, sale in Bulgaria of
 imported goods against foreign currency, participation
 in foreign firms; Dir.-Gen. Hr. GOUMNEROV.
- Interpred: Sofia, 2 Stamboliiski St.; association of the bureaux for the representation of foreign firms and commercial mediation in Bulgaria; Gen. Man. D. Kostov.
- IZOT (State Economic Corporation): Sofia, 49 Chapaev St.; design and implementation of automated production and control systems, production of computing equipment and automation devices; Dir.-Gen. Ing. V. NEDEV.
- Izotimpex: Sofia, 51 Chapaev St.; import and export of computing and organizational equipment, semi-conductors, radio parts, materials for computing equipment; Chief Dir. Asen Stamenov.
- Kintex: Sofia, 66 Anton Ivanov Blvd.; import and export of sports and hunting goods and ammunition.
- Korabostroene: Varna, 1280 Blagoev St.; building and repair of ships; Dir.-Gen. Ing. G. Georgiev.
 - Koraboimpex: Varna, 128 D. Blagoev St.; imports and exports ships and ship equipment.
- Lessoimpex: Sofia, 2 Tsar Assen St.; import and export of furniture and wooden products.
- Machinoexport: Sofia, Aksakov St. 5; export of machines, equipment, tools, wagons and spare parts; Gen. Man. I. Nikolov.
- Mototechnika i Avtoserviz: Blvd. Vitosha 25; imports cars, trucks and spares; Dir.-Gen. IVAN STANKOV.
- Neftochim: Sofia, 6 Edinadeseti Avgust St.; export and import of petrol, fuel oil, kerosene, petro-chemicals, etc.
- Pharmachim (State Economic Corporation): Sofia, Iliensko chaussee 16; manufacture, import and export of drugs, essential oils, cosmetics and dentist materials; Dir.-Gen. E. Nikolov.
- Philatelia: 44 Denkoglu St., Sofia; import and export of postage stamps and philatelic accessories.
- Pirin (State Economic Union): Sofia, 2 Benesh Sq.; f. 1965; production of leather goods; Dir.-Gen. A. Dionissiev.

- Raznoiznos (Miscellaneous Export and Import Company):
 Sofia, Tsar Assen Street 1; export and import of industrial and craftsmen's products, timber products, paper products, glassware, furniture, carpets, toys, sports equipment, musical instruments, etc.; Man. A. Dobrinov.
- Resprom: Sofia, Zaharna Fabrika Quarter; an economic corporation for the manufacture of radio-electronic, communications and signal equipment, electric tools and instruments, medical and nuclear apparatuses; Dir.-Gen. D. Nikolov.
- Ribno Stopanstvo (State Economic Corporation): Sofia, Bourgas, 3 Industrialna St.; import and export of fish and fish products; Dir.-Gen. D. Nedev.
- Rodopa: Sofia, ul. Gavril Genow 2; production, import and export of cattle, meat, meat products, dairy products, bee products and concentrated fodder; Gen. Dir. N. LECHEV.
- Rudmetal (State Economic Corporation): Sofia, 12 Narodno Subranie Square; export and import of metals and metal products, lead, zinc, copper, pure lead, kaolin, asbestos, chalk, etc.; Dir.-Gen. P. Stoyanov.
- Technoexport (Technical Export Company): Sofia, 16 Lenin Square; export of machines and complete plants; renders technical assistance abroad; Gen. Man. B. PCHELAROV.
- Technoexportstroy: Sofia, 17 George Washington St.; designing, construction and prospecting abroad; Dir.-Gen. T. Kolev.
- Tezhko Machinostroene: Sofia, 11 Industrialna St.; production of power and chemical equipment, ventilation, purification, mining and textile machinery and machines for the food industry; Dir.-Gen. Iv. Zapryanov.
- Vaglishta: Sofia, 4 Triaditsa St.; coal mining, electricity and fuel energy generation and distribution; Dir.-Gen. D. Borissov.
- Vinimpex: Sofia, ul. Lavele 19; import and export of wine and spirits; Gen. Man. D. STOMENOV.
- Vinprom: Sofia, 19 Lavele St.; production of wine and spirits; Dir.-Gen. Y. Todorov.
- Zarneni Hrani: Sofia, Blvd. Vitosha 15; import and export of industrial oils, soap and vegetable oils; foreign trade carried out by:

 Hranexport: Sofia, 10 Graf Ignatiev St...
- ZMM (Economic Corporation of the Metal-Cutting Machinery Plants): Sofia, Iliensko chaussée 8; production of aggregate, metal-cutting and metal-working machines and instruments; Dir.-Gen. Ing. V. Manchev.

TRADE UNIONS AND CO-OPERATIVES

Central Council of Bulgarian Trade Unions: Sofia, Ul. Positano 8; the central Trade Union organization, to which are affiliated 18 individual trade unions; Pres. Misho Mishev; total mems. 2,843,690.

TRADE UNIONS

- Trade Union of Workers in Administration and Social Organizations: Sofia, Ul. Alabin 52; 126,006 mems.; Chair. Mladen Sirenyakov; Sec. Lyubomir Tsokev, Ivan Ivanov.
- Trade Union of Agricultural Workers: Sofia, Ul. Dimo Hadjidimov 29; 386,290 mems.; Chair. Nikola Pelov; Secs. Boris Tepavicharov, Ivan Borisov.

- Trade Union of Workers in the Chemical Industry: Sofia, Ul. General Parensov 11; 81,144 mems.; Pres. Ing. Stoyu Christov; Sec. Ing. Velichka Denkova.
- Trade Union of Workers in Communications and Information: Sofia, Ul. Shesti Septemvri 4; 41,339 mems.; Pres. Ing. Yonko Chengelov; Sec. Nocola Dacov.
- Trade Union of Construction and Building Industry Workers: Sofia, Ul. Dimo Hadjidimov 29; 308,378 mems.; Chair. Ivan Todorov; Sec. Ing. Georgi Lichev, Boris Metodiev.
- Trade Union of Engineering Workers: Sofia, Pl. Lenin 4; 251,880 mems.; Chair. Ing. Boris Dimitrov; Sec. Ing. Vaklin Manolov, Yordan Venkov.
- Trade Union of Workers in the Food Industry: Sofia, Ul. Dimo Hadjidimov 29; 173.435 mems.; Pres. VITAN TSVETANOV; Secs. ZORA VURBANOVA, RUSKA MAVROVA.
- Trade Union of Forestry and Timber Industry Workers: Sofia, Ul. Dimo Hadjidimov 29; 85,873 mems.; Chair. Ing. Slavi Slavov; Sec. Kroum Dimitrov, Nikola Bojchev.
- Trade Union of Health Service Workers: Sofia, Pl. Lenin 4; 122,744 mems.; Chair. Prof. Zdarvka Kemileva; Secs. Dr. Luchka Petrova, Dr. Pavel Serafimov.
- Trade Union of Workers in the Home Industry and Public Utilities: Sofia, Ul. Shesty Septemvri 4; 165,600 mems.; Pres. Stephan Krumov; Secs. Georgy Gospodinov Maria Tasseva.
- Trade Union of Light Industry Workers: Sofia, Ul. Shesti Septemyri 4; 217,432 mems.; Chair. Ing. Maroussya Todorova; Sec. Vessa Kamenova, Gancho Georgiev.
- Trade Union of Miners, Metallurgic and Power Industry Workers: Sofia, Ul. Gen. Pareasov 11; 151,521 mems.; Chair. Khrustyu Bozhkov; Sec. Ing. Vassil Korchev.
- Trade Union of Workers in the Polygraphic Industry and Cultural Institutions: Sofia, Ul. Alabin 52; 36,638 mems.; Pres. Margarita Yurukova; Sec. Tsvetan Dankin, Vladimir Cholakov.
- Trade Union of Trade Workers: Sofia, Ul. Shesti Septemvii 4; 250,454 mems.; Chair. Peter Tsekov; Secs. Mom-Cril Donkov, Dobrina Paunova.
- Trade Union of Transport Workers: Sofia, Blvd. Georgi Dimitrov 106; 237,724 mems.; Chair. Dr. Ing. Kolyo Kunchev; Secs. Dimiter Rimpopov, Metody Dyakov.
- Union of Bulgarian Actors: Sofia, Ul. Alabin 52; 4.917 mems.; Chair. Doz. Lyubomir Kabakchiev.
- Union of Bulgarian Teachers: Sofia, Pl. Lenin 4; 167,287 mems.; Chair. Georgi Banenkin; Secs. Totka Spiridonova, Doz. Alexander Madjarov, Stela Gergova.
- Union of Musicians in Bulgaria: Sofia, Ul. Alabin 52; 7,816 mems.; Chair. Prof. ALEXANDER NEYNSKI; Sec. VLADI-MIR JELYAZOV.

CO-OPERATIVES

Gentral Co-operative Union: Sofia, Rakovsky 103, P.O. Box 55; f. 1947; the central body of all the co-operative organizations in the country. There are 669 consumers' co-operatives, 743 co-operative farms and 381 producers co-operatives; more than 3,000,000 mems. are affiliated to the Central Union; Pres. Stoyan Sjulemesov.

TRADE FAIR

International Fair-Ploydiv: Ploydiv; f. 1933; yearly in September; mainly products of the mechanical, electrical and engineering industries.

TRANSPORT

Ministry of Transport: ul. Levski 9, Sofia; publ. Railway Transport. Directs the state rail, road, water and air transport organizations, and the following:

Transsped: Sofia, 5 Gourko St.; f. 1965; Dir.-Gen. A. Videnov.

RAILWAYS

Bulgarian State Railways (BDZ): Sofia, 3 Ivan Vazov St.; owns and controls all railway transport; Dir.-Gen. Y. Smil.ov.

There are 6,164 km. of track in Bulgaria, of which about 1,559 km. are electrified. Main lines include the following: Svilengrad, on the Turkish border, via Plovdiv and Sofia, to Dragoman on the Yugoslav border. Other west-east lines include: Sofia via Karlovo, Sliven and Karnobat to Burgas and Varna; Sofia via Gorna Oryahovitsa and Shumen to Varna; Plovdiv via Stara Zagora and Yambol to Burgas and Varna. Principal north-south routes run from Vidin via Sofia to Kulata. At Vidin there are train ferries across the Danube. The Russe-Giurgiu bridge (opened 1954) links Bulgaria with Romania across the Danube.

ROADS

There were 37,740 km. of roads in Bulgaria in 1972, of which 17,868 were asphalted, 1,046 paved and 16,894 macadamized.

Autotransport: Sofia, 5 Gurko St.; f. 1965; Dir.-Gen. T. PEYUVSKI.

MOTORING ASSOCIATION

Union of Bulgarian Motorists: Sofia, 6 Sveta Sofia St.; f. 1957; Pres. G. Bojkov; publ. Car World.

SHIPPING AND INLAND WATERWAYS

State Shipping Corporation Water Transport: Varna, 17
Panagyurishte St.; organization of sea and river transport; carriage of goods and passengers on waterways; controls all aspects of shipping and shipbuilding, also engages in research, design and personnel training; Dir. Gen. NICOLAY YOYTCHEV.

In 1974 Bulgaria had a sea-going fleet of more than 1,100,000 d.w.t. and vessels on the Danube with a total capacity of more than 227,000 tons.

Bulgarian River Lines: Ruse.

Steamship Navigation Service: Chervenoarmeyski Blvd., Varna I; fortnightly services between East and West Mediterranean ports, weekly services to the United Kingdom and Western Europe, and tramp ships which call at ports all over the world.

CIVIL AVIATION

Bulgarian Civil Aviation—Balkan: Sofia, Pl. Narodno Sobranie 12; f. 1947; internal services to Varna, Burgas, Russe, Plovdiv, Stara Zagora, Khaskovo, Targovishte, Kardjali, Silistra, Pleven, Vidin, Yambal and Gorna Oriakhovitsa; external services to Algiers, Amsterdam, Athens, Baghdad, Beirut, Benghazi, Berlin, Brussels, Bucharest, Budapest, Cairo, Casablanca, Copenhagen, Damascus, Frankfurt am Main, Istanbul, Khartoum, London, Madrid, Moscow, Nicosia, Paris, Prague, Rome, Stockholm, Tunis, Vienna, Warsaw, Zürich; fleet of seven TU-134, five AN-24, nine Il-18 and six Il-14; Dir.-Gen. Shteryu Shterev.

Bulgaria is served by the following airlines: Aeroflot, Air Algérie, AUA, BÉA, ČSA, Interflug, JAT, LOT, Lufthansa, MALEV, TAROM and Air France.

TOURISM

Committee of Recreation and Tourism: Pres. IVAN VRAT-CHEV.

Balkantourist: Sofia, Pl. Lenin 1; f. 1948; the State tourist enterprise; Gen.-Dir. Ts. Shtilyanov.

CULTURAL ORGANIZATION

Komitet za Izkustvo i Kultura (Committee for Art and Culture): Chair. PAVEL MATEV.

PRINCIPAL THEATRES

Naroden teatur 'Ivan Vasov' (Ivan Vasov People's Theatre): Sofia; Chief Dir. ALEXANDER GETMAN.

Naroden teatur za mladezhta (National Theatre for Young People): Sofia; Artistic Man. and Dir. Viktor Geor-Giev.

ATOMIC ENERGY

Institute of Physics and Atomic Research Centre of the Bulgarian Academy of Science: Lenin Street 72, Sofia; f. 1946; Dir. Acad. HR. HRISTOV.

A heterogeneous swimming-pool reactor, with a thermal capacity of 1,500 kW, came into operation near Sofia in 1961. The reactor, supplied under a bilateral agreement by the U.S.R. is used for the production of radioactive isotopes as well as for experimental work.

Bulgaria's first nuclear power station at Kozlodoui was opened in September 1974. It has a capacity of 440 MW. Another 440-MW. reactor is due to be completed in 1975.

Teatur na Naradnata Armiya (Theatre of the People's Army): Artistic Man. Col. Rangel Ignatov.

Durzhaven satirichen teatur (State Satirical Theatre): Sofia; f. 1957; Artistic Man. and Dir. Miroslav Mindov.

Narodna opera (National Opera): Blvd. Dondukov 58, Sofia; Dir. and Artistic Man. DIMITUR OUZOUNOV.

PRINCIPAL ORCHESTRAS

Sofiyska durzhavna philharmoniya (Sofia State Philharmonic Orchestra): Sofia, Ul. Benkovski 1; f. 1928; Deputy Dir. Ylia Lipavizov; Chief Conductor Dimitr Manolov.

Simfonichen Orkestur na Komiteta za Televiziya i Radio (Radio and Television Symphony Orchestra): Sofia; Chief Conductor Vasil Stefanov.

UNIVERSITIES

8ofilski Universitet "Kliment Ohridsky" (University of Sofia): Sofia; 912 teachers, 16,503 students.

Plovdivski Universitet "Paissii Hilendarski" (Paissii Hilendarsky University of Plovdiv): Plovdiv, 24 Tsar Assen St.; 150 teachers, 2,050 students.

Veliko Tarnovski Universitet "Kiril I Metodii" (Cyril and Methodius University of Veliko Tarnovo): 163 teachers. 3,704 students.

CYPRUS

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Cyprus is an island in the eastern Mediterranean about 60 miles south of Turkey. It is the third largest Mediterranean island after Sicily and Sardinia. Climate is mild though snow falls in the mountainous south-west between December and March. About four-fifths of the people speak modern Greek and the remainder Turkish. The Greek-speaking community adhere to the Greek Orthodox Church while most of the Turks are Muslims. The national flag (proportions 3 by 2) is white with a gold map of Cyprus, garlanded by olive leaves, in the centre. The capital is Nicosia.

Recent History

A guerrilla war against British rule in Cyprus was begun in 1955 by Greek Cypriots seeking unification (Enosis) with Greece. Their movement, the National Organization of Cypriot Combatants (EOKA), was led politically by Archbishop Makarios and militarily by General George Grivas. After a compromise agreement between the Greek and Turkish communities, independence was achieved in 1960, and Archbishop Makarios became the first President of the Republic. Cyprus joined the United Nations in 1960 and the Commonwealth in 1961.

Between 1960 and 1974 Cyprus suffered from a long series of disputes between the Greek and Turkish communities and between factions within the Greek community, stemming from the Greek desire for Enosis. In 1964 a UN peace-keeping force was established to keep Greeks and Turks apart, following serious inter-communal fighting. The effective exclusion of the Turks from political power led to the creation of separate administrative, judicial and legislative organs for the Turkish community. Relations between the two communities gradually improved, and in 1968 talks on the establishment of a more equitable constitutional arrangement began. These talks continued sporadically for six years, never producing an agreement, the Turks favouring some form of federation, the Greeks a unitary state. Each community received military aid from its mother country, and the Greek Cypriot National Guard was controlled by officers of the Greek army.

In 1971 General Grivas returned to Cyprus, revived EOKA, and began a terrorist campaign for Enosis, directed against the Makarios government and apparently supported by the military régime in Greece. Grivas died in January 1974, and in June, Makarios ordered a purge of EOKA sympathizers from the police, National Guard and civil service, accusing the Greek régime of subversion. The National Guard staged a coup, and on July 15th appointed Nicos Sampson President. At the invitation of Rauf Denktas, the Turkish Cypriot leader, the Turkish army intervened to protect the Turkish community and prevent Greece using its control of the National Guard to take over Cyprus.

The Turkish army rapidly occupied the northern third of Cyprus, and Sampson resigned. Makarios had fled abroad and Glavcos Clerides became acting President. The

Turkish Cypriots' effective control of northern Cyprus enabled them to establish a de facto government, which began to plan the development of an economically and politically independent Turkish Cypriot sector, supported by Turkey. The most pressing problem for each community was the mass of refugees, Turks fleeing from the south, Greeks from the north, each side fearing possible massacre. Meetings between Clerides and Denktaş made some progress on humanitarian measures to aid the refugees, who numbered over 200,000 at one stage, but failed to arrive at a political settlement. In December 1974 Makarios returned to Cyprus and resumed the presidency.

Government

The 1960 Constitution provided for a system of government in which power would be shared by the Greek and Turkish communities in proportion to their numbers. Although this constitution remains in force, since the withdrawal of Turkish participation in the government in 1964, and particularly since the creation of a separate Turkish area in northern Cyprus in 1974, each community has administered its own affairs, refusing to recognize the authority of the other's government. The Greek Cypriot administration claims to be the government of all Cyprus, and is generally recognized as such, although it has no Turkish participation. The Autonomous Turkish Cypriot Administration is in de facto control of the north. Each community has its own president, council of ministers, legislature and judicial system.

Defence

The National Guard was set up by the House of Representatives in 1964, after the withdrawal of the Turkish members. Men between the ages of 18 and 50 are liable to two years conscription. The National Guard has officers from Greece. The police force is armed, and is employed both in crime prevention and in the maintenance of law and order.

The Turkish community has its own police force and the Fighter's Army on which it relies for protection. These forces are supported by a large detachment of the Turkish army.

Cyprus also contains the UN Peace-Keeping Force of 4,331 military and 153 police (November 1974), and the British military bases at Akrotiri and Dhekelia.

Economic Affairs

The Cypriot economy has been gravely disrupted by the coup, the intervention of the Turkish army and the effective partition of the island. As well as the physical damage caused by the fighting, the flight of more than a third of the population as refugees and the collapse of essential services in many areas reduced economic activity to a low level. Crops have not been harvested, the citrus groves have withered without irrigation, factory buildings and plant have been destroyed or have lost their workforce. The Turkish Cypriots, aided by Turkey, have begun an extensive programme of reconstruction but, even if a political settlement is reached and stability brings a

resumption of aid and investment, the economy will take some years to recover.

The economy is basically agricultural. Before the economic disasters of 1974, agriculture employed 35 per cent of the working population (1972) and provided 49 per cent of exports, mainly citrus fruit (1973). Industry was growing rapidly, particularly in the production of construction materials, as building expanded. Mining, particularly of iron and copper ores, had been in decline for some years. A large and 'dening trade deficit was covered by income from tourism, foreign military expenditure and remittances from Cypriot expatriates. Exports of sherry and citrus fruit were protected by an association agreement with the EEC which came into force in June 1973.

Transport and Communications

There are no railways in Cyprus. Towns and villages are linked by asphalted roads with frequent bus services. The three main ports are Famagusta, Limassol and Larnaca which provide cargo and passenger services to Greek and other Mediterranean ports. There is an international airport at Nicosia.

Social Welfare

Since the foundation of the Republic a comprehensive social insurance scheme covering every working male and female and their dependants has been established. It includes protection against arbitrary and unjustified dismissal, industrial welfare, and tripartite co-operation in the formulation and implementation of labour policies and objectives. Benefits and pensions from the social insurance scheme cover unemployment, sickness, maternity, widows, orphans, injury at work, old age and death.

Education

Greek Cypriot education, originally under the control of the Greek communal chamber, is now organized by the Ministry of Education. Elementary education is free and compulsory for six years between the ages of six and 14. The first year of secondary education is free, and over 25 per cent of pupils are exempted from paying fees for the rest of their education. Secondary education is provided by trade schools, technical schools, the Gymnasion-Lykeion (classics, science and economics) and the Agricultural Gymnasion. Higher education for teachers, engineers, foresters, nurses and health inspectors is provided by technical and vocational colleges.

A similar system was maintained for Turkish Cypriots by the Turkish Education Office. The Autonomous Turkish Cypriot Administration now controls education in the Turkish area. There are also several private and foreign-run intercommunal secondary schools. In 1970 the net enrolment ratio for the whole of Cyprus was 76 per cent and 46 per cent of the respective age groups for primary and secondary education.

Tourism

Before the *coup* and Turkish intervention in July 1974, tourism was developing at a rapid rate. Hotels were built with government aid, and many passenger cruises visited the island. In 1972, nearly 230,000 tourists visited Cyprus, and in 1973 there were 264,000. Tourist earnings in 1972 contributed £19m. to the balance of payments, equivalent to some 42.5 per cent of receipts from exports.

Visas are not required for nationals of the following countries: Austria, Belgium, Denmark, Finland, France, Federal Republic of Germany, Greece, Iceland, Ireland, Italy, Japan, Liechtenstein, Luxembourg, The Netherlands, Norway, San Marino, Spain, Sweden, Switzerland, the United Kingdom and Commonwealth, the U.S.A., Yugoslavia.

Sport

Football, hockey, gymnastics and athletics are the most popular sports.

Public Holidays

1975: May 1st (Labour Day), May 2nd, 3rd, 5th (Greek Orthodox Easter), August 15th (Assumption), October 28th (Ochi Day), December 24th, 25th, 26th (Christmas).

1976: January 1st (New Year's Day), January 6th (Epiphany), March 9th (First Day of Lent), March 25th (Greek National Day), April 23rd (Good Friday), April 26th (Easter Monday).

The Turkish Cypriot community observes Turkish and Muslim public holidays (see Turkey, Public Holidays).

Weights and Measures

Although the imperial and the metric systems are understood, Cyprus has a special internal system, as follows:

```
Weight:
```

400 drams=1 oke=2.8 lb. 44 okes=1 Cyprus kantar. 180 okes=1 Aleppo kantar.

1,000 mils≈1 Cyprus pound.

Coins: 1, 3, 5, 25, 50 and 100 mils.

Notes: 250 and 500 mils; 1 and 5 pounds.

Exchange rates (December 1974): £1 sterling=844.3 mils; U.S. \$1=363.2 mils.

Cyprus $f_{100} = f_{11}8.45$ sterling = \$275.33.

Note: From November 1967 to August 1971 the par value of the Cyprus pound was U.S. \$2.40 (\$1=416.7 mils). Between December 1971 and February 1973 the Cyprus pound was valued at U.S. \$2.6057 (\$1=383.8 mils). From February to July 1973 the exchange rate was Cyprus £1=U.S. \$2.8952 (\$1=345.4 mils). The Cyprus pound was at par with the pound sterling until the latter was allowed to "float" in June 1972; and it has itself been "floating" since July 1973.

* Since 1974 Turkish currency has been in use in the Turkish Cypriot area, as there is a shortage of Cypriot currency. The exchange rate has been fixed at Cyprus £1=38 Turkish liras.

THE CONSTITUTION

The Constitution entered into force on August 16th, 1960, on which date Cyprus became an independent republic. In March 1961 Cyprus was accepted as a member of the Commonwealth.

ARTICLE I

The State of Cyprus is an independent and sovereign Republic with a presidential regime, the President being Greek and the Vice-President being Turkish, elected by the Greek and the Turkish Communities of Cyprus respectively as hereinafter in this Constitution provided.

ARTICLES 2-5

The Greek Community comprises all citizens of the Republic who are of Greek origin and whose mother tongue is Greek or who share the Greek cultural traditions or who are members of the Greek Orthodox Church.

The Turkish Community comprises all citizens of the Republic who are of Turkish origin and whose mother tongue is Turkish or who share the Turkish cultural traditions or who are Moslems.

Citizens of the Republic who do not come within the above provisions shall, within three months of the date of the coming into operation of this Constitution, opt to belong to either the Greek or the Turkish Community as individuals, but, if they belong to a religious group, shall opt as a religious group and upon such option they shall be deemed to be members of such Community.

The official languages of the Republic are Greek and Turkish.

The Republic shall have its own flag of neutral design and colour, chosen jointly by the President and the Vice-President of the Republic.

The Greek and the Turkish Communities shall have the right to celebrate respectively the Greek and the Turkish national holidays.

ARTICLES 6-35 Fundamental Rights and Liberties

ARTICLES 36-53 President and Vice-President

The President of the Republic as Head of the State represents the Republic in all its official functions; signs the credentials of diplomatic envoys and receives the credentials of foreign diplomatic envoys; signs the credentials of delegates for the negotiation of international treaties, conventions or other agreements; signs the letter relating to the transmission of the instruments of ratification of any international treaties, conventions or agreements; confers the honours of the Republic.

The Vice-President of the Republic as Vice-Head of the State has the right to be present at all official functions; at the presentation of the credentials of foreign diplomatic envoys; to recommend to the President the conferment of honours on members of the Turkish Community which recommendation the President shall accept unless there are grave reasons to the contrary. The honours so conferred will be presented to the recipient by the Vice-President if he so desires.

The election of the President and the Vice-President of the Republic shall be direct, by universal suffrage and secret ballot, and shall, except in the case of a by-election, take place on the same day but separately.

The office of the President and of the Vice-President shall be incompatible with that of a Minister or of a Representative or of a member of a Communal Chamber or of a member of any municipal council including a Mayor or of a member of the armed or security forces of the Republic or with a public or municipal office.

The President and Vice-President of the Republic are invested by the House of Representatives.

The President and the Vice-President shall hold office for a period of five years.

The Executive power is ensured by the President and the Vice-President of the Republic.

The President and the Vice-President of the Republic in order to ensure the executive power shall have a Council of Ministers composed of seven Greek Ministers and three Turkish Ministers. The Ministers shall be designated respectively by the President and the Vice-President of the Republic who shall appoint them by an instrument signed by them both.

The decisions of the Council of Ministers shall be taken by an absolute majority and shall, unless the right of final veto or return is exercised by the President or the Vice-President of the Republic or both, be promulgated immediately by them.

The executive power exercised by the President and the Vice-President of the Republic conjointly consists of:

Determining the design and colour of the flag.

Creation or establishment of honours.

Appointment of the members of the Council of Ministers. Promulgation by publication of the decisions of the Council of Ministers.

Promulgation by publication of any law or decision passed by the House of Representatives.

Appointments and termination of appointments as in Articles provided.

Institution of compulsory military service. Reduction or increase of the security forces.

Exercise of the prerogative of mercy in capital cases. Remission, suspension and commutation of sentences. Right of references to the Supreme Constitutional Court

and publication of Court decisions. Address of messages to the House of Representatives.

The executive power exercised by the President consists of:

Designation and termination of appointment of Greek

Convening and presiding of the meetings of the Council of Ministers.

Right of final veto on Council decisions and on laws or decisions of the House of Representatives concerning foreign affairs, defence or security.

Right of recourse to the Supreme Constitutional Court. Publication of the communal laws and decisions of the Greek Communal Chamber.

Prerogative of mercy in capital cases.

Addressing messages to the House of Representatives.

The executive power exercised by the Vice-President consists of:

Designation and termination of appointment of Turkish Ministers.

Asking the President for the convening of the Council of Ministers and being present and taking part in the

Right of final veto on Council decisions and on laws or decisions of the House of Representatives concerning foreign affairs, defence or security.

Right of recourse to the Supreme Constitutional Court. Publication of the communal laws and decisions of the Turkish Communal Chamber.

Prerogative of mercy in capital cases.

Addressing messages to the House of Representatives.

ARTICLES 54-60 Council of Ministers

The Council of Ministers shall exercise executive power in all matters, other than those which are within the competence of a Communal Chamber, including the following:

General direction and control of the government of the Republic and the direction of general policy.

Foreign affairs, defence and security.

Co-ordination and supervision of all public services. Supervision and disposition of property belonging to the Republic.

Consideration of Bills to be introduced to the House of Representatives by a Minister.

Making of any order or regulation for the carrying into

effect of any law as provided by such law. Consideration of the Budget of the Republic to be introduced to the House of Representatives.

ARTICLES 61-85 House of Representatives

The legislative power of the Republic shall be exercised by the House of Representatives in all matters except those expressly reserved to the Communal Chambers.

The number of Representatives shall be fifty:

Provided that such number may be altered by a resolution of the House of Representatives carried by a majority comprising two-thirds of the Representatives elected by the Greek Community and two-thirds of the Representatives elected by the Turkish Community.

Out of the number of Representatives 70 per cent shall be elected by the Greek Community and 30 per cent by the Turkish Community separately from amongst their members respectively, and, in the case of a contested election, by universal suffrage and by direct and secret ballot held on the same day.

The term of office of the House of Representatives shall be for a period of five years.

The President of the House of Representatives shall be a Greek, and shall be elected by the Representatives elected by the Greek Community, and the Vice-President shall be a Turk and shall be elected by the Representatives elected by the Turkish Community.

ARTICLES 86-111 Communal Chambers

The Greek and the Turkish Communities respectively shall elect from amongst their own members a Communal Chamber.

The Communal Chambers shall, in relation to their respective Community, have competence to exercise legislative power solely with regard to the following:

All religious, educational, cultural and teaching matters. Personal status; composition and instances of courts dealing with civil disputes relating to personal status and to religious matters.

Imposition of personal taxes and fees on members of their respective Community in order to provide for their respective needs.

ARTICLES 112-121, 126-128 Officers of the Republic

ARTICLES 122-125 The Public Service

The public service shall be composed as to 70 per cent of Greeks and as to 30 per cent of Turks.

ARTICLES 129-132 The Forces of the Republic

The Republic shall have an army of two thousand men

of whom 60 per cent shall be Greeks and 40 per cent shall be Turks.

The security forces of the Republic shall consist of the police and gendarmerie and shall have a contingent of two thousand men. The forces shall be composed as to 70 per cent of Greeks and as to 30 per cent of Turks.

ARTICLES 133-164 The Courts

(See section Judicial System)

ARTICLES 165-199

Financial, Miscellaneous, Final and Transitional Provisions

Note: The following measures have been passed by the House of Representatives since January 1964, when the Turkish members withdrew:

- The amalgamation of the High Court and the Supreme Constitutional Court.
- The abolition of the Greek Communal Chamber and the creation of a Ministry of Education.
- 3. The unification of the Municipalities.
- 4. The unification of the Police and the Gendarmerie.
- The creation of a military force by providing that persons between the ages of eighteen and fifty can be called upon to serve in the National Guard.
- 6. The extension of the term of office of the President and the House of Representatives by one year intervals from July 1965 until elections in February 1968 and July 1970 respectively.
- New electoral provisions; abolition of separate Greek and Turkish rolls; abolition of post of Vice-President, which was re-established in 1973.

THE GOVERNMENT

HEAD OF STATE

President: Archbishop Makarios III.

In the presidential elections of February 1973 Archbishop Makarios was re-elected unopposed. Following the coup d'état of July 15th, 1974, Archbishop Makarios fled from Cyprus, and Glavcos Clerides, as President of the House of Representatives, became acting President. In December 1974 Makarios returned, and resumed the presidency.

COUNCIL OF MINISTERS

(December 1974)

Minister of Foreign Affairs: IOANNIS CHRISTOPHIDES.
Minister of the Interior and of Defence: NICOS KOSHIS.

Minister of Agriculture and Natural Resources: Evagoras Lanitis.

Minister of Labour and Social Insurance: Panikos Sivitanides.

Minister of Communications and Works: Nicos Pattichis.

Minister of Education: Dr. Andreas Mikellides.

Minister of Justice: Lefkos Clerides.

Minister of Finance: Andreas Patsalides.

Minister of Health: Zenon Severis.

Minister of Commerce and Industry: (vacant).

PARLIAMENT HOUSE OF REPRESENTATIVES

The House of Representatives originally consisted of 50 members, 35 from the Greek community and 15 from the Turkish community, elected for a term of five years. In January 1964, the Turkish members were forced to withdraw and set up the Turkish Legislative Assembly of the Turkish Cypriot Administration.

President: GLAVCOS CLERIDES.

Vice-President: Tassos Papadopoulos.

JUDICIAL SYSTEM

Supreme Court: Nicosia.

President: Hon. Mr. Justice M. A. TRIANTAFYLLIDES. Judges: Hon. Mr. Justice A. S. STAVRINIDES, Hon. Mr. Justice L. N. Loizou, Hon. Mr. Justice T. Hadjian-ASTASSIOU, Hon. Mr. Justice A. N. Loizou, Hon. Mr. Justice Y. Ch. MALACHTOS.

The Supreme Court is the final appellate court in the Republic and the final adjudicator in matters of constitutional and administrative law, including recourses on conflict of competence between state organs on questions of the constitutionality of laws, etc. It deals with appeals from Assize Courts and District Courts as well as from the decisions of its own single judges when exercising original jurisdiction in certain matters such as prerogative orders of habeas corpus, mandamus, certiorari, etc., and in admiralty and certain matrimonial causes.

Assize Courts and District Courts:

As required by the Constitution a law was passed in 1960 providing for the establishment, jurisdiction and powers of courts of civil and criminal jurisdiction, i.e. of six District Courts and six Assize Courts.

Ecclesiastical Courts:

There are seven Orthodox Church tribunals having exclusive jurisdiction in matrimonial causes between members of the Greek Orthodox Church. Appeals go from these tribunals to the appellate tribunal of the Church.

Supreme Council of Judicature: Nicosia.

The Supreme Council of Judicature is composed of the Attorney-General, the President and the two senior Judges of the Supreme Court, the senior District Court President. the senior District Court Judge and a practising advocate of at least twelve years practice.

It is responsible for the appointment, promotion, transfer, etc., of the judges exercising civil and criminal jurisdiction in the District Courts and the Assize Courts.

AUTONOMOUS TURKISH CYPRIOT ADMINISTRATION

The Basic Provisions of the Turkish Cypriot Administration were promulgated on December 28th, 1967, following the collapse of the bi-communal government established by the 1960 Constitution. Under the Basic Provisions, certain aspects of the 1960 Constitution are retained. The 15 Turkish members elected to the House of Representatives in 1960 and the 15 members of the Turkish Communal Chamber formed the Legislative Assembly. The Vice-President of the Republic, a Turkish Cypriot, became President of the Executive Committee, which performs the duties of government ministers. Separate judicial, financial, military and educational machinery was also created to serve the Turkish community.

Following the Turkish intervention in Cyprus in July 1974 and the establishment of a separate area in northern Cyprus under Turkish Cypriot control, the Executive Committee became the Council of Ministers of the effective government of northern Cyprus, the Autonomous Turkish Cypriot Administration.

Vice-President of the Republic and President of the Autonomous Turkish Cypriot Administration: RAUF R. DENKTAS.

COUNCIL OF MINISTERS

Vice-President of the Autonomous Turkish Cypriot Administration and Minister of Defence; OSMAN ÖREK. Minister of Finance and Budgetry Affairs: RUSTEM TATAR. Minister of Justice and Internal Affairs: NEJAT KONUK. Minister of Health: Nivazi Manyera.

Minister of Labour, Rehabilitation and Social Services: Ismet Kotak.

Minister of Agriculture: OGUZ RAMADAN.

Minister of Communications and Works: EROL KAZIM.

Minister of Education and Teaching: ORHAN Zihni. .

Minister of Commerce and Industry: VEDAT ÇELİK.

Minister of Power and Natural Resources: Prof. KENAN ATAKOL.

Minister of Planning and Co-ordination: Prof. ALPER ORHAN.

Minister of Tourism and Information: ÇAĞLAR YASAL.

TURKISH LEGISLATIVE ASSEMBLY

15 members from the House of Representatives and 15 from the Turkish Communal Chamber, elected by the constituencies of Nicosia, Famagusta, Larnaca, Limassol,

Paphos and Kyrenia. Elections held on July 5th, 1970 resulted in a majority for the National Solidarity Party. led by Rauf Denktas.

President: Dr. Nejdet Unel (Vice-President of the House of Representatives).

Vice-President: ISMAIL H. BOZKURT (President of the Turkish Communal Chamber).

POLITICAL PARTIES

Cumhuriyetçi Türk Partisi (Republican Turkish Party); Mirata Flats, First Floor, Osman Paşa Avenuc, Nicosia; f. 1970 by members of the Turkish community; Leader A. M. Berberoğlu.

Ulusal Dayanışma (National Solidarity): Nicosia; national organization with political and economic programme under which 1970 elections were held; Leader Rauf R. DENKTAŞ.

JUDICIAL SYSTEM

Supreme Court: Ataturk Square, Nicosia.

President: Hon. Mr. Justice M. NECATI MUNIR.

Judges: Hon. Justices Ulfet Emin, Ahmed Izzet, Shakir S. Ilkay.

In the areas governed by the Autonomous Turkish Cypriot Administration the Supreme Court exercises the powers vested in the Supreme Council of Judicature and the Supreme Court by the 1960 Constitution. It is the final appellate court dealing with appeals from Assize and District Courts and from the decisions of its own judges when exercising original jurisdiction. It is the final adjudicator in matters of constitutional and administrative law. Judges are appointed and promoted by the President of the Autonomous Turkish Cypriot Administration on the recommendation of the Supreme Court, and the Court is responsible for the transfer, leave and discipline of judges.

Assize Courts and District Courts:

The courts of civil and criminal jurisdiction, established by the law of 1960, amended by the Turkish Legislative Assembly in 1968.

Turkish Communal Courts:

Civil disputes relating to the personal status of members of the Turkish community are dealt with by two Communal Courts. There is also a communal appellate court to which appeals may be made from the courts of first instance.

BRITISH SOVEREIGN BASE AREAS

AKROTIRI and DHEKELIA

Administrator: Air Marshal Sir John Aiken, K.C.B., R.A.F. Chief Officer of Administration: W. C. Curtis.

Senior Judge of Senior Judge's Court: W. A. SIME, M.B.E., Q.C.

Resident Judge of Judge's Court: E. R. HARLEY, C.B.E.

Under the Cyprus Act 1960, the United Kingdom retained sovereignty in two sovereign base areas and this was recognized in the Treaty of Establishment signed between the U.K., Greece, Turkey and the Republic of Cyprus in August 1960. The base areas cover 99 square miles. The Treaty also conferred on Britain certain rights within the Republic, including rights of movement and the use of specified training areas.

UNITED NATIONS PEACE-KEEPING FORCE IN CYPRUS

(UNFICYP)

P.O.B. 1642, Nicosia, Cyprus

Set up for three months in March 1964 (subsequently extended at intervals of three or six months) to keep the peace between the Greek and Turkish communities and help to solve outstanding issues between them.

Commander: Lieut,-Gen. D. PREM CHAND (India).

Special Representative of the UN Secretary-General: Dr. Luis Weckmann-Muñoz (Mexico).

See page 72.

RELIGION

Greeks form 80 per cent of the population and most of them belong to the Orthodox Church. Most Turks (18 per cent of the population) are Muslims.

The Orthodox Church of Cyprus: Archbishopric of Cyprus, P.O. Box 1130, Nicosia; f. 45 A.D.; the Autocephalous Orthodox Church of Cyprus is part of the Eastern Orthodox Church; the Church is independent, and the Archbishop, who is also the Ethnarch (national leader of the Greek community), is elected by universal suffrage; 500,000 members.

Archbishop of Nova Justiniana and all Cyprus: Archbishop Makarios III.

Metropolitan of Paphos: Bishop Chrysostomos.

Metropolitan of Kitium: Bishop Chrysostomos. Metropolitan of Kyrenia: Bishop Gregorios. Metropolitan of Limassol: Bishop Chrysanthos. Metropolitan of Morphou: Bishop Chrysanthos. Suffragan Bishop of Salamis: Bishop Barnabas.

Islam: Most of the adherents in Cyprus are Sunnis of the Hanafi Sect. The religious head of the Muslim community is the Mufti.

The Mufti of Cyprus: Dr. R. M. RIFAT.

Roman Catholic Church: Archbishopric of Cyprus of the Maronite rite, subject to the Sacred Congregation for the Oriental Churches; 78 parishes, 54 educational institutes, 109 resident priests, 86,000 Catholics in a total population of 940,000 (December 1972 estimate by Catholic church).

Archbishop of Cyprus: Mgr. Elie Farah, Maronite Archbishopric, Antelias, Lebanon (winter); Cornet-Chahouane, Lebanon (summer).

Other Churches: Armenian Apostolic, Roman Catholic and Church of England.

THE PRESS

The establishment and general running of newspapers and periodicals is defined in the Press Law, consisting of Chapter 79 of the pre-independence Code of Law, later amended by Law 69 in 1965. Article 19 of the Constitution declares in connection with the rights of the Press: "Every person has the right to freedom of speech and expression in any form. This right includes freedom to hold opinions and impart information and ideas without interference by any public authority and regardless of frontiers." This freedom is subject to legally specified conditions and restrictions in the interest of state security, public safety, order, public health and morals, the protection of the reputation and the rights of others and the preservation of the authority and impartiality of the Judiciary.

Cyprus has a small but vigorous Press, catering for all political viewpoints in the twofold community, and constituting the most influential of the communications media. Most newspapers are owned by private individuals but Patris is owned by a limited company.

Of the fifteen dailies, ten are in Greek, three in Turkish and two in English. The Cyprus Mail appears each day but

all the Greek and some of the Turkish dailies do not publish a Monday edition, when most of the weekly papers appear.

Philelephtheros and Apogevmatini tend to be progovernment, while Haravghi (associated with the weekly Nei Keri) reflects the views of the extreme left, and Ethniki and Patris those of the political right. The moderate-liberal Eleftheria, a paper of some prestige, is politically independent, like the Cyprus Mail, Agon and Makhi. Bozkurt and Halkin Sesi are the main Turkish Cypriot dailies. Both are independent, nationalist right. The English language Special News Bulletin is the mouthpiece of the Turkish Community, reflecting the views of the Turkish Cypriot Administration; the Cyprus Government considers it an illegal publication. Eleftheria, Philelephtheros and the Cyprus Mail, are the dailies most respected for their serious news coverage. Makhi and Haravghi are also very influential, being very widely read. Though low by West European standards, their readership is high in comparison with other Middle East circulation figures. Precise, reliable circulation figures are virtually unobtainable.

CYPRUS The Press

Among the most respected weekly newspapers are the moderate Kypros and Alithia, though Tharros and Nes Keri are very popular. There are also a number of trade union papers, headed by Ergatiko Vima, the organ of the Pancyprian Federation of Labour. The Turkish Cypriot Trade Union movement and the Co-operative movement are represented by periodicals Türk-Sen and Kooperatif respectively.

Both Communities have their own Official Gazette in which laws, regulations and other official notifications are published in their own language.

DAILIES

- Agon (Struggle): 238 Ledra St., P.O.B. 1417, Nicosia; f. 1964; morning; Greek; Independent; Owner and Editor N. Koshis; circ. 12,000.

STOCK EXCHANGE

Janus Exchange Co. Ltd.: Nicosia; f. 1961; Man. Dir. N. M. HADJIGAVRIEL.

INSURANCE

General Insurance Company of Cyprus Ltd., The: Bank of Cyprus Bldg., P.O.B. 1668, Nicosia; f. 1951; Chair M. S. Savides; Vice-Chair. G. C. Christofides.

TRADE AND INDUSTRY

CHAMBERS OF COMMERCE

- Cyprus Chamber of Commerce and Industry: P.O.B. 1455, Nicosia; Pres. M. Savides; Vice-Pres. George Rologis, Chr. Mavroudes; Sec.-Gen. S. Theocharides.
- Famagusta Chamber of Commerce and Industry: P.O.B. 777, Famagusta; temporary address: P.O.B. 347, Limassol; Pres. Phanos N. Epiphaniou; Vice-Pres. Andreas Djordjis; Sec.-Gen. Paul Vanezis.
- Larnaca Chamber of Commerce and Industry: P.O.B. 287, Larnaca; Pres. A. Francis; Vice-Pres. Dr. N. A. Onissiforou; Hon. Sec. C. Pierides.
- Limassol Chamber of Commerce and Industry: P.O.B. 347, Limassol; Pres. Kyriacos Hamboullas; Vice-Pres. Nicos Rossos; Hon. Sec. John Vryonides.
- Paphos Chamber of Commerce and Industry: P.O.B. 82, Paphos; Pres. Loizos M. Havouzaris; Vice-Pres. Matheos Charalambides; Hon. Sec. Carlis Agrotis.
- Nicosia Chamber of Commerce and Industry: Hadjisavva Building (6th Floor), Metaxas Square, Nicosia; Pres. A. Avraamides; Vice-Pres. N. K. Shakolas; Hon. Sec. L. Tryfon.
- Turkish Cypriot Chamber of Commerce: 32 Kyrenia Ave., Nicosia, P.O.B. 718; Chair. Ahmet Raşit Mustafa; Vice-Chair. Agâh M. Necat.

EMPLOYERS' ORGANIZATIONS

Cyprus Employers' Federation: Charalambides Bldg., Grivas-Dhigenis Ave., P.O.B. 1657, Nicosia; f. 1966; 11 member Trade Associations, 304 direct and 575 indirect mems.; Dir.-Gen. C. Kapartis; Chair. Stellos Garanis; publ. Bulletin.

There are also ten independent employers' associations, among the largest of which are:

Cyprus Building Contractors' Association: 2 Voulgari St., Nicosia; 217 mems.; Sec. G. Paraskevaldes.

Limassol Enterprises Contractors' Association: 18 Ipiros St., Limassol; 57 mems.; Sec. O. Economides.

Employers' Union of Car Owners: 1 Menandrou St., Nicosia; 1,107 mems.

Turkish Employers' Association: Mūdūroğlu Apartments, 3 Ortakeuy, Nicosia; f. 1961; 60 mems.; Pres. Efruz Samt Mūdūroğlu; Vice-Pres. Mustafa Turkoğlu.

TRADE UNIONS

- Cyprus Civil Servants' Trade Union: 2 Andreas Demetriou St., Nicosia; f. 1949, registered 1966; restricted to persons in the civil employment of the Govt.; 6 brs. with a total membership of 5,884; Pres. A. PAPANASTASIOU; Gen. Sec. G. IACOVOU; publ. Dimosios Ipallilos (Public Servant), fortnightly.
- Demokratiki Ergatiki Omospondia Kyprou (Democratic Labour Federation of Cyprus): 10 Kimonos St., Engomi, Nicosia; f. 1962, registered 1962; 4 unions with a total membership of 3,500; Gen. Sec. Stavros Stavrinides; publ. Ergatikos Agonas (fortnightly).
- Kibris Türk İşçi Sendikalari Federasyonu (Cyprus Turkish Trade Unions Federation): 13-15 Mufti-Ziai St., P.O.B. 829. Lefkoşa: Mersin 10, Turkey: f. 1954, registered 1955; 14 unions with a total membership of 5,915; affiliated to ICFTU and the Federation of Trade Unions of Turkey; Gen. Sec. NECATI TASHKIN; publ. Turk Sen (Turkish Trade Unions), monthly.
- Pankypria Ergatiki Omospondia (Pancyprian Federation of Labour): 32-35 Archemou St., Nicosia; f. 1946, registered 1947; previously the Pancyprian Trade Union Committee f. 1941, dissolved 1946; 16 unions and 225 brs. with a total membership of 48,500; affiliated to the World Federation of Trade Unions; Gen. Sec. A. Ziartides; publs. Ergaliho Vima (Workers' Forum), weekly, Ergasia (Labour), quarterly.
- Pankyprios Omospondia Anexartition Syntechnion (Pancyprian Federation of Independent Trade Unions):

 1 Menadrou St., Nicosia; f. 1956, registered 1957; has no political orientations; 7 unions with a total membership of 1,008; Pres. COSTAS ANTONIADES; Gen. Sec. Kyriacos Nathanael.
- Synomospondia Ergaton Kyprou (Cyprus Workers' Confederation): 23 Athanasiou Diakou St., P.O.B. 1138, Engomi, Nicosia; f. 1944, registered 1950; 7 Federations, 5 Labour Centres, 41 unions, 13 branches with a total membership of 28,000; affiliated to the Greek Confederation of Labour; Gen. Sec. Michael Ioannou; publ. Ergatiki Phoni (Workers' Voice), weekly.

On December 31st, 1972, there were 21 employers' associations with 1 branch and a total membership of 2,194, 105 unions with 254 brs. and 8 Unions Federations and 5 Confederations with 10 brs. and a total membership of 87,655.

TRADE FAIRS

Cyprus International (State) Fair: P.O.B. 3551, Nicosia; first season scheduled for June 1975.

Gyprus International Trade Fair: P.O.B. 1094, Nicosia; annually in September.

TRANSPORT

There are no railways in Cyprus.

ROADS

There are 8,319 kilometres of roads, of which 623 kilometres are main roads. There is an extensive network of bus services between Nicosia and the major towns and most villages, and between district centres and villages in each area. There are also taxi services between the principal towns.

Cyprus Automobile Association: Flat 101, Pedhieos Building, Louki Akrita Ave., P.O.B. 2279, Nicosia: f. 1933; Chair. M. S. Agrotis.

SHIPPING

Famagusta is the main cargo port of the island and has a natural harbour; vessels of an overall length of 120 metres and a maximum draught of 6.8 metres can be accommodated alongside the quay in the inner harbour; ships with a maximum draught of 9.15 metres can be accommodated in the outer harbour. In 1972 461,733 metric tons were loaded there and 711,991 metric tons unloaded. Breakwater ports at Larnaca and Limassol were completed in 1973; 168,563 metric tons were loaded and 324,649 unloaded in 1972. The harbour of Paphos offers good anchorage to small vessels and is used mainly for exports, 107,300 metric tons being loaded in 1972 and only 11,912 unloaded. Kyrenia's small harbour is now used chiefly by fishing boats and vachts, but since it came under Turkish Cypriot control the expansion of the harbour for trade with Turkey has been undertaken. There is very little coastal shipping.

Most of the island's oil passes through Larnaca (705,423 metric tons in 1972), although large quantities are discharged at Dhekelia, Karavostassi, Moni and Akrotiri for use in power stations and cement factories. Minerals are exported mainly through Vassiliko, Latchi and Karavostassi, where a total of 565,000 metric tons was loaded in 1972.

In recent years the number of merchant vessels registered in Cyprus has risen sharply from 314 (1,575,702 g.r.t.) in 1970 to 876 (3,637,679 g.r.t.) in 1973.

Limassol is the main passenger port in Cyprus with 17,335 arrivals and 19,515 departures in 1972. In the same year the figures for Famagusta were 11,080 and 10,498 and for all other ports 631 and 598 respectively.

There are over sixty lines running cargo and passenger services to Cyprus at approximately weekly, twice monthly and monthly intervals.

Allied Industries Ltd.: Nicosia; part of Chandris Group, London, U.K.; one cargo vessel, one tanker.

Efporia Shipping Co Ltd.: Nicosia; London agents Lemos Bros. Co. Ltd.; one cargo vessel.

Hellespont Shipping Co. Ltd.: 280 Maria Synglitiki St., Famagusta; two cargo vessels.

Kavalaris Shipping Co. Ltd.: Famagusta; worldwide tramping services; one cargo vessel; Dirs. S., M., P., G. and A. Kolakis.

Kornos Shipping Co. Ltd.: Nicosia; cargo services; one cargo vessel; Gen. Man. N. M. Papaionnou.

Marisira Navigation Co. Ltd.: Nicosia; part of Chandris Group, London, U.K.; one tanker.

CIVIL AVIATION

There is an international airport at Nicosia, which can accommodate all types of aircraft, including jets.

Cyprus Airways: Head Office: 21 Athanasiou Diakou St., P.O.B. 1903, Nicosia; f. 1946; jointly owned by Cyprus Government, British Airways and local interests; charter subsidiary Cyprair Tours; Chair. G. ELIADES; Gen. Man. E. SAVVA; routes from Nicosia to Ankara, Athens, Beirut, Brussels, Cairo, Frankfurt, Istanbul, London, Manchester, Paris, Rome and Tel Aviv; fleet of two Trident 2E and two Trident 1E.

Cyprus is also served by the following foreign airlines: Aeroflot, ALIA, Alitalia, Balkan, British Airways, ČSA, Egyptair, El Al, Interflug, KLM, LOT, MALÉV, MEA, Olympic, Sabena, Swissair, Syrian Arab Airlines, TAROM, THY and Zambia Airways.

TOURISM

Cyprus Tourism Organization: Zena Building, 18 Th. Theodotou St., P.O.B. 4535, Nicosia; there are 171 established hotels with 13,000 beds.; Chair. Frixos Petrides; Dir.-Gen. A. Andronikoy.

EUROPEAN OFFICES

France: Office du Tourisme de Chypre, 6 rue de Berri, 75008 Paris.

Germany, Federal Republic: Tourist Office Cypern, 6 Frankfurt am Main I, Bethmanstrasse 50-54.

Greece: Kypriakos Organismos Tourismou, 10 Philellinon St., Athens.

Sweden: Cyprus Tourism Organization, 48 Kungsgatan, 111 35 Stockholm.

United Kingdom: Cyprus Trade and Tourist Centre, 213 Regent St., London, WIR 8DA.

CULTURAL ORGANIZATIONS

E. Ka. Te: Pancyprian Chamber of Fine Arts, P.O.B. 2179. Nicosia; f. 1964; Pres. A. Savvides; Sec. Gen. A. Ladommatos; publ. Bulletin (monthly).

TH.OK.: Cyprus Theatrical Organization; Dir. YACOVOS PHILIPPOU.

FESTIVALS

There are numerous religious feasts, celebrated with processions, dancing, fairs and the display of icons. The orange, peach, fig and grape harvests are occasions for local festivals, parades and dancing. Carnivals, exhibitions and dances are organized by the larger towns. During June the ancient theatres of Curium and Salamis are used for open-air folk-dancing, concerts and performances of ancient and modern drama. The Pan-Cyprian Cultural Festival takes place in Larnaca in September.

CZECHOSLOVAKIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Czechoslovak Socialist Republic lies in Central Europe between 48°-51° N latitude and 12°-23° E longitude. Its neighbours are Poland to the north, the German Democratic Republic to the north-west, the German Federal Republic in the west, Austria to the south-west, Hungary to the south-east and the U.S.S.R. in the extreme east. The state is composed of two main population groups, the Czechs (65.0 per cent of the total population) and the Slovaks (29.2 per cent). The climate is continental with warm summers and cold winters, average mean temperature 9°c (49°F). The official languages, which are mutually understandable, are Czech and Slovak, members of the west Slavonic group. About 70 per cent of the people are Roman Catholics, 15 per cent Protestants and the remainder unstated. The national flag (proportions 3 by 2) has horizontal stripes of white and red, with a blue triangle (half the length) at the hoist. The capital is Prague.

Recent History

The 1946 post-war elections returned the Communists as the strongest single party, and their leader, Klement Gottwald, became Prime Minister. When, in 1948, they assumed full power, Gottwald replaced Edvard Beneš as President, a position he held until his death in 1953. The country aligned itself with the Soviet-led East European bloc, joining the Council for Mutual Economic Assistance (COMECON) and the Warsaw Pact.

Under Gottwald, government followed a rigid Stalinist pattern, and in the early 1950s there were many political trials. Although these died out under Gottwald's successors, Antonín Zápotocký and, from 1956, Antonín Novotný, de-Stalinization was late in coming to Czechoslovakia, and no relaxation was felt until 1963, when a new government under Jozef Lenart was formed. Economic and political reforms came slowly until in January 1968 Alexander Dubček took over from Novotný as Party Secretary and in March Ludvík Svoboda succeeded him as President. The policies of the new government expressed a spirit of independence and liberalism, and envisaged widespread reforms. These were seen by other members of the East European bloc as endangering their unity, and on August 21st, 1968, Warsaw Pact forces occupied Prague and other major cities. The Soviet Government afterwards exerted heavy pressure on Czech leaders to suppress their reformist policies, and in April 1969 Dubček was replaced by Dr. Gustáv Husák as First Secretary of the Communist Party. Although Dr. Husák resisted some pressure for stricter control and political trials, there was a severe purge of Communist Party membership, and most of Dubček's supporters were removed from the Government. The first elections since 1964 were held in November 1971 and showed a 99.81 per cent vote in favour of National Front candidates. În 1973 attempts were made to normalize the political and diplomatic situation resulting from the events of 1968. An amnesty for exiles was announced, and relations with Austria, Romania and Yugoslavia were improved. A treaty with the Federal Republic of Germany, establishing normal relations between the two countries for the first time, was signed in December 1973 and ratified in July 1974.

Government

Czechoslovakia is a federal state of two nations of equal rights, the Czechs and the Slovaks, and composed of two republics each having its own government. The supreme organ of state power is the Federal Assembly, elected for a five-year term by all citizens over the age of 18, and having two chambers, the House of the People and the House of Nations. Membership of the former is proportional to the population of the Republic-there are 138 Czechs and 62 Slovaks; the House of Nations has 150 members, 75 from each of the republics. The Federal Assem'ly elects the President for a five-year term of office, and he, in turn, appoints the Federal Government, the supreme executive organ of state power. Each of the republics has its own government (responsible for all matters except external relations, defence, overseas trade, transport and communications) and its own National Council or parliament.

Defence

Czechoslovakia is a member of the Eastern European Mutual Assistance Treaty, the Warsaw Pact. Military service is compulsory and lasts for two years in the Army and slightly longer in the Air Force. Service with the reserve lasts until the age of fifty years. The Army numbers 150,000 and the Air Force 40,000; border troops number 35,000. It is planned to increase the strength of the People's Militia, now at 120,000, to 250,000. Defence expenditure in 1973 totalled 16,700 million Kčs. As a result of the invasion of 1968, Soviet forces occupy permanent positions on the frontier with the Federal Republic of Germany.

Economic Affairs

Although Czechoslovakia depends on the U.S.S.R. for many raw materials, it is a highly industrialized country. In 1972 the industrial sector employed 38 per cent of the working population and produced 61 per cent of Net Material Product. Industry is state-owned. Until 1961, heavy industry and engineering received precedence, but under the third Five-Year Plan (1961-65), greater stress was laid on light industry. The fourth Five-Year Plan (1966-70) aimed to develop the power and chemical industries, modernize machinery building and improve consumer services.

During this period, national income and industrial output rose by 39 per cent, and despite difficult circumstances and certain political unrest, the planned targets for industry were reported to have been exceeded. It was under this plan that the radical reforms of Dr. Ota Šik, then Deputy Prime Minister, were proposed, including the decentralization of industry, autonomy for individual state enterprises, and the acceptance of Western capital for joint ventures. These plans were shelved, and a return to strong central management of the economy came in

CZECHOSLOVAKIA Introductory Survey

1969. Czechoslovakia is an important engineering nation with a considerable output of motor cars and cycles. Other important industries are glass, beer, ceramics and textiles.

Agriculture has been collectivized and about 90 per cent of the land is under agricultural co-operatives, state farms or communal enterprises. It has become an important stabilizing factor in the economy. During the period 1966-70, its production increased by 19 per cent. Important crops are wheat, barley, potatoes and sugar beet.

The fifth Five-Year Plan (1971-75) envisages a growth rate in the national income of 5 per cent a year, calling for a considerable increase in productivity and the more efficient use of resources. With heavy industry still the mainstay of economic advance and priority given to the chemical and petrochemical industries, industrial output is planned to grow by about 35 per cent, while agriculture is expected to produce 14 per cent more.

Czechoslovakia is a member of the Council for Mutual Economic Assistance (COMECON), and a large proportion of its trade is with the countries of Eastern Europe, particularly the Soviet Union. However, there is considerable trade with West European countries, notably the Federal Republic of Germany, Austria and the United Kingdom. Principal exports include machinery and equipment, chemicals and fuels, and glass and other manufactured goods.

Transport and Communications

About 50 per cent of all freight traffic is carried by the railways which have a total length of 13,293 km., 2,659 of which are electrified. Roads (totalling 73.451 km.) carry about 80 per cent of the passenger transport. The Elbe and Danube are navigable and Czechoslovakia's overseas trade passes through East German, Polish and Black Sea ports. Civil aviation is important and there are about 60 regular internal services.

Social Welfare

A single and universal system of social security was established in Czechoslovakia after the Second World War. In 1948 a law was passed by which all workers and employees, irrespective of the nature of their work, benefited equally from the new insurance scheme. In 1966 the general protection of health was provided for by law, with particular emphasis on the prevention of illness rather than treatment and cure. Medical care, treatment, medicines, etc. are free for the entire Czechoslovak population. The National Health Insurance Scheme is administered by the Revolutionary Trade Union Movement, which also supervises other aspects of social welfare such as protection of the individual at work, housing conditions and recreation schemes. Since 1956 sickness benefit has been paid to all those workers who are temporarily unable to work due to illness, injury, medical treatment, etc. Sickness benefit may be paid for a maximum period of two years after which time disablement pension applies. Social security is guaranteed for all through different schemes: for wageearners, members of co-operative societies, members of agricultural co-operatives, pensioners and members of the armed forces. Benefits and rights are the same for all these groups. Great importance is attached today to maternity benefits and family allowances, which are paid according to the situation of the woman and family concerned. It is hoped that in the near future these allowances will be

increased to help large families with low incomes. Plans are being made to help old people by increasing old-age pensions.

Education

Plans for the expansion of the Czechoslovak educational system were launched in 1960. Emphasis has since been laid on the lengthening of the basic school, expansion of vocational and technical education, and extra educational facilities for adults. Children between the ages of three and six years attend kindergarten (materská škola). This form of primary education has proved very popular in recent years and it is hoped that in the near future all children may be assured a place at kindergarten. Education is compulsory between the ages of six and fifteen years, when children attend the basic school (záhladní devítiletá škola). There were 10,247 basic schools with 1,890,081 pupils in attendance in 1973/74. At first a general curriculum is provided, followed by more specialized subjects. Owing to lack of classroom space, the basic school suffers from overcrowding and many children in the larger towns and cities are forced to attend lessons in shifts.

The secondary school system in Czechoslovakia is similar to those of other countries in Eastern Europe. The vast majority of Czechoslovak children continue their education in some form or other after the compulsory basic school. The general secondary school (střední všeobecně vzděldvací škola), provides three-year courses in either mathematics and science, or languages and the social sciences. In 1959 a new type of school was set up, the střední škola pro pracující (secondary school for adult students). This school is attended by workers and adults and in most cases is actually run by industrial plants for their employees. 342 general secondary schools and secondary schools for adult students had 127,451 students in 1973/74. Vocational secondary schools (střední odborná škola), as their name suggests, provide a general education together with vocational training. There were 642 such schools with 277,945 students in 1973/74. The apprentice school (uenovská škola) trains the student to enter a trade in industry, agriculture, etc., straight from school. In 1972/73 they were attended by 355,774 students. At the same time, 37 institutions of higher learning, including 6 universities, had 105 departments and 135,873 students. A total of 23,811 students were attending courses without interrupting their normal work.

Tourism

Czechoslovakia has magnificent scenery, with winter sports facilities. Prague is the best known of the historic cities and there are famous castles and cathedrals, numerous resorts and 29 spas with natural mineral springs, notably Mariánské Lázně (Marienbad) and Karlovy Vary (Carlsbad). A total of 9,380,782 tourists visited Czechoslovakia in 1973, including 832,864 from West European and overseas countries. There is a special tourist exchange rate of about 24 Kčs. to f1 sterling.

Visas are required by nationals of all non-Communist countries.

8port

One voluntary organization, the Czechoslovak Union for Physical Training (CSTV), embraces the various sporting, gymnastic, tourist and chess associations. It has two national bodies: Czech Physical Training Organization

(ČTO) and Slovak Physical Training Organization (STO). Through its associations the ČSTV supervises international sporting events, plans the development of sport, conducts research and encourages physical training of all kinds. In 1973 ČSTV had 7,804 sections and more than 18,000 sporting clubs with a membership of 1,457,210. The largest sections are football, ice-hockey, volley-ball, skiing and track and field athletics, in order of popularity.

Public Holidays

1975: May 1st (Labour Day), May 9th (National Day), August 29th (Slovak National Uprising, Slovakia only),

October 28th (Day of Nationalization, anniversary of independence), December 25th, 26th (Christmas).

1976: January 1st (New Year's Day), April 19th (Easter Monday).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rates

100 haléřů (hellers)=1 koruna (Czechoslovak crown or Kčs.).

Exchange rates (December 1974):

fi sterling = 13.36 Kčs.;

U.S. \$1 = 5.72 Kčs.

THE CONSTITUTION

(Proclaimed on July 11th, 1960; amended October 1968 and July 1971)

The Czechoslovak Socialist Republic is a Federal State of two fraternal nations possessing equal rights, the Czechs and the Slovaks.

According to the Constitution, work in the interests of the community is a primary duty and the right to work a primary right of every citizen. All citizens have equal rights and equal duties without regard to nationality and race. Remuneration for work done is based on its quantity, quality and social importance. Men and women have equal status. All citizens have the right to health protection, education and leisure after work including paid holidays. Other rights include: freedom of expression, assembly, inviolability of the person, the home, mail, etc. Everyone has the right to profess any religious faith or to be without religious conviction.

The economic foundation of the State is the Socialist economic system which excludes every form of exploitation of man by man. The means of production are socially owned and the entire national economy is directed by plan. Socialist ownership includes both national property such as mineral wealth, the means of industrial production, banks, etc., and co-operative property. The land of members of agricultural co-operatives remains the personal property of the individual members, but is jointly farmed by the co-operative. Small private enterprises based on the labour of the owner himself and excluding exploitation of another's labour power are permitted. Personal ownership of consumer goods, family houses and savings derived from labour is inviolable. Inheritance of such personal property is guaranteed.

All representative bodies are elected, and the right to elect is universal, equal and by secret ballot. Every citizen has the right to vote on reaching the age of 18, and is eligible for election on reaching the age of 21. Deputies must maintain constant contacts with their constituents, heed their suggestions and be accountable to them for their activity. A member of any representative body may be recalled by his constituents at any time.

The Czechoslovak Constitution does not restrict itself to laying down a system of state organs but also sets forth the principles by which the life of society is to be guided. It is not just a Constitution of the State but a constitution for the whole of society. In economic, political and cultural life, in questions of social security and many other spheres it emphasizes the participation of citizens in the administration of public affairs and even transfers a number of functions that have hitherto pertained to state organs to the working people and their voluntary organizations.

The guiding force in society and in the State is the Communist Party of Czechoslovakia, a voluntary militant alliance of the most active and politically conscious citizens. It is associated with the other political parties, the Trade Union Movement and other people's organizations in the National Front of Czechs and Slovaks.

FEDERAL ASSEMBLY

The supreme organ of state power in the Czechoslovak Socialist Republic is the Federal Assembly (Parliament) which is elected for a five-year term and elects the President of the Republic. The Federal Assembly consists of two chambers of equal rights: the House of the People and the House of Nations. The composition of the House of the

People corresponds to the composition of the population of the Czechoslovak Socialist Republic and of its 200 deputies, 137 are Czechs and 63 Slovaks. The House of Nations has 150 deputies on parity basis: 75 are elected in the Czech Socialist Republic and 75 in the Slovak Socialist Republic.

The President, elected by the Federal Assembly, appoints the Federal Government. The Government is the supreme executive organ of State power in Czechoslovakia; it consists of a Prime Minister, 10 Deputy Prime Ministers and 16 Ministers. The Ministries of Foreign Affairs, of National Defence, of Foreign Trade, of Transport and of Posts and Telecommunications, are within the exclusive competence of the Federation, i.e. there are no corresponding portfolios in the governments of the republics. The second group of Federal Government organs share authority with organs of the two republics, i.e. there are corresponding portfolios in the national governments.

For election purposes, the country is divided into electoral districts; there are 200 electoral districts in the Czechoslovak Socialist Republic, each represented by one deputy in the House of the People, and 75 electoral districts each in the Czech and Slovak Socialist Republics, which send one deputy each to the House of Nations.

All candidates are National Front candidates, put forward by the Communist Party of Czechoslovakia, and by the other political parties and social organizations associated in the National Front. One or more candidates can be nominated for one electoral district. Appropriate National Front organs select the candidates from the list of nominees, and submit their names for registration.

The principle of simple majority obtains in the elections: the candidate is elected when he obtains more than 50 per cent of the votes cast, provided that a majority of all voters in his electoral district exercises their right to vote. When either of the two conditions is not met, new elections are held in the electoral district concerned within two weeks. When a seat becomes vacant, the Presidium of the Federal Assembly calls a by-election in the constituency; this is not mandatory in the last year of the deputies' term of office.

NATIONAL COUNCILS

Each of the republics has its own parliament: the Czech National Council and the Slovak National Council. The members are elected for a five-year term of office. The Czech National Council has 200 deputies, the Slovak National Council 150 deputies. There are also separate Czech and Slovak Governments, each consisting of a Prime Ministers. 3 Deputy Prime Ministers and 15 other Ministers.

NATIONAL COMMITTEES

National committees are the organs of popular self-government in the regions, districts and localities. They rely on the active participation of the working people of their area and co-operate with other organizations of the people. They direct local economic and cultural development, ensure the protection of socialist ownership and the maintenance of socialist order in society, see to the implementation and observance of laws, etc. They take part in drafting and carrying out the State plan for the development of the national economy and draw up their own budgets which form a part of the State budget.

CZECHOSLOVAKIA

Commissions elected by the national committees are charged with various aspects of public work and carry out their tasks with the aid of a large number of citizens who need not be elected members of the national committees.

JUDICIAL SYSTEM

The execution of justice is vested in elected and independent courts. Benches are composed of professional judges and of judges who carry out their function in addition

to their regular employment. Both categories are equal in making decisions. Judges are independent in the discharge of their office and bound solely by the legal order of the socialist State. The supervision of the observance of the laws and other legal regulations by public bodies and by individual citizens rests with the Office of the Procurator. The Procurator-General is appointed and recalled by the President of the Republic and is accountable to the Federal Assembly.

THE GOVERNMENT

(February 1975)

HEAD OF THE STATE

President of the Republic: Army General Ludvík Svoboda (elected March 1968).

THE FEDERAL GOVERNMENT

Prime Minister: Lubomír Štrougal.

Deputy Prime Ministers: Karol Laco, Josef Korčák, František Hamouz, Peter Colotka, Václav Hůla, Ján Gregor, Matej Lúčan, Jindřich Zahradník, Rudolf Rohlíček, Josef Šimon.

Czechoslovakia also has diplomatic relations with Botswana, Burundi, Chad, the Congo People's Republic, Dahomey, Equatorial Guinea, the Gambia, Ireland, Kenya, Liberia, Luxembourg, Malaysia, Malta, New Zealand, Rwanda, Togo, Uganda, the Upper Volta, Venezuela and Zaire.

JUDICIAL SYSTEM

Justice is executed through elected courts which consist of three ranks of law courts; the Supreme Court of the Czechoslovak Socialist Republic (together with Supreme Courts of the Czech and Slovak Socialist Republics), Regional and District Courts. There are also Military Courts which are subject to special regulations. Judges of the Czechoslovak Supreme Court are elected by the Federal Assembly; judges of the Czech and Slovak Supreme Courts and of the Regional and District Courts are elected by the National Councils of the respective republics. Judges are of two kinds, professional and lay judges, the

latter having other occupations, but both types have equal authority. Lay judges are elected by District National Committees.

Chairman of the Supreme Court: Dr. Josef Ondkel.

Supervision of the observance of laws and legal regulations rests with the Procurator-General who is appointed by the President of the Republic and accountable to the Federal Assembly.

Procurator-General: Dr. Ján Feješ.

RELIGION

The last official census of members of various churches and sects was held in 1951.

Secretariat for Ecclesiastical Affairs: f. 1949; controls church affairs; Dir. Karel Hrůza.

THE PRESS

Although the Czechoslovak Press was considerably affected by the events of 1968, its basic purpose is still as defined in the October 1966 Press Law: "to give as far as possible complete information... to advance the interest of socialist society... to promote the people's socialist awareness of the policy of the Communist Party as the leading force in society and state".

This law, which codified previous legislation on the rights and duties of journalists and publishers states that "freedom of expression and of the Press is guaranteed by the fact that publishers and press organizations... have been placed at the disposal of the working people and their organizations". Hence, only political parties and such social institutions associated with the National Front as trade unions, youth unions, cultural associations and rural co-operatives may own newspapers and periodicals. Private ownership is forbidden. But even collective ownership rests upon official approval; papers must be registered with the Czech or Slovak Office for the Press and Information, and when the Editor fails to observe the conditions under which approval was given, the paper may be suspended.

During 1968 there was freedom of publication and Western books circulated in large editions. Censorship was abolished in June, but restored again in September. In 1969 censorship was again abolished, but the necessity for official approval has since prevented the publication of ideologically dissenting journals. The Editor of a paper or periodical bears full responsibility for its contents.

The Czechoslovak people far exceed other East European nations in their consumption per head of newspapers and magazines. There are twenty-nine daily papers, including nine in Prague and nine (one in Hungarian and the rest in Slovak) in Bratislava. About 500 weekly papers and magazines and an even greater number of less frequent periodicals are also published. In addition, farms and factories produce their own daily or weekly news-sheets, dealing mainly with local issues. All registered periodicals receive an allocation of newsprint.

Political speeches and articles on social and economic development are given special prominence. In contrast with much of the East European Press, which is often characterized as dull and lacking in popular appeal, the Czechoslovak Press is relatively lively and colourful and allows a qualified scope for criticism. There is no tabloid press as the policy is to play down such items as constitute

the sort of sensationalism familiar to the West. Advertising is now more common than formerly, and although mainly concerned with state enterprises, it includes some material from abroad. Sales are mainly by subscription.

The most widely read and influential papers are the Prague dailies headed by Rudé právo. This paper is the chief organ of the Czechoslovak Communist Party. It is eight pages long and has a nation-wide circulation of 900,000 copies. Its sister paper, the Slovak C.P.'s Pravda (270,000), is the leading provincial daily. The Czech and the Slovak Trade Union organs are Práce and Práca in their respective cities. Three other important metropolitan dailies are Lidová demokracie and Svobodné slovo, produced respectively by the People's Party and the Socialist Party, and Mladá Fronta, published by the Central Committee of the Socialist Union of Youth.

There are also many small circulation periodicals—often of very high quality—dealing with specialized subjects. One should also note several very popular and colourful women's magazines, such as *Vlasia* (640,000), and the satirical *Dikobraz*, famous for its political cartoons.

The national news agency, Československá tisková kancelář (ČTK), receives a state subsidy and is controlled by the Federal Government through its Presidium.

DAILIES

Prague

- Československý sport (Czechoslovak Sport): Na poříčí 12, 115 23 Prague 1; central organ of the Czech Association for Physical Training; Editor JAROMÍR ΤΟΜΑΘΕΚ; circ. 185,000.

PUBLISHERS

In May 1949 legislation was passed making the publication, printing, illustration, and distribution of all books and music the prerogative of the State. These activities are now restricted to the Government, political parties, trade unions, and national and communal bodies. However, churches and religious bodies are permitted to publish if the State will accept their work for printing. In 1973, 6,598 titles were published.

DENMARK

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Kingdom of Denmark consists of the peninsula of Jutland, the islands of Zealand, Funen and Bornholm and 480 smaller islands between the North Sea and the Baltic. Outlying possessions are Greenland and the Faeroe Islands in the North Atlantic. Denmark is low-lying and the climate is temperate with cold winters. The language is Danish. The Danish Lutheran Church is the established Church, to which 94 per cent of the population belong, and there are small communities of Roman Catholics, Baptists and Jews. The national flag (proportions 37 by 28) carries a white cross on a red background, the upright of the cross being to the left of centre. The capital is Copenhagen.

Recent History

On the ending of German occupation in 1945 Denmark immediately recognized the independence of Iceland, which had been declared the previous year. Later in the year she joined the United Nations. Home rule was granted to the Faeroe Islands in 1948. Denmark was a founder member of NATO in 1949 and of the Nordic Council in 1952. In January 1972 King Frederik IX died and his eldest daughter, Margrethe, became the first queen to rule Denmark for nearly 600 years. Following a referendum, Denmark entered the EEC in January 1973.

The system of proportional representation embodied in the 1953 Constitution makes it difficult for a single party to gain a majority in the Folketing, and the tendency of Danish parties to fragment has produced a series of coalition and minority governments in recent years. A split in the ruling Social Democrats ended the majority of Anker Jørgensen's government, and a general election was held in December 1973. The result was indecisive; the major established parties all lost support, and a new antitax movement, the Progress Party, became the second largest party in the Folketing. The Liberal Party, led by Poul Hartling, formed a government, with only 22 of the 179 seats in the Folketing. An economic recession, rising unemployment, galloping inflation, a large trade deficit and popular discontent with high taxes and EEC membership have posed major problems for the minority government. In a general election in January 1975 the Liberals increased their representation from 22 to 42 seats and formed a minority government, which was defeated three weeks later. Negotiations between the 10 political parties to form a broadly based government followed.

Government

Denmark is a constitutional monarchy, legislative power being vested in the Queen in conjunction with the Folketing (Parliament). Executive power is exercised by the Queen through her ministers. The Folketing is unicameral, elected by and from Danish subjects of 20 and over. The Faeroe Islands and Greenland are each represented by two members.

Defence

Denmark maintains an army of 21,500 men, 250 of whom are serving with the United Nations in Cyprus, a

navy of 6,000 men and an air force of 9,600 men. The army has some 69,500 reserves, and there is a volunteer Home Guard of 65,800 men. The navy has destroyers, escort vessels, submarines, minelayers, minesweepers and fast patrol craft. The air force has fighters and fighter-bombers of American and Swedish types. National service was reduced to 9 months from October 1973. Denmark abandoned its neutrality after the Second World War and has been a member of NATO since 1949. Defence policy is largely geared to NATO co-operation. The defence budget for 1974-75 was 3,300 million kroner.

Economic Affairs

Danish agriculture is internationally competitive and is organized on a co-operative basis. Farmers and smallholders are grouped in co-operative societies which market the produce and conduct scientific research. The cooperatives are united in national federations. Butter, eggs and bacon are the main agricultural exports. Sixty-nine per cent of the land surface is used for agriculture (1973) and though this percentage has been declining recently the intensive nature of the farming has to a large extent maintained the level of production. A serious drought in the spring of 1974 had very serious consequences for both arable and livestock production. Denmark has industrialized considerably since 1945 and industry now contributes five times as much to the Gross Domestic Product as does agriculture and accounts for nearly two-thirds of the country's exports. In spite of a great shortage of raw materials the iron and metal industry is now the most important producing group. The other major industries are food-processing and beverages, fishing, shipbuilding, engineering and chemicals. Recently Danish-designed furniture, electronics, porcelain, textiles and metal goods have been finding larger markets abroad. Most industrial concerns are small and privately owned, only the public services such as the post, railways, etc. being nationalized. Oil production in the Danish sector of the North Sea has proved disappointing. Drilling was suspended in 1973, and attention has now turned to Greenland.

Over the last few years Denmark has experienced one of the highest rates of inflation in Europe. In 1973 consumer prices rose 10 per cent, with wage costs some 20 per cent above those of 1972. Prices were expected to rise by about 18 per cent, wages by 20 per cent in 1974, despite cuts in government expenditure. The boom conditions and low unemployment of 1973 pushed wages up, and most salaries rose with the cost of living index. The recession in the Danish economy in 1974 produced a sharp rise in unemployment, from an average 2.4 per cent in 1973 to 8 per cent in November 1974.

Denmark's balance of payments deficit is a problem as serious as inflation. The last surplus on merchandise trade was in 1956 and in the first half of 1973, while agricultural exports boomed following entry into the EEC, earnings from industrial exports rose by only 9.5 per cent while the cost of imports increased by 30 per cent. Denmark obtains 90 per cent of its energy needs from imported oil, and is thus severely affected by the rise in oil prices. Membership

of the EEC has opened up new markets for Danish agriculture, but it has also contributed to inflationary demand pressures and helped to induce the rapid growth in imports. The trade deficit has risen from 5,019 million kroner in 1972, to 9,917 million in 1973, to 11,403 million in the first nine months of 1974.

Transport and Communications

There are about 2,500 kilometres of railways, most of which are operated by the State. There are over 64,000 kilometres of road, 88 per cent of which are hard surface. Ferry services connect the principal islands and Jutland and there are services to Sweden, Norway and Germany. Denmark maintains a large merchant navy with a displacement of over 4 million gross tons. The present international airport at Kastrup may be replaced in the 1980s by a new airport on the island of Saltholm. This, and the construction of a bridge across the Great Belt to link Zealand and Funen, are Denmark's contribution to a joint Danish-Swedish plan to improve communications. Sweden will build a road bridge and tunnel across the Sound separating the two countries, between Malmo and Copenhagen. It should be completed by 1985, thus linking Scandinavia to the Continent.

Social Welfare

Denmark was one of the first countries to introduce State social welfare schemes. Principal services cover unemployment, sickness, old age and disability and are financed largely by State subventions. Health insurance is compulsory for all citizens over 21.

Education

The Danish education system is at present undergoing numerous developments aimed at making it more flexible and comprehensive. Education is now compulsory and free for nine years between the ages of 7 and 16 years, though more and more children are attending kindergarten classes for a year before starting primary education and many more are staying for at least one year's further education. There are already plans to introduce a minimum of 12 years' compulsory schooling and vocational training.

For a long time the system has been based on grading according to examination results but is now beginning to provide the pupil with a greater freedom of choice. For the 14 to 16 age group the stream leading to the school-leaving examination (realeksamen) is gradually being combined with the non-academic stream. At the age of 16 or 17, pupils may transfer to a grammar school (Gymnasium) to take the university entrance examination (studentereksamen) after three years or they may take a new two-year course leading to the higher preparatory examination certificate.

There are four universities and three technical univer-

sities in Denmark, with a university centre under construction at Aalborg. There are also several new junior colleges, and the traditional folk high schools which offer a wide range of further education opportunities.

Tourism

Tourists visit Denmark for the peaceful charm of its countryside and old towns, or for the sophistication of Copenhagen. Tourism accounted for 3,494 million kroner in 1973, about 6.5 per cent of foreign exchange earnings.

Visitors from Finland, Iceland, Norway and Sweden do not require a passport to enter Denmark.

Visas are not required for nationals of the following countries: EEC countries, Algeria, Andorra, Argentina, Australia, Austria, Bangladesh, Barbados, Bolivia, Botswana, Brazil, Bulgaria, Canada, Chile, Colombia, Costa Rica, Cuba, Cyprus, Dahomey, Dominican Republic, Ecuador, El Salvador, Fiji, the Gambia, Ghana, Greece, Guatemala, Guyana, Haiti, Honduras, India, Iran, Israel. Ivory Coast, Jamaica, Japan, Kenya, Republic of Korea, Lesotho, Liechtenstein, Malawi, Malaysia, Malta, Mauritius, Mexico, Monaco, Morocco, New Zealand, Nicaragua, Nigeria, Pakistan, Panama, Paraguay, Peru, Philippines, Portugal, Romania, San Marino, Sierre Leone, Singapore, South Africa, Spain, Swaziland, Switzerland, Tanzania, Thailand, Togo, Trinidad and Tobago, Tunisia, Turkey, Uganda, United Kingdom Dependencies, U.S.A., Uruguay, Vatican, Venezuela, Yugoslavia, Zambia.

Sport

Fifteen per cent of the population take an active part in sports. Practically all sport is amateur. The national game is football, and rowing, swimming and sailing are popular. Other sports include tennis, the Danish game of hand-ball, shooting and fishing.

Public Holidays

1975: May 8th (Ascension Day), May 18th (Whit Sunday), May 19th (Whit Monday), June 5th (Constitution Day), December 25th, 26th (Christmas).

1976: January 1st (New Year's Day), April 15th (Maundy Thursday), April 16th (Good Friday), April 19th (Easter Monday).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

100 pre = 1 Danish krone.

Exchange rates (December 1974):

£1 sterling = 13.455 kroner: U.S. \$1 = 5.762 kroner.

STATISTICAL SURVEY

(Note: The figures in this survey relate only to "metropolitan" Denmark, excluding the Faeroe Islands and Greenland, which are dealt with in separate chapters.)

THE CONSTITUTION

The main features of the 1953 Constitution are:

- (1) Changes in the succession law allowing a daughter to succeed to the throne in the absence of sons;
- (2) Abolition of the Upper House and the introduction of single-chamber Parliament;
- (3) The enfranchisement of Greenland, which will in future send two members to Parliament; and
- (4) Clause 20, which enables Parliament to assign some of its rights to an international body in the interest of international co-operation.

The form of government is a limited (constitutional) monarchy. The legislative authority rests jointly with the Crown and Parliament. Executive power is vested in the Crown, and the administration of justice is exercised by the courts. The Monarch can constitutionally "do no wrong". He exercises his authority through the Ministers appointed by him. The Ministers are responsible for the government of the country. The Constitution establishes the principle of Parliamentarism under which individual Ministers of the whole Cabinet must retire when defeated in Parliament by a vote of no confidence.

The Monarch acts on behalf of the State in international affairs. Except with the consent of the Parliament, he

cannot, however, take any action which increases or reduces the area of the Realm or undertake any obligation, the fulfilment of which requires the co-operation of the Parliament or which is of major importance. Nor can the Monarch, without the consent of the Parliament, terminate any international agreement which has been concluded with the consent of the Parliament.

Apart from defence against armed attack on the Realm or on Danish forces, the Monarch cannot, without the consent of the Parliament, employ military force against any foreign power.

The Parliament is an assembly consisting of not more than 179 members, two of whom are elected in the Faeroe Islands and two in Greenland. It is called the Folketing Danish nationals, having attained 20 years of age, with permanent residence in Denmark, have the franchise and are eligible. The members of the Folketing are elected for four years. Election is by a system of proportional representation, with direct and secret ballot on lists in large constituencies. A bill adopted by the Folketing may be submitted to referendum, when such referendum is claimed by not less than one-third of the members of the Folketing and not later than three days after the adoption. The bill is void if rejected by a majority of the votes cast, representing not less than 30 per cent of all electors.

THE GOVERNMENT

HEAD OF THE STATE

Queen of Denmark: H.M. Queen Margrethe II (succeeded to the throne January 14th, 1972).

A minority Liberal government formed after a general election on January 9th, 1975 resigned on January 29th.

The chairman of the Folketing, Karl Skytte, acting as a non-partisan negotiator between the 10 political parties represented in the Folketing, was trying to establish a broadly based government in early February

THE CABINET

(Liberal Party, formed December 19th, 1973)

Prime Minister: Poul Hartling.

Minister for Foreign Affairs and Foreign Economic Affairs: Ove Guldberg.

Minister for Finance: Anders Andersen.

Minister for Economic Affairs and Commerce: Poul Nyboe Andersen.

Minister for Labour and Housing: JOHAN PHILIPSEN.

Minister for Agriculture and Fisheries: NIELS ANKER KOFOED.

Minister for the Environment and Greenland: Holger Hansen.

Minister for Justice and Cultural Affairs: NATHALIE LIND.

Minister for National Education: Tove Nielsen.

Minister for Defence: ERLING BRONDUM.

Minister for the Interior and Social Affairs: JACOB SOREN-

Minister for Ecclesiastical Affairs and Public Works: Kresten Damsgaard.

DEFENCE

Chief of Defence: Gen. O. BLIXENKRONE-MOLLER.

Commander-in-Chief Army: Major-Gen. A. C. B. Vegger.

Commander-in-Chief Navy: Vice-Admiral Sven Thostrup.

Commander-in-Chief Air Force: Major-Gen. Niels Holst-Sorensen.

PARLIAMENT

Chairman of the Folketing: KARL SKYTTE.

Chief of the Parliamentary Bureau: Helge Hjortdal. Secretary to the Folketing: L. E. Hansen-Salby.

The Folketing also contains two members from Greenland and two from the Faeroe Islands.

POLITICAL PARTIES

Socialdemokratiet (The Social-Democratic Party): Nyropsgade 26, 1602 Copenhagen V; founded in 1871, finds its chief adherents among the industrial and farm workers. Number of members 170,000. Chair. Anker Jørgensen; Gen. Sec. Einer Hovgaard Christiansen. Party organs: Vor Politik (quarterly) and Ny Politik (monthly)

Venstre (The Liberal Party): Hammerichsgade 14, Copenhagen V; founded in 1870. Its main adherents have been farmers but recently its votes have been distributed almost equally between the rural districts, the towns and built-up areas, so that it may claim to have adherents in all classes of the community. The main planks in the Party platform are free trade, a minimum of State interference, and the adoption, in matters of social expenditure, of a modern general social security system. Chair. Poul Hartling; Sec.-Gen. Kurt Sorensen. Chief party organs: Fyns Tidende, Vesthysten, Frederiksborg Amts Avis.

Konservative Folkeparti (Conservative Party): Vesterbrogade 40, 1602 Copenhagen V; f. 1916; advocates free initiative and the maintenance of private property, but recognizes the right of the State to take action to keep the economic and social balance. Chair. Poul Schlüter; Gen. Sec. Kai Aage Örnskov; Political Spokesman Poul Schlüter. Chief party organ: Vor Tid.

Socialistisk Folkeparti (Socialist People's Party): Folketinget, Christiansborg, 1218 Copenhagen K; f. 1959, with Socialist aims, by Arsel Larsen. Chair. Gert Petersen; Sec. Lilian Ubbesen. Chief party organ: Minavisen (daily).

Det radikale Venstre (The Radical Liberal Party): Det radikale Venstres sekretariat, Christiansborg, 1218 Copenhagen K; f. 1905. The main points in its programme are: international détente and co-operation within regional and world organizations, social reforms without socialism,

incomes policy, workers' participation in industry, state intervention in industrial disputes, state control of trusts and monopolies, strengthening private enterprise. Chair. HILMAR BAUNSGAARD; Gen. Sec. S. BJORN HANSEN. Chief party organs: Politiken, Skive Folkeblad, Holbaek Amts Venstreblad, Roskilde Tidende, Fremsyn.

De Uafhaengige (Independent Party): Christiansborg, 1218 Copenhagen K; f. 1953. Chair. JÜRGEN ANDREASEN.

Danmarks Retsforbund (Justice Party): Kroghsgade 1, 2100 Copenhagen Ø; f. about 1920. Its programme is closely allied to Henry George's teachings (single tax, free trade). Chair. Poul Thorup Kristensen. Party organ: Ret og Frihed (monthly).

Danmarks Kommunistiske Parti (Danish Communist Party): Dr. Tvaergade 3, Copenhagen K; f. 1919. Chair. KNUD JESPERSEN. Chief party organ: Land og Folk.

Venstresocialisterne (Left Socialist Party): f. 1967 as a result of a split from the Socialist People's Party. Collective leadership.

Centrums Demokraterne (Centre Democrats): Folketinget, Christiansborg, 1218 Copenhagen K; f. 1973; opposes left-wing tendencies of Social Democrats and high taxation. Chair. Erhard Jacobsen. Party organ CD—Information.

Kristeligt Folkeparti (Christian People's Party): Folketinget, Christiansborg, 1218 Copenhagen K; f. 1970; interdenominational grouping opposed to pornography and abortion. Chair. Jens Møller. Party organ Idé-Politik.

Fremskridtspartiet (Progress Party): Folketinget, Christiansborg, 1218 Copenhagen K; f. 1972 by Mogens Glistrup; movement whose policies include gradual abolition of income tax, disbandment of most of the civil service and abolition of diplomatic service and about 90 per cent of legislation. Chair. Palle Tillisch. Party organ Fremskridt.

JUDICIAL SYSTEM

In Denmark the judiciary is independent of the Government. Judges are appointed by the Crown on the recommendation of the Minister of Justice and cannot be dismissed except by judicial sentence.

The ordinary courts are divided into three instances, namely the Lower Courts, the High Courts and the Supreme Court. There is one Lower Court for each of the eighty-four judicial districts in the country. These courts must have at least one legally trained judge and they hear the majority of minor cases. The two High Courts serve Jutland and the islands respectively. They serve as appeal courts for cases from the lower courts, but are also used to give first hearing to the more important cases. Each case must be heard by at least three judges. The Supreme Court, at which at least five judges must sit, is the court of appeal for cases from the Higher Courts. Usually only one appeal is allowed from either court, but in special instances the Minister of Justice may give leave for a second appeal, to the Supreme Court, from a case which started in a lower court.

There is a special Maritime and Commercial Court in Copenhagen, consisting of a President and Vice-President with legal training and a number of commercial and nautical assessors; and also a Labour Court, which deals with labour disputes.

An Ombudsman is appointed by Parliament, after each general election, and is concerned with defects in the laws or administrative provisions. He must render to Parliament an annual report.

Supreme Court: Pres. Dr. Jur. J. Trolle; Judges: T. F. Gjerulff, P. A. Spleth, H. Tamm, A. Blom-Andersen, H. A. Sorensen, E. Vetli, P. Høeg, M. Hvidt, Helga Pedersen, H. C. Schaumburg, P. Høyrup, F. Thygesen, H. Urne, E. Bjerregaard.

East High Court: Bredgade 59, Copenhagen; Pres. E. Andersen; Judges: S. A. Smith, O. Taksoe-Jensen, C. Ludvigsen, K. Kirchheiner, A. T. Bertelsen, C. E. Larsen, E. Jensen, I. Lunge, F. Moller, T. RELIGION

Ninety-four per cent of the population of Denmark belong to the Danish Lutheran Church, but a survey has shown that only 2.8 per cent go to church once a week.

Den Evangelisk-lutherske Folkekirke i Danmark (The Danish Lutheran Church) is the established Church of Denmark, and is supported by the State.

Bishops: W. Westergaard Madsen, Copenhagen K.; J. B. Leer Andersen, Helsingor; Hans Kvist, Roskilde; Th. Græsholt, Nykobing/F; K. C. Holm, Odense; Erik Jensen, Aalborg; Johs. W. Jacobsen, Viborg; H. N. Hoirup, Aarhus; H. Dons Christensen, Ribe; T. V. Kragh, Haderslev.

The Roman Catholic Church: Katolsk Bispekontor, Bredgade 69A, 1260 Copenhagen K; 37 secular priests, 88 religious priests, 26,357 Catholics (December 1972 estimate by diocesan curia); Bishop: Hans Ludvig Martensen, Bishop of Copenhagen.

Det Danske Baptistsamfund (Baptist Union of Denmark): Köbnerhus, Lärdalsgade 5, 2300 Copenhagen S; f. 1839; 6,637 mems.; Pres. Rev. Ove Jensen; Gen. Sec. Rev. Knup Wümpelmann; publ. Baptisternes Ugeblad (weekly). There are numerous other churches, including:

Church of England: St. Alban's Anglican Church, Churchillparken, 1263 Copenhagen K; Chaplain: Rev. Hugh Picton.

First Church of Christ Scientist: St. Kongensgade 23, 1264 Copenhagen K; also in Odense and Aarhus.

Greek Orthodox Russian Church: Alexander Nevski Church, Bredgade 53, 1260 Copenhagen K.

German Lutheran Church: Sankt Petri Church, Norregade. Copenhagen; Hauptpastorat: Larslejsstraede 11, 1451 Copenhagen K.

Islam: Nusrat Djahan Mosque, Eriksminde Allé 2, 2650 Hvidovre.

Jewish Community: The Synagogue, Krystalgade 12. Copenhagen; Mosaisk Trossamfund, Ny Kongensgade 6, 1472 Copenhagen K.

Methodist Church: Centralmissionen, Stokhusgade 2, 1317 Copenhagen K; churches throughout Denmark.

Moravian Brethren: The Brethren Community, 6070 Christiansfeld; regular services in South Jutland.

- Mormons: Mormonkirkens Kontor, Dalgas Boulevard 164, 2000 Copenhagen F.
- Norwegian Lutheran Church: Kong Haakons Kirke, Ved Monten 9, 2300 Copenhagen S.
- Salvation Army: Frelsens Haer, Frederiksberg Allé 9, 1820 Copenhagen F; meeting places throughout Denmark.
- Seventh Day Adventists: Adventistsamfundet, Suomisvej 5, 1927 Copenhagen V; churches throughout Denmark.
- Society of Friends: Danish Quaker Centre, Vendersgade 29, 1363 Copenhagen K.
- Swedish Lutheran Church: Svenska Gustafskyrkan, Folke Bernadottes Allé, 2100 Copenhagen Ø; also in Hirtshals, Hanstholm and Skagen.
- Unitarians: Unitarernes Hus, Dag Hammarskjölds Allé 30, 2100 Copenhagen O.

THE PRESS

Denmark's long press history dates from the first newspaper published in 1666, but it was not until press freedom was introduced by law in 1849 that newspapers began to assume their present importance. At four copies published daily for every ten inhabitants, the per capita circulation of Danish newspapers is one of the highest in the world. There are over 220 separate newspapers, and over 50 main dailies.

The freedom of the press is embodied in paragraph 77 of the 1953 Constitution and all censorship laws have been abolished. The legal limits to press comment are wide, legislation on defamation being chiefly concerned to protect the reputation of the individual. The Law of 1938 included provision for a Board of Denials and Corrections to be established to guard the individual's right to require a newspaper to correct factual errors. This Press Law makes editors legally responsible for the contents of a paper with the exception of signed articles for which the author is responsible.

Most newspapers and magazines are privately owned and published by joint concerns, co-operatives or limited liability companies. Ownership is usually restricted in number or confined to residents of the area in which the paper circulates.

The main concentration of papers is held by the Berlingske Tidende Group which owns Berlingske Tidende, Weekendavisen, B.T., and the provincial Jydske Tidende, three weekly magazines and a large printing works controlling some 25 per cent of the total daily newspaper circulation.

Another company, Politiken A/S, owns several dailies, including *Politiken* and *Ekstra Bladet*, one weekly and a large publishing house. De Bergske Blade owns a group of six Liberal papers.

Copenhagen accounts for 16 per cent of the national dailies and about half the total circulation. The provincial press has declined since the last war, but still tends to be more politically orientated than the majority of Copenhagen dailies. The Communist Party's Land og Folk is the only paper to be directly owned by a political party, although all papers show a fairly pronounced political leaning. The four Social Democrat papers, headed by Copenhagen's Aktuelt, are owned and subsidized by the trade unions.

Daily newspapers have a far more influential place in Danish life than weeklies. As the largest papers have only a small circulation outside the city and suburbs of Copenhagen, e.g. 14 per cent in the case of Berlingske Tidende, they can barely claim to be national. The most popular papers give a broad and serious news coverage; there is no really sensational press. The major Copenhagen dailies in order of circulation are B.T., Ekstra Bladet, Berlingske Tidende, Politiken and Aktuell. The serious evening paper Information and the weekly Weckendavisen are also influential. Jyllands-Posten, published at Aarhus, is the largest provincial paper.

COPENHAGEN DAILIES

- Aktuelt: Milnersvej 43. 3400 Hillerod; f. 1872; morning; organ of Social Democratic Party, Editors Bent Hansen, Harry Rasmussen, Dir. Jorgen M. Thygesen; circ. 60,000 weekdays, 140,000 Sundays.

FINANCE

(cap. = capital; p.u. = paid up; dep. = deposits; m. = million)

The first Danish commercial bank was founded in 1846. In 1974 there were about 40 commercial banks and over 200 savings banks, considerably fewer than ten years earlier. In January 1975, restrictions on savings banks were lifted, giving commercial and savings banks equal rights and status. Several foreign banks have representative offices in Copenhagen, and in January 1975 restrictions on the establishment of full branches of foreign banks were removed. All banks are under government supervision, and public representation is obligatory on all bank supervisory boards.

BANKING CENTRAL BANK

- Danmarks Nationalbank (National Bank of Denmark):

TRADE FAIRS

Trade fairs are held throughout the year, mainly at the Bella Centret in Copenhagen.

Gopenhagen Trade Fair: Secretariat, Bella Centret A/S, Hvidkildevej 64, 2400 Copenhagen NV.

TRANSPORT

RAILWAYS

DSB (Danish State Railways): Solvgade 40, 1349 Copenhagen K; Gen. Man. POVL HJELT; controls 1,998.7 km. of track of which 112.7 km. in the Copenhagen suburban area are electrified.

A total of 538 km., mostly branch lines, is run by 14 private companies.

ROADS

There are 64,900 km. (40,560 miles) of roads in Denmark, of which 88 per cent are hard surface. Of this total, about 350 km. are modern motorway and 4,300 km. state highways.

Ministry of Public Works (Transport Department):
Frederiksholms Kanal 25, 1220 Copenhagen K; f. 1894;
Permanent Sec. Jørgen L. Halck; admin. general
traffic problems, road traffic, air traffic, harbours,
roads, private railways.

FERRIES

DSB (Danish State Railways): Splvgade 40, 1349 Copenhagen K; operates passenger, train and motor car ferries between the mainland and principal islands. Train and motor car ferries are also operated between Denmark, Sweden and Germany in co-operation with German Federal Railways, and German and Swedish State Railways; Man. Ø. Bech.

Other services are operated by private companies.

SHIPPING

The Port of Copenhagen is the largest and busiest port in Denmark. It covers 1,125 acres and has all modern facilities and 144,000 feet of quays. Of this, the Free Port covers 161 acres, with 26,000 feet of quays. Customs duties are payable on entering the Free Port Zone only if the merchandise is sold in Denmark. The other major ports are Aarhus, Aalborg and Esbjerg, which provides daily services to England. There are oil terminals at Kalundborg, Fredericia and Skaelskør.

Danmarks Tekniske Højskole (Technical University of Denmark): Lyngby: 77 professors: 3,036 students.

Danmarks Ingenierakademi (Engineering Academy of Denmark): Lyngby; 28 professors; 1,000 students.

Don Kongelige Veterinaer- og Landbohøjskole (The Royal Veterinary and Agricultural University): Copenhagen: 308 teachers; 1,453 students.

THE FAEROE ISLANDS

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag

The Faeroes are a group of 18 islands in the Atlantic between Scotland and Iceland with a total area of 1,399 sq. km. The climate is mild in winter and cool in summer with a mean temperature of 7°C. The vegetation is mostly grass, moss and mountain bog, the only trees being found in plantations. Of these islands seventeen are inhabited and in 1970 the total population was 38,612. Some 10,000 of these live in Thorshavn, the capital. Most Faeroese are Lutherans belonging to the Danish National Church. The principal language is Faeroese but Danish must be taught in all schools. The flag (proportions 22 by 16) carries a red cross with a blue edge on a white field.

History and Government

The Faeroe Islands have been under Danish administration since Queen Margrete of Denmark inherited Norway in 1380. The islands were taken over by the United Kingdom while Denmark was under German occupation but were restored immediately after the war. The Home Rule Act of 1948 gave them control over all their internal affairs but the Danish Folketing, to which the Faeroese send two members, looks after matters of mutual concern such as defence and foreign policy.

Economic Affairs

Only some 6 per cent of the land surface is cultivated and as the summers are too cool for grain, the main crops are potatoes and vegetables and grass for the large number of sheep raised on the islands. Coal is mined at Suderoy and about one fifth of the working population is engaged in handicrafts. The most important sector of the Faeroese economy is fishing, which employed 21 per cent of the labour force and contributed 29.7 per cent of a total G.D.P. of 590.7 million kroner in 1970, and accounts for nearly all the islands' exports. In January 1974, the Lagtinget decided not to join the EEC, but to negotiate a special trade agreement which would protect the fishing industry. Following Faeroese pressure, an agreement was reached limiting the annual cod and haddock catch of foreign trawlers from January 1974. Meanwhile their trade balance remains very unstable and they are dependent on Denmark to make good any deficit. Danish subsidies account for about 15 per cent of the Faeroese G.N.P.

In 1940 the Faeroese krona was introduced. It must, however, always be freely interchangeable with the Danish krone at the rate of 1: 1. For exchange rate see under Denmark.

GOVERNMENT

The legislative body is the Lagtinget of up to thirty members elected on a basis of proportional representation. All Faeroese over the age of twenty have the right to vote. Based on the strength of the parties in the Lagtinget a small Government, the Landsstyret, is formed and this holds the executive power for all internal affairs. The Lagmand or Chairman has to ratify all Lagtinget laws. A commissioner known as the Rigsombudsmand represents the Kingdom and is in charge of the administration on the islands.

Rigsombudsmand: Leif Groth.

LANDSSTYRET

(Social Democratic Party, Union Party, Old Home Rule Party, formed December 1970).

Lagmand: ATLI DAM (Social Democrat).

Vicelagmand: Peter F. Christiansen (Unionist).

Members: Jákup Lindenskov (Social Democrat), Eli Nolsge (Unionist), Asbjørn Joensen (Old Home Rule).

LAGTINGET

Chairman: J. F. ØREGAARD (Social Democrat).

Vice-Chairman: FINNBOGI ISAKSEN (Republican Party).

(General Election, November 1970)

NEWS AGENCY

Deutsche Presse-Agentur of Hamburg, Reuters Ltd. of London, Tidningarnas Telegrambyrå of Stockholm, Aftenposten of Oslo and Politiken of Copenhagen are all covered by Eiden Müller, P.O.B. 131, Thorshavn.

PUBLISHER

Útvarp Feroya: Bryggjubakki 12, 3800 Thorshavn P.O.B. 128; f. 1957; fiction and periodicals; Man. NIELS JUEL ARGE.

RADIO

Útvarp Føroya: Thorshavn, P.O.B. 128; f. 1957; Man. N. J. Arge.

There are stations in Thorshavn, Klaksvig and Suderoy broadcasting 29 hours per week.

Number of receivers (1974): 15,000.

FINANCE

Foroya Banki A/S: P.O.B. 14, Niels Finsengota 15, Thorshavn; f. 1906; cap. 10m. kr.; res. 19.8m. kr.; dep. 263m. kr. (1972); 23 brs.; Chair. Th. Thomasen; Gen. Mans. Knud Pedersen, Esbern Simonsen.

Sjóvinnubankin P/f: 3800 Thorshavn; f. 1932; cap. 8.9m. kr.; res. 14m. kr.; dep. 192m. kr. (1972); 17 brs.; Chair. Birgir Danielsen; Man. Rasmus Olsen.

TRANSPORT

The main harbour is at Thorshavn; the other ports are at Fugelfjord, Klaksvig, Trangisvaag, Vaag and Vestermanhavn. There are regular services to Denmark, Iceland and the Shetlands.

There is an airport on Vágar. Danair operates services to Kirkwall and Copenhagen, and Icelandair operates a service to Reykjavik.

TOURISM

Føroya Ferdamannafelag: 3800 Thorshavn; tourism information and travel agency.

EDUCATION

The school educational system is the same as that for Denmark. Further education on the islands is provided by an academy, founded in 1965, a teacher training college, 2 technical schools, a commercial school, 2 nautical schools, a school for marine engineering, a folk high school and a nursing school.

GREENLAND

INTRODUCTORY SURVEY

Location, Climate, Language

Greenland is the world's largest island with a total area of two million square kilometres. Most of it is permanently covered by ice but 341,700 square kilometres of coastland is inhabitable. In 1972 the total population was 48,581 of which some 8,000 live in Godthab, the largest town. Both Danish and Eskimo languages are used.

History, Government, Defence

Greenland first came under Danish rule in 1380 although contact was lost between the sixteenth and eighteenth centuries. During the Second World War the U.S.A. took over control of Greenland but handed it back when Denmark was liberated from German rule. As part of the revision of the Danish constitution in 1953 Greenland became part of the kingdom and Denmark now takes care of all its external affairs, including defence. The Greenlanders are not subject to compulsory national service.

In October 1972 the Greenlanders voted by 9,894 to 4,062 against joining the EEC but, as part of Denmark, were bound by the Danish decision. Though arrangements have been made to safeguard Greenland's fishing interests, these are considered inadequate by many and some resentment of Danish domination of the economy, education and the professions has been expressed by Greenlanders. Among more radical elements in Greenland, there is a demand for a greater degree of self-determination.

Economic Affairs

Seal-hunting has traditionally been the main occupation in Greenland and it is still very important in the northern district. In the South sheep-rearing is on the increase and in the central coastal areas fishing is of prime importance though some industrial establishments are being set up. The world's only commercially exploitable deposits of cryolite are mined there, but output amounting to 67,000 tons in 1968 fell to 43,400 tons in 1971. Coal is mined at Qutdligssat, though production has fallen from 27,000 tons in 1968 to 4,000 tons in 1972. Apart from the minerals and fish and fish produce the main exports are sealskin and foxskin. In 1974 the Danish Government invited the first applications for concessions to prospect for and produce petroleum off the west coast of Greenland. Recently there has been much prospecting for uranium and other minerals both in Greenland and on its continental shelf but the economy is still dependent on large subsidies of over 600 million kr. per year from Denmark.

Until 1950 Denmark had a monopoly of trade and industry in Greenland. Though this has now been abolished, the Royal Greenland Trade Department still controls about two thirds of the total turnover in export production. Denmark provided about 91 per cent of Greenland's imports in 1971, and took some 75 per cent of total exports.

GOVERNMENT

Denmark is represented in Greenland by the Landshovding or Governor. Until 1967 he presided over meetings of the Landsrdd, the provincial council, but since then they have elected their own chairman. This council, consisting of seventeen members, is elected by all Danish subjects over the age of 20 living in Greenland. All bills which relate to Greenland must be presented to the council before they go to the Folketing in Copenhagen. The Greenlanders are also able to vote for two members of the Folketing.

Landshovding: HANS LASSEN.

Chairman of Landsråd: LARS CHEMNITZ.

JUDICIAL SYSTEM

The island is divided into eighteen court districts and these courts all use lay assessors. For most cases these lower courts are for the first instance and appeal is to the Landsret, the higher court in Godthåb, which is the only one with a professional judge. This court hears the more serious cases and appeal is to the High Court in Copenhagen.

RELIGION

The Greenlandic Church comes under the Bishop of Copenhagen and the Ministry for Ecclesiastical Affairs. Responsibility for the inspection of vicarages in Greenland lies with a rural dean resident on the island.

THE PRESS

There are no daily papers in Greenland.

Atuagagdliutit (Grønlandsposten): Editor 3900 Godthåb; Advertising Dept., Bladforlagene, Dr. Tvaergade 30, 1302 Copenhagen K; weekly.

PUBLISHER

Grenlandske Forlag: Godthåb; general and text books.

RADIO AND TELEVISION

There are 7,200 radio receivers.

Grenlands Radio: P.O.B. 607, 3900 Godthab; Dir. of

Broadcasting Finn Lynge; Technical Dir. B. N. Roer; 4 stations.

Radioavisen (Radio News Service): Godthab; the service is run by the Danish Government and enjoys complete freedom and independence; Head of Service Bent Jensen.

U.S. Armed Forces Radio and Television Service: 4683 Air Base Group (ADC), (CIO/AFRTS), APO New York, N.Y. 09023, U.S.A.; stations at Søndre Strømfjord and Thule; radio broadcasting 24 hours a day.

TRANSPORT

Inland traffic is mainly by motorboat, sled, light aircraft and helicopter. Godthåb is the main port and there are also all-year ports at Faeringehavn, Frederikshåb and Sukkertoppen. There is an airport at Søndre Strømfjord for flights to Denmark, operated by SAS. In summer Icelandair run tourist flights from Reykjavik to Kulusuk Island in Angmagssalik fjord, and from Keflavik to Narssarssuaq on the west coast.

Gronlandsily A/S: Godthab; helicopter services between Godthab, Søndre Strømfjord and 12 centres along the west coast, also flights between Søndre Strømfjord and Kulusuk on the east coast and Narssarsuaq in the south; fleet of six S-61N, four S-58T, two Bell Jet Ranger and two DC-6B; Pres. Jørgen Høy; Chair. E. Hesselbjerg.

EDUCATION AND SOCIAL WELFARE

The educational system is the same as that for the main part of Denmark, except that the main language of instruction is Greenlandic. Danish is however quite widely used, as many teachers come from Denmark for a short term to relieve the shortage of local teachers. There is a school in every settlement and a teacher training college in Godthåb. In 1971/72 there were 96 schools of which a third had 20 or less pupils and another quarter 50 or less. There were 753 teachers, of whom 84 had teacher training in Greenland and 520 in Denmark.

There is a free health service for all residents, administered by the Danish Government.

FINLAND

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Finland is a republic in Northern Europe bordered in the far north by Norway and in the north-west by Sweden. The U.S.S.R. runs along the whole of the eastern frontier. Its western and southern shores are washed by the Baltic. The climate varies sharply with warm summers and very cold winters. The mean annual temperature is 5°C (41°F) in Helsinki and -0.4°C (31°F) in the far north. There are two official languages; 93.3 per cent of the population speak Finnish and 6.5 per cent speak Swedish. Finnish is a member of the small Finno-Ugrian group of languages which includes Hungarian. There is a small Lapp population in the north. Ninety-two per cent of the people belong to the National Lutheran Church of Finland and there are small groups of Roman Catholics, Methodists, Jews and other religious groups. The national flag (proportions 18 by 11) is white with an azure blue cross (the upright to the left of centre). The state flag has, at the centre of the cross, the national coat of arms. The capital is Helsinki.

Recent History

Finland ceded 12 per cent of her territory and paid very large reparations to the Soviet Union, with which she had been in conflict, at the close of the Second World War. In 1948 President Paasikivi and Stalin signed the Finno-Soviet Pact of Friendship, which was extended for twenty years from 1955, when the U.S.S.R. relinquished its military post on the Porkkala promontory. The Treaty of Friendship, Co-operation and Mutual Assistance between Finland and the Soviet Union was renewed for a further twenty years in 1970, and although its terms, calling for Finland to defend its territory against any attack upon the U.S.S.R., are strategically outmoded, it remains the cornerstone of Finnish foreign policy. For instance, Finland's trade agreement with the European Economic Community (EEC) and the European Coal and Steel Community, initialled in July 1972, was not signed until October 1973. The delay is generally attributed to Soviet pressure exerted during President Kekkonen's talks with Soviet leaders, who demanded a prior agreement with the Council for Mutual Economic Assistance (COMECON) and a guarantee that there would be no change in Finnish foreign policy as a result of association with the EEC. This guarantee was provided by a special law, passed in January 1973, extending President Kekkonen's term of office from 1974 to 1978. Finland joined the United Nations and the Nordic Council in 1955, and became an associate member of EFTA in 1961.

In the fifty-seven years Finland has been independent there have been fifty-five cabinets. Usually seven or eight parties have been represented in the parliament but none has ever been able to obtain an overall majority. Negotiations for a coalition government have often been lengthy; it took four months to form a government in 1970, and in January 1972 a month of negotiations following an election produced nothing. A minority government from the Socialist Party, led by Rafael Paasio, took office in

February. On September 4th, 1972, after an open government crisis of nearly seven weeks, a four-party majority government, led by Prime Minister Kalevi Sorsa (Social Democrat), was appointed. The parties represented in this government are the Social Democrats, the Centre Party. the Swedish People's Party and the Liberal People's Party. This coalition has had only moderate success in controlling inflation and strikes, Finland's major problems, but it has obtained satisfactory trade agreements with the U.S.S.R.

Government

Parliament is unicameral and elected for four years by the system of proportional representation. Suffrage is universal and equal, and the minimum voting age is 18. The President of the Republic is chosen for a six-year term by an electoral college elected by the citizens. The Council of State is the executive organ responsible to Parliament and members are appointed by the President.

Defence

The armed forces of Finland are restricted by treaty to about 42,000, mostly conscripts serving up to 11 months. The defence budget for 1974 was 944 million markkaa, and the total strength of the armed forces in the same year was 35,800, comprising army 30,300, navy 2,500, and air force 3,000. There are also 685,000 reserves and about 4,000 frontier defence troops. The forces are armed with weapons manufactured in the Soviet Union and the West. Finland follows a policy of strict neutrality, but her neutral status has not been legally recognized by the Soviet Union.

Economic Affairs

Forests cover 68.4 per cent of Finland's land area. Cultivation has been intensified in recent years and the country is one of the world's leading exporters of pulp and paper. Amongst the manufacturing industries, the textile and chemical industries in particular have experienced a rapid growth, but the metal industry and engineering suffer from a lack of capacity and skilled labour. The manufacture of furniture and other consumer durables is also important. Cereal and dairy farming are highly mechanized.

Following the recession of 1971, there has been a return to economic growth in Finland, based mainly on domestic demand. A scarcity of labour and lack of capacity slowed growth in 1974. G.N.P. grew by 6 per cent in 1973, and 3.5 per cent in 1974. In 1973, consumer prices were some 12 per cent higher than in 1972, the main boost to inflation coming from wage costs, which rose more than 13 per cent, and in 1974 prices rose between 15 and 17 per cent, with wages rising still faster. While there is a shortage of skilled labour in the south, extensive structural unemployment continues in the less developed north and east.

A trade agreement between Finland and the EEC was ratified in November 1973 and came into effect on January 1st, 1974. Under this agreement, tariffs will be reduced in stages, leading to their abolition on most goods by 1977. Finland remains economically linked with the U.S.S.R. In 1973 a pipeline was opened to supply Soviet natural gas

to Finnish industry, and a co-operation agreement was signed with COMECON. Finland's large, and growing, trade deficit has been worsened by the rise in price of Soviet oil, but this has been offset to some extent by higher prices for Finnish forest industry products.

Transport and Communications

There are 5,936 kilometres (3,790 miles) of railways which provide connections with Sweden and the Soviet Union. The railways are almost all state operated, most of the trains being run on diesel engines. There are 73,210 kilometres (45,491 miles) of highway, but traffic is relatively light. Extensive use is made of the canals which connect Finland's innumerable lakes; inland waterways are navigable by ships for 6,646 kilometres (4,129 miles). The Water Bus is a characteristic feature. In winter, water communications are restricted by the severe frost, but icebreakers are used to open up channels for commercial traffic.

Social Welfare

Social Security covers unemployment, social insurance (national pensions, accident insurance and sickness insurance), social assistance (maternity allowances, child allowances, care of the disabled) and social welfare (public aid). Sickness insurance compensates the patient for a considerable part of the costs of medical care outside hospital and the general hospitals charge moderate fees. The National Health Act, which came into force in 1972, provides for the establishment of health centres in every municipality, and the abolition of doctor's fees by 1979.

Education

Compulsory education for eight years was introduced in 1921 and now applies between the ages of 7 and 16 years. There are two forms of education; the pupil may either attend primary school for 6 years and then civic school for at least 2 years, or he may first attend primary school for 4 years and then go to the 5-year junior secondary school. After completed compulsory education the pupil may transfer to a technical or other vocational school or institute. A new comprehensive school system, which is now being introduced and will be implemented by 1983, consists of six years of basic general education to be followed by three years of more specialized education. There are 17 universities and colleges at university level in Finland.

Tourism

Vast forests, Europe's largest inland water system, magnificent unspoilt scenery and the possibility of holiday

seclusion are the chief attractions for the visitor to Finland. In the towns there are mediaeval churches and castles, but also modern Finnish architecture in both town and country. The winter sports season is long. Tourist receipts have increased at a rate of 30-40 per cent a year since 1968. Receipts in 1972 were 970 million markkaa, about 6.4 per cent of total exports. Some 4.6 million tourists visited Finland in 1972, nearly all of them from other Nordic countries.

Citizens of Denmark, Iceland, Norway and Sweden do not require a passport to enter Finland.

Visas are not required by nationals of the following countries: Algeria, Argentina, Australia, Austria, Barbados, Belgium, Botswana, Brazil, Bulgaria, Canada, Chile, Colombia, Costa Rica, Cyprus, Ecuador, El Salvador, France, The Gambia, Federal Republic of Germany, Greece, Hungary, India, Iran, Ireland, Israel, Italy, Ivory Coast, Jamaica, Japan, Lesotho, Liechtenstein, Luxembourg, Malawi, Malaysia, Malta, Mauritius, Mexico, Monaco, Morocco, Netherlands, Niger, Pakistan, Peru, Philippines, Portugal, Romania, San Marino, Singapore, Spain, Swaziland, Switzerland, Tanzania, Trinidad and Tobago, Tunisia, Turkey, Uganda, United Kingdom, U.S.A., Uruguay and Yugoslavia.

Sport

The national game is pesapallo, a form of baseball. Football, skiing, skating, ice hockey, athletics and bandy, a form of ice hockey, are popular sports.

Public Holidays

1975: May 1st (May Day), May 3rd (Ascension), May 17th (Whit Holiday), June 21st (Midsummer Day), November 1st (All Saints' Day), December 6th (Independence Day), December 25th, 26th (Christmas).

1976: January 1st (New Year's Day), January 11th (Epiphany), April 16th (Good Friday), April 17th (Easter Saturday), April 19th (Easter Monday).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rates

100 penni = 1 markka (Finnmark).

Exchange rates (December 1974):

£1 sterling = 8.545 markkaa; U.S. \$1 = 3.66 markkaa,

THE CONSTITUTION

THE PRESIDENT OF THE REPUBLIC

The President is elected for a term of six years by 300 electors. The electors are chosen by public vote in the same manner as members of the Parliament.

The President of the Republic is entrusted with supreme executive power. Legislative power is exercised by the Parliament in conjunction with the President. Both the President and the Parliament have the right of initiative in legislation. Laws passed by the Parliament are submitted to the President, who has the right of veto. If the President has not within three months assented to a law, this is tantamount to a refusal of his assent. A law to which the President has not given his assent will nevertheless come into force, if the Parliament elected at the next general election adopts it without alteration.

The President has also the right to issue decrees in certain events, to order new elections to the Parliament, to grant pardons and dispensations, and to grant Finnish citizenship to foreigners.

The President's approval is necessary in all matters concerning the relations of Finland with foreign countries, and he is Supreme Commander of the Defence Forces of the Republic.

Such decisions as are arrived at by the President are made by him in the Council of State, except in matters pertaining to military functions and appointments.

GOVERNMENT

For the general administration of the country there is a Council of State, appointed by the President, and composed of the Prime Minister and the Ministers of the various Ministries. The members of the Council, who must enjoy the confidence of the Parliament, are collectively responsible to it for their conduct of affairs, and for the general policy of the administration; while each member is responsible for the administration of his own Ministry.

To this Council or Cabinet the President can appoint supernumerary Ministers, who serve either as assistant Ministers or as Ministers without portfolio. The President also appoints a Chancellor of Justice, who must see that the Council and its members act within the law. If in his opinion the Council of State or an individual Minister has acted in a manner contrary to the law, the Chancellor of Justice must report the matter to the President of the Republic or in certain cases to the Parliament. In this way Ministers are rendered legally as well as politically responsible for their official acts.

THE PARLIAMENT

The Parliament is an assembly of one chamber with 200 members elected for four years by universal suffrage on a system of proportional representation, every man and

woman who is eighteen or over being entitled to vote and everyone over twenty being eligible. It assembles yearly without special summons. The ordinary duration of a session is 120 days, but the Parliament can at its pleasure extend or shorten its session. The opposition of one-third of the members can cause ordinary legislative proposals to be deferred till after the next elections Discussion of questions relating to the constitutional laws belongs also to Parliament, but for the settlement of such questions creatian delaying conditions (fixed majorities) are prescribed. The Parliament, besides taking part in legislation, has the right to determine the estimates, which, though not technically a law, are published as a law.

Furthermore, the Parliament has the right, in a large measure to supervise the administration of the Government. For this purpose it receives special reports, the Government also submitting an account of its administration every year, and a special account of the administration of national finances. The Chancellor of Justice submits a yearly report on the administration of the Council of State. The Parliament elects five auditors, who submit to it annual reports of their work, to see that the estimates have been adhered to. The Parliament also appoints every four years a Parliamentary Ombudsman (Judicial Delegate of Parliament), who submits to it a report, to supervise the observance of the laws.

The Parliament has the right to interrogate the Government. It can impeach a member of the Council of State or the Chancellor of Justice for not having conformed to the law in the discharge of his duties. Trials are conducted at a special court, known as the Court of the Realm, of 13 members, six of whom are elected by Parliament for a term of four years.

CONSTITUTIONAL AMENDMENT

The first report of the Constitutional Committee on possible reforms of the fundamental laws was presented in April 1974. The multi-party system and the constitutional checks on revision of the fundamental laws are likely to delay any major changes until the 1980s, but several issues have emerged as potential areas for reform. Generally, the right-wing parties are suspicious of reform, but the left has won some support from the centre.

Three main topics have been discussed by the Committee: the respective powers of the President, Cabinet and Parliament; legislative procedure, particularly the strength of the protection to be given to parliamentary minorities; the basic economic, social and cultural rights of the individual and security of ownership. The Committee has also recommended the implementation of employee participation in decision-making. The most basic reform under discussion is the left's proposal that Parliament should be the supreme state organ, and that much of the President's power should be transferred to the Cabinet.

THE GOVERNMENT

HEAD OF THE STATE

President of the Republic: Dr. URHO KALEVA KEKKONEN (elected 1956, re-elected 1962 and 1968; term of office extended to 1978 by a special law enacted in 1973).

Head of the President's Chancellery: Kauko Sipponen.

THE CABINET

(A coalition of the Social Democratic Party (S.D.P.), Centre Party (C.P.), Swedish People's Party (S.P.P.), Liberal People's Party (L.P.P.) and one non-party member, formed in September 1972.)

(February 1975)

Prime Minister: KALEVI SORSA (S.D.P.).

Minister for Foreign Affairs and Deputy Prime Minister: AHTI KARJALAINEN (C.P.).

First Minister of Finance: Johannes Virolainen (C.P.).

Second Minister of Finance: Esko Niskanen (S.D.P.).

Minister of Education: ULF SUNDQVIST (S.D.P.).

Second Minister of Education: Marjatta Väänänen (C.P.).

Minister of the Interior: Heikki Tuominen (non-party).

Minister of Foreign Trade: JERMU LAINE (S.D.P.).

Minister of Trade and Industry: Kristian Gestrin (S.P.P.).

Minister of Agriculture: HEIMO LINNA (C.P.).

Minister of Labour: Valde Nevalainen (S.D.P.).

Minister of Justice: MATTI LOUEKOSKI (S.D.P.).

Minister of Defence: CARL-OLAF HOMÉN (S.P.P.).

Minister of Transport and Communications: PEKKA TARJANNE (L.P.P.).

First Minister for Social Affairs and Health: Seija Karkinen (S.D.P.).

Second Minister for Social Affairs and Health: (vacant).

DEFENCE COMMANDERS-IN-CHIEF

Defence Forces C.-in-C.: Gen. L. SUTELA. Navy C.-in-C.: Rear-Adm. STIG WIKBERG. Air Force C.-in-C.: Lt.-Gen. E. SALMELA.

PARLIAMENT

Speaker: V. J. Sukselainen.

First Deputy Speaker: VEIKKO HELLE.

Second Deputy Speaker: OLAVI LÄHTEENMÄKI.

Secretary-General: OLAVI SALERVO.

Finland also has diplomatic relations with Nepal.

JUDICIAL SYSTEM

The administration of justice is independent of the Government and judges can be removed only by judicial sentence.

SUPREME COURT

Korkein oikeus ($H\ddot{o}gsta$ domstolen): Helsinki. Consists of a President and 21 Justices appointed by the President of the Republic. Final court of appeal in civil and criminal cases, supervises judges and executive authorities, appoints judges.

President: Antti Hannikainen.

SUPREME ADMINISTRATIVE COURT

Korkein hallinto-oikeus (Hôgsta forvaltningsdomstolen): Helsinki. Consists of a President and 20 Justices appointed by the President of the Republic. Highest tribunal for appeals in administrative cases.

President: AARNE NUORVALA.,

COURTS OF APPEAL

Noviolkeus (Hovrätt): at Turku, Vaasa, Kuopio and Helsinki. Consists of a President and appropriate number of members.

DISTRICT AND MUNICIPAL COURTS

Kihlakunnanoikeus (Häradsrätt—District Courts): Consist of a judge and from five to seven jurors. The decision rests with the judge, but the jurors may overrule him if they are unanimous.

Raastuvanoikeus (Radstuvurätt—Municipal Courts): Municipal equivalent of the District Courts. They consist of three judges of whom one or two may be lay judges. Presided over by the pormestari (burgomaster).

District and Municipal Courts are courts of first instance for almost all suits. Appeals lie to the Courts of Appeal,

then to the Supreme Court.

CHANCELLOR OF JUSTICE

The Oikeuskansleri (Justitiehansler) is responsible for seeing that authorities and officials comply with the law. He is the chief public prosecutor, and acts as counsel for the Government.

Chancellor of Justice: RISTO LESKINEN.

PARLIAMENTARY SOLICITOR-GENERAL

The Eduskunnan Oikeusasiamies is the Finnish Ombudsman appointed by Parliament to supervise the observance of the law.

Parliamentary Solicitor-General: JORMA S. AALTO.

RELIGION

Evangelical Lutheran Church of Finland (Suomen Evankelisluterilainen Kirkko): to which is attached 92 per cent of the population; Archbishop Dr. Martti Simojoki, Archbishop's House, Agricolank. 2, 20 500 Turku 50.

Orthodox Church (Suomen ortodoksinen kirkko): 65,000 mems.; Archbishop PAAVALI of Karelia and all Finland, Karjalankatu 1, Kuopio; Johannes Metropolitan of Helsinki, Unionkatu 39, Helsinki; Sec. MAURI KONONEN; publs. Aamun Koitto, Uskon Viesti.

Free Church of Finland (Suomen Vapaakirkko): Annankatu IA, Helsinki; f. 1923; membership 9,313; Moderator Erkki Verkkonen; Chair. Tapio Nousiainen; World Mission Sec. Riitta Siikanen; Financial Sec. Eero Kallela; Missions in Europe, Africa and Asia; chief publs. Suomen Viikkolehti (weekly), Todistus (monthly), Tähtipolku (monthly), Vangin Toivo.

Jehovah's Witnesses (Jehovan Todistajat): Kuismatie 58, Tikkurila; membership 13,042; Dir. Erkki Kankaan-Pää; publs. Finnish editions of The Watchtower and Awake, circ. 90,000.

Adventists (Suomen Adventtikirkko): Vuorikatu 8A 24,

Turku; membership 6,025 (incl. 405 Swedish-speaking Adventists) 1973; Pres. W. AITTALA; Sec. U. ROUHE.

Church of Sweden in Finland, Archbishopric of Uppsala (Olaus Petri—Parish Church): Minervagatan 6, Helsinki; f. 1919; membership 2,400; Rector Dr. JARL JERGMAR.

Roman Catholic Church of Finland (Katolinen Kirkko Suomessa): membership 3,062; Bishop PAUL M. VERSCHUREN, Rehbinderintie 21, Helsinki.

Methodists (Suomen metodistikirkko): membership 1,900; Moderator Rev. Pentti Järvinen, Punavuorenkatu 2A4, 00120 Helsinki 12.

Baptists, Finnish-speaking (Suomen Baptistiyhdyskunta): membership 950; Pres. Rev. Jouko Neulanen, 34300 Kuru; publ. Kodin Ystava.

Baptists, Swedish-speaking (Finland's Svenska Baptistmission): membership 1,798; Pres. Rev. Ernst Jacobson, Bollgatan 2/24, 65230 Vasa 23; publ. Missionstandaret.

Jewish Community in Helsinki (Helsingin Juutalainen Seurakunta): membership 900; Dir. Leo Motzkin, Malmink. 26, 00100 Helsinki 10.

THE PRESS

The 1919 Constitution provided safeguards for press freedom in Finland. And in the same year the Freedom of the Press Act developed and qualified this principle by defining the rights and responsibilities of editors and the circumstances in which the Supreme Court may confiscate or suppress a publication. In practice there are few restrictions. The law provides strict penalties for the defamation of a foreign head of state, but this law, enacted in 1889 when Finland was a Russian grand duchy, has not been used since 1899. This aspect of political commentary is very restrained. Otherwise the most notable offences for newspapermen concern libel and copyright. Two notable features of the press are the public's legal right of access to all official documents (with important exceptions), and since 1966 the right of the journalist to conceal his source of news.

Almost all daily newspapers are independent companies, most of which are owned by large numbers of shareholders. Newspaper chains are virtually unknown. But the Finnish press is a party press. The political alignment of the Finnish daily press is as follows (1974):

The small number of papers which are generally considered left-oriented are usually owned by the political parties concerned, by trade unions, or by other workers' associations (the Social Democratic Party's chief organ is Suomen Sosialidemokraatti; the Socialistic Workers' Party publishes Păivăn Uutiset, and the Finnish People's Democratic League Kansan Untiset). On the other hand most of the right-wing newspapers are owned by private shareholders. Some even belong to private endowments. Leading organs of the National Coalition Party are Ussi Suomi in Helsinki and Aamulehti in Tampere. The leftwing papers are subject to considerably closer influence from the parties to which they are affiliated than their right-wing counterparts. Privately owned newspapersincluding some of the largest such as Helsingin Sanomat and Turun Sanomal-are usually independent of political parties. The number of votes cast in elections bears little relation to the respective circulation totals of affiliated newspapers.

Helsinki is the only large press centre, with a large number of daily papers and complete monopoly of the periodical field. Several large dailies are produced in provincial towns, as are a number of weekly and twiceweekly papers which provide an important news service to outlying areas. An important feature of the daily press is the large amount of space devoted to foreign news and also to commentary.

In 1974 there were 93 daily newspapers in Finland with

a total circulation of about 2,410,000. Twelve of these dailies are printed in Swedish. A further 124 small local non-daily papers were also registered in 1974.

In order of circulation the most popular daily papers are: Helsingin Sanomat, Aamulehti, Turun Sanomat, Uusi Suomi, Illa-Sanomat and Savon Sanomat. Those most respected for their standard of news coverage and commentary are Helsingin Sanomat, an independent paper able to devote six of its twenty pages to advertising, and the smaller conservative Uusi Suomi.

Where periodicals and magazines are concerned there are signs of concentration. Two of the largest companies, under joint management (Yhtyneet Kuvalehdet Oy and Sanoma Oy), publish seventeen periodicals with a total circulation of 1,300,000 copies. Consumer co-operatives and other organizations are very important publishers and use their periodicals as information media for both their members and their customers. Thus two co-operative leagues produce the weeklies Me and Yhteishyvä.

There are 1,040 periodicals of which some 200 are in the nation's second language, Swedish. Among the leading weekly periodicals are the general interest Apu (273,502) and the illustrated news magazines Viikkosanomat (79,004) and Suomen Kuvalehti (75,000). The publications of the consumer co-operatives enjoy large circulations (the largest Pirkka (950,000) is distributed free) as do the chief women's magazines Anna (171,884), Me Naiset (151,000) and Kotoliesi (147,014) (1974 circulations). The more popular serious magazines include the fortnightly Pellervo specializing in economic affairs and Valitut Palat (the Finnish Readers' Digest).

DAILIES Helsinki

- Helsingin Sanomat: Ludviginkatu 2-10, 00130 Helsinki 13; f. 1904; independent Liberal; Editor-in-Chief Teo Mertanen; circ. 317,000 weekdays, 355,000 Sunday.

FINANCE

The Bank of Finland is the Bank of Issue under the guarantee and supervision of Parliament. Its Board of Management is appointed by the President of the Republic and the nine Bank Supervisors are elected by Parliament.

The Bank of Finland has very close connections with the central banks of the other Nordic countries and in 1962 an agreement was signed on short-term credits between these countries.

At the end of 1973 there were two large and five small commercial banks with 846 offices in the country and 298 savings banks.

An important part is played in the financial activities of the country by Co-operative banks. In 1973 there were 397 Co-operative banks and six mortgage banks. The savings departments of all co-operative stores accept deposits from the public.

The Post Office Savings Bank is also extremely important in the life of the country. It collects the petty savings from the public through the 3,073 local post offices, the 13 offices of the Bank of Finland, as well as through its own head office and 19 branches. The National Pension Institute and 51 private insurance companies also granted credits in 1973.

United Kingdom: Finnish Tourist Board U.K. Office, Finland House, 56 Haymarket, London, SWrY 4RN.

United States of America: Finnish National Tourist Office, Scandinavia House, 75 Rockefeller Plaza, New York, N.Y. 10019; Scandinavian National Tourist Offices, 3600 Wilshire Blvd., Los Angeles, CA 90010.

PRINCIPAL THEATRES

Suomen Kansallisteatteri (Finnish National Theatre):
Helsinki, f. 1872; Dirs. Kai Savola, Jack Witikka;
publ. Ramppi (quarterly).

Svenska Teatern (Swedish Theatre): Holsinki; f. 1886; Man. Dr. Carl Ohman.

Suomen Kansallisooppera (Finnish National Opera):
Bulevardi 23-27, Helsinki 18; f. 1873; opera and ballet;
Gen. Man. Juhani Raiskinen; Man. Dir. Simo
Tavaste.

PRINCIPAL ORCHESTRAS

Helsingin kaupunginorkesteri (Helsinki Philharmonic Orchestra): Finlandia Hall, Karamzininkatu 4, 00100 Helsinki 10; f. 1882; 95 mems.; Musical Dir. Paavo Berglund; Man. Dir. Reijo Jyrkiäinen; publ. Concerto (five times a year).

Radion Sinfoniaorkesteri (Finnish Radio Symphony Orchestra): Oy Yleisradio Ab, Unioninkatu 16, 00130 Helsinki 13; f. 1927; 90 mems.; Man. Mikko Kokkonen: Chief Conductor Okko Kamu; Conductor Kari Tikka.

Finnish Radio Chamber Choir: Unioninkatu 16, 00130 Helsinki 13; 24 mems.; international awards; frequent tours abroad; Conductor HARALD ANDERSÉN.

FESTIVALS

Finland puts on nine international arts festivals each summer. The main ones are:

Helsinki Festival: Unioninkatu 28, 00100 Helsinki 10: August 21st-September 4th; classical and modern music, theatre, ballet, exhibitions, opera, jazz.

Jyväskylä Arts Festival: Jyväskylän Kesä r.y., Kauppakatu 9c 36, 40100 Jyväskylä 10; June 24th-July 3rd; concerts, drama, congresses, chamber music.

Kaustinen Folk Music Festival: 69600 Kaustinen; July.

Savonlinna Opera Festival: Olavinkatu 35, 57130 Savonlinna 13; f. 1912; July; opera in Olavinlinna Castle and other events.

Tampere Theatre Summer: Tampereen Teatterikesä r.y..
Tampereen Teatteri, 33100 Tampere 10; August;
modern Finnish drama.

Turku Music Festival: Sibeliuksenkatu 2, 20100 Turku 10; f. 1960; fortnight's annual festival in August with Finnish and international musicians; organized by Turku Music Society.

Other important festivals are: Kuopio Dance and Music Festival, Pori Jazz Festival, Vaasa Festival, Imatra Festival and the Orthodox Pradznik Festival of Ilomantsi.

ATOMIC ENERGY

Atomic Energy Commission: Ministry of Trade and Industry, Aleksanterinkatu 10, 00170 Helsinki 17; Chair. Prof. E. Laurila; Sec.-Gen. I. Mäkipentti.

A consultative body which advises the government. The Ministry of Trade and Industry is the administrative and licensing authority.

Teknilliner: Korkeakoulu (Technical University of Helsinki): Department of Technical Physics, Otaniemi; Dr. T. KOHONEN, Dr. E. A. BYCKLING, Dr. T. E. KATILA, Dr. J. T. ROUTTI.

The Institute provides education in nuclear physics, electronics, engineering and related theory.

Atomienergia Oy. (Atomic Energy Company): Runeberginkatu 15A 17, Helsinki; Dir. K. Rāisānen.

A corporation formed for the use of atomic energy in industry.

UNIVERSITIES

- Abo Akademi (The Swedish University of Abo): Abo (Turku); 180 teachers; 2,960 students.
- Helsingin Yliopisto—Helsingiors Universitet (University of Helsinki): Helsinki; 2,080 teachers; 21,423 students.
- Joensuun Korkeakoulu (University of Joensuu); Joensuu; 150 teachers; 1,200 students
- dyväskylän Yliopisto (University of Jyväskylä): Jyväskylä; 443 teachers; 5,173 students.
- Kuopion Korkeakoulu (University of Kuopio): Kuopio; 88 teachers; 510 students.
- Lappeenrannan Teknillinen Korkeakoulu (Technical University of Lappeenranta): Lappeenranta; 40 teachers; 300 students.

- Oulun Yliopisto (University of Oulu): Oulu; 600 teachers; 6,000 students.
- Tampereen Teknillinen Korkeakoulu (Tampere University of Technology): Tampere: 241 teachers; 1,400 students.
- Tampereen Yliopisto (University of Tampere): Tampere; 360 teachers; 7.930 students.
- Teknillinen Korkeakoulu (Technical University): Helsinki; 575 teachers; 5,721 students.
- Turun Yliopisto (University of Turku): Turku; 789 teachers; 8,075 students.

FRANCE

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The French Republic is situated in Western Europe and bounded to the north by the English Channel, to the east by Belgium, Luxembourg, the Federal Republic of Germany, Switzerland and Italy, to the south by the Mediterranean and Spain and to the west by the Atlantic Ocean. Climate is temperate throughout most of the country but in the south it is of the Mediterranean type with warm summers and mild winters. The principal language is French, which has numerous regional dialects, and small minorities speak Breton or Basque. About 90 per cent of the population are Roman Catholics. There are also other Christian and Jewish communities. The national flag (proportions three by two) carries three vertical bands of blue, white and red. The capital is Paris.

Recent History

After the liberation in 1944 there was provisional unicameral government under General Charles de Gaulle. In 1946, following a referendum, the Fourth Republic was set up with the legislature composed of the National Assembly and the Council of the Republic. Gen. de Gaulle retired from public life. Twenty-six cabinets were formed during the life of the Fourth Republic which came to an end in 1958 with an insurrection in Algiers and the threat of civil war facing the country.

Invited by President Coty to form a government, Gen. de Gaulle was invested as Prime Minister to rule by decree for six months. In September 1958, after a referendum, a new constitution was adopted and the Fifth Republic came into being with de Gaulle as its President. The new system provided a strong, stable executive. Real power rested in the hands of the President, who strengthened his authority through direct appeals to the people in national referenda.

The early years of the Fifth Republic were overshadowed by the Algerian crisis. De Gaulle put down a revolt of French army officers and granted Algeria independence in 1962. A period of relative tranquillity was ended in 1968 when dissatisfaction with the government's authoritarian policies on education and information and discontent at low wage rates and lack of social reform fused into a serious revolt of students and workers. For a month the republic was threatened, but the student movement collapsed and the general strike was settled by large wage rises. In April 1969 de Gaulle resigned after defeat in a referendum on regional reform.

Georges Pompidou was elected President in June 1969. He attempted to continue Gaullism, while also responding to the desire for change manifested in 1968. The Gaullist hold on power was threatened, however, by the Union of the Left, an alliance of the Socialist and Communist parties who had drawn up a common programme of government. In the 1973 general election the Government coalition was returned with a reduced majority.

President Pompidou died in April 1974. Elections to

choose his successor were held in May. After the defeat of the Gaullist candidate in the first round of voting, the election became a fight between Valery Giscard d'Estaing, leader of the Républicains Indépendants, supported by the Gaullist UDR and the centre parties, and François Mitterand, leader of the Socialist party and candidate of the Union of the Left. Giscard defeated his opponent by a small margin, and chose Jacques Chirac, a member of the UDR, as his Prime Minister. A government was formed with a majority from Giscard's party and a much reduced role for the UDR. The leaders of the Radical and Democratic Centre parties were given ministerial posts, but the Radical leader Jean-Jacques Servan-Schreiber was quickly manoeuvred into resigning.

Giscard adopted a more relaxed style of government than his predecessors and promised reforms. Some important measures were adopted, including an extension of social welfare, a new abortion law and the dismantling of the ORTF, the state radio and television organization. Most of the government's energies have been concentrated, however, on coping with the economic crisis.

French foreign policy under the Fifth Republic has been marked by its assertiveness and independence. Gen. de Gaulle's chief concern was to emphasize France's "Great Power" status and national prestige. Under de Gaulle France became a nuclear power and withdrew from the military side of NATO. Pompidou largely continued these policies, although he did not share de Gaulle's hostility to the United Kingdom and the U.S.A.

Giscard has taken still further the reconciliation with the U.S.A., but he is continuing to develop France's independent nuclear deterrent. Atmospheric nuclear tests carried out in the Pacific during Pompidou's presidency provoked world-wide protests. In 1974 Giscard announced that the sequence of atmospheric tests was completed. France plays a leading role in the European Economic Community (EEC), of which it is a founder-member.

Overseas, France granted independence to most of her former colonies after the Second World War. In Indo-China, after prolonged fighting, Laos, Cambodia and Viet-Nam became fully independent in 1954. In Africa most of the French colonies in the West and Equatorial regions attained independence in 1960. Algeria became independent after a war lasting seven years, from 1955 to 1962, when French forces were finally withdrawn from Algeria and nearly all the many French settlers were repatriated.

All the former colonies in Africa, excepting only Guinea, continue their close association with France, many remaining members of the Franc Zone. They receive considerable economic aid and technical assistance from France as well as a guaranteed market for their exports. Much aid is also channelled to these territories through the Overseas Development Fund of the EEC. Recently, many of the former colonies have adopted a more critical attitude to continuing French political, economic and cultural influence. Also the conditions of African and North African nationals working in France, and their relations with the

FRANCE Introductory Survey

native population, have become a source of tension both in internal and external politics.

Government

According to the Constitution of 1958 the executive is composed of the President of the Republic and of a Council of Ministers headed by the Prime Minister. Legislative power is exercised by Parliament composed of a National Assembly and a Senate. The National Assembly is elected by direct adult suffrage for a term of five years. Senators are elected for a nine-year term by an electoral college. One third of the Senate membership is renewable every three years Since 1962 the President has been elected by direct universal suffrage for seven years. Metropolitan France is divided into 21 administrative regions containing 95 departments.

Defence

French military policy is decided by the Supreme Defence Council. Under a decree of January 1964, the Head of State, as Chairman of the Council, has direct responsibility for command of the French nuclear forces in case of atomic warfare. Military service is compulsory and lasts for 12-15 months. In 1974 the strength of the armed forces stood at 502,500 comprising army 331,500, navy 69,000, and air force 102,000. Nuclear tests have been carried out in the Sahara and Pacific and seem likely to be continued. France withdrew from the military side of NATO during 1967. The defence budget totalled 38,221 million francs for 1974.

Economic Affairs

France is still West Europe's leading agricultural country with more than three-quarters of its area under cultivation. In 1972 agriculture, forestry and fishing accounted for 6 per cent of the Gross Domestic Product, while the agricultural working population represented 12.3 per cent of the total working population. Cereals, fruit, vegetables, livestock, butter and cheese are abundantly produced, and national consumption of these commodities is very high. The share of animal products in total agricultural production is about 50 per cent. French wines are an important export. More than half of the land is worked by owner-occupiers, and a third by tenant-farmers.

Since the Second World War French industry has expanded extremely rapidly. In 1946 the Commissariat Général du Plan (General Planning Office) was set up, the rôle of which is to co-ordinate projects initiated by other departments. Subsidiary to the General Commissariat are the Modernisation Commissions which elaborate individual plans. Every major field of industry is affected by the Commissions and particular progress has been made in electronics, transport, the processing industries and housing. To encourage expansion the Government offers public loans, tax relief and development incentives in certain areas. A wide variety of services such as tourism, fashion and catering play an important part in the economy.

France's principal trade partners are the other countries of the European Economic Community, mainly Western Germany, Belgium and Italy. The largest French industries are steel (24 million tons in 1972) motor vehicles (3.3 million were produced in 1972), aircraft, mechanical and electrical engineering, textiles and chemicals. Large quantities of coal and iron ore are mined. France possessed

valuable oil interests in the Sahara (now a part of Algeria) which are now exploited according to Franco-Algerian agreement.

France has greatly increased its exports in recent years, becoming the world's third largest exporter in 1973. It provides considerable grants and loans to underdeveloped countries, along with much technical advice and expert help for development projects; in 1972 France's aid to developing countries totalled \$1,293 million.

The franc was devalued by 11.1 per cent in August 1969, following the heavy drain on reserves caused by the General Strike in 1968, and this was accompanied by a rigid budgetary programme and credit restrictions. As a result, it has been possible to combine since then a steady rate of growth with a balance of expenditure and revenue.

In 1974, however, the stability of the economy was threatened by the sharp rise in oil prices. Inflation increased from about 7 per cent in 1973 to nearly 15 per cent in 1974, while a trade surplus of 6,360 million francs in 1973 was succeeded by a deficit of over 16,000 million francs in 1974. These figures would have been much worse but for government action. In January 1974 the franc was allowed to float and the first of a series of measures to limit oil consumption was taken. In March plans were announced to develop atomic power and coal as sources of energy. Credit restrictions were introduced, and these were reinforced by the new government in June. There followed a number of bankruptcies and a rise in unemployment to over a half a million. The car industry was especially hard hit. However, the Gross National Product continued to grow, at a reduced rate: about 4.7 per cent, compared with 6.6 per cent in 1973.

Industrial expansion is being aided by a high level of public investment in services, amenities and regional development, and by reforms of working practices in many industrial concerns A policy of paying labour by monthly salary instead of by hourly rates is being instituted nationally. Despite recurrent industrial relations problems in many sectors, the French economy remains one of the strongest in Europe.

Transport

After the last war France had to reconstruct much of its railway system. Now there are 36,700 kilometres of lines and French trains hold world records for speed. In 1973 there were 793,826 kilometres of highway, including 2,426 kilometres of motorway and 26,300 kilometres of major roads. Air France, one of the world's largest airlines, maintains many internal and external services. The French merchant marine totalled 487 vessels of over 8 million tons in 1974. There is an important network of inland waterways.

Social Welfare

France has evolved a comprehensive system of social security which is compulsory for all wage-earners, and latterly for farmers. State insurance requires contributions from both employers and employees, and provides for sickness, unemployment, maternity, disability through industrial accident and substantial allowances for large families. War veterans receive pensions and certain privileges, and widows the equivalent of three months' salary and pension. 80 per cent of all medical practitioners adhere to the state scheme. The patient pays directly for

medical treatment and prescribed medicines, and then obtains reimbursement for all or part of the cost. Sickness benefits and pensions are related to the insured person's income and the length of time he has been insured. About one-fifth of the net national product is spent in health and welfare services. Social security benefits were widely extended in 1972, particularly with regard to the self-employed and owners of small businesses. A national minimum hourly wage is in force, and is periodically adjusted to keep pace with inflation.

Education

France is divided into 25 educational districts called Académies, each responsible for the administration of education from primary to higher in its area.

Education is compulsory and free from the age of 6-16. At 11 all pupils enter the first cycle of the Enseignement Secondaire with a four-year general course. At the age of 15 they may then proceed to the second cycle chosing between the cycle long leading to the baccalauréat after three years and the cycle court leading to the brevet d'études professionnelles after two years with commercial, administrative, or industrial options. French secondary education has been academically formal with nationally uniform syllabuses and little contact between teacher and pupil. Disturbances erupted in the Lycles during and since 1968, since when reforms have been effected in the governing and disciplinary machinery of schools. A more fundamental reform, begun in 1963, entailed the gradual abolition of junior classes in the Lycées and the institution in their place of new junior comprehensives, Collèges d'Enseignement Secondaire, designed to narrow the gap between the Lycée and the previous alternative, the Collège d'Enseignement Général. Those who fail the rigorous Baccalauréat may follow other professional or technical options lasting one or two years.

The minimum qualification for entry to University faculties is the baccalauréat. The first degree, the licence, is obtained after three years of study, and the master's degree (maîtrise) and doctorate after four and five years respectively. The prestigious Grandes Ecoles complement the universities; entry to them is by competitive examination, and they have traditionally supplied France's administrative élite. The university population increased nearly threefold between 1960 and 1968, and the universities, despite considerable growth, failed to keep abreast of the expansion of numbers. The 1968 reforms in higher education aimed to increase university autonomy and render teaching methods less formal. Overcrowding and the lack of career outlets remain among other problems, however, and it is estimated that something like 70 per cent of university entrants do not complete their courses. University grants are rare and average about 3,000 francs.

Primary school teachers are trained in Ecoles Normales d'Instituteurs. Secondary school teachers must have a licence or maîtrise. They must also sit competitive state examinations to obtain the Certificat d'Aptitude au Professorat de l'Etude (CAPES), or Agrégation. The Government is planning to establish new institutions for the training of secondary school teachers undertaking degree courses.

Expenditure on national education was 36,000 million francs in 1973, representing 18.4 per cent of the national budget. It was the highest single budget for a Government Department.

Tourism

France draws tourists from all over the world. Paris is famous for its boulevards, historic buildings, theatres, art treasures, fashion houses and restaurants, and for its many music halls and night clubs. The Mediterranean and Atlantic coasts and the French Alps are the most popular tourist resorts but holidaymakers are to be found during the summer nearly everywhere. There are many ancient towns, the châteaux of the Loire, the fishing villages of Brittany and Normandy, and spas and places of pilgrimage such as Vichy and Lourdes. Corsica also attracts many tourists. Gastronomy is a tourist attraction throughout France. Following the growth of Spanish tourism, extensive tourist development has taken place in the Languedoc-Roussillon region; six new coastal resorts have been created by State and private enterprise to provide facilities for the increasing number of French tourists (growing to an estimated 40 million by 1985). In 1971, 14.7 million foreign tourists visited France.

Visas are not required for nationals of the following countries: Algeria, Andorra, Argentina, Australia, Austria, Belgium, Bolivia, Brazil, Cameroon, Canada, the Central African Republic, Chad, Chile, Colombia, the Congo People's Republic, Costa Rica, Cuba, Cyprus, Dahomey, Denmark, the Dominican Republic, Ecuador, El Salvador, Finland, Gabon, the Federal Republic of Germany, Greece, Haiti, Honduras, Iceland, Ireland, Italy, the Ivory Coast, Jamaica, Japan, the Republic of Korea, Laos, Liechtenstein, Luxembourg, Madagascar, Malaysia, Mali, Mauritania, Mexico, Monaco, Morocco, the Netherlands, New Zealand, Niger, Norway, Pakistan, Panama, Paraguay, Peru, Portugal, San Marino, Senegal, Singapore, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Togo, Trinidad and Tobago, Tunisia, Turkey, the United Kingdom and Dependencies, the U.S.A., the Upper Volta, Uruguay and the Vatican City.

Sport

There is a National Sports Council to advise the Government on policy regarding sport. The State makes its contribution to the development of popular education and sport through the Secretariat of State for Youth and Sports. Football and rugby are the two most popular games.

Public Holidays

1975: May 1st (Labour Day), May 8th (Ascension Day), May 19th (Whit Monday), July 14th (Fall of the Bastille), August 15th (Assumption), November 1st (All Saints' Day), November 11th (Armistice Day), December 25th (Christmas Day).

1976: January 1st (New Year's Day), April 19th (Easter Monday).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rates

100 centimes = 1 French franc. Exchange rates (December 1974):

> £1 sterling = 10.63 francs; U.S. \$1 = 4.55 francs.

STATISTICAL SURVEY

(Unless otherwise indicated, figures in this survey refer to Metropolitan France, excluding Overseas Departments and Territories.)

^{*} Other large agglomerations, though based on smaller communes, include those of Lens (325,696), Valenciennes (223,629 in France), Cannes (213,397), Douai (205,432) and Orleans (167,515).

¹ The Paris commune had an estimated population of 2,454,600 at January 1st, 1973.

² Boulogne-Billancourt and Saint-Denis are included in the Paris agglomeration.

³ The population of the Lyons commune is a rounded figure.

⁴ Villeurbanne is included in the Lyons agglomeration.

⁵ Strasbourg and Lille are the centres of international conurbations. The population figure for each agglomeration refers only to the inhabitants of French territory.

⁶ Roubaix is included in the Lille agglomeration.

FINANCE

100 centimes=1 French franc.

Coins: 1, 5, 10, 20 and 50 centimes; 1, 5 and 10 francs.

Notes: 5, 10, 50, 100 and 500 francs.

Exchange rates (December 1974): £1 sterling=1c 63 francs; U.S. \$1=4.55\$ francs. 100 French francs=£9.41=\$21.97.

Note: Between January 1960 and August 1969 the par value of the French franc was 180 milligrammes of gold, equal to 20.255 U.S. cents (U.S. \$1=4.937\$ francs). In August 1969 the franc was devalued to 160 milligrammes of gold, the official exchange rate being U.S. \$1=5.554\$ francs until August 1971. From December 1971 to February 1973 the rate was U.S. \$1=5.116\$ francs. In terms of sterling, the exchange rate between August 1969 and June 1972 was £1=13.330 francs.

² Including cigarette filtration tow.

³ Including fabrics of natural silk.

⁴ Tyres for road motor vehicles other than bicycles and motor cycles.

⁵ Twelve months ending (a) June 30th or (b) April 30th of year stated.

⁶ Excluding production in natural gas processing plants ('ooo metric tons); 277 in 1970; 282 in 1971; 303 in 1972.

⁷ Including both primary and secondary production, but excluding remelted zinc.

⁸ Figures refer to permuts issued for new dwellings, including dwellings created by restoration and conversions.

⁹ Net production, i.e. excluding station use.

THE CONSTITUTION OF THE FIFTH REPUBLIC

Adopted by referendum, September 28th, 1958.

Preamble

The French people hereby solemnly proclaims its attachment to the Rights of Man and to the principles of national sovereignty as defined by the Declaration of 1789, confirmed and complemented by the Preamble of the Constitution of 1946.

By virtue of these principles and that of the free determination of peoples, the Republic hereby offers to the Overseas Territories that express the desire to adhere to them, new institutions based on the common ideal of liberty, equality and fraternity and conceived with a view to their democratic evolution.

Article 1. The Republic and the peoples of the Overseas Territories who, by an act of free determination, adopt the present Constitution thereby institute a Community.

The Community shall be based on the equality and the solidarity of the peoples composing it.

Chapter 1 .- On Sovereignty

Article 2. France shall be a Republic, indivisible, secular, democratic and social. It shall ensure the equality of all citizens before the law, without distinction of origin, race or religion. It shall respect all beliefs

The national emblem shall be the tricolour flag, blue, white and red.

The national anthem shall be the "Marseillaise".

The motto of the Republic shall be "Liberty, Equality, Fraternity".

Its principle shall be government of the people, by the people, and for the people.

Article 3. National sovereignty belongs to the people, which shall exercise this sovereignty through its representatives and through the referendum.

No section of the people, nor any individual, may attribute to themselves or himself the exercise thereof.

Suffrage may be direct or indirect under the conditions stipulated by the Constitution. It shall always be universal, equal and secret.

All French citizens of both sexes who have reached their majority and who enjoy civil and political rights may vote under the conditions to be determined by law.

Article 4. Political parties and groups may compete for votes. They may form and carry on their activities freely. They must respect the principles of national sovereignty and of democracy.

Chapter II .- The President of the Republic

Article 5. The President of the Republic shall see that the Constitution is respected. He shall ensure, by his arbitration, the regular functioning of the public powers, as well as the continuity of the State.

He shall be the guarantor of national independence, of the integrity of the territory, and of respect for Community agreements and for treaties.

Article 6. The President of the Republic shall be elected for seven years by direct universal suffrage. The method of implementation of the present article shall be determined by an organic law.

Article 7. The President of the Republic shall be elected by an absolute majority of the votes cast. If such a majority

is not obtained at the first ballot, a second ballot shall take place on the second following Sunday. Those who may stand for the second ballot shall be only the two candidates who, after the possible withdrawal of candidates with more votes, have gained the largest number of votes on the first ballot.

Voting shall begin at the summons of the Government. The election of the new President of the Republic shall take place not less than twenty days and not more than thirty-five days before the expiration of the powers of the President in office. In the event that the Presidency of the Republic has been vacated for any reason whatsoever, or impeded in its functioning as officially declared by the Constitutional Council, after the matter has been referred to it by the Government and which shall give its ruling by an absolute majority of its members, the functions of the President of the Republic, with the exception of those covered by Articles 11 and 12 hereunder, shall be temporarily exercised by the President of the Senate and, if the latter is in his turn unable to exercise his functions, by the Government.

In the case of vacancy or when the impediment is declared to be final by the Constitutional Council, the voting for the new President shall take place, except in case of force majeure officially noted by the Constitutional Council, not less than twenty days and not more than thirty-five days after the beginning of the vacancy or of the declaration of the final nature of the impediment.

Articles 49 and 50 and Article 89 of the Constitution may not be put into application during the vacancy of the Presidency of the Republic or during the period between the declaration of the final nature of the impediment of the President of the Republic and the election of his successor.

Article 8. The President of the Republic shall appoint the Premier. He shall terminate the functions of the Premier when the latter presents the resignation of the Government

At the suggestion of the Premier, he shall appoint the other members of the Government and shall terminate their functions.

Article 9. The President of the Republic shall preside over the Council of Ministers.

Article 10. The President of the Republic shall promulgate the laws within fifteen days following the transmission to the Government of the finally adopted law.

He may, before the expiration of this time limit, ask Parliament for a reconsideration of the law or of certain of its articles. This reconsideration may not be refused.

Article 11. The President of the Republic, on the proposal of the Government during [Parliamentary] sessions, or on joint motion of the two Assemblies published in the Journal Officiel, may submit to a referendum any bill dealing with the organization of the public powers, entailing approval of a Community agreement, or providing for authorization to ratify a treaty that, without being contrary to the Constitution, might affect the functioning of the institutions.

When the referendum decides in favour of the bill, the President of the Republic shall promulgate it within the time limit stipulated in the preceding article.

Article 12. The President of the Republic may, after consultation with the Premier and the Presidents of the

Assemblies, declare the dissolution of the National Assembly.

General elections shall take place twenty days at the least and forty days at the most after the dissolution.

The National Assembly shall convene by right on the second Thursday following its election. If this meeting takes place between the periods provided for ordinary sessions, a session shall, by right, be opened for a fifteen-day period.

There may be no further dissolution within a year following these elections.

Article 13. The President of the Republic shall sign the ordinances and decrees decided upon in the Council of Ministers.

He shall make appointments to the civil and military posts of the State.

Councillors of State, the Grand Chancellor of the Legion of Honour, Ambassadors and Envoys Extraordinary, Master Councillors of the Audit Office, prefects, representatives of the Government in the Overseas Territories, general officers, rectors of academies [regional divisions of the public educational system] and directors of central administrations shall be appointed in meetings of the Council of Ministers.

An organic law shall determine the other posts to be filled in meetings of the Council of Ministers, as well as the conditions under which the power of the President of the Republic to make appointments to office may be delegated by him to be exercised in his name.

Article 14. The President of the Republic shall accredit Ambassadors and Envoys Extraordinary to foreign powers; foreign Ambassadors and Envoys Extraordinary shall be accredited to him.

Article 15. The President of the Republic shall be commander of the armed forces. He shall preside over the higher councils and committees of national defence.

Article 16. When the institutions of the Republic, the independence of the nation, the integrity of its territory or the fulfilment of its international commitments are threatened in a grave and immediate manner and the regular functioning of the constitutional public powers is interrupted, the President of the Republic shall take the measures required by these circumstances, after official consultation with the Premier and the Presidents of the Assemblies, as well as with the Constitutional Council.

He shall inform the nation of these measures in a message.

These measures must be prompted by the desire to ensure to the constitutional public powers, in the shortest possible time, the means of accomplishing their mission. The Constitutional Council shall be consulted with regard to such measures.

Parliament shall meet by right.

The National Assembly may not be dissolved during the exercise of exceptional powers.

Article 17. The President of the Republic shall have the right of pardon.

Article 18. The President of the Republic shall communicate with the two Assemblies of Parliament by means of messages, which he shall cause to be read, and which shall not be the occasion for any debate.

Between sessions, the Parliament shall be convened especially to this end.

Article 19. The acts of the President of the Republic, other than those provided for under Articles 8 (first paragraph), 11, 12, 16, 18, 54, 56 and 61, shall be countersigned by the Premier and, should circumstances so require, by the appropriate ministers.

Chapter III .- The Government

Article 20. The Government shall determine and conduct the policy of the nation.

It shall have at its disposal the administration and the armed forces.

It shall be responsible to the Parliament under the conditions and according to the procedures stipulated in Articles 49 and 50.

Article 21. The Premier shall direct the operation of the Government. He shall be responsible for national defence. He shall ensure the execution of the laws. Subject to the provisions of Article 13, he shall have regulatory powers and shall make appointments to civil and military posts.

He may delegate certain of his powers to the ministers. He shall replace, should the occasion arise, the President of the Republic as the Chairman of the councils and committees provided for under Article 15.

He may, in exceptional instances, replace him as the chairman of a meeting of the Council of Ministers by virtue of an explicit delegation and for a specific agenda.

Article 22. The acts of the Premier shall be countersigned, when circumstances so require, by the ministers responsible for their execution.

Article 23. The functions of Member of the Government shall be incompatible with the exercise of any parliamentary mandate, with the holding of any office, at the national level, in business, professional or labour organizations, and with any public employment or professional activity.

An organic law shall determine the conditions under which the holders of such mandates, functions or employments shall be replaced.

The replacement of the members of Parliament shall take place in accordance with the provisions of Article 25.

Chapter IV .- The Parliament

Article 24. The Parliament shall comprise the National Assembly and the Senate

The deputies to the National Assembly shall be elected by direct suffrage.

The Senate shall be elected by indirect suffrage. It shall ensure the representation of the territorial units of the Republic. Frenchmen living outside France shall be represented in the Senate.

Article 25. An organic law shall determine the term for which each Assembly is elected, the number of its members, their emoluments, the conditions of eligibility, and the system of ineligibilities and incompatibilities.

It shall likewise determine the conditions under which, in the case of a vacancy in either Assembly, persons shall be elected to replace the deputy or senator whose seat has been vacated until the holding of new complete or partial elections to the Assembly concerned.

Article 26. No Member of Parliament may be prosecuted, searched for, arrested, detained or tried as a result of the opinions or votes expressed by him in the exercise of his functions.

No Member of Parliament may, during parliamentary session, be prosecuted or arrested for criminal or minor offences without the authorisation of the Assembly of which he is a member except in the case of flagrante delicto.

When Parliament is not in session, no Member of Parliament may be arrested without the authorisation of the Secretariat of the Assembly of which he is a member except in the case of flagrante delicto, of authorised prosecution or of final conviction.

The detention or prosecution of a Member of Parliament shall be suspended if the Assembly of which he is a member so demands.

Article 27. Any compulsory vote shall be null and void. The right to vote of the members of Parliament shall be personal.

The organic law may, under exceptional circumstances, authorize the delegation of a vote. In this case, no member may be delegated more than one vote.

Article 28. Parliament shall convene by right in two ordinary sessions a year.

The first session shall begin on the first Tuesday of October and shall end on the third Friday of December.

The second session shall open on the last Tuesday of April; it may not last longer than three months.

Article 29. Parliament shall convene in extraordinary session at the request of the Premier or of the majority of the members comprising the National Assembly, to consider a specific agenda.

When an extraordinary session is held at the request of the members of the National Assembly, the closure decree shall take effect as soon as the Parliament has exhausted the agenda for which it was called, and at the latest twelve days from the date of its meeting.

Only the Premier may ask for a new session before the end of the month following the closure decree.

Article 30. Apart from cases in which Parliament meets by right, extraordinary sessions shall be opened and closed by decree of the President of the Republic.

Article 31. The members of the Government shall have access to the two Assemblies. They shall be heard when they so request.

They may call for the assistance of Commissioners of the Government.

Article 32. The President of the National Assembly shall be elected for the duration of the legislature. The President of the Senate shall be elected after each partial re-election [of the Senate].

Article 33. The meetings of the two Assemblies shall be public. An in extenso report of the debates shall be published in the Journal Officiel.

Each Assembly may sit in secret committee at the request of the Premier or of one-tenth of its members.

Chapter V.—On Relations Between Parliament and the Government

Article 34. Laws shall be voted by Parliament.

They shall establish the regulations concerning:

Civil rights and the fundamental guarantees granted to the citizens for the exercise of their public liberties; the obligations imposed by the national defence upon the person and property of citizens;

Nationality, status and legal capacity of persons, marriage contracts, inheritance and gifts;

Determination of crimes and misdemeanous as well as the penalties imposed therefor; criminal procedure; amnesty; the creation of new juridical systems and the status of magistrates;

The basis, the rate and the methods of collecting taxes of all types; the issue of currency.

They likewise shall determine the regulations concerning:

The electoral system of the Parliamentary Assemblies and the local assemblies;

The establishment of categories of public institutions:

The fundamental guarantees granted to civil and military personnel employed by the State:

The nationalisation of enterprises and the transfers of the property of enterprises from the public to the private sector.

Laws shall determine the fundamental principles of:

The general organization of national defence;

The free administration of local communities, of their competencies and their resources;

Education;

Property rights, civil and commercial obligations;

Legislation pertaining to employment, unions and social security.

The financial laws shall determine the financial resources and obligations of the State under the conditions and with the reservations to be provided for by an organic law.

Laws pertaining to national planning shall determine the objectives of the economic and social action of the State.

The provisions of the present article may be detailed and supplemented by an organic law.

Article 35. Parliament shall authorise the declaration of war.

Article 36. Martial law shall be decreed in a meeting of the Council of Ministers.

Its prorogation beyond twelve days may be authorized only by Parliament.

Article 37. Matters other than those that fall within the domain of law shall be of a regulatory character.

Legislative texts concerning these matters may be modified by decrees issued after consultation with the Council of State. Those legislative texts which shall be passed after the entry into force of the present Constitution shall be modified by decree only if the Constitutional Council has stated that they have a regulatory character as defined in the preceding paragraph.

Article 38. The Government may, in order to carry out its programme, ask Parliament for authorisation to take through ordinances, during a limited period, measures that are normally within the domain of law.

The ordinances shall be enacted in meetings of Ministers after consultation with the Council of State. They shall come into force upon their publication but shall become null and void if the bill for their ratification is not submitted to Parliament before the date set by the enabling act.

At the expiration of the time limit referred to in the first paragraph of the present article, the ordinances may be modified only by the law in those matters which are within the legislative domain.

Article 39. The Premier and the Members of Parliament alike shall have the right to initiate legislation.

Government bills shall be discussed in the Council of Ministers after consultation with the Council of State and shall be filed with the secretariat of one of the two Assemblies. Finance bills shall be submitted first to the National Assembly.

Article 40. The bills and amendments introduced by the Members of Parliament shall be inadmissible when their adoption would have as a consequence either a diminution of public financial resources or an increase in public expenditure.

Article 41. If it shall appear in the course of the legislative procedure that a Parliamentary bill or an amendment is not within the domain of law or is contrary to a delegation granted by virtue of Article 38, the Government may declare its inadmissibility.

In case of disagreement between the Government and the President of the Assembly concerned, the Constitutional Council, upon the request of one or the other, shall rule within a time limit of eight days.

Article 42. The discussion of bills shall pertain, in the first Assembly to which they have been referred, to the text presented by the Government.

An Assembly given a text passed by the other Assembly shall deliberate on the text that is transmitted to it.

Article 43. Government and Parliamentary bills shall, at the request of the Government or of the Assembly concerned, be sent for study to committees especially designated for this purpose.

Government and Parliamentary bills for which such a request has not been made shall be sent to one of the permanent committees, the number of which is limited to six in each Assembly.

Article 44. Members of Parliament and of the Government have the right of amendment.

After the opening of the debate, the Government may oppose the examination of any amendment which has not previously been submitted to committee.

If the Government so requests, the Assembly concerned shall decide, by a single vote, on all or part of the text under discussion, retaining only the amendments proposed or accepted by the Government.

Article 45. Every Government or Parliamentary bill shall be examined successively in the two Assemblies of Parliament with a view to the adoption of an identical text.

When, as a result of disagreement between the two Assemblies, it has been impossible to adopt a Government or Parliamentary bill after two readings by each Assembly, or, if the Government has declared the matter urgent, after a single reading by each of them, the Premier shall have the right to bring about a meeting of a joint committee composed of an equal number from both Assemblies charged with the task of proposing a text on the matters still under discussion.

The text elaborated by the joint committee may be submitted by the Government for approval of the two Assemblies. No amendment shall be admissible except by agreement with the Government.

If the joint committee does not succeed in adopting a common text, or if this text is not adopted under the conditions set forth in the preceding paragraph, the Government may, after a new reading by the National Assembly and by the Senate, ask the National Assembly to rule definitively. In this case, the National Assembly may reconsider either the text elaborated by the joint committee, or the last text voted by it, modified when circumstances so require by one or several of the amendments adopted by the Senate.

Article 46. The laws that the Constitution characterises as organic shall be passed and amended under the following conditions:

A Government or Parliamentary bill shall be submitted to the deliberation and to the vote of the first Assembly notified only at the expiration of a period of fifteen days following its introduction;

The procedure of Article 45 shall be applicable Nevertheless, lacking an agreement between the two Assemblies, the text may be adopted by the National Assembly on final reading only by an absolute majority of its members;

The organic laws relative to the Senate must be passed in the same manner by the two Assemblies;

The organic laws may be promulgated only after a declaration by the Constitutional Council on their constitutionality.

Article 47. The Parliament shall pass finance bills under the conditions to be stipulated by an organic law.

Should the National Assembly fail to reach a decision on first reading within a time limit of forty days after a bill has been filed, the Government shall refer it to the Senate, which must rule within a time limit of fifteen days. The procedure set forth in Article 45 shall then be followed.

Should Parliament fail to reach a decision within a time limit of seventy days, the provisions of the bill may be enforced by ordinance.

Should the finance bill establishing the resources and expenditures of a fiscal year not be filed in time for it to be promulgated before the beginning of that fiscal year, the Government shall urgently request Parliament for the authorization to collect the taxes and shall make available by decree the funds needed to meet the Government commitments already voted.

The time limits stipulated in the present article shall be suspended when the Parliament is not in session.

The Audit Office shall assist Parliament and the Government in supervising the implementation of the finance laws.

Article 48. The discussion of the bills filed or agreed upon by the Government shall have priority on the agenda of the Assemblies in the order determined by the Government.

One meeting a week shall be reserved, by priority, for questions asked by Members of Parliament and for answers by the Government.

Article 49. The Premier, after deliberation by the Council of Ministers, shall make the Government responsible, before the National Assembly, for its programme or, should the occasion arise, for a declaration of general policy.

When the National Assembly adopts a motion of censure, the responsibility of the Government shall thereby be questioned. Such a motion is admissible only if it is signed by at least one-tenth of the members of the National Assembly. The vote may not take place before forty-eight hours after the motion has been filed. Only the votes that are favourable to a motion of censure shall be counted; the motion of censure may be adopted only by a majority of the members comprising the Assembly. Should the motion of censure be rejected, its signatories may not introduce another motion of censure during the same session, except in the case provided for in the paragraph below.

The Premier may, after deliberation by the Council of Ministers, make the Government responsible before the National Assembly for the adoption of a vote of confidence. In this case, this vote of confidence shall be considered as adopted unless a motion of censure, filed during the twenty-four hours that follow, is carried under the conditions provided for in the preceding paragraph.

The Premier shall have the right to request the Senate for approval of a declaration of general policy.

Article 50. When the National Assembly adopts a motion of censure, or when it disapproves the programme or a declaration of general policy of the Government, the Premier must hand the resignation of the Government to the President of the Republic.

Article 51. The closure of ordinary or extraordinary sessions shall by right be delayed, should the occasion arise, in order to permit the application of the provisions of Article 49.

Chapter VI.—On Treaties and International Agreements

Article 52. The President of the Republic shall negotiate and ratify treaties.

He shall be informed of all negotiations leading to the conclusion of an international agreement not subject to ratification.

Article 53. Peace treaties, commercial treaties, treaties or agreements relative to international organization, those that commit the finances of the State, those that modify provisions of a legislative nature, those relative to the status of persons, those that call for the cession, exchange or addition of territory may be ratified or approved only by a law.

They shall go into effect only after having been ratified or approved.

No cession, no exchange, no addition of territory shall be valid without the consent of the populations concerned.

Article 54. If the Constitutional Council, the matter having been referred to it by the President of the Republic, by the Premier, or by the President of one or the other Assembly, shall declare that an international commitment contains a clause contrary to the Constitution, the authorisation to ratify or approve this commitment may be given only after amendment of the Constitution.

Article 55. Treaties or agreements duly ratified or approved shall, upon their publication, have an authority superior to that of laws, subject, for each agreement or treaty to its application by the other party.

Chapter VII.—The Constitutional Council

Article 56. The Constitutional Council shall consist of nine members, whose mandates shall last nine years and shall not be renewable. One-third of the membership of the Constitutional Council shall be renewed every three years. Three of its members shall be appointed by the President of the Republic, three by the President of the National Assembly, three by the President of the Senate.

In addition to the nine members provided for above, former Presidents of the Republic shall be members ex officio for life of the Constitutional Council.

The President shall be appointed by the President of the Republic. He shall have the deciding vote in case of a tie.

Article 57. The office of member of the Constitutional Council shall be incompatible with that of minister or Member of Parliament. Other incompatibilities shall be determined by an organic law

Article 58. The Constitutional Council shall ensure the regularity of the election of the President of the Republic.

It shall examine complaints and shall announce the results of the vote.

Article 59. The Constitutional Council shall rule, in the case of disagreement, on the regularity of the election of deputies and senators.

Article 60. The Constitutional Council shall ensure the regularity of the referendum procedure and shall announce the results thereof.

Article 61. Organic laws, before their promulgation, and regulations of the parliamentary Assemblies, before they come into application, must be submitted to the Constitutional Council, which shall rule on their constitutionality.

To the same end, laws may be submitted to the Constitutional Council, before their promulgation, by the President of the Republic, the Premier, the President of the National Assembly, the President of the Senate, or any sixty deputies or sixty senators.

In the cases provided for by the two preceding paragraphs, the Constitutional Council must make its ruling

within a time limit of one month. Nevertheless, at the request of the Government, in case of urgency, this period shall be reduced to eight days.

In these same cases, referral to the Constitutional Council shall suspend the time limit for promulgation.

Article 62. A provision declared unconstitutional may not be promulgated or implemented.

The decisions of the Constitutional Council may not be appealed to any jurisdiction whatsoever. They must be recognised by the public powers and by all administrative and juridical authorities.

Article 63. An organic law shall determine the rules of organization and functioning of the Constitutional Council, the procedure to be followed before it, and in particular of the periods of time allowed for laying disputes before it.

Chapter VIII .- On Judicial Authority

Article 64. The President of the Republic shall be the guarantor of the independence of the judicial authority.

He shall be assisted by the High Council of the Judiciary. An organic law shall determine the status of magistrates. Magistrates may not be removed from office.

Article 65. The High Council of the Judiciary shall be presided over by the President of the Republic. The Minister of Justice shall be its Vice-President ex officio. He may preside in place of the President of the Republic.

The High Council shall, in addition, include nine members appointed by the President of the Republic in conformity with the conditions to be determined by an organic law.

The High Council of the Judiciary shall present nominations for judges of the Court of Cassation [Supreme Court of Appeal] and for First Presidents of courts of appeal. It shall give its opinion under the conditions to be determined by an organic law on proposals of the Minister of Justice relative to the nominations of the other judges. It shall be consulted on questions of pardon under conditions to be determined by an organic law.

The High Council of the Judiciary shall act as a disciplinary council for judges. In such cases, it shall be presided over by the First President of the Court of Cassation.

Article 66. No one may be arbitrarily detained.

The judicial authority, guardian of individual liberty, shall ensure the respect of this principle under the conditions stipulated by law.

Chapter IX .-- The High Court of Justice

Article 67. A High Court of Justice shall be instituted. It shall be composed, in equal number, of members elected, from among their membership, by the National Assembly and by the Senate after each general or partial election to these Assemblies. It shall elect its President from among its members.

An organic law shall determine the composition of the High Court, its rules, as well as the procedure to be applied before it.

Article 68. The President of the Republic shall not be held accountable for actions performed in the exercise of his office except in the case of high treason. He may be indicted only by the two Assemblies ruling by identical vote in open balloting and by an absolute majority of the members of said Assemblies. He shall be tried by the High Court of Justice.

The members of the Government shall be criminally liable for actions performed in the exercise of their office and rated as crimes or misdemeanours at the time they

were committed. The procedure defined above shall be applied to them, as well as to their accomplices, in case of a conspiracy against the security of the State. In the cases provided for by the present paragraph, the High Court shall be bound by the definition of crimes and misdemeanours, as well as by the determination of penalties, as they are established by the criminal laws in force when the acts are committed.

Chapter X .- The Economic and Social Council

Article 69. The Economic and Social Council, at the referral of the Government, shall give its opinion on the Government bills, ordinances and decrees, as well as on the Parliamentary bills submitted to it.

A member of the Economic and Social Council may be designated by the latter to present, before the Parliamentary Assemblies, the opinion of the Council on the Government or Parliamentary bills that have been sub-

mitted to it.

Article 70. The Economic and Social Council may likewise be consulted by the Government on any problem of an economic or social character of interest to the Republic or to the Community. Any plan, or any bill dealing with a plan, of an economic or social character shall be submitted to it for its advice.

Article 71. The composition of the Economic and Social Council and its rules of procedure shall be determined by an organic law.

Chapter XI.—On Territorial Units

Article 72. The territorial units of the Republic shall be the communes, the Departments, and the Overseas Territories. Any other territorial unit shall be created by law.

These units shall be free to govern themselves through elected councils and under the conditions stipulated by law.

In the Departments and the Territories, the Delegate of the Government shall be responsible for the national interests, for administrative supervision, and for seeing that the laws are respected.

Article 73. Measures of adjustment required by the particular situation of the Overseas Departments may be taken with regard to the legislative system and administrative organization of those Departments.

Article 74. The Overseas Territories of the Republic shall have a particular organization, taking account of their own interests within the general interests of the Republic. This organization shall be defined and modified by law after consultation with the Territorial Assembly concerned.

Article 75. Citizens of the Republic who do not have ordinary civil status, the only status referred to in Article 34, may keep their personal status as long as they have not renounced it.

Article 76. The Overseas Territories may retain their status within the Republic.

If they express the desire to do so by decision of their Territorial Assemblies taken within the time limit set in the first paragraph of Article 91, they shall become either Overseas Departments of the Republic or, organized into groups among themselves or singly, member States of the Community.

Chapter XII .- On the Community

Article 77. In the Community instituted by the present Constitution, the States shall enjoy autonomy; they shall administer themselves and, democratically and freely, manage their own affairs.

There shall be only one citizenship in the Community. All citizens shall be equal before the law, whatever their origin, their race and their religion. They shall have the same duties.

Article 78. The Community shall have jurisdiction over foreign policy, defence, the monetary system, common economic and financial policy, as well as the policy on strategic raw materials.

In addition, except by special agreement, control of justice, higher education, the general organization of external and common transport, and telecommunications

shall be within its jurisdiction.

Special agreements may establish other common jurisdictions or regulate the transfer of jurisdiction from the Community to one of its members.

Article 79. The member States shall benefit from the provisions of Article 77 as soon as they have exercised the choice provided for in Article 76.

Until the measures required for implementation of the present title go into force, matters within the common jurisdiction shall be regulated by the Republic.

Article 80. The President of the Republic shall preside over and represent the Community.

The Community shall have, as organs, an Executive Council, a Senate and a Court of Arbitration.

Article 81. The member States of the Community shall participate in the election of the President according to the conditions stipulated in Article 6.

The President of the Republic, in his capacity as President of the Community, shall be represented in each State of the Community.

Arlicle 82. The Executive Council of the Community shall be presided over by the President of the Community It shall consist of the Premier of the Republic, the heads of Government of each of the member States of the Community, and of the ministers responsible for the common affairs of the Community.

The Executive Council shall organize the co-operation of members of the Community at Government and ad-

ministrative levels.

The organization and procedure of the Executive Council shall be determined by an organic law.

Article 83. The Senate of the Community shall be composed of delegates whom the Parliament of the Republic and the legislative assemblies of the other members of the Community shall choose from among their own membership. The number of delegates of each State shall be determined, taking into account its population and the responsibilities it assumes in the Community.

The Senate of the Community shall hold two sessions a year, which shall be opened and closed by the President of the Community and may not last more than one month

each.

The Senate of the Community, upon referral by the President of the Community, shall deliberate on the common economic and financial policy, before laws in these matters are voted upon by the Parliament of the Republic, and, should circumstances so require, by the legislative assemblies of the other members of the Community.

The Senate of the Community shall examine the acts and treaties or international agreements, which are specified in Articles 35 and 53, and which commit the Com-

munity.

The Senate of the Community shall take enforceable decisions in the domains in which it has received delegation of power from the legislative assemblies of the members of the Community. These decisions shall be promulgated in the same form as the law in the territory of each of the States concerned.

An organic law shall determine the composition of the Senate and its rules of procedure.

Article 84. A Court of Arbitration of the Community shall rule on litigations occurring among members of the Community.

Its composition and its competence shall be determined

by an organic law.

Article 85. By derogation from the procedure provided for in Article 89, the provisions of the present title that concern the functioning of the common institutions shall be amendable by identical laws passed by the Parliament of the Republic and by the Senate of the Community.

The provisions of the present title may also be revised by agreements concluded between all states of the Community: the new provisions are enforced in the conditions laid down by the Constitution of each state.

Article 86. A change of status of a member State of the Community may be requested, either by the Republic, or by a resolution of the legislative assembly of the State concerned confirmed by a local referendum, the organization and supervision of which shall be ensured by the institutions of the Community. The procedures governing this change shall be determined by an agreement approved by the Parliament of the Republic and the legislative assembly

Under the same conditions, a Member State of the Community may become independent. It shall thereby cease to

belong to the Community.

A Member State of the Community may also, by means of agreement, become independent without thereby ceasing to belong to the Community.

An independent State which is not a member of the Community may, by means of agreements, adhere to the

Community without ceasing to be independent.

The position of these States within the Community is determined by the agreements concluded for that purpose, in particular the agreements mentioned in the preceding paragraphs as well as, where applicable, the agreements provided for in the second paragraph of article 85.

Article 87 The particular agreements made for the implementation of the present title shall be approved by the Parliament of the Republic and the legislative assembly concerned.

Chapter XIII.—On Agreements of Association

Article 88. The Republic or the Community may make agreements with States that wish to associate themselves with the Community in order to develop their own civilisations.

Chapter XIV.—On Amendment

Article 89. The initiative for amending the Constitution shall belong both to the President of the Republic on the proposal of the Premier and to the Members of Parliament.

The Government or Parliamentary bill for amendment must be passed by the two Assemblies in identical terms. The amendment shall become definitive after approval by a referendum.

Nevertheless, the proposed amendment shall not be submitted to a referendum when the President of the Republic decides to submit it to Parliament convened in Congress; in this case, the proposed amendment shall be approved only if it is accepted by a three-fifths majority of the votes cast. The Secretariat of the Congress shall be that of the National Assembly.

No amendment procedure may be undertaken or followed if it is prejudicial to the integrity of the territory.

The republican form of government shall not be the object of an amendment.

Chapter XV.—Temporary Provisions

Article 90. The ordinary session of Parliament is suspended. The mandate of the members of the present National Assembly shall expire on the day that the Assembly elected under the present Constitution convenes.

Until this meeting, the Government alone shall have the

authority to convene Parliament.

The mandate of the members of the Assembly of the French Union shall expire at the same time as the mandate of the members of the present National Assembly.

Article 91. The institutions of the Republic, provided for by the present Constitution, shall be established within four months counting from the time of its promulgation.

This period shall be extended to six months for the

institutions of the Community.

The powers of the President of the Republic now in office shall expire only when the results of the election provided for in Articles 6 and 7 of the present Constitution are proclaimed.

The member States of the Community shall participate in this first election under the conditions derived from their status at the date of the promulgation of the Constitution.

The established authorities shall continue in the exercise of their functions in these States according to the laws and regulations applicable when the Constitution goes into force, until the establishment of the authorities provided for by their new regimes.

Until its definitive constitution, the Senate shall consist of the present members of the Council of the Republic. The organic laws that shall determine the definitive constitution of the Senate must be passed before July 31st, 1959.

The powers conferred on the Constitutional Council by Articles 58 and 59 of the Constitution shall be exercised. until the establishment of this Council, by a committee composed of the Vice-President of the Council of State, as Chairman, the First President of the Court of Cassation, and the First President of the Audit Office.

The peoples of the member States of the Community shall continue to be represented in Parliament until the entry into force of the measures necessary to the imple-

mentation of Chapter XII.

The legislative measures necessary to the Article 92. establishment of the institutions and, until they are established, to the functioning of the public powers, shall be taken in meetings of the Council of Ministers, after consultation with the Council of State, in the form of ordinances having the force of law.

During the time limit set in the first paragraph of Article 91, the Government shall be authorised to determine, by ordinances having the force of law and passed in the same way, the system of elections to the Assemblies provided for

by the Constitution.

During the same period and under the same conditions, the Government may also adopt measures, in all domains, which it may deem necessary to the life of the nation, the protection of citizens or the safeguarding of liberties.

ELECTORAL LAW, 1958

The Deputies of the National Assembly for Metropolitan France are elected under a single-member constituency system, with two ballots where the first does not produce an absolute majority. A candidate requires a simple majority in the second ballot to be successful. There are 465 individual constituencies, each with approximately 93,000 electors. Any candidate polling less than 5 per cent of the votes loses his deposit.

The Overseas Territories elect their representatives under

the old system of proportional representation.

THE GOVERNMENT

(February 1975)

HEAD OF THE STATE

President: VALÉRY GISCARD D'ESTAING

COUNCIL OF MINISTERS

Prime Minister: JACQUES CHIRAC (U.D.R).

MINISTER OF STATE

The members of the Senate are elected for a nine-year term by an electoral college composed of the members of the National Assembly, delegates from the Councils of the Departments and delegates from the Municipal Councils. One-third of the Senate is renewable every three years. There are 264 Senators for Metropolitan France, 13 for the Overseas Departments and Territories and 6 senators representing the French living outside France.

POLITICAL PARTIES

Fédération Nationale des Républicains Indépendants: 195 blvd. Saint-Germain, Paris 7e; f. 1966; liberal-conservative party allied to the U.D.R. Obtained 55 seats in the National Assembly in the election of March 1973. Leading government party since May 1974.

Leaders: Pres. Michel Poniatowski; Vice-Pres. Michel D'Ornano, Jean Pierre Soisson: Sec.-Gen. Jacques Dominati.

Publs France Moderne, L'Economic

Union des Démocrates pour la République (UDR): 123 rue de Lille, Paris 7e Obtained 185 seats in the National Assembly in the election of 1973.

Policies: Party formed to support Gen de Gaulle's policies. Since the defeat of the Gaullist candidate in the 1974 presidential election, the majority of the party supports the new president Some elements in the party favour an alliance with the left or greater fidelity to traditional Gaullist principles.

Leaders: Sec.-Gen Jacques Chirac, Deputy Secs.-Gen Albin Chalandon, Maurice Cornette, Yves Guéna, Lucien Neuwirth, Jean Taittinger.

Publs. La Lettre de la Nation (daily), Démocrates (monthly), Les Cahiers (fortnightly)

Parti Socialiste (PS): 12 Cité Malesherbes, Paris qu.

Policies: Subscribes to the common programme of the United Left (with the Parti Communiste). Belief in a planned economy, full employment and the eventual attainment of socialism through the nationalization of key industries. Obtained 89 seats in the National Assembly in the 1973 election.

Zaire: Cour Albert Ier 32, 8e (E); Ambassador: KINDUELA KAPELLA.

Zambia: Bonn, Federal Republic of Germany (E).

JUDICIAL SYSTEM

The Judiciary is independent of the Government. Judges of the Court of Cassation and the First President of the Court of Appeal are appointed by the executive from nominations of the High Council of the Judiciary.

Subordinate cases are heard by Tribunals of Instance (tribunaux d'instance), of which there are 454, and more serious cases by Tribunals of Great Instance (tribunaux de grande instance), of which there are 175 Parallel to these Great Tribunals are the Tribunals of Commerce (tribunaux de commerce), for commercial cases, composed of judges elected by tradesmen and manufacturers among themselves These do not exist in every district. Where there is no Tribunal of Commerce, commercial disputes are judged by Tribunals of Great Instance.

The Boards of Arbitration (Conseils de Prud'hommes) consist of an equal number of workers or employees and employers ruling on the differences which arise over Contracts of Work.

The Correctional Courts (Tribunaux correctionnels) for criminal cases corresponded to the Tribunal of Great Instance for civil cases. They pronounce on all graver offences (delits), including those involving imprisonment.

Offences committed by juveniles of under 18 years go before specialized tribunals: Tribunals for Children.

From all these Tribunals appeal lies to the Courts of Appeal (Cours d'Appel).

The Courts of Assize (Cours d'Assiscs) have no regular sittings, but are called when necessary to try every important case, for example, murder. They are presided over by judges who are members of the Courts of Appeal and composed of elected judges (jury). Their decision is final, except where shown to be wrong in law, and then recourse is had to the Gourt of Cassation (Cour de Cassation).

The Court of State Security (Cour de Sûreté de l'Etat) consists, generally, of three civil magistrates, the President and two members being general or superior officers: this court has jurisdiction over crimes and misdemeanours against the Security of the State in peace time; its decisions are then sent to the Court of Cassation (Cour de Cassation).

The Court of Cassation is not a supreme court of appeal but a higher authority for the proper application of the law. Its duty is to see that judgments are not contrary either to the letter or the spirit of the law; any judgment annulled by the Court of Cassation involves the trying of the case anew by a court of the same category as that which made the original decision.

COURT OF CASSATION Palais de Justice, blvd. du Palais, Paris 1er First President: M. AYDALOT.

Presidents of Chambers: MM. Monguilan (Chambre Commerciale), Costa (3ème Chambre Civile), Drouillat (2ème Chambre Civile), Bellet (1ère Chambre Civile), COMBALDIEU (Chambre Criminelle), (Chambre Sociale).

Solicitor-General: M. Touffait.

There are 78 Counsellors, one First Attorney-General and 18 Attorneys-General.

Chief Clerk of the Court: M. DEPEYROT.

Council of Advocates at Court of Cassation: President M. CAIL.

There are also 123 Counsellors, 21 Attorneys-General and 33 Deputies.

TRIBUNAL OF GREAT INSTANCE OF PARIS

Palais de Justice, Paris 1er

President: M. VASSOGNE.

Solicitor of Republic: M. PAGEAUD.

TRIBUNAL OF COMMERCE OF PARIS

1 blvd. du Palais, Paris 4e

President: M. MARTINEAU.

ADMINISTRATIVE JURISDICTION

Certain cases arising between civil servants (when on duty) and the government, or between any citizen and the government are judged by special administrative courts. The Administrative Tribunals (Tribunals Administratifs) of which there are 22, are situated in the capital of each area; the Council of State (Conseil d'Etat), see below, has its seat in Paris.

Tribunal of Disputes (Tribunal des Conflits): Decides whether cases shall be submitted to the ordinary or the administrative courts. It is composed of: Pres. The Minister of Justice; Vice-Pres. M. Heumann; four Counsellors of the Court of Cessation and three Counsellors of State.

Cour des Comptes (Court of Accounts), 13 rue Cambon, Paris Ier: is an administrative tribunal charged with judging the correctness of public accounts. It is the judge of common law of all public accounts laid before it. The judgments of the Court of Accounts may be annulled by the Council of State.

First President: M. ARNAUD.

Presidents: MM. LE VERT, MERVEILLEUX DU VIGNAUX, MONS, LE CONTE, DE CHILLAZ, FAVIER.

Attorney-General: M. CRÉPEY Secretary-General: M. JACCOUD.

Solicitors-General: MM. AUMAGE. VACQUIER.

COUNCIL OF STATE

Palais-Royal, Paris

Conseil d'Etat (Council of State): Has a double role: it is a council of the central power and an administrative tribunal. As the consultative organ of the government, it gives opinions in the legislative and administrative domain (interior, finance, public works and social section). In administrative jurisdiction it has three functions: to judge in the first and last resort such cases as appeals against excess of power laid against official decrees or individuals; to judge appeals against judgments made by administrative tribunals and resolutions of courts of litigation; and to annul decisions made by various specialised administrative authorities which adjudicate without appeal, such as the Court of Accounts.

President of the Council: THE PRIME MINISTER.

Vice-President: M. CHENOT.

Presidents of Sections: MM. FOUAN, LAROQUE, MARTIN, ODENT, MASPETIOL.

General Secretary: M. DUCAMIN.

RELIGION

THE ROMAN CATHOLIC CHURCH

Ecclesiastically, France is divided into 17 Provinces and 90 Dioceses. The French Catholic Church has in all 125 Archbishops and Bishops, resident and titular, of whom 5 are Cardinals (LL.EE. Renard, Marty, Gouyon, Guyot, Martin). The Primate of France is the Archbishop of Lyon. About 90 per cent of the population of France is Roman Catholic.

THE PRESS

The French Press, distinguished for its vitality and variety, has enjoyed (since the fundamental legislation of 1881) a continuous period of freedom interrupted only by the two world wars. This detailed and liberal law affirmed the right of individuals to produce newspapers and provided penalties for such abuses as defamation and the publication of false news or matter liable to provoke crime. Article 26, which has been frequently invoked in recent years, penalizes matter judged to be offensive to the Head of State. In March 1968 the author and publisher of a pamphlet designed to make public the workings of Article 26 were both found guilty of insulting the President and were fined.

A number of amendments have been introduced modifying this legislation. In 1944 it was decreed that the owner of a daily or weekly newspaper stood legally responsible for it; the director of a daily with circulation of over 50,000 or of a weekly with circulation over 10,000 may not derive his main source of income from industrial or commercial holdings, and may not be director of more than

one daily paper. In 1945 an order was introduced penalizing the dissemination of inaccurate news in bad faith so as to disturb the peace. A law in 1946 authorized the confiscation of property in cases of newspapers guilty of collaboration during the Occupation. The Law concerning papers for Children and Young People in 1949 prohibited editors from presenting in an attractive light "banditry, theft, laziness, cowardice, hatred, debauchery, criminal acts or acts liable to demoralize the young or inspire racial prejudice". The status of journalists was officially defined in the law of March 1935 which gave them certain privileges in such matters as holidays, salaries and protection against dismissal.

In addition to these pieces of legislation there are a number of articles in the Penal Code affecting the Press, sometimes quite harshly. Article 75 penalizes the disclosure of defence secrets, and Article 76 penalizes any disclosure of military intelligence not officially authorized.

All periodicals appearing regularly at least four times a year and all daily papers are exempt by law from turnover tax. This privilege, which amounts to a virtual subsidy, gives papers a degree of protection from the dangers of

commercial competition,

The introduction in 1968 of advertising on television accelerated the trend towards concentration in the press, since most newspapers received at least half of their income from advertising and some, like Figaro, as much as 80 per cent. A further blow to the newspapers was the large increase in the cost of newsprint in 1971; in the first half of 1972 the newspapers were given 15m. frs. "exceptional assistance" to offset these costs. The number of national dailies has remained fairly stable at around 13 since 1949, but the number of provincial dailies dropped sharply from 139 in 1949 to 94 in 1969. Circulation figures have not risen with the rise in population.

No really large press groups have emerged, as in Britain or West Germany, mainly because of the importance of the provincial press, which is related in turn to the strength of the republican tradition, dating from the early days of the Third Republic, and the circumstances of the German occupation, which cut Paris off from the rest of France. Hence there are no really "national" newspapers in France. Two-thirds of the population read only provincial papers; and of the Paris papers only France-Soir and Le Parisien Libéré have circulations approaching one million, with their two closest rivals in Paris. Figuro and Le Monde, each remaining well below the 500,000 mark, although nearly half of these sales are outside the metropolis. The increasing financial insecurity and heavy dependence on advertising has forced many papers into various schemes of rationalization. Among provincial papers the trend has been towards advertising pools, and six groups have now been formed, each centred on one or two papers, covering most of the country. The agreement between Le Progrès de Lyon group and the Dauphiné Libéré group of Grenoble covers not only a unified advertising administration but also common printing arrangements and the use of common copy. Other papers have sought stability by allowing staff participation in the controlling companies. Thus Le Monde in March 1968 widened the block of shares distributed among its employees under the 1951 scheme to give its journalists a controlling interest in the company's capital.

The weekly press has advanced strikingly in recent years, helped by the adoption of new formats and printing techniques and by the abandonment of specific political standpoints. The two best examples of this are L'Express and Le Nouvel Observateur.

The only major daily which acts as the organ of a political party is the Communist paper, L'Humanité. All others are owned by individual publishers or by the powerful groups which have developed round either a company or a single personality. The major groups are as follows:

France Editions et Publications Group: 100 rue Réaumur, Paris 2e; France-Soir, Paris-Presse, le Journal du Dimanche, France-Dimanche, Elle, Le Jardin des Modes, Arts Ménagers, Scoop, Photogravure Réaumur. Imprimerie Réaumur have a 50 per cent holding in Télé-7-Jours.

Amaury Group (Dir.-Gen. CLAUDE BELLANGER): 124 rue Réaumur, 75080 Paris and 18 rue d'Enghien, 75010 Paris; owns Le Parisien Libéré, the provincial dailies Le Courrier de l'Ouest, Le Maine Libre and the sports daily L'Equipe, several weeklies, including Points de Vue, Images du Monde, and monthlies, including Marie-France. The group own three printing houses and two advertising agencies.

Prouvost Group (Pres. and Chief Editor Jean Prouvost): 51 rue Pierre Charron, Paris 8e; owns Paris-Match, Marie-Claire, la Maison de Marie Claire, Les Parents, Mademoiselle, a half-interest in Télé-7-Jours and a major share in

the Société du Figaro, which publishes Figaro, Figaro Littéraire, etc.

Del Duca Group: owns several popular magazines, including Nous Deux, Intimité, and women's and children's journals, including Modes de Paris, and also Télé-Poche. The group also owns factories and has extensions in Italy.

Bayard Presse: important catholic press group; owns the national La Groix, Le Pélérin du XXe Siècle, Panorama Aujourd'hui, important magazines for young people such as Record, Okapi and Pomme d'Api, and other publications including Bible et Terre Sainte and Documentation Catholique. The organization also owns two publishing houses, one advertising agency and three printing works.

Filipacchi Group: devoted to teen-age and jazz-san readership; owns seven magazines including Salut les Copains, Mademoiselle Age Tendre, Lui, and Jazz Magazine.

Among the metropolitan dailies, the outstanding papers are Le Monde (355,000), which carries no pictures, and Le Figaro. The most popular are; France-Soir (881,000), Le Parisien Libéré (786,000), Le Figaro (419,000), and L'Aurore (409,000). The English language International Herald Tribune (121,000) is also a prominent feature. The major provincial dailies are Ouest-France published at Rennes (725,000), Le Progrès at Lyons (445,000), Le Pauphiné Libéré at Grenoble (432,000) and La Voix du Nord at Lille (422,000), which cater for rural readership by producing local subsidiary editions.

Metropolitan weekly papers range from the popular press, such as France Dimanche (1,450,000) and Ici Paris (1,100,000), through the more serious current affairs magazines like L'Express, Le Nouvel Observateur and the satirical Canard Enchaine, to the literary and cultural Figaro Littéraire. Among the popular periodicals must be mentioned the weekly illustrated Paris-Match (811,000) and the women's journals Marie-Claire (678,000), Elle (730,000) and Marie-France (796,000).

RADIO AND TELEVISION

Broadcasting in France is a state monopoly. From 1964 to 1974 it was run by the Office de Radiodiffusion-Télévision Française (ORTF), under the tutelage of the Ministry of Information. The ORTF met with increasing difficulties and criticism from 1968 onwards. It was subject to repeated strikes, accusations of political bias from both the right and the left and scandalous revelations of economic mismanagement. In 1972, following disclosures of clandestine advertising in programmes, a new statute was adopted reorganizing the ORTF into eight separate administrative units under a Chairman, who was to guarantee the freedom of the office from government control. In 1973, however, the Chairman, Arthur Conte, was summarily dismissed after a disagreement with the Minister of Information. The new Chairman, Marceau Long, was given a brief to bring into effect the decentralization of the ORTF which had been decided upon in 1972. His implementation of these measures was interrupted in May 1974 by the election of a new President of the Republic. One of the first acts of the new administration was to introduce legislation for the dissolution of the ORTF and its replacement by seven independent state-financed companies. The law was passed in July and the seven companies came into operation on January 6th 1975. They comprise four organizations with responsibility for programmes (one for each television channel and one for radio), an audio-visual institute, a company responsible for carrying out major production work for the radio and television institutions, and an establishment with general responsibility for broadcasting. Each company has its own budget and an administrative council composed of two representatives of the state, and one representative each of parliament, the press and the staff, excepting the Etablissement Public de Diffusion which has a larger council. The first and second television channels are partly financed by advertising.

Etablissement Public de Diffusion: 116 ave. du Président Kennedy, Paris 16e; f. 1975; general responsibility for broadcasting; administrative council comprising eight representatives of the state, a member of the National Assembly, a member of the Senate and a representative of the staff; Pres. Jean Autin.

Société Nationale de Radiodiffusion: Paris; f. 1975; production of radio programmes; Pres. JACQUELINE BAUDRIER.

Société de Programme Première Chaine de Télévision-Télévision Française I (TFI): Paris; f. 1975; production of programmes on the first television channel; Pres. IEAN CAZENEUVE.

Société de Programme Deuxième Chaine de Télévision-Antenne 2 (A2): Paris; f. 1975; production of programmes on the second television channel; Pres. MARCEL JULLIAN.

Société de Programme Troisième Chaîne de Télévision-France Régions 3 (FR3): Paris; f. 1975; production of programmes on the third television channel; responsible for regional radio and television and for overseas television; Pres. Claude Contamne.

Société Nationale de Production: Paris; f. 1975; production of major programmes for radio and television; Pres. LEAN-CHARLES EDELINE.

Institut de l'Audio-Visuel: Paris; f. 1975; research and professional training in the field of broadcasting; Pres. Pierre Emmanuel.

RADIO Home Services

France-Inter: Entertains and informs. Broadcasts transmitted for 24 hours a day; they can be received by 98

per cent of the population and by listeners outside France.

There are two main programmes, France-Inter and France-Inter Variétés. Other specialized and regional items are also produced.

Main transmitters for the two programmes: Allouis 1,829 metres; Nice I 193 metres.

France Culture: Serious programme on art, culture and thought; broadcasts can be received by 95 per cent of the population

Seventeen medium-wave and forty-nine high fidelity transmitters.

France Musique: Transmission on frequency modulation transmitters. Nearly 95 per cent of the programme is devoted to music; there are regular stereophonic transmissions.

Forty-nine transmitters.

France-Inter is broadcast on long, medium and short waves and France-Inter Variétés is broadcast on medium wave and high fidelity (frequency modulated) transmitters.

Radio-Sorbonne: Low power transmission of educational programmes. Only available in the Paris region.

There are nine regional stations which relay Parisian programmes as well as regional broadcasts. Strasbourg radio includes daily broadcasts in German.

FOREIGN SERVICES

Broadcasts in French to French Polynesia, New Caledonia, New Hebrides, West and Equatorial Africa, Antarctica (Terre Adélie), Antilles, Guiana, St. Pierre-et-Miquelon, Indian Ocean and Africa.

Broadcasts to Europe in Bulgarian, English, French, Greek, Hungarian, Polish, Portuguese, Romanian, Russian, Serbo-Croat, Czech, Slovak, Slovenian, Spanish and Yiddish. Also to Canada (in French), Latin America (in French, Spanish and Portuguese). There are broadcasts in Arabic for Arabs not only in France, but also in North Africa and the Near East.

PRIVATE RADIO

Despite the ORTF's monopoly of broadcasting within France, a number of radio stations based in countries on France's perimeter have very large French audiences. These include notably R.T.L. (Luxembourg), Europe No. 1, Radio Monte Carlo (Monaco), Radio Andorra and Sud-Radio (Andorra). The French Government has major shareholdings in Europe No. 1 and R.T.L.

Number of receivers (1972): 17,034,000.

TELEVISION

There are three state-run channels.

On the first network transmission is on a 819-line system in black and white, and covers 98.5 per cent of the population.

There are 66 transmitting stations and about 1,040 low-powered relay stations.

The second network is on a 625-line system in colour and 96.5 per cent of the population can receive it.

There are 104 transmitting stations and about 286 low-powered relay stations.

The third network, introduced in 1973, is on a 625-line system in colour and 70 per cent of the population can receive it.

There are 26 transmitting stations.

Number of sets (Dec. 1973): 13,000,000.

Colour television, which was introduced in October 1967, is relayed for 73 hours per week on the second and third networks. The first network will change to colour in 1975. The SECAM system is used.

Both Télé Luxembourg and Télé Monte Carlo have large regional audiences in France. German-speaking inhabi-

tants of Alsace watch programmes from the Federal Republic.

OVERSEAS TELEVISION SERVICE

Programmes are produced in Martinique, Guadeloupe, Guiana, Réunion, New Caledonia, Saint-Pierre et Miquelon, French Polynesia and French Territory of Afars and Issas.

President: PIERRE DREYFUS.

SERVICE D'EXPLOITATION INDUSTRIELLE DES TABACS ET DES ALLUMETTES

53 quai d'Orsay, Paris 7e

Responsible for the production and marketing of tobacco and matches in France; sales totalled 7,463 million francs in 1971; 6,400 employees.

President: Ph. DE MONTREMY. Director-General: P. MILLET.

TRANSPORT

RAILWAYS

Most of the French railways are controlled by the SNCF which took over the activities of the largest railway companies in 1937. These companies still exist and have a 49 per cent share of the capital of the SNCF and three seats on the Board of Directors. The SNCF is divided into five regional networks which are subdivided into a total of 25 smaller administrative units. In December 1973 it operated 34,812 km. of track, of which 9,325 km. were electrified. The Parisian transport system is controlled by a separate authority, the RATP. In December 1973 it operated 250 km. of track, all electrified. A number of small railways in the provinces are run by independent organizations.

Société Nationale des Chemins de fer Français (SNCF):
88 rue St. Lazare, 75436 Paris-Cédex 09; f. 1937; 51 per
cent state-owned; Pres. of Board of Dirs. André
SEGALAT; Vice-Pres. ROGER COQUAND, MICHEL DE
BOISSIEU; Dir.-Gen. PAUL GENTIL; Deputy Dirs.-Gen.
ROGER HUTTER, MARC STEIN, JEAN DUPUY; Sec.-Gen.
JEAN-JACQUES BURGARD.

REGIONAL ADMINISTRATION

Réseau de l'Est: 13 rue d'Alsace, 75475 Paris; Dir. ROBERT TOUCHOT.

Réseau du Nord: 18 rue de Dunkerque, 75475 Paris; Dir. ROBERT GEAIS.

Réseau de l'Ouest: 20 rue de Rome, 75008 Paris; Dir. PIERRE RAVENET.

Réseau du Sud-Ouest: 1 place Valhubert, 75634 Paris; Dir. André Loze.

Réseau du Sud-Est: 20 blvd. Diderot, 755751 Paris; Dir. René Dine.

METROPOLITAN RAILWAY

Régie Autonome des Transports Parisiens (RATP): 53 Quai des Grands Augustins, P.O.B. 70-06, 75271 Paris Cédex 06; f. 1949; operates the Paris transport system; Chair. Roger Belin; Gen. Man. Pierre Giraudet.

ROADS

There were 793,826 km. of roads in France in 1973. Of these, some 26,300 km. are national roads, and 2,426 km. motorway (autoroute). There are also 690,000 km. of rural roads not included in these figures.

 88 rue Saint-Lazare, 75436 Paris-Cédex 09; tonnage
 21,322 gross; Chief Shipping Manager Philippe Graff,
 51 rue de Londres, Paris 8e; cross-Channel passenger,
 accompanied motor-car, freight and roll on/roll off and
 containers on train-ferries, car-ferries and container
 ship.
- Société Navale Caennalse: 58 ave. Pierre Berthelot, Caen; f. 1901; tonnage 88,750 gross; Chair, Georges Guillin; Man. Dir. Girault Danjou-Lenègre; tramping and regular lines.
- Société Navale Chargeurs Delmas-Vieljeux (S.N.C.D.V.):
 16 ave. Matignon, 75008 Paris; f. 1867; 26 vessels;
 tonnage 384,000 d.w.; Chair. Tristan Vieljeux;
 Man. Dirs. Patrice Vieljeux, J.-N. Penarine,
 Harry Bouscasse; cargo service from French,
 German and Dutch ports to West and East Africa, also
 ocean tramping and tankers, bulk liquids.
- Union Industrielle et Maritime: 36 rue de Naples, 75008 Paris; tonnage 86,000 gross; cargo services, continental, North Africa, trânsatlantic; Chair. P. E. CANGARDEL; Mans. A. GODILLON, J. LEFEURE.
- Union Navale: 42 avenue Raymond Poincaré, Paris; tonnage 58,000 gross; bulk transport.

Van Ommeren (France): 17 rue Tronchet, Paris 8e; tonnage 80,000 gross; Chair. J. P. Marchand; coastal tankers and tramping.

CIVIL AVIATION NATIONAL AIRLINES

Air France: 1 square Max Hymans, Paris 15e; f. 1933; Chair. Georges Galichon; Man. Dir. Gilbert Pérol; Deputy Man. Dirs. Raymond Dupré, Léopold Jeorger, Claude Lalanne, Jean-Louis Rattier; flect (1974) of 14 Boeing 747, 32 Boeing 707 (3 cargo), 20 Boeing 727, 32 Caravelle and 3 Airbus; internal, European and intercontinental services; flights to Africa, Madagascar, Americas, Middle and Far East and West Indies.

Air France also operates a night mail service for the postal authorities.

Air-Inter: 232 rue de Rivoli, 75041 Paris-Cedex 1; f. 1954; operates internal services within metropolitan France;

Air France and the S.N.C.F. are the part owners; fleet of 21 Caravelles, 10 Fokker F-27, 11 Viscounts; Pres. ROBERT VERGNAUD; Dir.-Gen. PAUL MARLAND.

There are international airports at Orly and Le Bourget (Paris), Bordeaux, Lyons, Marseilles and Nice.

The Charles-de-Gaulle airport at Roissy (North Paris) was opened in March 1974 and will be fully operational by 1985 with a capacity of 40 million passengers.

PRIVATE AIRLINES

Union de Transports Aériens (U.T.A.): 50 rue Arago, 92806 Puteaux; f. 1963; Chair. Francis Fabre; services to West and South Africa, Middle and Far East, Indonesia, Australia, New Caledonia, New Zealand, Fiji, Tahiti, Hawaii and the West Coast of the U.S.A.; fleet of 10 DC-8, 1 Caravelle and 4 DC-10.

Thirteen small private companies provide regional airtaxi services. About 70 international airlines serve France.

TOURISM

Gommissariat Général au Tourisme: 8 ave. de l'Opéra, Paris 1er; High Commr. J. P. Dannaud; Gen. Man. for Admin. affairs A. Letourneux; Gen. Man. for Trade promotion M. Malherbe.

There are Regional Committees of the Direction Générale du Tourisme in the 23 regions. Every city in France also has a Syndicat d'Initiative, the local tourist office run by the local authorities.

OFFICES IN EUROPE

Austria: Walfischgasse 1, 1010 Vienna.

Belgium: 25/27 blvd. Adolphe-Max, Brussels.

Denmark: V. Voldgade 83, P.O.B. 64, 1150 Copenhagen.

German Federal Republic: Services Officiels du Tourisme Français, Postfach 3,487, Frankfurt am Main.

Italy: 5, Via Sant 'Andréa, Milan.

Netherlands: Prinsengracht 670, Amsterdam. Portugal: Rua Rodrigues Sampaio 18, Lisbon. Spain: 59 Avenida José Antonio, Madrid 13.

Sweden: Skeppsbron 8, Box 247, S III 82, Stockholm.

Switzerland: P.O. Box 842-8022 Zurich.

Turkey: Air France, Taksim Cümhuriyet, Caddesi 7, Istanbul.

United Kingdom: 178 Piccadilly, London, W.1.

U.S.S.R.: Cie. Air-France, Hotel Metropole, Room No. 305, pl. Sverdlova 2/4, Moscow.

Office de Tourisme de Paris: 127 ave. des Champs Elysées, 75008 Paris.

CULTURAL ORGANIZATION

Ministry of State for Cultural Affairs: 3 rue de Valois, Paris 1er; Minister of State EDMOND MICHELET.

PRINCIPAL THEATRES

Comédie-Française: Place du Théâtre-Français, Paris 1er; f. 1680; Administrator PIERRE Dux.

Théâtre National de l'Odéon: 1 place Paul Claudel, Paris 6e; Dir. Pierre Dux.

Théâtre National de l'Opéra: Place de l'Opéra, Paris 9e; Admin. 8 rue Scribe; f. 1671; Gen. Man. Rolf Lieber-Mann; Asst. Gen. Man. H. R. Gall.

Théâtre National de l'Opéra-Comique: Place Boïeldieu, Paris 2e; f. 1714; Dir. BERNARD LEFORT.

Théâtre National de Chaillot (T.N.P.): 1 Place du Trocadéro, 75116 Paris; f. 1937; Dir. JACK LANG.

PRINCIPAL ORCHESTRA

Orchestre de Paris: 15 ave. Montaigne, 75008 Paris; f. 1967; Dir. Sir Georg Solti.

ATOMIC ENERGY

Commissariat à l'Energie Atomique (Atomic Energy Commissariat): 29-33 rue de la Fédération, Paris 15e; f. 1945; Admin.-Gen. (Government Delegate) M. GIRAUD; Sec. Gen. PIERRE PELLETIER.

The Commissariat is under the direct authority of the Ministry of Industrial and Scientific Development. It is a public corporation with administrative and financial autonomy, with responsibilities in scientific research, technical development and industry in the nuclear field.

Under the second five-year atomic energy plan (1957-61), it was arranged that the Commissariat should cease to have sole responsibility for atomic energy in France. This responsibility is now shared by other corporations (in-

cluding Electricité de France) which are entrusted with the realization and exploitation of the main productions of nuclear electricity.

Administration is in the hands of a fifteen-member Comité de l'Energie Atomique (Atomic Energy Committee), consisting of government officials and representatives of science and industry.

Advisory Agencies to the Commissariat

Scientific Council: Pres. Jacques Yvon.

Mines Committee: Pres. Prof. MARCEL ROUBAULT.

Advisory Commission for Nuclear Electricity Production: Pres. JEAN COUTURE.

Markets: Pres. Eugène Faller.

There also functions within the Commissariat the following departments:

Délégué à la mission Matières Nucléaires (Directorate of Nuclear Materials): Dir, M. TARANGER,

Délégué à la mission Applications Militaires (Directorate of Military Uses): Dir. M. CHEVALLIER.

Délégué à la mission Recherche Fondamentale (Directorate of Fundamental Research): Dir. M. HOROWITZ.

Délégué à la mission Protection et Sûreté Nucléaires (Directorate of Radiological protection and security): Dir. M. GAUVENET.

Délégué à la mission Applications Industrielles Nucléaires (Directorate of Nuclear Industrial Applications): Dir. M. Pecoueur.

Délégué à la mission Coopération Industrielle non Nucléaire (Directorate of non-Nuclear Industrial Co-operation); Dir. M. NOLLET.

Délégué à la mission Programmes d'Intérêt Général (Directorate of General Programmes): Dir. M. BALLIGAND.

Institut National des Sciences et Techniques Nucléaires (National Institute of Nuclear Science and Technology): B.P. 6, 91190 Gif-sur-Yvette; f. 1956; Dir. Y. Ber-GERARD; Pres. Council of Instruction Rector MALLET.

The National Institute of Nuclear Science and Technology organizes courses on atomic engineering, special metallurgy, advanced analytical chemistry, structure mechanics, reactor physics, and research and development economics.

Gentre d'Etudes Nucléaires de Cadarache (Cadarache Nuclear Research Station): B.P. 1, 13115 Saint-Paul-les-Durance, Bouches-du-Rhône; f. 1960; Dir. ad. int. A. Junca.

Gentre d'Etudes Nucléaires de Fontenay-aux-Roses (Fontenay-aux-Roses Nuclear Research Centre): B.P. 6. Fontenay-aux-Roses 92260; f. 1945; Dir. C. CHAUVEZ.

Gentre d'Etudes Nucléaires de Grenoble (GEN-G) (Grenoble Nuclear Research Centre): BP 85, Centre de Tri, 38041 Grenoble-Cédex; f. 1956; staff 2,400; basic and applied research; three swimming-pool open-core reactors (35 mW., 8 mW., 100 kW.); 40 laboratories; Dir. MAURICE PASCAL.

Gentre d'Etudes Nucléaires de Saclay (CENS) (Saclay Nuclear Research Centre): B.P. 2, 91190 Gif-sur-Yvette; f. 1949; Dir. PAUL BONNET.

The four Research Centres are equipped with reactors, the Grenoble Centre having been established as a means of associating the universities with the advancement of nuclear science and avoiding the over-centralisation of research. The Centre of Nuclear Studies at Cadarache is devoted to industrial nuclear research, both for electric generation and for propulsion. Fundamental research is also carried out in the fields of radiological safety, radio ecology and radioagronomy.

Centro National de la Recherche Scientifique (CERN):

There are several nuclear research centres attached to
this institution, and the largest nuclear laboratory
complex is situated at Strasbourg.

Groupe de Laboratoires de Strasbourg-Cronenbourg: rue du Loess, B.P. 20CR, 67 Strasbourg 3; f. 1957; Dirs. P. Cuer, S. Gorodetzky, G. Monsonego, Mile M. Perey, A. Coche, J. H. Vivien.

UNIVERSITIES

Université d'Aix-Marseille I-III: Aix-en-Provence and Marseille.

Université d'Angers: Angers; 80 teachers, 4,500 students. Centre Universitaire d'Avignon: Avignon; 63 teachers,

1,200 students.

Université de Besançon: Besançon; 690 teachers, 10,645 students.

Université de Bordeaux I-III: Bordeaux and Talence.

Université de Brest: Brest; 320 teachers, 4,900 students.

Université de Gaen: Caen; 207 teachers, 11,743 students.

Université de Clermont-Ferrand: Clermont-Ferrand; 532 teachers, 13,980 students.

Université de Technologie de Compiègne: Compiègne; 41 teachers, 100 students.

Université de Dijon: Dijon; 12,460 students.

Université de Grenoble I-III: Grenoble.

Gentre Universitaire du Haut-Rhin: Mulhouse; 1,700 students.

Centre Universitaire du Mans: Le Mans; 194 teachers, 3,169 students.

Université de Lille 1-III: Lille: 1,803 teachers, 34,559 students.

Université de Limoges: Limoges; 350 teachers, 5,000 students.

Université de Rennes 1-11: Rennes; 2 operational from 1971; 1,038 teachers, 20,500 students.

Université de Rouen: Rouen; 855 teachers, 10,736 students.

Université de Saint-Etienne: Saint-Etienne.

Centre Universitaire de Savoie: Chambéry.

Université de Strasbourg 1-III: Strasbourg; 1,437 teachers, 25,054 students.

Centre Universitaire de Toulon et du Var: La Garde.

Université de Toulouse I-III: Toulouse.

Université de Tours: Tours.

Centre Universitaire de Valenciennes: Valenciennes: 115 teachers, 1,500 students.

GERMAN DEMOCRATIC REPUBLIC

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The German Democratic Republic is bounded to the north by the Baltic Sea, to the west, south-west and south by the Federal Republic of Germany, to the south-east by Czechoslovakia and to the east by Poland along the line of the rivers Oder and Neisse. The climate is warm in summer with cold winters. The language is German. About 50 per cent of the population are Protestant (mainly belonging to the Evangelical Church) and 10 per cent Roman Catholic. The national flag (proportions 5 by 3) carries three equal horizontal bands of black, red and gold, bearing in the centre the coat of arms showing a hammer and compass on a wreath of grain. The capital is East Berlin.

Recent History

After Germany's unconditional surrender in 1945, the country was divided according to the Potsdam agreement into four Allied zones of occupation. The Potsdam Declaration stated that, pending a final peace treaty, those areas of the former German Reich east of the line defined by the course of the rivers Oder and Neisse (Oder/Neisse Line), including the city of Danzig, should become part of Poland. The northern section of East Prussia became part of the Soviet Union. These territories amounted to about 14 per cent of the population and 24 per cent of the area of the former Reich. During 1946, in the Soviet Zone, the Communist Party fused with the Social Democratic Party to form the Socialist Unity Party (S.E.D.) which, since that time (under the leadership of Walter Ulbricht and, from May 1971, Erich Honecker), continues to exert a leading influence upon the development of the State.

The immediate post-war period was marked by a process of denazification and nationalization. Many industrial enterprises became state-owned, and under the land-reform measures large areas of landed property were taken over by the state and converted to various types of collective farming.

In 1949, following the foundation of the Federal Republic of Germany, the Soviet Zone produced a constitution of its own, thus declaring itself to be the German Democratic Republic, with its capital in Berlin. The early years of the G.D.R. were severe for the population. Much war damage had been inflicted upon the industrial capacity of the territory, which had anyway been primarily an agricultural area of the Reich. Large sections of the industry which remained had been transported to the Soviet Union as part of the heavy reparations, and the G.D.R. contributed to the upkeep of Soviet forces permanently stationed within its borders.

With these economic burdens, and the Government's concerted drive to build heavy industry, the standard of living remained low and in 1953 popular discontent led to uprisings in East Berlin and other cities. These were suppressed by Soviet troops, and the Government modified its economic policy towards an improvement in living standards. With a continual outflow of refugees, the population

declined—a situation particularly worrying to the Government since many of the refugees were from the skilled labour force and the professions. In 1961 the stream of refugees leaving the G.D.R. via West Berlin was halted by the construction of a wall between East and West Berlin, thus completing the G.D.R's control of its frontiers. In the ensuing years, and particularly since the introduction of the "New Economic System" in 1963, the G.D.R. has, like the Federal Republic, brought about its own economic miracle and has emerged as the most dynamic economy in Eastern Europe.

In 1955 a peace treaty was signed with the Soviet Union. The Republic has been a member of the Council for Mutual Economic Assistance (COMECON) since 1950, and in 1964 signed a 20-year treaty of Friendship, Mutual Assistance and Co-operation with the Soviet Union. Up to the late 1960s the G.D.R. was recognized only by the other countries in the Socialist Bloc, but since 1971 many other states have established diplomatic relations with the Republic. Because of unresolved problems concerning its status, in the context of former Allied agreements, no western country would recognize the G.D.R. until such questions had been determined with Federal Germany. However, trade representations had existed for some years in several western European capitals.

Herr Stoph, Chairman of the G.D.R. Council of Ministers, and Federal Chancellor Brandt met twice in 1970. These were the first such meetings in the history of divided Germany. In 1971, following the four-power agreement on Berlin signed in September, representatives of the two German states and of West Berlin held talks which clarified the details of access rights to West Berlin and also allowed West Berliners to visit the G.D.R. Though many differences remain, the two states agreed in 1972 on a basic treaty governing their relationship, which was signed on December 21st. The treaty came into force in June 1973. On March 14th, 1974, a further agreement was signed in Bonn, implementing Article 8 of the "Basic Treaty", to set up Permanent Representative Missions in Bonn and East Berlin. These agreements opened the way for many western countries to establish diplomatic relations with the G.D.R. and for the G.D.R. to join the United Nations in September 1973.

Government

The government is that of a people's democracy on the Soviet pattern. All citizens of 18 years and over have the right to vote representatives to the Volkskammer (People's Chamber) who in turn elect the Presidium, the Council of State and its Chairman, the Head of State. The Volkskammer also elects the Chairman of the Council of Ministers (the executive organ) and approves his appointed ministers.

In April 1968 nearly 95 per cent of the electorate voted in favour of the new Constitution which came into force immediately.

Defence

A National People's Army, comprising land, sea and air forces, was created out of the People's Police in 1956. Total strength is 145,000 comprising army 100,000, navy 17,000, air force 28,000. Military service lasts eighteen months. There are also about 46,000 border troops, 24,000 security troops and about 400,000 members of the Workers Fighting squads. Defence estimates for 1974 totalled 8,000 million DDR-Marks. The G.D.R. is a member of the Warsaw Pact.

Economic Affairs

The Republic has been a member of COMECON since 1950, and the economy of the country is therefore closely linked with that of the Soviet Union and other member countries. Since the introduction of the "New Economic System" in 1963 there has been a moderate tendency towards industrial de-centralization, giving some latitude for medium-level decision making within the general prescriptions of the State Economic Plan. An increasing stress has been laid upon quality products such as optics, electronics and precision machinery, all of which are finding a growing market outside COMECON. By 1972, 99.9 per cent of German industrial production was state-owned, while only 0.1 per cent was in private hands.

In terms of production it has now become one of the greatest industrial nations in the world. Industrial production increased threefold between 1956 and 1972. The only major natural resource in the G.D.R. is lignite, which supplies almost 90 per cent of its basic energy. It has the only lignite coking plant in the world, and is now building a second nuclear power station. A developing source of power is oil which comes in from the Kuybyshev oil fields in Russia via a 3,000 kilometre pipeline. The machine, chemical, and heavy engineering industries are leading exporters. Amongst the newer industries, electronics and shipbuilding take a prominent place. The Leipzig trade fairs are important centres of international trade.

All farmers are now members of agricultural production co-operatives. The Democratic Republic is becoming more and more self-supporting in this field.

Transport and Communications

There is a comprehensive transport system by rail, road, waterway and air. In 1973 there were 14.384 kilometres of railway, about 9 per cent of which were electrified. In the same year there were 45,653 kilometres of classified roads, of which 1.495 kilometres were motorway (Autobahn). There were also 2.546 kilometres of navigable inland waterways. The principal port, Rostock, is being developed to carry more of East Europe's trade with the rest of the world. In 1973 the G.D.R.'s merchant fleet had 190 ships (excluding passenger vessels), with a displacement of over one million tons.

Social Welfare

State social insurance is compulsory for all employees. It also covers their dependants and special classes such as students. The scheme provides for medical and dental treatment, sick pay, maternity grants, old age, disability, and bereavement pensions. A five-day working week is now constitutionally enforced, and the paid thirteen-day

annual holiday can be spent at one of the 1,245 vacation centres, which are administered by the Confederation of Free German Trade Unions. Youth services and sport receive large State subsidies.

Education

Education in the G.D.R. plans to cater for children from early childhood to the completion of a university course. Children between the ages of 1 to 3 can be accommodated in crèches if their mothers are working, and in nursery schools from 4 to 6. Since 1959 elementary and secondary schools have been abolished in favour of ten-year polytechnics, in which children from the age of six must receive at least ten years of education. There are opportunities for studying up to Abitur during vocational training courses. A variety of university entrance qualifications are also available via evening-classes, factory and village academies, and university extension courses. In 1970 15 per cent of pupils left school after 8 years of education, and nearly all of these entered an apprenticeship or vocational training scheme. The University Reforms of 1969, besides revising administration, state that the standard course of study will now be four years. The first two years will be dedicated to basic and general study, and the last two to specialization. There are seven universities and a number of technological institutes.

Tourism

Tourism is promoted by the State Travel Bureau. The island of Rügen off the Baltic coast has considerable tourist traffic. The mountains of Thuringia and the Erzgebirge on the Czech frontier are much visited both in summer and winter. During 1973 more than 8 million tourists from non-socialist states visited the G.D.R. A special exchange rate of about 6 Marks to £1 is available for tourists.

Sport

Sport in all forms is actively encouraged and there is a special State Committee for Physical Education and Sport. The German Gymnastics and Athletics Association incorporates all amateur sports in 36 specialized organizations. Outside the schools, sport is sponsored by factory sports organizations and clubs. Football, swimming and tennis are among the most popular sports.

Public Holidays

1975: May 1st (May Day), May 19th (Whit Monday), October 7th (GDR National Day), December 25th, 26th (Christmas), December 31st (half-day, New Year's Eve).

1976: January 1st (New Year's Day).

Weights and Measures

The Metric System is in force.

Gurrency and Exchange Rates

100 Pfennige = 1 Mark der Deutschen Demokratischen Republik (DDR-Mark or "Ostmark").

Exchange rates (December 1974):

As sterling = 4.16 DDR-Marks;

U.S. \$1 = 1.78 DDR-Marks.

THE CONSTITUTION

The Constitution of the German Democratic Republic was promulgated on April 9th, 1968, replacing the original Constitution which came into force when the Republic was founded in 1949. It was amended and modified on October 27th, 1974. A summary is given below.

I FOUNDATIONS OF THE SOCIALIST STATE

Political Foundations (Articles 1-8)

The German Democratic Republic is a socialist state of the German nation. It is the political organization of the working people in town and countryside who are jointly implementing socialism under the leadership of the working class and its Marxist-Leninist party. The capital is Berlin; the State flag is black, red, and gold, and bears the State coat of arms. All political power in the Republic is exercised by the working people and all power serves their welfare. The National Front of the German Democratic Republic unites all political parties and mass organizations working for the development of the socialist state. Citizens exercise their political power through democratically elected people's representatives. The Republic pursues a peaceful foreign policy and is linked irrevocably and for ever with the U.S.S.R. and other socialist states.

Economic Foundations, Science, Education and Culture (Articles 9-17)

The national economy is based on the socialist ownership of the means of production and is a socialist planned economy. All foreign economic relations are the monopoly of the state. All large industrial enterprises, farms, banks and means of transport are nationally owned and private ownership of these facilities is not allowed. The personal property of citizens and the right of inheritance are guaranteed. The Republic promotes culture, the arts and science and assures all citizens a high standard of education.

II CITIZENS AND ORGANIZATIONS IN SOCIALIST SOCIETY

Basic Rights and Basic Duties of Citizens (Articles 18-39)

The Republic respects the dignity and freedom of personality and guarantees to all citizens the exercise of their rights. The conditions for acquiring and losing citizenship of the German Democratic Republic are stipulated by law. All citizens are equal before the law. Men and women have equal rights and the same legal status. Every citizen who has reached the age of 18 on election day has the right to vote and may be elected to the local people's representative bodies. Persons over the age of 21 may be elected to the People's Chamber (Volkskammer). Every citizen is obligated to service in defence of his country. The Republic can grant political asylum to citizens of other states in certain circumstances.

Freedom of speech, the press, radio and television are guaranteed, as is also the right to peaceful demonstration and assembly. The person and the liberty of every citizen are inviolable and he has the right to move freely within the state territory within the framework of the law. Postal and telecommunication secrecy is assured and may be limited only for purposes of state security or criminal prosecution. Every citizen has the right to legal protection by the organs of the state when he is abroad.

The right to work is guaranteed and every citizen is free to select his own job. Everyone has the same right to education and attendance at secondary school is obligatory. All citizens are entitled to leisure time and annual paid

holiday, to medical and other social welfare benefits. Social care is provided for the elderly and disabled. Housing is under public control and there is legal protection against eviction. Every citizen has the right of the inviolability of his home. Marriage, motherhood and the family have the special protection of the state and provision is made for large families, fatherless families, etc. Religious freedom is assured. Citizens of the German Democratic Republic of Sorb nationality have the right to cultivate their mother tongue and culture.

Enterprises, Towns and Local Communities in Socialist Society (Articles 40-42)

Enterprises, towns, local communities and associations of local communities are communities with responsibilities of their own in which citizens work and shape their social relations. They safeguard the basic rights of citizens and are protected by the constitution. The local representative bodies are elected by the people and are responsible for local affairs. The working people also co-operate in the management of enterprises both directly and with the help of their elected organs.

The Trade Unions and their rights (Articles 43-44)

The free trade unions are united in the Confederation of Free German Trade Unions. They are independent bodies, are represented at all levels of the social system and play a decisive part in the solution of problems. They conclude agreements with government authorities and enterprise managements on all questions concerning the working and living conditions of the people. They take part in the shaping of the socialist legal system and administer the social insurance system of the workers.

Socialist Production Co-operatives and Their Rights (Article 45)

These are voluntary associations of farmers for the purpose of joint production and receive government assistance. They are represented in the state organs and take an active part in the state planning. Production co-operatives on the same lines also exist among fishermen, craftsmen and gardeners.

III STRUCTURE AND SYSTEM OF STATE MANAGEMENT

The People's Chamber (Volkskammer) (Articles 48-65)

The People's Chamber is the supreme organ of state power and guarantees the enforcement of its laws. It is composed of 500 deputies elected by the people in a free, general, equal and secret ballot for a period of five years. It is convened not later than the 30th day after the election. It elects its Presidium to conduct the plenary sessions for the electoral term. The People's Chamber can be dissolved before the expiration of the electoral term only on its own decision.

Committees are formed from among the members of the People's Chamber to discuss bills and to co-operate in submitting them to the voters for popular discussion. They then submit their comments to the plenary session of the People's Chamber. Laws passed are proclaimed in the Law Gazette by the Chairman of the Council of State within one month and come into force on the fourteenth day after their proclamation.

The Council of State (Staatsrat) (Articles 66-77)

The Council of State is the organ of the People's Chamber operating between sessions of the latter, and fulfils all fundamental tasks resulting from its laws and decisions. It

is elected by the People's Chamber at its first session and is responsible to it for its activities. It deals with bills to be submitted to the People's Chamber and deals with all basic tasks arising from its laws and decisions. It convenes the sessions of the People's Chamber, and issues the writ for elections to the People's Chamber and other representative bodies. It makes fundamental decisions on defence matters and exercises control over the constitutionality and legality of the activities of the Supreme Court and the Prosecutor General. It determines military and diplomatic ranks and other special titles and establishes state honours. It also exercises the right of amnesty and pardon.

The Council of Ministers (Ministerrat)

The People's Chamber passed a Bill in October 1972 which redefined the status and functions of the Council of Ministers. The Council, under the direction of the party of the working class (the Socialist Unity Party), draws up the principles of national domestic and foreign policy and is in charge of the uniform execution of the national policy of the G.D.R.; it organizes the accomplishment of the political, economic, cultural and social tasks of the G.D.R., as well as the defence responsibilities assigned to it.

Local People's Representative Bodies and their Organs (Articles 81-85)

The elected organs of state power in the districts, towns, regions, municipal boroughs and local communities are responsible for deciding on all local issues on the basis of law. The local people's representative bodies draw up and implement the economic plan and budget for their areas, and have their own income. Their decisions are binding and must be published. All such bodies elect their own councils and committees.

IV SOCIALIST ADMINISTRATION OF JUSTICE AND LEGALITY

(Articles 86-107)

The Constitution is direct and valid law and legal regulations may not contradict it. Details of all laws and binding regulations are published, and at no time may organs other than those provided by the Constitution be allowed to exercise state power. The citizens' participation

in the administration of justice is guaranteed and it is the joint concern of socialist society to combat all violations of the law. Laws on the punishment of crimes against peace, humanity and war crimes correspond to the generally recognized norms of international law.

The administration of justice in the Republic is exercised by the Supreme Court, the District Courts, the Regional Courts and the social courts. In military matters jurisdiction is exercised by the Supreme Court, military tribunals and military courts. The Supreme Court is the highest organ of the administration of justice and is responsible to the People's Chamber. All judges are democratically elected by the people's representative bodies or by the citizens themselves and must be men of knowledge and experience who are loyally devoted to the socialist state. The public prosecutors' office safeguards socialist legality and ensures that persons who have commited crimes are called to account before the court. The public prosecutors' office is directed by the Prosecutor General and the public prosecutors of the districts and regions are appointed by him and subordinate to him.

An act is punishable only if it was covered by penal law at the time of its commission, if the offender has acted in a culpable way and if his guilt is proved beyond doubt. Persons under arrest must be brought before a judge not later than one day after their arrest and only judges are authorized to judge the admissibility of detention on remand. Nobody may be withheld from his lawful judge and special courts are inadmissible. Every citizen has the right to be heard in court and the right to be defended by a counsel is guaranteed throughout the whole criminal procedure. Any citizen or organization has the right to submit suggestions or grievances to the state organs and may suffer no disadvantages as a result. Damages inflicted on a citizen or his personal property as a result of unlawful measures by employees of state organs are to be compensated by the state organ concerned.

V AMENDMENT OF THE CONSTITUTION

The Constitution can be amended only through a law of the People's Chamber of the German Democratic Republic which expressly amends or supplements the text of the Constitution.

THE GOVERNMENT

(February 1975)

COUNCIL OF STATE

Chairman: WILLI STOPII.

Vice-Chairmen: Friedrich Ebert, Gerald Götting, Prof. Dr. Heinrich Homann, Dr. Manfred Gerlach, Hans Rietz.

Members: Kurt Anclam, Friedrich Clermont, Prof. Dr. Dr. Erich Correns, Willi Grandetzka, Erich Grützner, Brunhilde Hanke, Prof. Dr. Lieselott Herforth, Erich Honecker, Friedrich Kind, Margarete Müller, Bernhard Quandt, Prof. Dr. Hans Rodenberg, Dr. Klaus Sorgenicht, Paul Strauss, Ilse Thiele, Paul Verner, Rosel Walther, Herbert Warnke.

Secretary: HEINZ EICHLER.

POLITBÜRO OF THE SOCIALIST UNITY PARTY

First Secretary: ERICH HONECKER.

Members: Hermann Axen, Friedrich Ebert, Gerhard Grüneberg, Piof. Kurt Hager, Gen. Heinz Hoffmann, Werner Krolikowski, Werner Lamberz, Dr. Günter Mittag, Erich Mückenberger, Alfred Neumann, Piof. Albert Norden, Horst Sindermann, Willi Stoph, Paul Verner, Herbert Warnke.

Candidate Members: Horst Dohlus, Werner Felle, Gisela Glende, Joachim Herrmann, Dr. Werner Jarowinsky, Günther Kleiber, Frau Inge Lange, Erich Mielke, Margarete Müller, Konrad Naumann, Gerhard Schürer, Kurt Seibt, Harry Tisch.

COUNCIL OF MINISTERS

PRESIDIUM

Chairman: HORST SINDERMANN.

First Deputy Chairmen: Alfred Neumann, Dr. Günter

MITTAG.

Deputy Chairman: Dr. GERHARD WEISS.

Deputy Chairman and Minister for Machine and Transport Manufactures: Günter Kleiber.

Deputy Chairman and Minister for Environmental Protection and Water Management: Dr. Hans Reichelt.

Deputy Chairman and Minister of Justice: Hans Joachim Heusinger.

Deputy Chairman and Minister for Posts and Telecommunications: Rudolf Schulze.

Deputy Chairman and Minister for Science and Technology: Dr. Herbert Weiz.

The German Democratic Republic also has relations with Afghanistan, Bolivia, Burundi, Cameroon, the Central African Republic, Chad, Dahomey, Equatorial Guinea, Ethiopia, Fiji, Gabon, The Gambia, Greece, Guinea-Bissau, Guyana, Jordan, Kuwait, Liberia, Libya, Liechtenstein, Luxembourg, Malaysia, Maldives, Malta, Mauritania, Morocco, Panama, Philippines, San Marino, Senegal, Sierra Leone, Singapore, Tanzania, Togo, the Upper Volta, Venezuela and Zambia.

JUDICIAL SYSTEM

The legal system of the German Democratic Republic was reorganized after 1945, at first under four-power direction; and the principles on which the judicial system is to function are embodied in the Constitution. Judges are elected by the people's representative bodies. State Prosecuting Counsels are nominated by the Prosecutor-General. Jurisdiction is exercised by the Supreme Court, by the Bezirk Courts, by the Kreis Courts and by the Social Courts. All Courts decide on the appointment of one presiding and two assistant magistrates. The Assistant Magistrates in the first instance are jurors (lay magistrates from all classes and strata of society); the Labour Law Tribunal of the Supreme Court appoints two official judges and three lay magistrates.

Judges are independent and subject only to the Constitution and the Legislature. A judge can be recalled only if he has committed a breach of the law, grossly neglected his duties or been convicted by a court.

Lay magistrates are nominated by the democratic parties and organizations. In meetings of the working people which are held in connection with the elections of the Kreistage, Stadtverordnetenversammlungen, Stadtbezirksversammlungen and Gemeindevertretungen, the lay magistrates are elected for the electoral period of these people's representations; the lay magistrates of the Bezirk Courts are elected by the Bezirkstag; the lay magistrates of the Labour Law Tribunal of the Supreme Court, by the Volkskammer. All are equally authorized judges.

Attached to the Volkskammer is a Constitutional and Legislature Commission in which all parties are represented according to their numbers. In addition there are on the Commission three members of the Supreme Court as well as three State Law Teachers who may not be members of the Volkskammer. All members of the Constitutional and Legislature Commission are appointed by the Volkskammer.

The whole judicial and penal system was reformed on January 14th, 1968, the most important reform being the introduction of a new Criminal Code to replace the German Criminal Code of 1871. Further details will be found in the Constitution section (above).

Oberstes Gericht der Deutschen Demokratischen Republik (Supreme Court of the German Democratic Republic): 1026 Berlin, Littenstr. 13; Pres. Dr. Heinrich TOEPLITZ.

Generalstaatsanwalt der Deutschen Demokratischen Republik (General State Prosecutor of the German Democratic Republic): Dr. Josef Streit; 104 Berlin, Hermann-Matern-Str. 33/34.

Ministerium der Justiz der Deutschen Demokratischen Republik (Ministry of Justice of the German Democratic Republic): 108 Berlin, Clara-Zetkin-Str. 93; Minister Hans-Joachim Heusinger.

RELIGION

THE PROTESTANT CHURCH

(For the origin, constitutional structure, and recent development of the Protestant Church see the corresponding section in the chapter on the Federal Republic of Germany.)

Some 9 million people, over 50 per cent of the population of the G.D.R., belongs to one of the Territorial Churches united in the *Bund der Evangelischen Kirchen in der D.D.R.* This contrasts with an estimated 80 per cent twenty years ago.

BUND DER EVANGELISCHEN KIRCHEN IN DER DEUTSCHEN DEMOKRATISCHEN REPUBLIK

(Federation of Evangelical Churches in the German Democratic Republic)

Synod: Pres. Landessuperintendent Otto Schröder, 285 Parchim, Strasse des Friedens 50.

Secretariat: 104 Berlin, Auguststrasse 80; Exec. Sec. OKR Manfred Stolpe.

Konferenz der Evangelischen Kirchenleitungen in der D.D.R. (Conference of Evangelical Church Leaders in the (G.D.R.): 112 Berlin-Weissensee, Parkstr. 21; Chair. Bischof D. Albrecht Schönherr.

FEDERATIONS WITHIN THE B.E.K.D.D.R.

Vereinigte Evangelisch-Lutherische Kirche in der Deutschen Demokratischen Republik (The United Evangelical-Lutheran Church in the German Democratic Republic), Chancellery: 104 Berlin, Auguststrasse 80; Pres. FRITZ HEIDLER.

Presiding Bishop: Landesbischof D. Ingo Braecklein; 59 Eisenach, Pflugensberg.

Evangelische Kirche der Union Bereich D.D.R.: (see the corresponding section in the chapter on the Federal Republic of Germany for details); Chancellery in the G.D.R.: 104 Berlin, Auguststr. 80; Pres. Dr. REINHOLD PIETZ.

THE PROVINCIAL CHURCHES

(†Member of the E.K.U.; †Member of the V.E.L.K.D.D.R.)

†Evangelical Church of Anhalt: Kirchenpräsident: EBER-HARD NATHO (Dessau, Otto-Grotewohl-Strasse 22).

Evangelical Church in Berlin-Brandenburg (in the G.D.R.): 102 Berlin, Neue Grünstr. 19; Bischof D. Albrecht Schönherr (112 Berlin-Weissensee, Parkstr. 21).

†Evangelical Church of the Church Province of Görlitz: Bischof D. Hans-Joachim Fränkel (89 Görlitz, Berliner Str. 62); formerly Church of Silesia.

†Evangelical Church of Greifswald: Bischof Dr. Horst Gienke (22 Greifswald, Bahnhofstrasse 35/36); formerly Evangelical Church of Pomerania.

‡Evangelical-Lutheran Church of Mecklenburg: Landesbischof Dr. Heinrich Rathke (27 Schwerin, Münzstr. 8).

†Evangelical Church of the Church Province of Saxony: Bischof Dr. Werner Krusche (301 Magdeburg, Am Dom 2).

‡Evangelical-Lutheran Church of Saxony: 8032 Dresden, Lukasstr. 6; Landesbischof Dr. Johannes Hempel.

*Evangelical-Lutheran Church in Thuringia: Landesbischof D. Ingo Braecklein (50 Eisenach, Pflugensberg).

ASSOCIATED TO THE B.E.K.D.D.R.

Evangelische Brüder-Unität, Distrikt Herrnhut (Unitas Fratrum-Moravian Church in the District of Herrnhut): 8709 Herrnhut, Vogtshof; Pres. Pfr. Helmut Hickel.

OTHER CHURCHES

The Arbeitsgemeinschaft christlicher Kirchen in der D.D.R. (Association of Christian Churches in the G.D.R.) unites member churches of the B.E.K.D.D.R. and the following free churches:

Evangelisch-Methodistische Kirche in der D.D.R. (Evangelical Methodist Church in the G.D.R.): 8020 Dresden, Wiener Str. 56; Bischof Armin Härtel.

Bund Evangelisch-Freikirchlicher Gemeinden in der D.D.R. (Union of Evangelical Free Church Congregations in the G.D.R.): 1034 Berlin, Gubener Str. 10; Pres. Rev. Herbert Morét; Gen. Sec. Rev. Rolf Dammann.

Evangelisch-Lutherische (altlutherische) Kirche in der D.D.R. (Evangeliscal Lutheran—old-Lutheran—Church in the G.D.R.): 102 Berlin, Annenstr. 53; Kirchenrat Kurt Kallensee.

Verband der Altkatholischen Kirche in der D.D.R. (Union of the Old Catholic Church in the G.D.R.): 1055 Berlin, Sredzkistr. 64; Diakon Fritz Schulz.

Bund Freier Evangelischer Gemeinden in der D.D.R. (Federation of Free Evangelical Congregations in the G.D.R.): 154 Falkensee, Bandelowstr. 42; Federal Chair. ARMIN RÖGER.

Mennonitengemeinde in der D.D.R. (Mennonite Congregation in the G.D.R.): 1054 Berlin, Schwedter Str. 262; Preacher Walter Jantzen.

EVANGELICAL ASSOCIATIONS

Kirchenbund Evangelisch-Reformierter Gemeinden in der D.D.R. (Church Federation of Evangelical Reformed Congregations in the G.D.R.): 701 Leipzig, Tröndlingring 7; Pfr. Heinz Schefer.

Religiöse Gesellschaft der Freunde (Quäker) in der D.D.R. (Society of Friends): 108 Berlin, Planckstr. 20; Helmut Macht.

THE ROMAN CATHOLIC CHURCH

It is estimated that about ten per cent of the population of the Democratic Republic are Roman Catholics, the majority of them in the South.

The German Bishops meet twice a year, one of the conferences being held in Fulda. (See also the section on the Roman Catholic Church in the chapter on the Federal Republic of Germany.) As the bishops are not able to attend the German Conference of Bishops, they meet regularly in a general conference of the G.D.R.

Bishop of Berlin: Alfred Cardinal Bengsch (108 Berlin, Französische Str. 34).

Bishop of Meissen: GERHARD SCHAFFRAN.

Apostolic Administrator in Görlitz: Bischof Bernhard Huhn.

THE JEWISH COMMUNITY

It is estimated that the Jewish Community in the Democratic Republic numbers about 5,000.

Verband der Jüdischen Gemeinden in der D.D.R. (Union of Jewish Communities in the G.D.R.): 806 Dresden, Bautzner Strasse 20; Pres. Helmut Aris; publ. Nachrichtenblatt (quarterly).

Jüdische Gemeinde von Gross-Berlin (Union of Greater Berlin): 104 Berlin, Oranienburgerstr. 28; Pres. Heinz Schenk.

THE PRESS

In 1947 the Presseamt (Press Administration Office) was tounded, closely associated with the office of the Prime Minister. Its functions were: to issue licences to approved organizations belonging to the democratic bloc; to distribute newsprint; and to give a measure of editorial direction to non-political papers. By means of this Office the government acquired a considerable degree of control over the press, reinforced by the Press Section of the Socialist Unity Party's Central Committee whose function is to issue daily instructions to editors of political papers as to which news items require emphasis and comment. This elaborate system of directives is seen as ensuring that the press serves the interest of the whole community in furthering the socialist cause by precluding the possible self-interest and irresponsibility of private individuals.

The 1968 Constitution of the German Democratic Republic guarantees the freedom of the press, radio and television, and states that every citizen of the G.D.R. has the right, "in accordance with the spirit and aims of the Constitution, to express his opinion freely and publicly. This right is not limited by any service of employment relationship. No person may be placed at a disadvantage for exercising this right". From these statements it follows that there is no right to express an opinion which is not "in accordance with the spirit and aims of the Constitution", or, in other words, which can be interpreted as contrary to the interests and development of the Socialist state defined in the Constitution. Editors, who are personally responsible for the content of their papers, and citizens alike realize their obligations, responsibilities and dependence upon the state, society and political system in which they live. For these reasons, formal censorship is not practised.

All newspapers and periodicals are owned and managed by political or independent organizations such as party committees, trade unions, cultural associations, youth organizations, etc. Almost all dailies are controlled by or affiliated to a political party, such as Neues Deutschland (Socialist Unity Party), Der Morgen (Liberal Democratic Party), and National Zeitung (National Democratic Party). A notable exception is the officially independent Berliner Zeitung. Tribüne is the organ of the Trade Unions League. The Free German Youth publishes the daily Junge Welt and the weekly Forum. The official news agency, the Allgemeiner Deutscher Nachrichtendienst, became a state monopoly in 1946.

About 40 dailies appear in the G.D.R., with a total circulation of about 8 million. There are over 200 periodicals and illustrated magazines, covering a wide range of subjects. There is no sensational popular press and though most papers' news coverage is quite serious, the breadth of coverage is restricted by the policy, enunciated by Neues Deutschland, of concentrating on news judged to be of interest and value to the public.

The most important and influential dailies are those published by the Socialist Unity Party, headed by Neues Deutschland in Berlin, and by the Berlin organs of the other parties mentioned above. Though circulation figures are often not disclosed, a very popular paper is Berliner Zeitung am Abend. Leading dailies outside Berlin are Sächsisches Tageblatt (Dresden), Leipziger Volkszeitung (Leipzig), Freie Presse (Karl-Marx-Stadt), and Freiheit (Halle).

The daily press is more influential, particularly in political matters, than the weekly press and periodicals. Outstanding amongst these latter categories are Sonntag and Forum, the popular Neue Berliner Illustrierte and the women's Für Dich.

PRINCIPAL DAILY NEWSPAPERS

- Azet: 701 Leipzig, Emilien Str. 3; evening for Leipzig/ Halle area.

Ministerium für Verkehrswesen (Ministry of Transport): 108 Berlin, Vossstr. 33; controls all transport.

RAILWAYS

Deutsche Reichsbahn: 1086 Berlin, Vossstr. 33; under the auspices of the Ministry of Transport. In 1973 there were 13,961 km. normal gauge of which 1,384 km. were electrified. There were also 381 km. narrow gauge.

ROADS

Road Control Headquarters: 108 Berlin, Vossstr. 33.

Autobahns 1,495 km., other State roads 10,900 km., local roads 33,258 km. (1973), Kommunalstrassen 81,022 km.

INLAND WATERWAYS

- Hauptverwaltung der Wasserstrassen und der Binnenschiffahrt: 1086 Berlin, Vossstr. 33; controls all inland shipping. Navigable rivers 1,810 km., canals 480 km.
- Direktion der Binnenschiffahrt: 1017 Berlin, Alt Stralau 55-58.

Affiliated:

- VEB Deutsche Binnenreederei: 1017 Berlin, Alt Stralau 55-58.
- VEB Binnenhäfen "Oberelbe": 801 Dresden, Magdeburger Str. 58.
- VEB Binnenhäfen "Mittelelbe": 301 Magdeburg, Wittenberger Str. 17.
- VEB Binnenhäfen "Saale": 40 Halle, Hansastrasse 8A.
- VEB Binnenhäfen "Oder": 122 Eisenhüttenstadt, Glashüttenstr., Neuer Hafen.
- VEB Binnenhäfen Königs Wusterhausen: 16 Königs Wusterhausen.
- VEB Schiffsreparaturwerften Berlin: 1017 Berlin, Alt Stralau 55-58.

SHIPPING

- Ministerium für Verkehrswesen (Ministry of Transport): 1086 Berlin, Vossstr. 33.
- Scefahrtsamt der D.D.R. (Board of Navigation of the G.D.R.):
 25 Rostock, Patriotischer Weg 120; Dir. Capt. A.
 MAUL.
- Geschäftsstelle der Seekammer der D.D.R. (Naval Court of the G.D.R.): 25 Rostock, Patriotischer Weg 120; Dir. Capt. F. Pielenz.
- VEB Kombinat Seeverkehr und Hafenwirtschaft-Deutfracht/Seerederei: 25 Rostock-Überseehafen; comprises

- various shipping and harbour authorities; Dir.-Gen. Heinz Neukirchen.
- VEB Deutfracht/Seerederei: 25 Rostock-Übersechafen; shipping company; 194 ships with about 1,6 million tons deadweight, bulk carriers, liner ships, tankers.
- VEB Seehafen Rostock (Overseas port, Rostock): 25 Rostock-Uberseehafen; Dir. S. SILBERBACH.
- VEB Seehafen Wismar (Wismar scaport): 24 Wismar; Dir. G. Domke.
- VEB Seehafen Stralsund (Stralsund scaport): 23 Stralsund; Dir. H. Happ.
- VEB Deutsche Schiffsmaklerei: 25 Rostock, Strandstr. 86; f. 1958; international clearing and liner agency; agencies at Rostock, Wismar, Stralsund; branch office in Berlin; Dir. Hinneburg.
- VEB Deutrans (International forwarding enterprise): 1086 Berlin, Otto-Grotewohl-Str. 25; Dir. General II. SCHLIMME.
- VEB Schifsversorgung (Ships chandler): 25 Rostock-Überseehafen.
- VEB Bagger-Bugsier- und Bergungsreederei (Dredging, towage, salvage): 25 Rostock, Bauhof, Am Alten Hafen; Dir. Bernd.
- Tallierungs-G.m.b.H. (Tallying, checking, weighing, surveying, draught measurement, inspection and expertise): 25 Rostock-Übersechafen; Dir. Graffe.
- D.D.R.-Schiffs-Revision und -Klassifikation (Registering of shipping, surveying the technical safety of ships, and classification): 1615 Zeuthen, Eichenallee 12; Dir. Dr. Bossow.

CIVIL AVIATION

INTERFLUG, Gesellschaft für internationalen Flugverkehr m.b.H.: 1189 Berlin-Schönefeld; internal services, flights throughout Europe and to the Middle and Near and Far East, North and West Africa and Central America; types of aircraft: IL-62, TU-134, IL-18, An-24; Dir.-Gen. Kurt Dietrich.

There are international airports in Berlin, Dresden, Erfurt and Leipzig. The German Democratic Republic is served by the following foreign airlines: Aeroflot, AUA, Balkan, CSA, Cubana, Egyptair, Finair, Iraqi Airways, JAT, KLM, LOT, MALEV, MEA, SAS, Syrian Airlines and TAROM. Among other airlines which fly to Leipzig during the Spring Fair are: Alitalia, British Airways, KLM, Lufthansa and Swissair.

TOURISM

Reisebüro der Deutschen Demokratischen Republik: 102
Berlin, Alexanderplatz f. 1958; 5; Dir.-Gen. Heinz
Wenzel; Dep. Dirs.-Gen. Helmut Heinecke, Eleonore Staimer, Adolf Pilz; Gen. Sec. Siegfried
Hennig.

There are branches in every town of 40,000 inhabitants or over.

Vereinigung Interhotel: 1035 Berlin, Simplonstr. 52-58; there are Interhotels in Berlin (3), Potsdam, Dresden (4), Rostock (2), Efurt, Oberhof, Weimar, Suhl, Gera, Jena, Leipzig (5), Halle, Magdeburg and Karl-Marx-Stadt (3). CULTURAL ORGANIZATION

Ministerium für Kultur: 102 Berlin 2, Molkenmarkt 1/3; f. 1949; Minister Klaus Gyst.

The Ministry grants subsidies amounting to over 220 million marks a year to the country's 107 theatres, including summer open-air stages.

PRINCIPAL THEATRES

Deutsche Staatsoper (German State Opera): 108 Berlin, Unter den Linden 7, Box 1300; f. 1742; Dir. and Man. Prof. Dr. Hans Pischner; publ. Oper heute.

GERMAN DEMOCRATIC REPUBLIC

Komische Oper: 108 Berlin, Behrenstr. 55; f. 1947; 750 mems.; Man. Walter Felsenstein; publs. Die Welt der Oper (monthly).

Metropol Theater: Berlin; operetta.

Opernhaus: Leipzig; f. 1960.

Berliner Ensemble: 104 Berlin, Bertolt-Brecht-Platz; f.

1949; Dir. RUTH BERGHAUS.

Tourism, Atomic Energy, Universities

Deutsches Theater: Berlin.

Volksbühne: Berlin.

PRINCIPAL ORCHESTRAS

Gewandhausorchester Leipzig: 701 Leipzig, Katherinenstr. 23; f. 1743; Dir. Karl Zumpe; Conductor Kurt Masur.

Dresdner Philharmonie: 801 Dresden, Kulturpalast am Altmarkt; f. 1870; 116 mems.; Chief Conductor Günther Herbig.

ATOMIC ENERGY

Staatszekretariat für Forschung und Technik (State Secretariat for Research and Technology): 102 Berlin, Köpenickerstr. 80/82; f. 1955.

Staatliches Amt für Atomsicherheit und Strahlenschutz der D.D.R. (Board of Nuclear Safety and Radiation Protection of the G.D.R.): 1157 Berlin-Karlshorst, Waldowallee 117; f. 1962; theoretical problems of radiation protection and nuclear safety; medical, biological and technical research; legislation and licensing; radiation protection monitoring in working areas and medical supervision; environmental protection including radioactive waste processing and disposal; nuclear safeguards; training courses of health physicists and physicians; Pres. Prof. Dr. med. habil. Georg Sitzlack.

Zentralinstitut für Kernforschung (Central Institute for Nuclear Research): Rossendorf, 8051 Dresden, Postfach 19; f. 1956; Dir. Prof. Dr. Flach.

VEB Vakutronik WIB Dresden (VEB WIB Vakutronik): 8021 Dresden 21, Dornblüthstr. 14; f. 1955; Dir. Ing. FELIX WIECZOREK; publ. RFT-Vakutronik Information.

VEB Kernkraftwerk (VEB Atomic Power Station): Rheinsberg/Mark; f. 1961; Dir. Prof. KARL RAMSBUSCH;

Technical Centre: Berlin-Pankow, Görschstr. 45/46; Dir. Dipl.-Ing. GERHARD TEICHLER.

Isocommerz G.m.b.H. (Import and Export of Radioactive and Stable Isotopes): 1115 Berlin-Buch, Lindenberger Weg 70; f. 1964; Dir. W. MERZ.

Arbeitsstelle für Molekularelektronik (Institute for Molecular Electronics): 808 Dresden, Königsbrücker Landstr. 159; f. 1961; Dir. Prof. Dr.-Ing. Werner Hartmann.

Institut für Hochenergiephysik der AdW (Research Institute of High Energy Physics of the AdW of the G.D.R.): 1615 Zeuthen bei Berlin, Platanenallee 6; f. 1952; Dir. Prof. Dr. Krecker.

Zentralinstitut für Festkörperphysik und Werkstofforschung der AdW der D.D.R.: 8032 Dresden, Helmholtzstr. 20; f. 1956; Dir. Prof. Dr. HENKEL.

Zentralinstitut für Isotopen- und Strahlenforschung der AdW der D.D.R. (Central Institute for Research of Isotopes and Radiation): 705 Leipzig, Permoser Str. 5; f. 1971; Dir. Prof. Dr. Wetzel.

AdW = Deutsche Akademie der Wissenschaften (German Academy of Sciences)

UNIVERSITIES

Humboldt-Universität zu Berlin: Berlin; 3,000 teachers, 11,500 students.

Technische Universität Dresden: Dresden; 1,900 teachers, 12,800 students.

Ernst Moritz Arndt-Universität: Greifswald; 130 teachers, 3,000 students.

Martin Luther-Universität Halle-Wittenberg: Halle; 344 teachers, 7,520 students.

Friedrich-Schiller-Universität: Jena; 461 teachers, 6,045 students.

Karl-Marx-Universität Leipzig: Leipzig; 2,481 teachers, 14,818 students.

Universität Rostock: Rostock; 309 teachers, 5,800 students.

THE FEDERAL REPUBLIC OF GERMANY AND WEST BERLIN

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Federal Republic of Germany lies in the heart of Europe between 47° and 55° north latitude and 6° and 23° east longitude. Its neighbours to the west are the Netherlands, Belgium, Luxembourg and France, to the south Switzerland and Austria, to the east Czechoslovakia and the German Democratic Republic, and to the north Denmark. Its climate is temperate, with an average annual temperature of 48°F, although there are considerable variations between the North German lowlands and the Bavarian Alps. The language is German. Approximately half the population belongs to the Evangelical (Protestant) Church, 45 per cent to the Roman Catholic Church, and the remainder to smaller religious groups. The national flag (proportions 5 by 3) consists of three horizontal stripes of black, red and gold. The seat of Government is Bonn.

Recent History

After the defeat of the Third Reich in 1945, Germany was divided according to the Berlin Agreement into American, Soviet, British and French zones of occupation. In 1949 the zones occupied by the three Western Allies merged to become the Federal Republic of Germany, and the Soviet Zone shortly afterwards declared itself the German Democratic Republic. Following general elections, and the constitution of the Federal Republic, the military occupation was converted into a contractual defence relationship. The last of the limitations to the sovereignty of the Republic were removed in 1955. Berlin was also divided into four zones of occupation. In 1949 Sovietoccupied Berlin proclaimed itself capital of the German Democratic Republic, leaving the remainder, known as West Berlin, an island in G.D.R. territory. The Bundestag confirmed Berlin's status as capital of Germany in 1957. The seat of the Federal Government continues to be Bonn.

From considerable destruction inflicted by allied bombing and the last stages of the land war the Federal Republic, containing most of the principal industrial areas of Germany, rebuilt itself rapidly as one of the most affluent and economically dynamic states in Europe. The Wintschaftswunder (Economic Miracle), which received much of its stimulus from Marshall Aid and European cooperation, began under the Chancellorship of Dr. Konrad Adenauer (1949-63) and the direction of Economics Minister Dr. Ludwig Erhard, who subsequently became Chancellor following the retirement of Adenauer. During these years much was done to reconcile Germany with the Western Allies. This policy culminated in the Federal Republic's becoming a founder member of the European Economic Community (EEC). No progress was made with eastern Europe due to the Government's insistence on its policy of re-unification, maintaing that the 1937 borders of the Reich remained legally valid until the signing of a peace treaty by the Government of a united Germany. The years of the Grand Coalition (C.D.U./C.S.U. and S.P.D.) under the Chancellorship of Dr. Kurt Kiesinger lasted

from 1966 to 1969 and saw continuing prosperity with no change in the re-unification policy.

After the general elections of October 1969, a coalition government of S.P.D. and F.D.P. was formed under the Chancellorship of Willy Brandt. However, owing to the defection of three F.D.P. representatives in October 1970, the coalition lost its majority in April 1972 but the opposition failed to take over power by a "constructive vote of no confidence". Various measures were found to keep the Government going but an election was eventually called in November which, by West German standards, was an overwhelming success for the coalition, the S.P.D. becoming for the first time the largest party in the Bundestag. Herr Brandt reformed his Government and announced that the emphasis would be switched to domestic policies and to western Europe.

The coalition Government adopted a fresh policy towards eastern Europe (Ostpolitik), and particularly towards the German Democratic Republic. During 1970 formal talks were conducted between the two countries for the first time and there was a marked increase in diplomatic contacts between the Federal Republic and the other Communist countries of Europe. An agreement over the supply of gas from the Soviet Union and trade agreements with Poland and Hungary preceded the signing in 1970 of the Treaty on the Renunciation of Force with the Soviet Union and a treaty with Poland recognizing the Oder/Neisse Line as the border between Germany (actually the G.D.R.) and Poland, and renouncing the former Federal German claims on the Eastern territories of the old Reich. In 1971 there were talks between the four powers on the position of West Berlin leading to provision for unimpeded access from the Federal Republic to West Berlin and for the citizens of West Berlin to be allowed to visit the G.D.R. The treaties with the Soviet Union and Poland were finally ratified in May 1972. The two German states then concluded a treaty governing their relationship and this was signed on December 21st. Following ratification, the treaty came into force in June 1973, and the two Germanies joined the United Nations in September. In March 1974 a further treaty was signed agreeing to set up Permanent Representative Missions in Bonn and East Berlin.

However, East-West relations suffered a setback in April 1974, when Chancellor Brandt's personal assistant, Günter Guillaume, was arrested and confessed to having worked for the G.D.R. Minister of State Security. This led to the sudden and unexpected resignation of Herr Brandt in May and his acceptance of political responsibility for negligence in the Guillaume affair.

Brandt was succeeded as Chancellor by Helmut Schmidt.

Government

The Federal Republic comprises ten states (Lander). The legislative organ is the Bundestag, which is elected for four years by universal suffrage on a mixed proportional representation system. A number of deputies are directly elected, the remainder being chosen from the party lists according to the proportion of "second votes" given to each party. The Länder are represented in the legislature by the Bundesrat, whose members are appointed and recalled by the Länder themselves. In addition to the ten Länder, West Berlin is represented in the Bundesrat, as in the Bundestag, in a consultative capacity.

The Federal Government, which is headed by a Chancellor elected by an absolute majority of the Bundestag, is responsible for the foreign affairs and defence of the Republic and for such matters as citizenship, migration, currency, customs, railways, posts and telecommunications.

Each of the Länder has its own parliament, which has the right to pass laws except in such matters as are the exclusive right of the Federation. Both education and police are in the control of the Länder

Local responsibility for the execution of Federal and State Laws is undertaken by the Gemeinden (communes) and Landkreise (counties).

Defence

As a member of NATO and the Western European Union since 1955, Federal Germany undertook to supply twelve divisions, and formation of these was completed in 1964. After the United States, Germany is the second largest financial contributor towards NATO infrastructure. Conscription has been in force since 1956 and lasts for a period of fifteen months. In 1974 the strength of the army stood at 340,000 and there were 518,000 reserves. The navy is 39,000 strong with 27,000 reserves, and there were 111,000 in the air force with 85,000 reserves. Defence estimates for 1973 totalled 28,900 million DM. The new force structure of the Bundeswehr, the essential parts of which are due to be completed in 1978, will ensure that the Bundeswehr will be able to fulfil its mission in the 1980s with reduced numbers of servicemen on active duty while still maintaining and strengthening the conventional power.

Economic Affairs

After the destruction caused by the Second World War the Federal German economy made a remarkable recovery which was sustained over a number of years, and has often been described as Germany's "economic miracle". The basis of this prosperity has been iron and steel, vehicles, engineering, shipbuilding, electrical goods and chemicals, and since the late 1950s Federal Germany has been the second largest trading nation in the world. During the past two years, however, the economy has been experiencing many of the difficulties common to other Western European countries—steep rises in prices of raw materials, inflation, monetary uncertainties and worsening industrial relations. In late 1973 the problems were accentuated by the world energy crisis.

The real rate of growth of GNP in 1974 was 1.5 per cent, but it has been officially estimated that the rate of growth for 1975 will be between 3 and 3.5 per cent. Inflation has not been as severe as in many western European countries. The rate of inflation for 1974 was approximately 7.5 per cent, and the 1973 balance of payments surplus of DM. 9,500 million (over £1,500 million) has placed Federal Germany in a stronger position than other western

European countries to face the inevitable economic difficulties of increased oil prices.

Federal Germany's labour relations have recently been more turbulent than at any time since the Second World War, and after a series of strikes in February 1974 the Government reached a settlement with over 4 million workers in the public sector which gave them average pay increases of 12.5 per cent. These large pay rises appear to have been absorbed without undue strain on the economy and fears of a record round of pay claims have for the time being receded. In an effort to improve industrial relations the Federal German Government has drafted a Bill to extend co-partnership to all big companies. This scheme is expected to be approved by Parliament during 1974 and become effective at the beginning of 1975. However, unemployment increased seriously in 1974; in October it was 672,300, an increase of 152 per cent on the previous year and the highest since 1955.

In the first half of 1974 decreased immigration and birth rates led to the first decline in population since the war.

Transport and Communications

The Federal Republic has a highly developed system of transport by rail, inland waterways, road and air. Over £5,000 million pounds were invested in the field of transport and communications between 1949 and 1960. Under a ten-year road-building plan 9,865 kilometres of Federal roads were constructed by 1969, and by the end of 1971 there were 417,000 kilometres of classified roads, including 4,829 kilometres of modern motorway (Autobahn). The railways have been modernized and the shipping fleet redeveloped after the run-down of the war and the immediate post-war years. The canals linking the rivers Rhine, Main and Danube are being widened and deepened to form a trading route linking the North Sea with the Black Sea. There are international airports at West Berlin, Bremen, Cologne, Düsseldorf, Frankfurt, Hamburg, Hanover, Munich and Stuttgart.

Social Welfare

Social legislation in the Federal Republic, tracing its origins back to 1881, provides insurance for health, accident, old-age, disability and unemployment. The schemes for disability, old-age and unemployment insurance are compulsory for all employees, and over 80 per cent of the populatoin is covered by national health insurance. More than 20 per cent of the expenditure of the Federal Budget goes to social security payments.

Education

The Basic Law gives the control of education entirely to the State governments. They do, however, co-operate quite closely to ensure a large degree of conformity in the system.

Education is compulsory from the end of the sixth to the eighteenth year, and nine years must be full-time. Primary education is free, and grants are made for secondary education wherever fees are payable. Attendance at the basic school (Grundschule) is obligatory for all children during the first four years of their school life, after which they may continue in the elementary school, as do 80 per cent of the pupils, or proceed to the intermediate school Realschule) for six years or the high school (Gymnasium) for nine years. There are three types of High School,

specializing in Classics, Modern Languages, and Mathematics and Science. A *Gymnasium* school-leaving certificate is a necessary prerequisite for University education. Those who stay in the elementary school complete their education by part-time attendance at a vocational school.

There are in the Federal Republic forty-two universities and nine technical universities, as well as a number of colleges specializing in individual subjects.

Tourism

Germany's tourist attractions include spas, summer and winter resorts, mountains, the Rhineland, mediaeval towns and villages. In 1970 nearly eight million people visited Germany but since then the total has declined slightly. There are more than one million beds available for tourists.

Receipts from tourism totalled 5,973 million DM in 1972.

Visas are not required for nationals of the following countries: Afghanistan, Andorra, Angola, Argentina, Australia, Austria, Belgium. Bolivia, Brazil, Burma, Burundi, Cameroon, Canada, Central African Republic, Chad, Chile, Colombia, Congo (Brazzaville), Costa Rica, Cyprus, Dahomey, Denmark, Dominican Republic, Ecuador, El Salvador, Ethiopia, Finland, France, Gabon, Ghana, Greece, Guadeloupe, Guam, Guinea, Honduras, Iceland, India, Indonesia, Iran, Ireland, Israel, Italy, Ivory Coast, Jamaica, Japan, Kenya, Laos, Liberia, Libya, Liechtenstein, Luxembourg, Madagascar, Malawi, Malaysia, Martinique, Mexico, Monaco, Morocco, Mozambique, Nepal, The Netherlands, New Caledonia, New Zealand, Niger, Nigeria, Norway, Pakistan, Panama, Paraguay, Peru, Philippines, Portugal, Puerto Rico, Rwanda, San

Marino, Sierra Leone, Singapore, Somalia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Tanzania, Thailand, Togo, Trinidad and Tobago, Tunisia, Turkey, Uganda, United Kingdom, U.S.A., Upper Volta, Uruguay, Venezuela and Zambia.

Sport

Sport in the Federal Republic is highly organized, football and gymnastic clubs being extremely numerous. Other popular sports are athletics, shooting, handball, swimming, table tennis and tennis. There are also over 100 golf courses.

Public Holidays

1975: May 1st (Labour Day), May 8th (Ascension Day), May 19th (Whit Monday), May 29th (Corpus Christi)*, June 17th (Day of German Unity), November 1st (All Saints' Day)*, November 19th (Repentance Day), December 25th and 26th (Christmas).

1976: January 1st (New Year's Day), April 16th (Good Friday), April 19th (Easter Monday).

Other public holidays are celebrated in certain Länder only.

* Except Berlin, Hamburg and Hanover.

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

100 Pfennige = 1 Deutsche Mark.

Exchange rates (December 1974):

£1 sterling = 5.76 DM; U.S. \$1 = 2.465 DM.

FINANCE

100 Pfennige=1 Deutsche Mark (DM).

Coins: 1, 2, 5, 10 and 50 Pfennige; 1, 2, 5 and 10 DM.

Notes: 5, 10, 20, 50, 100, 500 and 1,000 DM.

Exchange rates (December 1974): £1 sterling=5.76 DM; U.S. \$1=2.465 DM.

100 DM = $f_{17.36} = 40.58 .

Note: From March 1961 to October 1969 the par value of the Deutsche Mark was 25 U.S. cents (U.S. \$i=4.00 DM). Between October 1969 and May 1971 the rate was \$i=3.66 DM. From December 1971 to February 1973 it was \$i=3.2225 DM. In terms of sterling, the exchange rate was \$i=8.784 DM between October 1969 and May 1971; and \$i=8.397 DM from December 1971 to June 1972.

THE CONSTITUTION

The Basic Law of 1949 was and is intended as a provisional Constitution to serve until a permanent one for Germany as a whole can be drawn up. The Parliamentary Council which framed it set out to continue the tradition of the Constitution read out in the Paulskirche, in Frankfurt! Main, during the revolution of 1848-49, and to preserve some continuity with subsequent German constitutions (with Bismarck's Constitution of 1871, and with the Weimar Constitution of 1919) while avoiding the mistakes of the past. It contains 146 articles, divided into 11 sections, and introduced by a short preamble.

I. Basic Rights

The opening articles of the Constitution guarantee the dignity of man, the free development of his personality, the equality of all men before the law, and freedom of faith and conscience. Men and women shall have equal rights, and no one may be prejudiced because of sex, descent, race, language, homeland and origin, faith, or religions or political opinion.

No one may be compelled against his conscience to perform, war service as a combatant (Art. 4). All Germans have the right to assemble peacefully and unarmed and to form associations and societies. Everyone has the right freely to express and to disseminate his opinion through speech, writing or pictures. Freedom of the press and freedom of reporting by radio and motion pictures are guaranteed (Art. 5). Censorship is not permitted.

The State shall protect marriage and the family property and the right of inheritance. The care and upbringing of children is the natural right of parents. Illegitimate children shall be given the same conditions for their development and their position in society as legitimate children. Schools are under the supervision of the State. Religion forms part of the curriculum in the State schools, but parents have the right to decide whether the child shall receive religious instruction (Art. 7).

A man's dwelling is inviolable; house searches may be made only by Court Order. No German may be deprived of his citizenship if he would thereby become stateless. The politically persecuted enjoy the right of asylum (Art. 16).

II. The Federation and the Länder

Article 20 describes the Federal Republic (Bundesrepublik Deutschland) as a democratic and social federal state. The colours of the Federal Republic are to be black-red-gold, the same as those of the Weimar Republic. Each Land within the Federal Republic has its own Constitution, which must, however, conform to the principles laid down in the basic law. All Länder, districts and parishes must have a representative assembly resulting from universal, direct, free, equal and secret elections (Art. 28). The exercise of the power of state is the concern of the Länder, in so far as the Basic Law does not otherwise prescribe. Where there is incompatibility, Federal Law supersedes Land Law (Art. 31). Every German has in each Land the same civil rights and duties.

Political parties may be freely formed in all the states of the Federal Republic, but their internal organization must conform to democratic principles, and they must publicly account for the sources of their funds. Parties which seek to impair or abolish the free and democratic basic order or to jeopardize the existence of the Federal Republic of Germany are unconstitutional (Art. 21). So are activities tending to disturb the peaceful relations between nations, and, especially, preparations for aggressive war, but the Federation may join a system of mutual collective security in order to preserve peace. The rules of International Law shall form part of Federal Law and take precedence over it and create rights and duties directly for the inhabitants of the Federal territory (Art. 25).

The territorial composition of the Lander shall be reorganized with due regard to regional unity, territorial and cultural connections, economic expediency and social structure.

III. The Bundestag

The deputies of the Lower House or Bundestag shall be elected by the people in universal, free, equal, direct and secret elections, for a term of four years.* Any person who has reached the age of 21 is eligible to vote and any person who has reached the age of 25 is eligible for election (Art. 38). A deputy may be arrested for a punishable offence

^{*} The elections of 1949 were carried out on the basis of direct election. But in January 1953, the draft of a new electoral law was completed by the Federal Government and passed shortly before the dissolution. The new law represents a compromise between direct election and proportional representation, and is designed to discourage the rise of many small parties.

only with the permission of the Bundestag, unless he be apprehended in the act or during the following day.

The Bundestag elects its President and draws up its Standing Orders. Most decisions of the House require a majority vote. Its meetings are public, but the public may be excluded by the decision of a two-thirds majority. Upon the motion of one-quarter of its members the Bundestag is obliged to set up an investigation committee.

IV. The Bundesrat

The Federal Council or Bundesrat is the Upper House through which the Länder participate in the legislation and the administration of the Federation. The Bundesrat consists of members of the Land governments, which can appoint and recall them (Art. 51). Each Land has at least three votes; Länder with more than two million inhabitants have four, and those with more than six million inhabitants have five. The votes of each Land may only be given as a block vote. The Bundesrat elects its President for one year. Its decisions are taken by simple majority vote. Meetings are in public, but the public may be excluded. The members of the Federal Government have the right, and, on demand, the obligation, to participate in the debates of the Bundesrat.

V. The Bundespräsident

The Federal President or Bundespräsident is elected by the Federal Convention (Bundesversammlung), consisting of the members of the Bundestag and an equal number of members elected by the Länder Parliaments (Art. 54). Every German eligible to vote in elections for the Bundestag and over 40 years of age is eligible for election. The candidate who obtains an absolute majority of votes is elected, but if such majority is not achieved by any candidate in two ballots, whoever receives most votes in a further ballot becomes President. The President's term of office is five years. Immediate re-election is admissible only once. The Federal President must not be a member of the Government or of any legislative body or hold any salaried office. Orders and instructions of the President require the counter-signature of the Federal Chancellor or competent Minister, except for the appointment or dismissal of the Chancellor or the dissolution of the Bundestag.

The President represents the Federation in International Law and accredits and receives envoys. The Bundestag or the Bundesrat may impeach the President before the Federal Constitutional Court on account of wilful violation of the Basic Law or of any other Federal Law (Art. 61).

VI. The Bundesregierung

The Federal Government (Bundesregierung) consists of the Federal Chancellor (Bundeskanzler) and the Federal Ministers (Bundesminister). The Chancellor is elected by an absolute majority of the Bundestag on the proposal of the Federal President (Art. 63). Ministers are appointed and dismissed by the President upon the proposal of the Chancellor. Neither he nor his Ministers may hold any other salaried office. The Chancellor determines general policy and assumes responsibility for it, but within these limits each Minister directs his department individually and on his own responsibility. The Bundestag may express its lack of confidence in the Chancellor only by electing a successor with the majority of its members; the President must then appoint the person elected (Art. 67). If a motion of the Chancellor for a vote of confidence does not obtain the support of the majority of the Bundestag, the President may, upon the proposal of the Chancellor, dissolve the House within twenty-one days, unless it elects another Chancellor within this time (Art. 68).

VII. The Legislation of the Federation

The right of legislation lies with the Länder in so far as the Basic Law does not specifically accord legislative powers to the Federation. Distinction is made between fields of exclusive legislation of the Federation and fields of concurrent legislation of Bund and Länder. In the field of concurrent legislation the Lander may legislate so long and so far as the Federation makes no use of its legislative right. The Federation has this right only in so far as a matter cannot be effectively regulated by Land legislation, or the regulation by Land Law would prejudice other Länder, or if the preservation of legal or economic unity demands regulation by Federal Law. Exclusive legislation of the Federation is strictly limited to such matters as foreign affairs, citizenship, migration, currency, copyrights, customs, railways, post and telecommunications. In most other fields, as enumerated (Art. 74), concurrent legislation exists.

The legislative organ of the Federation is the Bundestag, into which Bills are introduced by the Government, by members of the Bundestag or by the Bundesrat (Art. 76). After their adoption they must be submitted to the Bundesrat, which may demand, within two weeks, that a committee of members of both houses be convened to consider the Bill (Art. 77). In so far as its express approval is not needed, the Bundesrat may veto a law within one week.

An alteration of the Basic Law requires a majority of two-thirds in both houses, but an amendment by which the division of the Federation into $L\bar{a}nder$ and the basic principles contained in *Articles* 1 and 20 would be affected, is inadmissible (*Art.* 79).

The Federal Government or the Lander Governments may be authorized by law to issue ordinances. A state of legislative emergency for a Bill can be declared by the President on the request of the Government with the approval of the Bundesrat. If then the Bundestag again rejects the Bill, it may be deemed adopted nevertheless in so far as the Bundesrat approves it. An emergency must not last longer than six months and may not be declared more than once during the term of office of any one Government (Art. 81).

VIII. The Execution of Federal Laws and the Federal Administration

The Länder execute the Federal Laws as their own concern in so far as the Basic Law does not otherwise determine. In doing so, they regulate the establishment of the authorities and the administrative procedure, but the Federal Government exercises supervision in order to ensure that the Länder execute the Federal Laws in an appropriate manner. For this purpose the Federal Government may send commissioners to the Land authorities (Art. 84). Direct Federal administration is foreseen for the Foreign Service, Federal finance, Federal railways, postal services, Federal waterways and shipping.

In order to avert imminent danger to the existence of the democratic order, a Land may call in the police forces of other Länder; and if the Land in which the danger is imminent is itself not willing or able to fight the danger, the Federal Government may place the police in the Land, or the police forces in other Länder, under its instructions (Art. 91).

IX. The Administration of Justice

Judicial authority is invested in independent judges, who are subject only to the law and who may not be dismissed or transferred against their will (Art. 97).

Justice is exercised by the Federal Constitutional Court, by the Supreme Federal Court, by the Federal Courts

and by the Courts of the Länder. The Federal Constitutional Court decides on the interpretation of the Basic Law in cases of doubt, on the compatibility of Federal Law or Land Law with the Basic Law, and on disputes between the Federation and the Länder or between different Länder. The Supreme Federal Court decides in cases where the decision is of importance for the uniformity of the administration of justice of the Higher Federal Courts. Higher Federal Courts are to be established for the spheres of ordinary, administrative, finance, labour and social jurisdiction. Extraordinary courts are inadmissible.

The freedom of the individual may be restricted only on the basis of a law. No one may be prevented from appearing before his lawful judge (Art. 101). Detained persons may be subjected neither to physical nor to mental ill-treatment. The police may hold no one in custody longer than the end of the day following the arrest without the decision of a court. Any person temporarily detained must be brought before a judge who shall inform him of the reasons of his arrest, at the latest on the following day. A person enjoying the confidence of the detainee must be notified forthwith of any continued duration of a deprivation of liberty. An act may be punished only if it was punishable by law before the act was committed, and no one may be punished more than once on account of the same criminal act. The death sentence shall be abolished.

X. Finance

The Federation has the right of exclusive legislation only on customs and financial monopolies; on most other taxes, especially on income, property and inheritance, it has concurrent legislation rights with the Länder (see VII above).

Customs, financial monopolies, excise taxes (with exception of the beer tax), the transportation tax, the turnover tax and property dues serving non-recurrent purposes, are administered by Federal finance authorities, and the revenues thereof accrue to the Federation. The remaining taxes are administered, as a rule, by the Lander and the Gemeinden to which they accrue. The Federation and the Lander shall be self-supporting and independent of each other in their budget economy (Art. 109). In order to ensure the working efficiency of the Lander with low revenues and to equalize the differing burden of expenditure of the Lander, the Federation may, however, make grants, and take the necessary funds from specific taxes accruing to the Lander. All revenues and expenditures of the Federation must be estimated for each fiscal year and included in the budget, which must be established by law before the beginning of the fiscal year. Decisions of the Bundestag or the Bundesrat which increase the budget expenditure proposed by the Federal Government require its approval (Arl. 113).

XI. Transitional and Concluding Provisions

The Articles 116-146 regulate a number of disconnected matters of detail, such as the relation between the old Reich and the Federation, the Federal Government and Allied High Commission, the expenses for occupation costs which have to be borne by the Federation, and the status of former German nationals who now may regain their citizenship. Article 143 contains the threat of severe punishment to those who attempt to change by force the constitutional order of the Federation or of a Land, or to prevent the Federal President by force or the threat of danger from exercising his powers.

HISTORY OF MAJOR CONSTITUTIONAL AMENDMENTS

I. SOVEREIGNTY AND RESPONSIBILITY

Between July 1952, when legislation for the ratification of the E.D.C. Treaty was first put before the Bundeslag, and March 1954, when the process of ratification was completed, the Federal Government had at intervals referred to the Constitutional Court to determine whether an amendment of the Constitution would be necessary.

On March 7th, 1953, in response to the Government's application, the Constitutional Court announced that it could give no ruling as to the constitutional legality or otherwise of the legislation until this had been passed by Parliament. Accordingly, the two Bills, one for the ratification of the E.D.C. and one for the ratification of the Bonn Conventions, were given their third reading in the Bundestag on March 9th, 1953, and both were ratified. On May 15th the ratification Bills were passed by the Bundesrat. The elections of September 1953 gave Dr. Adenauer's Government the majority necessary to make changes in the Federal Constitution, and an amending Bill was presented to the Bundestag in February 1954. This received its second and third readings on February 26th, 1954, and was passed by 334 votes to 144, the Government majority of 190 being 9 more than the two-thirds necessary to make constitutional changes.

This Bill:

(1) Laid down under an amendment to Article 73 of the Basic Law that the Federal Parliament had full powers to legislate in all matters relating to national defence "including obligatory national service for men over 18 years of age".

(2) Introduced a new article (142A) which declared that "the treaties signed in Bonn and Paris on May 26th and 27th, 1952 (i.e. the Bonn Conventions and E.D.C. Treaty) were not contrary to the Federal Constitution".

The effect of the amendment was to empower the Federal Government to raise forces for the E.D.C. or for any similar organization which might come into being, to avoid continual recourse to the Constitutional Court.

Since these Amendments to the Constitution were adopted, the treaties concerned (the Bonn Conventions and the E.D.C.) have themselves lapsed; but the Amendments apply equally to the new instruments drawn up as a result of the London Conference of September 1954.

Until September 1954 the operation of the Basic Law was conditioned by two further instruments: the first, the Occupation Statute of 1949 (with subsequent amendments) defining the rights and obligations of the United States, Great Britain and France with respect to Germany; and the second, the Bonn Conventions, designed to replace the Occupation Statute and to grant almost full sovereignty to the German people. There was unforeseen delay in putting the Bonn Conventions into force, simply because they were linked with the European Defence Community Treaty (that is to say the two were bound to come into force simultaneously), and this E.D.C. Treaty had not been ratified by France. The position from May 1952 until September 1954 was therefore that the Occupation Statute (with Amendments) was still the ultimate legal basis for Germany's relations with the western Allies, and for her position in international law; whereas the Bonn Conventions provided the psychological atmosphere in which these relations developed, and in which the Federal Republic gradually took its place as a positive factor in European politics. The Bonn Conventions are important, for this reason, and also because, pruned and revised and divorced

from the E.D.C., they were used as the basis for the new instruments of sovereignty, drawn up after the London Conference of September 1954 (see below).

The Bonn Conventions

At the Brussels Conference in December 1950 the governments of the United States, Great Britain and France declared themselves ready and willing to enter into contractual negotiations with the Federal Republic of Germany, and thereby to complete agreements which would supersede the Occupation Statute of 1949 and restore to Germany the maximum degree of sovereignty possible in the light of the international situation. The Allied governments made it clear from the outset that they did not wish this move to abolish in their entirety the Four-Power agreements of 1945, which were the remaining link between East and West Germany and which could still be the basis for settlement of the German problem by negotiation; but that they considered that the powers of the Federal Government could not be curtailed indefinitely or pending such settlement. The resulting Conventions were a product of the unique political situation which had developed in Germany since 1945, and could not in themselves do away with the division of Germany, nor overcome the facts that foreign troops will undoubtedly remain on German soil until international tension has eased, and that the final Peace Treaty continues to be deferred; and as they were linked with the European Defence Community Treaty they could not without new decisions come into force without it.

The negotiations which led to the Bonn Conventions began in May 1951, and the Conventions were signed in Bonn by the Foreign Ministers of the United States, Great Britain and France on the one hand, and the Foreign Minister of the Federal Republic of Germany on the other, on May 26th, 1952. Under the Conventions:

- (1) The Occupation Statute was abolished, and the Federal Government inherited full freedom in so far as the international situation permits.
- (2) Allied forces in Germany were no longer occupation forces, but part of "the defence of the free world, of which the Federal Republic and West Berlin form a part".
- (3) A number of problems which would normally be settled by a Peace Treaty were resolved; the Conventions were in effect a provisional treaty to end the war between the Federal Republic and the Three Powers, pending a final treaty between the whole of Germany and the Four. Under this heading the following provisions were made:
 - (a) The Federal Republic would have full control over its internal and foreign affairs and relations with the Three Powers would be conducted through ambassadors.
 - (b) Only because of the international situation would the Three Powers claim their rights regarding the stationing of armed forces on German soil, matters concerning Berlin, the re-unification of Germany and the final Peace Treaty.

(c) The Federal Republic undertook to conduct its policy according to the principles of the United Nations.

(d) In their negotiations with states with which the Federal Republic has no relations, the Three Powers would consult with the Federal Government.

(e) The Federal Republic would participate in the European Defence Community.

(f) The Three Powers and the Federal Republic agreed that a freely negotiated peace settlement for the whole of Germany was their common aim, and that determination of the final boundaries of Germany must await such a treaty. The Conventions also included supplementary contractual agreements concerning the rights and obligations of foreign troops in Germany, taxation of the armed forces, a Finance Convention, and a Convention on the settlement of matters arising out of the war and the occupation.

The London and Paris Agreements

On August 30th, 1954, the E.D.C. Treaty was finally debated and defeated in the French National Assembly, and with it the corner stone of western policy over the previous two years was swept away. The need to fill the void was urgent; and it was generally realized that some means must be found to restore German sovereignty, and to allow for its corollary, a German contribution to western defence, in a manner which would be acceptable to France.

For this purpose a conference was held in London at the end of September, at which the Foreign Ministers of Belgium, Canada, France, the Federal Republic of Germany, Italy, Luxembourg, the Netherlands, the United Kingdom and the United States took part. This conference opened on September 28th, and on October 3rd the Final Act was signed after intense negotiation. By this it was agreed that Germany and Italy should enter an expanded Brussels Treaty Organization; that German sovereignty should be restored and that she should, on agreed terms, enter N.A.T.O.; and that an Agency for the control of armaments on the continent of Europe should be set up. Instructions were then given for the drafting of the various instruments which would be necessary to give effect to these decisions, and it was agreed that a further meeting should be held at the earliest possible opportunity to endorse them in their detailed form.

On October 20th, 1954, a conference began in Paris to complete the work of the London Conference. It was again attended by the Foreign Ministers of Belgium, Canada, France, the Federal Republic of Germany, Italy, Luxembourg, the Netherlands, the United Kingdom and the United States; and as in London the Governments of The United States, Great Britain and France, dealt with the aspects of German sovereignty for which they have special responsibilities.

It was announced on October 21st that full agreement had been reached on the outstanding issues concerning German sovereignty, and that details for the expansion of the Brussels Treaty Organization, both in scope and functions and in size, to include both Germany and Italy, had also been agreed; the expanded organization is known as Western European Union.

German Sovereignty and Western European Union

On May 5th, 1955, with the depositing of the instruments of ratification of the London and Paris Agreements, the German Federal Republic attained its sovereignty. The three-power status continues for the time being in West Berlin, but is modified by a declaration by the American, French and British Commandants. The ratification also brought into being the newly constituted Western European Union, and the Federal Republic simultaneously became a member of it and of the North Atlantic Treaty Organization.

II. OTHER AMENDMENTS

In June 1968 legislation was finally passed providing for emergency measures to be taken during a time of crisis. The Bill had received much opposition, mainly from the Left, since the introduction of the first draft by Dr. Schröder in 1960.

The main provisions of this, the 17th Amendment to the Constitution, were to allow the authorities to place certain restrictions on the secrecy of correspondence and tele-

communications, to conscript men into the armed forces and to use the armed forces to fight armed insurgents if the free democratic status of the Federal Republic or of any Land was threatened. A new Article 53a provided for the establishment of a committee of 33 members, two-thirds members of the Bundestag and one-third members of the Bundesrat, which must be informed by the Federal Government of any plans in the event of a defence

emergency. The life of parliamentary bodies and the terms of office of the Federal President and his deputy might be extended during a defence emergency.

In June 1969 a Bill amending Article 38 was passed by both houses. This reduced the voting age from 21 years to 18 years for Federal elections and the age of eligibility for election to the Federal Parliament from 25 years to 21 years.

THE GOVERNMENT

HEAD OF STATE

Federal President: WALTER SCHEEL. (Elected May 1974)

THE FEDERAL GOVERNMENT

(A coalition of the Social Democratic Party and the Free Democratic Party; formed December 1972.)

(February 1975)

Federal Chancellor: HELMUT SCHMIDT (S.P.D.).

HAMBURG

The Constitution of the "Free and Hanseatic City of Hamburg" was passed in June 1952. There is complete identity between the Town Assembly and the Land Diet on the one hand and between the Mayor and the President of State on the other.

The members of the Senate are elected by the City Council. The Senate in turn elects the President and his deputy from its own ranks. The President remains in office for one year, but may offer himself for re-election. The Senate is formed from the S.P.D. and F.D.P.

President of Senate and First Bürgermeister: HANS-ULRICH KLOSE.

Deputy President of the Senate, Second Bürgermeister and Department of Culture: Prof. Dr. DIETER BIALLAS.

Department of Finance: Dr. HANS-JOACHIM SCELER.

Departments of Labour and Social Welfare: ERNST WEISS.

Department of Justice: Prof. Dr. ULRICH KLUG.

Department of Youth Welfare: GÜNTER APEL.

Department of Health: Dr. WILHELM NÖLLING.

Department of Building: Dr. ROLF BIALAS.

Department of Economics and Transport: WILHELM ECKSTRÖM.

Department of Food and Agriculture: HELMUT KERN.

Department of Interior: WERNER STAAK.

Representative to Federal Government: JÜRGEN STEINERT.

The City Council was elected on March 3rd, 1974, and is composed as follows:

President: HERBERT DAU (S.P.D.).

S.P.D. (Social Democratic Party) .		56 seats
C.D.U. (Christian Democratic Union).		51 ,.
F.D.P. (Free Democratic Party)	٠	13 ,,

LOWER SAXONY

The Provisional Constitution was passed by the Diet on April 13th, 1951, and came into force on May 1st, 1951.

The Land Government is formed by a coalition of the S.P.D. and F.D.P.

Minister-President: Alfred Kubel.
Minister of the Interior: Rötger Gross.
Minister of Finance: Helmut Kasimier.
Minister of Justice: Hans Schaefer.

Minister of Social Affairs: Helmut Greulich. Minister of Culture: Prof. Dr. Joist Grolle.

Minister of Agriculture and Forestry: KLAUS PETER BRUNS.

Minister of Federal Affairs: HERBERT HELLMANN.

Minister of Economics and Public Works: ERICH KOPKER.
Minister of Schools, Youth and Sport: Dr. ERNST-GOTTFRIED

MAHRENHOLZ.

As a result of elections held on June 9th, 1974, the Diet is composed as follows:

President of the Diet: HEINZ MÜLLER (C.D.U.).

S.P.D. (Social Democratic Party) . 67 seats

C.D.U. (Christian Democratic Union) . 77 ..

F.D.P. (Federal Democratic Party) . 11 ...

Lower Saxony is divided into eight governmental districts: Aurich, Osnabruck, Hanover, Hildesheim, Lüneburg, Stade, Oldenburg, Brunswick.

BREMEN

The Constitution of the Free Hanseatic City of Bremen was sanctioned by referendum of the people on October 12th, 1947. The main constitutional organs are the City Council, the Senate and the Constitutional Court.

The Senate is the executive organ elected by the Council for the duration of its own tenure of office. The Senate elects from its own ranks two Bürgermeister, one of whom becomes President of the Senate. The Senators cannot be simultaneously members of parliament. A vote of nonconfidence can only be given under special conditions. Decisions of the Council are subject to the delaying veto of the Senate. The Council is formed from the majority party (S.P.D.).

President of the Senate: HANS KOSCHNICK.

Second Bürgermeister and Senator for Welfare and Youth Affairs: Frau Annemarie Mevissen.

Senator for the Interior: HELMUT FRÖHLICH.

Senator for Harbours, Shipping and Transport: Oswald Brinkmann.

Senator for Justice, Constitutional and Religious Affairs: WOLFGANG KAHRS.

Senator for Finance: OSKAR SCHULZ.

Senator for Education: MORITZ THAPE.

Senator for Housing: HANS STEFAN SEIFRIZ.

Senator for Public Health: Albert Müller.

Senator for Economy and Labour: Karl-Heinz Jantzen.
Representative to Federal Government: Karl Willms.

The Council consists of 100 members elected for four years. The election of October 10th, 1971, resulted in the

years. The election of October 19th, 1971, resulted in the following composition:

President of the Riggreechaft. Dr. Drowen K. Mr. (S. P. D.)

President of the Bürgerschaft: Dr. Dieter Klink (S.P.D.).
S.P.D. (Social Democratic Party) . 59 seats

C.D.U. (Christian Democratic Union) 34 ... F.D.P. (Free Democratic Party) 7 ...

The Constitutional Court consists of the President of the State High Court and of six members elected by the City Council.

NORTH RHINE WESTPHALIA

The present Constitution was passed by the Diet on June 6th, 1950, and was endorsed by the electorate in the elections held on June 18th.

The Land Government is presided over by the Minister-President who appoints his Ministers. It is formed by a coalition of S.P.D. and F.D.P.

Minister-President: Heinz Künn (S.P.D.).

Deputy Minister-President and Minister of The Interior: WILLI WEYER (F.D.P.).

Minister of Finance: HANS WERTZ (S.P.D.).

Minister of University Affairs and Science: JOHANNES RAU (S.P.D.).

Minister of Justice: Dr. Diether Posser (S.P.D.).

Minister of Economics: Horst Ludwig Riemer (F.D.P.).

Minister of Labour and Social Welfare: Werner Figgen (S.P.D.).

Minister of Food Agriculture and Forestry: Diether Deneke (S.P.D.).

Minister of Culture: Dr. Jürgen Girgensohn (S.P.D.).

Minister of Federal Affairs: Prof. Dr. Friedrich Halstenberg (S.P.D.).

As the result of the elections held on June 14th, 1970, the Diet is composed as follows:

President of Diet: Dr. WILHELM LENZ (C.D.U.).

C.D.U. (Christian Democratic Union) 95 seats

S.P.D. (Social Democratic Party) . 94 .

The Minister-President is elected by the Diet. The Land Government is formed by the majority party (C.D.U.).

Minister-President: Dr. Franz-Josef Röder.

Minister of the Interior: ALFRED WILHELM

Minister of Justice and for Federal Affairs: Dr. RAINER WICKLMAYR

Minister of Finance: Prof. Dr. Konrad Schon

Minister of Labour and Social Welfare: RITA WASCHBUSCH.
Minister of Education and Culture: WERNER SCHERER.

Minister of Economics, Transport and Agriculture: Dr. Dr. ERWIN SINNWELL.

Minister of Environment, Planning and Building: GÜNTHER SCHACHT.

The Diet, elected on June 14th, 1970, is composed as follows:

President of the Diet: FRANZ SCHNEIDER.

C.D.U. (Christian Democratic Union) 27 seats S.P.D. (Social Democratic Party) . 23 ...

WEST BERLIN

On August 4th, 1950, the Berlin City Assembly passed a Constitution defining its special position under technical three-power control. Under German Constitutional Law Berlin is a Land of the Federal Republic but this law is at present suspended by three-power reservations. Nevertheless West Berlin sends representatives to the Bundessag and Bundessat in Bonn but these representatives have no vote in the plenary sessions of either House. To be valid in West Berlin, Federal Law has to be specially adopted there. The Constitution came into force on October 1st, 1950.

The House of Representatives (Abgeordnetenhaus) is the legislative body, and has 138 members. The executive agency is the Senate, which is composed of the Governing Mayor (Regierender Bürgermeister), his deputy, and at the most sixteen Senators. The Governing Mayor is elected by a majority of the House of Representatives. The Senate, which is responsible to the House of Representatives and dependent on its confidence, is formed by the majority party (S.P.D.).

Regierender Bürgermeister: KLAUS SCHUTZ.

Bürgermeister: Kurt Neubauer.

Senators:

Interior: Kurt Neubauer.

Finance: Heinz Strick.

Justice: Horst Korber.

Labour and Social Welfare: HARRY LIEHR.

Economics: Dr. KARL KÖNIG.

Arts and Science: Prof. Dr. WERNER STEIN.

Education: GERD LÖFFLER.

Building and Housing: Dr. KLAUS RIEBSCHLÄGER.

Family, Youth and Sports: Frau ILSE REICHEL.

Health and Environment: Erich Patzold.

Federal Affairs: DIETRICH STORBE.

The state of parties in the House, as the result of elections held on March 14th, 1971, is as follows:

President of House of Representatives: Walter Sickert (S.P.D.).

S.P.D. (Social Democratic Party) . 73 seats

C.D.U. (Christian Democratic Union) 54 ..

F.D.P. (Free Democratic Party) . 11 .

POLITICAL PARTIES

Christlich-Demokratische Union (in Bavaria: Christlich-Soziale Union) (C.D.U./G.S.U.) (Christian Democratic and Christian Social Union): C.D.U.: 53 Bonn, Konrad-Adenauer-Haus, Friedrich-Ebert Allee 73-75; f. 1945; 510,000 mems.; the second largest party in the Bundestag, it stands for the united action between Catholics and Protestants for rebuilding German life on a Christian basis, while guaranteeing private property and the freedom of the individual; Chair. Dr. Dr. Helmut Kohl; Gen. Sec. Prof. Dr. Kurt H. Biedenkoff; publ. Deutsches Monatsblatt (monthly), Union of Deutschland (weekly); C.S.U.: 8 Munich 19, Lazarettstr. 33; f. 1945; 130,000 mems.; Gen. Sec. Gerold Tandler; publ. Bayern-kurier (weekly).

Ecuador: Oxfordstrasse 10; Charge d'Affaires: Egbert Espinosa Eichler (also accred. to Norway).

Egypt: Bonn-Bad Godesberg, Kronprinzenstrasse 2; Ambassador: Mohamed Ibrahim Kaamel.

El Salvador: Gangolístrasse 6; Ambassador: RAFAEL ZALDIVAR-BRIZUELA (also accred. to Denmark and Turkey).

Ethiopia: Brentanostr. 1; Ambassador: Assera Lemma (also accred. to Switzerland).

Finland: Bonn-Bad Godesberg, Am Aennchenplatz; Ambassador: Dr. Yrjö Väänänen.

France: Bonn-Bad Godesberg, Kapellenstrasse 1A; Ambassador: TEAN SAUVAGNARGUES.

Gabon: Bonn-Bad Godesberg, Friedrichstrasse 16; Ambassador: Philibert Bongo (also accred. to Denmark and Norway).

Gambia: London, England.

Ghana: Bonn, Adenauer Allee 73A; Ambassador: Eric Kwamina Otoo.

Greece: Bonn-Bad Godesberg, Rheinallee 76; Ambassador: Nikitas Sioris.

Guatemala: Bonn-Bad Godesberg, Ziethenstr. 16; Ambassador: Dr. Francisco Linares Aranda (also accred. to Denmark, Norway and Sweden).

Guyana: London, England.

Haiti: Bonn-Bad Godesberg, Rheinallee 38; Ambassador: CARLET R. AUGUSTE.

Honduras: Bonn-Bad Godesberg, Burgstr. 18; Ambassador: Dr. Roberto Lázarus.

Hungary: 5 Cologne 1, Hardefuststr. 7; Chargé d'Affaires: László Hamburger.

Iceland: Bonn-Bad Godesberg, Kronprinzenstr. 6; Ambassador: ARNI TRYGGVASON (also accred. to Greece, Iran and Switzerland).

India: Adenauerallee 262-264; Ambassador: Yogendra Krishan Puri.

Indonesia: Kurt-Schumacher-Str. 2; Ambassador: H. ACHMAD TIRTOSUDIRO.

Iran: Cologne 51, Parkstr. 5; Ambassador: Dr. Amir Aslan Afshar.

Ireland: Bonn-Bad Godesberg, Mittelstr. 39; Ambassador: ROBERT McDONAGH.

Israel: Bonn-Bad Godesberg, Ubierstr. 78; Ambassador: ELIASHIV BEN-HORIN.

Italy: Bonn-Bad Godesberg, Karl-Finkelnburg-Str. 51;
Ambassador; Mario Luciolli.

Ivory Coast: Bonn-Bad Godesberg, Bachemer Str. 25:
Ambassador: Adonit Gaetan Manouan.

Jamaica: Bonn-Bad Godesberg, Am Kreuter 1; Ambassador: Keith Johnson (also accred. to Luxembourg).

Japan: Bonn-Bad Godesberg, Kölner Str. 139; Ambassador: AKIRA SONO.

Jordan: Bonn-Bad Godesberg, Wurzerstr. 106; Ambassador: Dr. Nijmeddin Dajani. Kenya: Bonn-Bad Godesberg, Michaelplatz, Villichgasse 23; Ambassador: HENRY NZIOKA MULLI.

Korea, Republic: Adenauerallee 124; Ambassador: Kim, Young Choo.

Laos: Paris, France.

Lebanon: Bonn-Bad Godesberg, Königstr. 79; Ambassador: Kesrouan Labaki.

Lesotho: London, England.

Liberia: Wachtberg-Niederbachem, Bondorferstr. 2; Ambassador: Mrs. Eugenia A. Stevenson.

Libya: Argelanderstr. 1; Ambassador: Jalal Mohamed Daghely (also accred. to Switzerland).

Luxembourg: Bonn Center, HI 1104. Am Bundeskanzlerplatz; Ambassador: Dr. PAUL REUTER.

Madagascar: Bonn-Bad Godesberg, Rolandstr. 48; Ambassador: Antoine Philippe Maro.

Malawi: Bonn-Center, HI 1103, Bundeskanzlerplatz; Ambassador: Samson Martin Kakhobwe (also accredto Austria, Denmark, Norway, Sweden and Switzerland).

Malaysia: Bonn-Bad Godesberg, Kronprinzenstr. 52; Ambassador: H. K. Kuok.

Mali: Bonn-Bad Godesberg, Luisenstr. 54; Ambassador: MAMADOU TRAORE (also accred. to Denmark and Sweden).

Malta: Brussels, Belgium.

Mauritania: Bonn-Bad Godesberg, Friedrichstr. 8; Ambassador: Mohamed Ould Cheikh-Sidia (also accred. to Belgium, Luxembourg and Netherlands).

Mauritius: Paris, France.

Mexico: 5 Cologne 51; Eugen-Langen-Str. 10; Ambassador: Dr. Luis Weckmann.

Monaco: Berne, Switzerland.

Morocco: Bonn-Bad Godesberg, Mittelstrasse 35; Ambassador: ABD EL KHALEK KABBAJ (also accred. to Finland).

Nepal: Bonn-Bad Godesberg, Im Hag 15; Ambassador: ISHWARI MAN SHRESTHA (also accred. to Austria, Belgium, Greece, Netherlands and Switzerland).

Netherlands: Strässchensweg 2; Ambassador: Dr. J. G. DE BEUS.

New Zealand: Bonn-Center, HI 902; Ambassador: Douglas Zohrab (also accred. to Austria).

Nicaragua: Bonn-Bad Godesberg, Heerstr. 41; Ambassador: Dr. Jaime Somarriba-Salazar (also accred. to Denmark).

Niger: Bonn-Bad Godesberg, Dürenstrasse 9; Ambassador: IBRA KABO.

Nigeria: Bonn-Bad Godesberg, Kennedyaliee 35; Ambassador: Shuaib Uthman Yolan.

Norway: Bonn-Bad Godesberg, Gotenstr. 163; Ambassador: Einar-Fredrik Ofstad.

Pakistan: Bonn-Bad Godesberg, Rheinallee 24; Ambassador: SAJJAD HYDER.

Panama: Bonn-Bad Godesberg, Lûtzowstrasse 1; Ambassador: M. E. JIMENEZ ICAZA.

Paraguay: Bonn-Bad Godesberg, Plittersdorfer Str. 121; Ambassador: Dr. Roque J. Yódice Codas (also accred. to Denmark).

Peru: Mozartstr. 34; Ambassador: Hubert Wieland (also accred. to Greece).

Philippines: Bonn-Bad Godesberg, Kaiserstr. 6; Ambassador: Mauro S. Calingo (also accred. to Finland).

Poland: 5 Cologne 51, Pferdmengesstrasse 5; Ambassador: Waclaw Piatkowski.

Portugal: Bonn-Bad Godesberg, Plittersdorfer Str. 111; Ambassador: Dr. Vasco Futscher Pereira.

Romania: 5 Cologne, Oberländerufer 68; Ambassador: Constantin Oancea.

Rwanda: Bonn-Bad Godesberg, Koblenzer Strasse 91;
Ambassador: Leonard Ngerageze (also accred. to Switzerland).

Saudi Arabia: Bonn-Bad Godesberg, Rheinallee 27; Chargé d'Affaires: Mustafa Abukhudair.

Senegal: Bonn-Center; Ambassador: Gen. JEAN-ALFRED DIALLO (also accred. to Austria and Switzerland).

Sierra Leone: Bonn-Bad Godesberg, Ubierstr. 88; Ambassador: Dr. Sheka Hassan Kanu (also accred. to Belgium and Netherlands).

Singapore: Bonn-Bad Godesberg, Ubierstr. 45; Ambassador: Ho Rih Hwa.

Somalia: Bonn-Bad Godesberg, Max-Franz-Str. 13; Ambassador: Gen. M. I. Ahmed.

South Africa: 5 Cologne, Heumarkt 1; Ambassador: Donald Bell Sole.

Spain: Schlosstr. 4; Ambassador: Prof. Dr. Francisco Javier Conde.

Sri Lanka: Bonn-Bad Godesberg, Rolandstrasse 52; Ambassador: ARTHUR R. RATNAVALE (also accred. to Belgium and Netherlands).

Sudan: Bonn-Bad Godesberg, Habsburgerstrasse 8; Ambassador: Brig. Muzzamil Suleiman Ghandour dalso accred. to Finland).

Swaziland: London, England.

Sweden: Allianzplatz, Haus, I, An der Heussallee 2-10; Ambassador: Sven Backlund.

Switzerland: 5 Cologne 51, Bayenthalgürtel 15; Ambassador: Dr. Hans Lacher.

Tanzania: Bonn-Bad Godesberg, Theaterstr. 2; Ambassador: Daniel Narcis Mtonga Mloka.

Thailand: Bonn-Bad Godesberg, Ubierstr. 65; Ambassador: Dr. UPADIT PACHARIYANGKUN (also accred. to Finland).

Togo: Bonn-Bad Godesberg, Beethovenstr. 13; Ambassador: Bruno J. Savi de Tove.

Trinidad and Tobago: London, England.

Tunisia: Bonn-Bad Godesberg, Kölner Str. 103; Ambassador: MAHMOUD MAAMOURI.

Turkey: Bonn-Bad Godesberg, Utestrasse 47; Ambassador: Vahit Halefoğlu.

Uganda: Bonn-Bad Godesberg, Dürenstr. 36; Ambassador: Lino Sitefano Ezati Avua (also accred. to the Vatican).

U.S.S.R.: Remagen-Rolandseck; Ambassador: VALENTIN M. FALIN.

United Kingdom: Friedrich-Ebert-Allee 77; Ambassador: Sir Nicholas Henderson.

U.S.A.: Bonn-Bad Godesberg, Mohlemer Aue; Ambassador: MARTIN J. HILLENBRAND.

Upper Volta: Bonn-Bad Godesberg, Wendelstadtallee 18; Ambassador: AISSÉ MENSAH (also accred. to Switzer-land and Austria).

Uruguay: Bonn-Bad Godesberg, Heerstrasse 16; Ambassador: Dr. José Antonio Quadros.

Vatican: Bonn-Bad Godesberg, Turmstr. 29; Apostolic Nuncio: Msgr. Dr. Corrado Bafile.

Venezuela: Bonn-Bad Godesberg, Arndstr. 16; Ambassador: WALTER H. BRANDT.

Viet-Nam, Republic: Bonn-Bad Godesberg, Victoriastr. 28; Ambassador: Nguyen Duy Lien (also accred. to Denmark, Norway and Sweden).

Yemen Arab Republic: Bonn-Bad Godesberg, Heerstr. 95; Ambassador: Ahmed Kaid Barakat.

Yugoslavia: Bonn-Bad Godesberg, Schlossstrasse 1; Ambassador: Budimir Lončar.

Zaire: Bonn-Bad Godesberg, Im Meisengarten 133; Ambassador: Zamundu, Kasongo Agenunga.

Zambia: Bonn-Bad Godesberg, Mittelstrasse 39; Ambassador: Moto NKAMA (also accred. to France and Italy).

JUDICIAL SYSTEM

Judges are not removable except by the decision of a court. Half of the judges of the Federal Constitutional Court are elected by the Bundestag and half by the Bundesrat. A committee for the selection of judges participates in the appointment of judges of the Superior Federal Courts.

Bundesverfassungsgericht (Federal Constitutional Court): Karlsruhe, Schlossbezirk 3.

President: Dr. ERNST BENDA.

Deputy President: Walter Seuffert.

Judges: Dr. Werner Böhmer, Prof. Dr. Hans Brox, Prof. Dr. Willi Geiger, Dr. Karl Haager, Dr. Hans Justus Rinck, Theodor Ritterspach, Prof. Dr. Hans Rupp, Wiltraut Rupp-von Brünneck, Dr. Fabian von Schlabrendorff, Martin Hirsch, Rudi Walter Wand, Dr. Hans Joachim Faller, Dr. Joachim Rottmann, Dr. Helmut Simon.

SUPERIOR FEDERAL COURTS

Bundesgerichtshof (Federal Court of Justice): Karlsruhe, Herrenstr. 45a. President: Dr. Dr. h.G. ROBERT FISCHER.

Vice-President: Dr. Fritz Hauss.

Presidents of the Senate: Dr. OSKAR HAIDINGER, ERNST MAI, Prof. Dr. h.G. Werner Sarstedt, Carlhans Schapenseel, Dr. Kreft, Dr. Gerd Pfeiffer, H. W. Schmidt, Walter Stimfel, Frau Dr. Gerda Krüger-Nieland, Dr. Reinhold Weber, Dr. Wolfgang Vogt, Wilhelm Trüstedt, Rudolf Schumacher, Hans Hill, Dr. Fritz Hauss.

Federal Solicitor-General: SIEGFRIED BUBACK.

Bundesverwaltungsgericht (Federal Administrative Court): Berlin 12, Hardenbergstr. 31.

President: Dr. Wolfgang Zeidler.

Vice-President: Prof. Dr. WALTHER FÜRST.

Presidents of the Senate: Frau Charlotte Schmitt, Dr. Harald Dickertmann, Dr. Friedrich Sieveking, Horst Arndt, Johannes Oppeneimer, Prof. Dr. Horst Sendler, Dr. Georg Konrad Glöckner, Jürgen Saalmann. Bundesiinanzhof (Federal Financial Court): 8 München 80, Ismaningerstr. 109.

President: Dr. Hugo von Wallis.

Vice-President: (vacant).

Presidents of the Senate: Dr. Hans Eglü, Dr. Karl Ringleb, Gerhard Huhn, Prof. Dr. Heinrich List.

Bundesarbeitsgericht (Federal Labour Court): Kassel-Wilhelmshöhe, Graf-Bernadotte-Platz 5.

President: Prof. Dr. GERHARD MÜLLER.

Chief Judge (Permanent Representative of the President): Dr. FRIEDRICH POELMANN.

Chief Judges: Prof. Dr. Hermann Stumpf, Frau Prof. Dr. Marie-Luise Hilger, Dr. Karl Gröninger.

Bundessozialgericht (Federal Social Court): Kassel-Wilhelmshöhe, Graf-Bernadotte-Platz 5.

President: Prof. Dr. GEORG WANNAGAT.

Chief Judge (Permanent Representative of the President): Kurt Brackmann.

Chief Judges: Dr. Gerhard Dapprich, Dr. Herbert Langkeit, Norbert Penquitt, Dr. Erich Maisch, Alfred Sonnenberg, Dr. Erwin Bracke, Dr.

Werner Baresel, Dr. Walter Buss, Dr. Her-Mann Heussner.

RELIGION

THE PROTESTANT CHURCH

German Protestantism is mainly of Lutheran origin with strong Calvinistic elements in some areas, and three main confessional groups—the Evangelical-Lutheran, the Evangelical-Reformed, and the United Confessional-have emerged among the Protestant population. In spite of confessional differences, these Churches have similar constitutional structures: the smallest community is the parish, with its church council and pastor (Pfarrer or Pastor). Several parishes form a church district headed by a Dean (Dekan), a Provost (Propst), or a Superintendent; the districts are united in the Territorial Church (Landeskirche). whose governing organs are the Synod, the Bishop or Church President (Kirchenprasident) and the Church Council (Landeskirchenrat) or the Church Office (Landeskirchenamt). The episcopal office is of primarily administrative importance and does not imply that the Bishop receives a higher form of ordination than the pastor.

Until 1969 the Protestant churches in both the Federal and Democratic Republics were united in the Evangelische Kirche in Deutschland (E.K.D.), a federation established at the Conference of Eisenach (Thuringia) in 1948. In 1969, however, the churches in the Democratic Republic declared themselves organizationally independent and established the Bund der Evangelischen Kirchen in der D.D.R. Consequently the E.K.D. is now restricted to the Federal Republic and Berlin (West) only, but maintains links with the churches in the Democratic Republic.

The Vereinigte Evangelisch-Lutherische Kirche Deutschlands (V.E.L.K.D.), one of the federations within the E.K.D., also divided in 1968 and is parallelled in the Democratic Republic by the V.E.L.K.D.D.R. The Evangelische Kirche der Union (E.K.U.) is partly divided and spans both the Federal and the Democratic Republics.

About 49 per cent of the population of the Federal Republic (29.2 million) are members of the Protestant Church, the great majority belonging to churches forming the E.K.D. The total membership of the Lutheran churches is almost 13.6 million, of the United Churches about 15.1 million, and of the Reformed Churches about 466,000.

Outside the E.K.D. are numerous small Evangelical Free Churches, such as the Baptists, Methodists, Mennonites and the Lutheran Free Church, with a membership of approximately 400,000 in all.

EVANGELISCHE KIRCHE IN DEUTSCHLAND (The Evangelical Church in Germany)

The governing bodies of the E.K.D. are its Synod of Clergy and lay members which meets at regular intervals, and the Council, composed of fifteen elected members. The

E.K.D. has an ecclesiastical secretariat of its own (the Evangelical Church Chancellery), and a special office for foreign relations.

Chairman of the Council: Landesbishof D. Helmut Class; 7 Stuttgart 1, Gerokstr. 49.

Synod of the E.K.D.: 3 Hannover-Herrenhausen, Herrenhauserstr. 2A; Pres. Cornelius A. von Heyl.

Evangelical Church Chancellery: 3 Hannover-Herrenhausen, Herrenhäuserstr. 2A; Berlin Office: 1 Berlin 12, Jebensstr. 3; Bonn Office: 53 Bonn, Löwenburgstr. 4; Pres. Walter Hammer.

Office for Foreign Relations: 6 Frankfurt a.M.1, Bockenheimer Landstr. 109; Pres. Dr. Heinz-Joachim Held.

CHURCHES AND FEDERATIONS WITHIN THE E.K.D.

Vereinigte Evangelisch-Lutherlsche Kirche Deutschlands (V.E.L.K.D.) (The United Evangelical-Lutheran Church of Germany): (Office) 3 Hanover, Richard-Wagner-Str. 26; f. 1948; mems. 13.6 million; Pres. Hugo Schnell; a body uniting the Lutheran territorial Churches within the Evangelical Church in Germany.

Two Lutheran Churches do not belong to the V.E.L.K.D.

Presiding Bishop: Bischof D. Hans-Otto Wölber (2 Hamburg 11, Neue Burg 1).

Evangelische Kirche der Union (E.K.U.) (Evangelical Church of the Union): is composed of Lutheran and Reformed elements. It includes the Evangelical Churches of Berlin-Brandenburg, Saxony, Greifswald (Pomerania), Görlitz (Silesia), Westphalia, the Rhineland and Anhalt; Chancellery, Western Region: 1 Berlin 12, Jebensstr. 3.

Chairman: Präses Ernst Wilm (1 Berlin 12, Jebensstr. 3).

Arnoldshainer Konferenz: 1 Berlin 12, Jebensstr. 3; f. 1967; a loose federation of the church governments of all United, one Lutheran and one Reformed Territorial church, aiming at greater co-operation between them.

Bund Evangelisch-Reformierter Kirchen (Association of Evangelical Reformed Churches): 34 Göttingen, Untere Karspule 11a.

Chairman: Präses P. HANS-JOACHIM PITSCH.

Herrnhuter Brüdergemeine or Europäisch-Festländische Brüder-Unität (The Moravian Church): f. 1457; there are 22 congregations in the Federal Republic, the Democratic Republic, Switzerland, Denmark and the Netherlands with approximately 18,000 members, publs. Brüderbote (monthly), Herrnhuter Arheit dahein und draussen (quarterly).

Chairman: Pir. Dr. HELMUT BINTZ (7325 Bad Boll. Unitätshaus).

Reformierter Bund (The Reformed League): 4442 Bentheim, Kirchstr. 19; f. 1884; unites the Reformed territorial Churches and Congregations of Germany. The central body of the Reformed League is the "Moderamen", the elected representation of the various Reformed Congregations. The President of the "Moderamen" is the Moderator.

Moderator: Prof. Dr. HANS-HELMUT ESSER (4435 Horstmar, Schlossstrasse 15).

THE PROVINCIAL CHURCHES

- (* Member of the V.E.L.K.D.; † member of the E.K.U.)
- Evangelical Church in Baden: Landesbischof Prof. Dr. HEIDLAND (75 Karlsruhe, Blumenstr. 1).
- *Evangelical-Lutheran Church in Bavaria: Landesbischof D. HERMANN DIETZFELBINGER, D.D. (8 Munich 2, Meiserstr. 13).
- †Evangelical Church in Berlin-Brandenburg: Berlin West: Bischof D. Kurt Scharf (1 Berlin 21, Bachstr. 1-2).
- Evangelical Church of Bremen: Pres. H. H. BRAUER, (28 Bremen, Franziuseck 2/4).
- *Evangelical-Lutheran Church in Brunswick: Landesbischof Dr. GERHARD HEINTZE (334 Wolfenbüttel, Neuer Weg 88-90).
- *Evangelical-Lutheran Church of Eutin: Bischof Wilhelm Kieckbusch (242 Eutin, Schlossstr. 13).
- *Evangelical-Lutheran Church in the State of Hamburg: Bischof D. HANS-OTTO WÖLBER (2 Hamburg 11, Neue
- *Evangelical-Lutheran Church of Hanover: Landesbischof Prof. D. EDUARD LOHSE (3 Hanover, Rote Reihe 6).
- Evangelical Church in Hesse and Nassau: Pres. Helmut HILD (61 Darmstadt, Paulusplatz 1).
- Evangelical Church of Kurhessen-Waldeck: Bischof D. ERICH VELLMER (35 Kassel-Wilhemshöhe, Heinrich-Wimmerstr 4)
- Church of Lippe: Landessuperintendent Dr. Fritz Viering (493 Detmold, Leopoldstr. 27).
- *Evangelical-Lutheran Church in Lübeck: Senior K.-H. STOLL (24 Lübeck, Backerstr. 3/5).
- Evangelical-Reformed Church in North-West Germany: Pres. Pastor P. Petersen; Provincial Superintendent and Pres. of the Territorial Church Council Dr. G. NORDHOLT (295 Leer, Saarstr. 6).
- Evangelical-Lutheran Church in Oldenburg: Bischof Dr. H. H. H. HARMS (29 Oldenburg, Huntestr. 14).
- United Protestant-Evangelical-Christian Church of the Palatinate: Pres. WALTER EBRECHT (672 Speyer, Domplatz 5).
- †Evangelical Church in the Rhineland: Pres. Lic. KARL IMMER (4 Düsseldorf 30, Hans-Böckler-Str. 7).
- *Evangelical-Lutheran Church of Schaumburg-Lippe: Landesbischof J. G. Maltusch (4967 Bückeburg, Schloss, Westflügel).
- *Evangelical-Lutheran Church of Schleswig-Holstein: Bischof Dr. FRIEDRICH HÜBNER (23 Kiel, Dänische Str. 27-35).
- Evangelical Lutheran Church in Württemberg: Landesbischof D. Helmur Class (7 Stuttgart 1, Gänsheidestr. 2/4).
- †Evangelical Church of Westphalia: Pres. D. HANS THIMME (48 Bielefeld, Altstädter Kirchplatz 5).

OTHER CHURCHES

- Alt-Katholische Kirche (Old Catholic Church): 53 Bonn, Gregor-Mendelstr. 28; seceded from the Roman Catholic Church as a protest against the declaration of Papal Infallibility in 1870; in full communion with the Anglican Communion; Pres. Bischof Josef BRINKHUES (Bonn); publ. Alt-Katholische Kirchenzeitung (monthly).
- Bund Evangelisch-Freikirchlicher Gemeinden (Union of Evangelical Free Church Congregations): 638 Bad Homburg, Louisenstr. 121; f. 1849; Pres. Rev. Johannes ARNDT; Gen. Secs. Rev. GERHARD CLASS, Rev. MAN-FRED OTTO.
- Evangelisch-methodistische Kirche (United Methodist Church): 6000 Frankfurt/Main, Wilhelm-Leuschner-Str. 8; f. 1968 when the former Evangelische Gemeinschaft and Methodistenkirche united; Bishop Dr. C. ERNST SOMMER.
- Bund Freier evangelischer Gemeinden (Union of Free Evangelical Churches of Germany): 581 Witten (Ruhr), Goltenkamp 2; f. 1854; 23,000 mems.; Pres. KARL H. KNÖPPEL; Sec. Assessor Heinz-Adolf Ritter.
- Selbständige Evangelisch-Lutherische Kirche: 56 Wuppertal 1, Funckstr. 43; Bishop Dr. Rost.
- Vereinigung der deutschen Mennonitengemeinden (Union of German Mennonite Congregations): 415 Krefeld, Königstr. 132; f. 1886; Chair. Pastor Dr. H. A. HERTZ-
- Heilsarmee, Die (Salvation Army): 5 Cologne 1, Salierring 23; f. in Germany 1886; Territorial Commander Col. WILLIAM LARSON; Chief Sec. Col. VICTOR C. KEANIE; publs. Der Kriegsruf, Der Junge Soldat.

EVANGELICAL ASSOCIATIONS

- Arbeitsgemeinschaft christlicher Kirchen in der Bundesrepublik Deutschland und Berlin (West) e.V. (Council of Christian Churches in the Federal Republic of Germany and West Berlin): 6000 Frankfurt/Main, Bockenheimer Landstr. 109; the Evangelical Church in Germany and thirteen other Churches are affiliated to this Council; the Roman Catholic Church as well as the Greek Orthodox Metropoly of Germany have recently also become members; Pres. Bishop Dr. Carl-Ernst SOMMER.
- Deutscher Evangelischer Kirchentag (German Evangelical Church Conference): 64 Fulda, Magdeburgerstr. 59; Gen. Sec. Dr. Hans Hermann Walz.

THE ROMAN CATHOLIC CHURCH

It is estimated that about 45 per cent of the population of the Federal Republic are members of the Catholic Church, which is strongest in the South.

The German Bishops meet twice a year. One of these conferences is held in Fulda. (See also the section on the Roman Catholic Church in the chapter on the German Democratic Republic.)

Archbishop of Bamberg: DDr. Josef Schneider.

Bishop of Eichstätt: Dr. ALOIS BREMS.

Bishop of Speyer: Dr. FRIEDRICH WETTER.

Bishop of Würzburg: Dr. h.c. Josef Stangl.

Archbishop of Munich and Freising: Julius, Cardinal Döpfner.

Bishop of Augsburg: Dr. Joseph Stimpfle.

Bishop of Passau: Dr. Anton Hofmann.

Bishop of Regensburg: Dr. Rudolf Graber.

Archbishop of Freiburg: Dr. Hermann Schäufele.

Bishop of Mainz: Cardinal Dr. Hermann Volk.

Bishop of Rottenburg: Dr. Karl Joseph Leiprecht.

Archbishop of Gologne: Joseph, Cardinal Höffner.
Bishop of Aachen: Dr. Johannes Pohlschneider.
Bishop of Münster: Heinrich Tenhumberg.
Bishop of Osnabrück: Dr. Helmut Hermann Wittler.

Bishop of Limburg: Dr. Wilhelm Kempf. Bishop of Trier: Dr. Bernhard Stein.

Bishop of Essen: Dr. Franz Hengsbach.

Archbishop of Paderborn: vacant.

Bishop of Hildesheim: Heinrich Maria Janssen.

Bishop of Fulda: Dr. ADOLF BOLTE.

Apostolic Nuncio in Germany: Archbishop Dr. Corrado Bafile; Seat: Bad Godesberg.

IMPORTANT CATHOLIC INSTITUTIONS

Secretariate of the German Conference of Bishops: 53 Bonn, Beringstr. 30; Sec. Prälat Dr. Josef Homeyer.

Commissariat of German Bishops—Catholic Office: 53
Bonn, Kaiser-Friedrich-Str. 9; (represents the German
Conference of Bishops before the Federal Government
on political issues); leader Prälat WILHELM WÖSTE.

Central Committee of German Catholics: 53 Bonn, Hochkreuzallee 246 (summarizes the activities of Catholic laymen in the Federal Republic); Pres. Dr. Bernhard Vogel; Gen. Sec. Dr. Friedrich Kronenberg.

THE ORTHODOX CHURCH

The Synod of all those Bishops who are not under the jurisdiction of the Patriarch of Moscow has its headquarters in New York, U.S.A. It is in permanent communication with the orthodox communities in other European States, in North Africa and in North and South America.

President of the Synod: His Eminence Metropolitan Philarer; 75 East 93rd St., New York, N.Y. 10028.

THE JEWISH COMMUNITY

The Jewish Community in Germany is estimated to number about 35,000, of whom more than 30,000 live in the Federal Republic and West Berlin.

Zentralrat der Juden in Deutschland (Central Council of Jews in Germany): 4 Düsseldorf 30, Fischerstr. 49; Pres. Board of Dirs. Werner Nachmann; Gen. Sec. Alexander Ginsburg; publ. Jüdischer Press Dienst, Allgemeine jüdische Wochenzeilung.

THE PRESS

Article 5 of the 1949 Basic Law of the Republic stipulates: "Everyone has the right freely to express or to disseminate his opinion by speech, writing and pictures and freely to inform himself from generally accessible sources. Freedom of the press and freedom of reporting by radio and motion pictures are guaranteed. There shall be no censorship. These rights are limited by the provisions of the general laws, the provisions of the law for the protection of youth, and by the right to inviolability of personal honour." These last qualifications refer to the Federal law penalising the sale to young people of literature judged to endanger morality, and to articles in the Penal Code relating to defamation, in particular Article 187A concerning defamation of public figures.

There is no Federal Press Law, all legal action being normally referred back to the Constitution. But the press is subject to general items of legislation some of which may significantly limit press freedom. Article 353C of the Penal Code for example, dating from the Nazi period, prohibits the publication of official news supposed to be secret; under it a journalist may be required to reveal his sources. The Code of Criminal Procedure also constitutes a danger in that it authorizes the government to confiscate objects potentially important as evidence in a legal investigation, which may be construed to include papers, print, etc.

Freedom of the press is stipulated in each of the Constitutions of the individual Lander. Many Lander have recently enacted laws defining the press's democratic role and some give the press access to sources of government information; some authorize the journalist to refuse to disclose his sources; others qualify, and even withhold this right. Some permit printed matter to be confiscated on suspicion of an indictable offence only if authorized by an independent judge; others allow a district attorney or even the police to give this authorization.

The German Press Council, modelled on the English pattern, is composed of publishers and journalists. It investigates complaints against the press and enjoys a considerable standing.

The Federal German press is quite free of government control. No daily is directly owned by a political party, and though some 10 per cent of papers support a party line, at least two-thirds of newspapers, including all the major dailies, are politically independent.

The political and economic conditions since 1949 have fostered the rapid development of a few large publishing groups.

The press situation has been under consideration by three government commissions, which have suggested various measures to halt the trend towards concentration. Such a measure was the tax rebate granted for one year in April 1968 to papers selling less than 160,000 copies. About 400 publications benefited by some DM 20,000 (£2,000).

The main press commission, the Gunther commission, issued an interim report on May 22nd 1968. The commission laid down various limits on the proportions of circulation one group should be allowed to control: (1) 40 per cent of the total circulation of newspapers or 40 per cent of the total circulation of magazines; (2) 20 per cent of the total circulation of newspapers and magazines together; (3) 15 per cent of the circulation in one field if the proportion owned in the other field is 40 per cent. At that time Springer's estimated ownership was 39.2 per cent of newspaper circulation (65-70 per cent in Berlin) and 17.5 per cent of magazine circulation. In June Springer reduced his share of the periodical market to around 11 per cent by selling Ellern, Twen, Jasmin and Bravo (whose joint circulation is some 4,500,000), and Das Neue Blatt. Ellern, Twen and Jasmin, having changed hands again, now belong to another group in Hamburg. Gruner und Jahr, while Bravo and Das Neue Blatt are part of Heinrich-Bauer-Verlag.

Before the report of the Günther commission the most active opponents of press concentration had been the students. Their long campaign against the Springer Group culminated in April (after Rudi Dutschke's shooting) in attacks on the offices of the Group and attempts in many

parts of Germany to prevent distribution of its papers. The most powerful of these is *Bild Zeitung*, whose mass circulation (4,700,000) was easily attracted by a formula completely new to the German press of the 1950s: bold, simple reporting and editorials, coupled with striking pictures and banner headlines. The paper's success has also been helped by Springer's ability to print it in eight different provincial centres, a great advantage in a country where the regional press has always been strong.

Axel Springer Group (Propr. AXEL SPRINGER): Kochstrasse 50, 1 Berlin 61; the largest newspaper publishing group in continental Europe; includes five major dailies (Die Welt, Hamburger Abendblatt, Bild Zeitung, Berliner Morgenpost, B.Z.), two Sunday papers (Welt am Sonntag, Bild am Sonntag), two radio, television and family magazines (HÖRZU, Funk Uhr) and the Propyläen Verlag and Ullstein Verlag publishing firms.

The other principal groups are as follows:

Gruner und Jahr Group AG & Co. (Dirs. J. Jahr, G. Bucerius): 221 Itzehoe, Klaus-Groth-Strasse 11; owns amongst others the following: Brigitte, Capital, Eltern, Essen und Trinken, Gong, Jasmin, Schöner Wohnen, Schule, Sesamstrasse, Stern, Twen.

8üddeutscher-Verlag (Pres. HANS DÜRRMEIER): owns Süddeutsche Zeitung and München Abendzeitung.

Jahreszeiten-Verlag (Pres. Helmut Ganske): owns amongst others the periodicals Für Sie and Moderne Frau.

Heinrich-Bauer-Verlag (Pres. HEINRICH BAUER): owns the popular illustrated magazines Quick (Munich), Nene Revue (Hamburg), Praline, Neue Post; and Das Neue Blatt and Bravo, formerly owned by the Springer Group.

Burda Druck und Verlag (Pres. Dr. Franz Burda): 7600 Offenbach/Baden; owns Bunte Illustrierte, Bild und Funk, Freundin and Das Haus.

The most important and influential daily newspapers include Frankfurter Allgemeine Zeitung, Süddeutsche Zeitung (Munich) and Die Welt (Hamburg). The most popular dailies apart from Bild Zeitung are Westdeutsche Allgemeine, Hamburger Morgenblatt, Hamburger Abendblatt and B.Z.

The most influential weeklies include Die Zeit (Hamburg), the Sunday Welt am Sonntag and Bild am Sonntag, and the political periodical Der Spiegel. Numerous popular illustrated weekly periodicals have developed, led by HÖRZU, Stern and Quick.

Figures for 1973 show that 432 dailies and 63 Sunday and weekly papers were published in Germany, giving an average daily circulation of over 21 million—the highest on the Continent. In the same year 878 periodicals, with a total circulation of nearly 90 million were published. Of these 227 were of the popular variety.

FEDERAL REPUBLIC OF GERMANY

repeaters. The transmitting facilities of the third programme belong to the Federal Postal Services (Deutsche Bundespost) and are operated by them as well.

Norddeutscher Rundfunk (N.D.R.): 2 Hamburg 13, Rothenbaumchaussee 132-134; Dir.-Gen. Martin Neuffer; Deputy Dir.-Gen. Dietrich Schwarzkoff; Dir. Radio Programmes W. Jäger; Dir. Television Programmes D. Schwarzkoff; Technical Dir. H. A. C. Krieger.

Radio

There are nine Medium Wave and forty-two VHF transmitters. Studios in Hamburg, Hanover, Kiel, Flensburg, Oldenburg, Berlin and Bonn supply three programmes.

TELEVISION

There are seventeen transmitters and seventy relay stations.

Saarländischer Rundfunk: 6600 Saarbrücken, Funkhaus Halberg, Postfach 1050; Chair. Franz Schlehofer; Dir.-Gen. Dr. Franz Mai; Radio Dir. Dr. H. Garber (a.i.); Television Dir. Karl Schnelting; Chief Editor. K.-H. Reintgen; Technical Dir. W. Glesner; publ. SR-information.

Radio

There are one Medium Wave (1200 kW) and nine VHF transmitters, supplying two programmes.

TELEVISION

There is one transmitter with eighteen relay stations.

Süddeutscher Rundfunk: 7000 Stuttgart 1, Neckarstr. 145, P.O.B. 837; f. 1924; Chair. Heinz Bühringer; Dir.-Gen. Prof. Dr. Hans Bausch; Radio Dir. Dr. Peter Kehm; Television Dir. Horst Jaedicke; Technical Dir. Dr. Dietrich Schwarze; Admin. Dir. Hermann Fünfgeld; publ. Südfunk.

RADIO

There are ten Medium Wave, one Short Wave and twenty-six VHF transmitters. Studios in Stuttgart, Heidelberg, Karlsruhe, Ulm and Heilbronn provide three programmes.

Television

There are eight transmitters and 119 relay stations.

Südwestfunk: 757 Baden-Baden, Hans-Bredow-Str. 5, Postfach 820; Chair. WILLIBALD HILF; Dir.-Gen. Helmut Hammerschmidt; Dir. Radio Programmes Dr. Dieter Göbel; Television Dir. Dieter Stolte; Technical Dir. Dr. Walter Huhn; Admin. Dir. Ulrich Weber.

RADIO

There are seven Medium Wave, one Short Wave and fifty VHF transmitters. Studios in Baden-Baden, Mainz, Freiburg and Tübingen supply three programmes.

Television

There are twenty-three transmitters and 210 relay stations.

Westdeutscher Rundfunk (WDR): 5 Cologne 1, Appellhofplatz 1; Chair. Josef A. J. Simons; Dir.-Gen. Klaus von Bismarck; Admin. Dir. Friedrich Wilhelm Freiherr von Sell; Technical Dir. I. Dahrendorf; Dir. Radio Programmes Manfred Jenke; Dir. Televisin Programmes Werner Höfer.

Radio

There are seven Medium Wave and thirty-four VHF transmitters. Studios at Cologne, Bonn, Düsseldorf, Dortmund, Münster, Bielefeld and Essen supply three programmes.

TELEVISION

There are twenty-two transmitters and 212 relay stations.

FOREIGN RADIO STATIONS

American Forces Network: A.P.O. 09757, New York, N.Y., U.S.A.; 6 Frankfurt/Main, Bertramstrasse 6; Commanding Officer Lt.-Col. FLOYD A. McBride; Programme Dir. Robert J. Harlan.

There are thirty-one Medium Wave and thirteen VHF transmitters.

British Forces Broadcasting Service, Germany: 5 Cologne-Marienburg, Parkstrasse 61, B.F.P.O. 19; Station Controller M. A. Pachebat; Senior Programme Organizer Dick Norton; Chief Engineer Michael E. Townley; also studio in Berlin.

There are eight VHF transmitters.

Radio Free Europe: Free Europe Inc., 2 Park Avenue, New York 16, N.Y., U.S.A.; 8 Munich 22, Englischer Garten 1; Pres. (Free Europe Inc.) WILLIAM P. DUR-KEE; Dir. (Radio Free Europe) RALPH E. WALTER.

There are one Medium Wave and thirty-one Short Wave transmitters broadcasting in Czech, Slovak, Hungarian, Polish, Romanian and Bulgarian.

Radio Liberty: 8 Munich 81, Arabellastr. 18; Exec. Dir. Francis S. Ronalds Jr.; supported by the Radio Liberty Committee Inc., whose funds come from grants from the U.S. Congress; 30 East 42nd St., New York, N.Y. 10017; Pres. Howland H. Sargeant.

Broadcasts 24 hours daily in 18 national languages of the U.S.S.R.

Voice of America (Relay Station and East European Correspondents Bureau): 8 Munich 22, Ludwigstr. 2.

There are one Long Wave, one Medium Wave and eight Short Wave transmitters broadcasting in Russian, English, Polish, Hungarian, Czech, Lithuanian, Estonian, Latvian, German, Arabic, Romanian, Bulgarian, Georgian, Armenian, Ukrainian, Albanian, Slovene, French and Serbo-Croat.

The Correspondents Bureau provides VOA Washington headquarters with reports and feature programmes in English and other languages on newsworthy developments in Eastern Europe and the U.S.S.R.

FINANCE

(cap.=capital; p.u.=paid up; dep.=deposits; m.=million)

Until 1957 the issue of bank notes was the responsibility of the Bank Deutscher Länder; since that time the task has been carried out by the Deutsche Bundesbank (Federal Bank), with its central offices in the Länder acting as "main administrative organs of the Federal Bank". In exercising its legal powers, the Federal Bank is not subject to control from the Government. Apart from the Federal Bank there are central financial institutions with special tasks such as the Credit Institute for Reconstruction (Kreditanstalt für Wiederaufbau) which administers European Recovery Plan funds, the Equalization of Burdens Bank (Lastenausgleichsbank) which administers funds for the rehabilitation of refugees, and the clearing houses of the communal banks—the German Municipal Bank, the Industrial Credit Bank, and the Agricultural Annuity Bank.

There are over 1,600 institutions with 15,000 branches in the banking sector of the Federal Republic, and the three largest banks are the Deutsche Bank, the Commerzbank and the Dresdner Bank. All of these three carry on the German private bank tradition of universal banking, whereby banks offer advice and carry out all kinds of financial transaction on their customers' behalf. Although the Deutsche Bank has over 800 branches, and the Commerzbank over 700, 83 per cent of all bank-branches have less than ten employees, and there is considerable competition from the large number of small establishments. The Post Office runs a well established giro system, and there are over 850 small savings banks with 3,700 branches, mainly run by local, municipal, and rural authorities,

which hold about 60 per cent of the capital in the savings sector. During the last few years the savings banks have been encroaching upon the formerly commercial bank monopoly of industrial credit. Also important are the Credit Co-operatives such as the "Volksbanken" which grant industrial credit, and the "Raiffeisenkassen" which deal in agricultural credit. The "Bayerische Hypotheken und Wechsel Bank" is a typical regional bank, and an example of a specialist bank which has rapidly grown into one of Germany's major banks is the trade-union and consumer co-operatives owned "Bank für Gemeinwirtschaft" which originally specialized in the salvage of floundering business.

There are about 8,900 insurance companies and 31 building societies operating in the Federal Republic, of which 910 of the former and 17 of the latter are subject to supervision by Federal Board of Control for Insurance and Building Savings; the remainder being controlled by Länder authorities. Of the insurance companies 251 specialize in forms of life insurance, 220 in pensions, 100 in accident insurance, 172 in general insurance, 85 in agriculture, 38 in shipping, and 34 in re-insurance. 168 foreign companies operate in the Federal Republic, 143 of them from OECD countries.

There are stock-exchanges at West Berlin, Bremen, Düsseldorf, Frankfurt-am-Main (considered to be the financial capital of the Federal Republic), Hamburg, Hanover, Munich and Stuttgart.

BANKS

1. THE CENTRAL BANKING SYSTEM

- Deutsche Bundesbank: 6 Frankfurt am Main 50, Wilhelm-Epstein-Str. 14; Pres. Dr. Karl Klasen; Vice-Pres. Dr. Otmar Emminger; Dirs. Dr. Hans Georg Emde, Dr. Rolf Gocht, Dr. Heinrich Irmler, Werner Lucht, Dr. Helmut Schlesinger, Johannes Tüngeler.
- Landeszentralbank in Baden-Württemberg: 7 Stuttgart 1, Marstallstr. 3; Pres. Board of Management Dr. Fritz Schiettinger.
- Landeszentralbank in Bayern: 8 Munich 2, Postfach, Ludwigstr. 13; Pres. Board of Management Carl Wagenhöfer.
- Landeszentralbank in Berlin: 1 Berlin 12, Leibnizstr. 7–10; Pres. Board of Management WERNER GUST.
- Landeszentralbank in Bremen: 28 Bremen, Am Wall 122: Pres. Board of Management Dr. Leonhard Gleske.
- Landeszentralbank in der Freien und Hansestadt Hamburg: 2 Hamburg 1, Alter Wall 2-8; Pres. Board of Management Hans Hermsdorf.

- Landeszentralbank in Hessen: 6 Frankfurt a.M., Neue Mainzer Str. 47; Pres. Board of Management Leopold W. Bröker.
- Landeszentralbank in Niedersachsen: 3 Hanover. Georgsplatz 4-5; Pres. Board of Management Wilhelm Rahmsdorf.
- Landeszentralbank in Nordrhein-Westfalen: 4 Düsseldorf, Berliner Allee 14; Pres. Board of Management Ernst Fessler.
- Landeszentralbank in Rheinland-Pfalz: 6500 Mainz, Kaiserstr. 52; Pres. Board of Management Prof. Fritz Duppré.
- Landeszentralbank im Saarland: 66 Saarbrücken 1, Keplerstr. 18; Pres. Dr. Paul Schütz.
- Landeszentralbank in Schleswig-Holstein: 2300 Kiel, Fleethörn 26; Pres. Board of Management Otto Kähler.

By the Law of July 26th, 1957 the former Land Central Banks and the Berlin Central Bank were merged with the Bank deutscher Länder to form the Deutsche Bundesbank. The functions of the Deutsche Bundesbank are to issue bank notes, to regulate note and coin circulation and supply of credit, and to ensure due execution by banks of both internal and external payments.

The organs of the Deutsche Bundesbank are the Central Bank Council (Zentralbankrat), the Directorate (Direktorium) and the Boards of Management of the Land Central Banks. The Central Bank Council consists of the President and Vice-President of the Deutsche Bundesbank, the other members of the Directorate and the Presidents of the Land Central Banks, Its general function is to determine money and credit policies, to lay down business and administrative directives, and to state the responsibilities of the Directorate and Boards of Management. The Directorate consists of the President and the Vice-

President of the Deutsche Bundesbank and of not more than eight further members. It must implement decisions taken by the Central Bank Council and manage and administer the Bank, except in matters coming within the competence of the Land Central Banks' Boards of Management. The Directorate controls Federal, foreign exchange and open market transactions.

The Doutsche Bundesbank maintains Head Offices (Hauptverwaltungen) in each Land, known as Landeszentralbanken. The Boards of Management of each of these Land Central Banks, normally consisting of the President and Vice-President, are responsible for all transactions and administrative business within the Land.

The Deutsche Bundesbank is bound, as far as is consistent with its functions, to support Government economic policy, although it is independent of instructions from the Government. The Bank may advise on important monetary policy, and members of the Federal Government may take part in the deliberations of the Central Bank Council but may not vote.

2. THE COMMERCIAL BANKS

During the banking reform of 1946-47 the three large private banking houses of Germany, the Deutsche Bank, the Dresdner Bank and the Commerzbank (known as the D-Banks), were decentralized into thirty small successor institutions, none of which might have branches outside its own Land. This arrangement was superseded in 1952 by a further reorganization; at this stage the three D-Banks formally transferred their business to nine successor institutes, and the three Berlin successors to the D-Banks were brought into the scheme. The successors to the Deutsche Bank were the Norddeutsche Bank of Hamburg, the Deutsche Bank Aktiengesellschaft West of Düsseldorf, and the Süddeutsche Bank of Munich; those of the Dresdner Bank were the Hamburg Kreditbank, the Rhein-Main Bank of Frankfurt am Main, and the Rhein-Ruhr Bank of Düsseldorf, and those of the Commerzbank, the Commerzbank Bankverein of Düsseldorf, the Commerz- und Kreditbank of Frankfurt am Main, and the Commerz- und Discontobank of Hamburg. The three Berlin successors of the D-Banks were the Berliner Disconto Bank, the Bank für Handel und Industrie, and the Berliner Commerzbank.

By a further agreement reached in April 1957 the process of decentralization was reversed to a large extent and both the Deutsche Bank and the Dresdner Bank reabsorbed their successor institutions, with the exception of their Berlin successors, the Berliner Disconto Bank and the Bank für Handel und Industrie which continue as separate subsidiary concerns of the Deutsche Bank and the Dresdner Bank respectively. This agreement did not affect the previous arrangement of 1952 with regard to the successor institutes of the Commerzbank, which still functioned as independent organizations.

A final reorganization took place in November 1958, by which the three successor institutions to the Commerzbank were merged into one organization, the Commerzbank A.G.; the Berlin successor institute, the Berliner Commerzbank A.G., continues to exist as a separate institute.

3. PRINCIPAL PRIVATE BANKS

- Allgemeine Deutsche Gredit-Austalt: 28 Bremen 1, Obernstrasse 2-14, Postfach 13 (formerly Norddeutsche Kreditbank A.G., f. 1931); has 43 brs.; Mans. Helmur Bitzer, Peter Borchardt, Dr. Erwin Dähne.

- Zentralverband der Deutschen Seehafenbetriebe e.V. (Central Federation of German Seaport Operators): 2 Hamburg 50, Grosse Elbstrasse 14; f. 1935; Chair. Dr. Ernst Sutor; Man. Dr. Lothar L. V. Jolmes.

CIVIL AVIATION

- Deutsche Lufthansa Aktiengesellschaft: 5 Cologne 21, von-Gablenz-Str. 2-6; f. 1953; extensive world-wide network; fleet of 5 Boeing 747 Jumbo Jets, 1 747F Jumbo Cargo Jet, 18 707, 30 727, 22 737, 6 737-230C, 4 Mc-Donnell Douglas DC-10-30 and 25 training aircraft; 3 Airbus A-300B2, 12 Boeing 727, 5 McDonnell Douglas DC-10-30 on order; Chair. Dr. Walter Hesselbach.
- General Air Luftverkehrsgesellschaft m.b.H.: 2000 Hamburg 63, Flughafen; f. 1972; domestic services on behalf of Deutsche Lufthansa between Saarbrücken and Frankfurt/Düsseldorf/Munich/Köln, between Düsseldorf and Bremen, Brussels and Nuremberg, and between Nuremberg and Munich; fleet of 5 YAK-40; Man. Dir. Dr. Heinz Koch.
 - General Air Nord G.m.b.H.: 24 Lübeck, Flughafen Blankensee; f. 1972; domestic services linking Frankfurt, Kassel, Lübeck and Munich; fleet of five YAK-40; Man. Dirs. as above.

There are international airports at West Berlin, Bremen, Cologne, Düsseldorf, Frankfurt, Hamburg, Hanover, Munich and Stuttgart, and Federal Germany is served by 55 foreign airlines (Jan. 1973). Apart from the above airlines, internal air services are also provided by BEA and Pan American.

TOURISM

Deutsche Zentrale für Tourismus (DZT) (German National Tourist Board): 6 Frankfurt a.M., Beethovenstr. 69; f. 1948; Gen. Man. Günther Spazier; publs. Information Service (9 languages), Der Fremdenverkehr (Tourism).

EUROPEAN OFFICES

- Austria: Deutsche Zentrale für Tourismus, 1010 Vienna I, Ecke Stephansplatz, Brandstätte 1.
- Belgium: Office Allemand du Tourisme, 1040 Brussels, 23 rue du Luxembourg.
- Denmark: Tysk Turist-Central, "Buen", Vesterbrogade 6 D II, 1620 Copenhagen.
- France: Office National Allemand du Tourisme, 4 Place de l'Opéra, 75 Paris 2e.
- Italy: Ufficio Nazionale Germanico per il Tourismo, 00187 Rome, Via L. Bissolati 22.
- Netherlands: Duits Reis-Informatiebureau, Spui 24, Amsterdam 1001.
- Spain: Oficina Nacional Alemana de Turismo, San Agustín 2 (Plaza de las Cortes), Madrid 14.
- Sweden: Tyska Turistbyran, Stockholm C, Birger Jarlsgatan 11.
- Switzerland: Offizielles Deutsches Verkehrsbüro, 8001 Zurich, Talstr. 62.
- United Kingdom: German National Tourist Office, 61 Conduit Street, London, W1R oEN.
- Yugoslavia: ZZTP Ljubljana, Padjetje za Turizem Transport in Gostinstvo Ljubljana, Mose Pijade 39.

There are also branches in Ljubljana, New York, Chicago, San Francisco, Montreal, Johannesburg, Rio de Janeiro and Tokyo.

CULTURAL ORGANIZATION

Ständige Konferenz der Kultusminister der Länder in der Bundesrepublik Deutschland (Standing Conference of the Ministers of Education in the Federal Republic of Germany): 5300 Bonn, Nassestr. 8; co-ordination of education and cultural affairs for which in principle the governments of the Länder are responsible; Pres. Minister of Science and Cultural Affairs (Lower Saxony) Prof. Dr. Joist Grolle; Sec.-Gen. Kurt Frey.

THEATRES

In the Federal Republic there are about 135 theatres and about 60 permanent opera companies. 20 theatres are run by the State, 80 by the towns and 18 by the Länder. About 55 are run on a private basis. The following are among the most important theatres:

- Deutsche Oper Berlin: 1 Berlin 10, Bismarckstr. 34-37; opera and ballet; Gen. Man. Prof. Dr. Egon Seefehlner.
- Schiller-Theater: 1000 Berlin-Charlottenburg, Bismarckstr. 110; drama; Dir. HANS LIETZAU.

- Städtische Bühnen Frankfurt (Main): 6000 Frankfurt am Main 1, Untermain-Anlage 11; municipal theatres for drama, opera and ballet; Dir. (opera) Christoph von Dohnányi; Dirs. (drama) Jürgen Kloth, Peter Palitzsch, Klaus Steiof; Gen. Man. Ulrich Schwab.
- Deutsches Theater in Göttingen: 3400 Göttingen, Theaterpl. 11; f. 1890; drama; Dir. Günther Fleckenstein.
- Hamburgische Staatsoper A.G.: 2000 Hamburg 36, Gr. Theaterstr. 34; opera and ballet; Intendant Prof. August Everding; Dir. Herbert Paris.
- Deutsches Schauspielhaus: 2000 Hamburg 1, Kirchenallee 39; drama; Dir. Ivan Nagel.
- Bühnen der Stadt Köln: 5000 Köln, Offenbachplatz; municipal theatres for drama, opera and ballet; Intendant Dr. Claus Helmut Drese.
- Bayerische Staatsoper-Nationaltheater: 8000 München, Max-Joseph-Pl. 1-3; opera and ballet; Staatsintendant Dr. Günther Rennert.
- Bayerisches Staatsschauspiel- Residenztheater: 8000 München, Max-Joseph-Pl. 1; drama; Dir. Kurt Meisel.
- Württembergisches Staatstheater: 7000 Stuttgart, Oberer Schlossgarten 6; state theatre for drama, opera and ballet; Gen. Man. Peter Doll.

ORCHESTRAS

There are numerous symphony and chamber orchestras. The following are among the most important:

- Bamberger Symphonisches Orchester: 86 Bamberg.
- Berliner Philharmonisches Orchester: 1 Berlin, 30 Matthäikirchstr. 1; Principal Conductor Herbert von Kara-Jan.
- Radio-Symphonie-Orchester Berlin: 1 Berlin; Dir.-Gen. GERHARD HELLWIG; Chief Conductor LORIN MAAZEL.
- Philharmonisches Staatsorchester: 2000 Hamburg 36, Grosse Theaterstr. 34; f. 1828; Conductor Wolfgang Sawallisch.
- Norddeutscher Rundfunk, Hamburg-NDR-Sinfonieorchester: 2 Hamburg 13; Chief Conductor Moshe Atzmon.
- Philharmonia Hungarica: Theater der Stadt, P.O.B. 1422, 4370 Marl; originally from Hungary; Dir.-Gen. HANS-HELMUT MÖHLER.
- Bayerischer Rundfunk Sinfonie-Orchester: 8 Munich 2, Rundfunkplatz 1; Dir. RAFAEL KUBELIK.
- Bayerisches Staatsorchester: 8 Munich.
- Münchner Philharmoniker: 8 Munich 2, Rindermarkt 3-4/111; f. 1893; Conductor Rudolf Kempe.
- Stuttgarter Kammerorchester: 7 Stuttgart 1, Charlottenplatz 17; Conductor Karl Münchinger.

ATOMIC ENERGY

Bundesministerium für Forschung und Technologie (Federal Ministry for Research and Technology): Bonn-Bad Godesberg, Stresemannstrasse 2, Postfach 120370; f. 1955; Minister Hans Matthöfer.

The Ministry is divided into five departments, the first dealing with administration, planning, finance, co-ordination of research institutions, the second with principal political problems of research, general promotion of research and international co-operation, the third with energy, raw materials and maintenance of supplies, biology, ecology and medicine, the fourth with dataprocessing and information systems, and the fifth with space travel and transport systems.

The Ministry's responsibility in the nuclear energy field is to promote nuclear research and nuclear engineering as well as to plan and co-ordinate the activities of all of these bodies within the framework of the German Nuclear Programme. In 1974 some DM 1,470 million was placed at the Ministry's disposal for the fulfilment of its tasks in the nuclear energy field.

Nuclear research is carried out by the research centres of the following institutions in co-operation with universities and industry:

- 1. Deutsches Elektronen-Synchrotron, Hamburg.
- Gesellschaft für Kernenergieverwertung in Schiffbau und Schiffahrt m.b.H., Hamburg.
- 3. Gesellschaft für Kernforschung m.b.H., Karlsruhe.
- Gesellschaft f
 ür Schwerionenforschung m.b.H., Darmstadt.
- Gesellschaft für Strahlen- und Umweltforschung m.b.H., München.

- 6. Hahn-Meitner-Institut für Kernforschung Berlin G.m.b.H.
- Max-Planck-Institut f
 ür Plasmaphysik, Garching/ M
 ünchen.
- 8. Kernforschungsanlage Jülich G.m.b.H., Jülich.

There are 10 nuclear power stations in operation, 11 are under construction and 6 have been commissioned.

There are three large nuclear power stations at Würgassen (Weser), Stade (Elbe) and Biblis (Rhine) with capacities of 640 MW, 630 MW and 1,145 MW respectively. Three larger demonstration plants are each in operation in Gundremmingen (Danube), 237 MW, Lingen (Ems), 255 MW and Obrigheim (Neckar), 328 MW.

The following nuclear power stations are under construction and are due to come into commercial operation within the next few years: Brunsbüttelkoog 770 MW, Biblis B (Rhine) 1,240 MW, Neckarwestheim (Neckar) 775 MW, Ohu (Isar) 870 MW, Esenshamm (Weser) 1,230 MW, Krümmel 1,260 MW, Uentrop 300 MW, Kalkar 280 MW and 2 at Philippsburg, both with a capacity of 864 MW and Grafenrheinfeld 1,290 MW.

Nuclear power stations at Mülheim-Karlich (Rhein) 1,154 MW and Wyhl 1,280 MW were contracted in 1973 and are due to come into operation in 1978 and 1979 respectively.

Besides Grafenrheinfeld, four more power stations were contracted in 1974: two at Wyhl 1,220 MW each, another at Gundremmingen 1,249 MW, and one at Grohnde 1,294 MW.

GIBRALTAR

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag

Gibraltar is a narrow peninsula running southwards from the south-west coast of Spain to which it is connected by a sandy isthmus about one mile long and a half-mile wide. The Rock, as it is often called, is situated in latitude 36° 7' N. and longitude 5° 21' W. and runs from north to south for a length of nearly three miles. It is three-quarters of a mile wide and has a total area of two and a quarter square miles. Five miles across the Bay to the west lies the Spanish port of Algeciras and 20 miles across the Straits, to the south, is Africa. The Mediterranean lies to the east. The climate is temperate, snow or frost being extremely rare. The mean minimum and maximum temperatures during the winter are 13°C. (55°F.) and 18°C. (65°F.) respectively and during the summer they are 13°C. (55°F.) and 29°C. (85°F.) respectively; the average annual rainfall is 35 inches. The official language is English though the population is bilingual in English and Spanish. Seventy-seven per cent of the population are Roman Catholic, 8 per cent are Muslim, 8 per cent Church of England, and 21 per cent Jewish. There is also a small Hindu community. The flag (proportions two by one) bears the banner of the Gibraltar coat of arms (castle and key) on a background the upper two-thirds of which are white and the lower third red.

Recent History

The post-war years have been marked by considerable progress socially and economically through intensive development of the medical, educational, housing and social security services, and by the expansion of business and the encouragement of tourism. There has also been considerable constitutional development resulting in partial self-government since 1964 and control over most internal matters since 1969.

The Spanish Government lays claim to Gibraltar as an integral part of her territory, whilst Britain maintains that the Treaty of Utrecht (1713) granted sovereignty over Gibraltar to Britain in perpetuity. Since 1963 the Spanish Government has intensified its campaign through the United Nations, for the cession of Gibraltar to Spain and, when Britain failed to comply with the UN deadline for decolonization, imposed certain restrictions on Gibraltar. These include closing the land frontier, imposing an air space ban affecting aircraft landing at Gibraltar, removing the Algeciras Ferry (the only remaining means of direct access to Spain), withdrawing the Spanish labour force and cutting off telephone and telegraphic communications with Spain.

In pursuance of a UN resolution stating that the interests of the people of Gibraltar should be taken into account in the talks, Britain held a referendum in September 1967 in which the overwhelming majority voted for retaining their link with the United Kingdom rather than passing under Spanish sovereigaty. This was followed by the drafting of a new Constitution, promulgated in 1969, and in the Preamble to the Constitution Order (1969) the British Government has given an undertaking never to enter into arrangements whereby the people of Gibraltar

would pass under the sovereignty of another state against their freely and democratically expressed wishes.

During 1970 the Spanish Minister for Foreign Affairs again repeated Spain's undying determination to reestablish sovereignty over Gibraltar. In late 1973 Spain appealed to the UN in a fresh campaign to acquire sovereignty over Gibraltar and to put an end to its colonial status. Britain continued to stand by the assurances given in 1969. The matter was raised again in the UN in 1974 and, after a brief debate, it was resolved that further talks should be held between Britain and Spain.

Gibraltar joined the EEC with the United Kingdom in January 1973, under the provisions of the Treaty of Rome relating to European territories for whose external relations a member state is responsible, but at her own request is excluded from the Common External Tariff and Common Agricultural Policy. There is no value added tax in Gibraltar.

Government

Under the Gibraltar (Constitution) Order in Council (1964) Gibraltar attained a large measure of internal self-government.

This Order was superseded by the Gibraltar Constitution Order of 1969, which gives Ministers certain responsibilities in defined domestic matters. Executive authority is vested in the Governor, who is advised by the Gibraltar Council composed of five elected and four ex-officio members. The Council of Ministers is presided over by the Chief Minister.

The Gibraltar House of Assembly consists of a Speaker appointed by the Governor, fifteen elected members, and two ex-officio members.

Elections take place every four years.

Defence

There is a local Defence Force—The Gibraltar Regiment—which, following the abolition of conscription, has been reorganized as a Volunteer Reserve Unit. United Kingdom naval, army and air force units are stationed at Gibraltar, which is also a NATO sub-command. In 1965 a headquarters unit of the Royal Naval Reserve was formed to assist in manning the Maritime Headquarters in Gibraltar.

Economic Affairs

Owing to the absence of natural resources, the chief factors in the economy are the thriving tourist industry, the operation of the Admiralty Dockyard, services supplied to shipping and the re-export of manufactured goods.

Since her isolation from Spain, Gibraltar has had to diversify her economy, and many Gibraltarians have adopted second jobs. The tourist industry has adapted to attract long-stay visitors, while the port facilities are being extended to accommodate deeper-draughted vessels and attract more merchant shipping. Further light industry continues to be developed while the building industry, in particular, benefits from Government training schemes introduced to compensate for the loss of Spanish skilled workers, and a £15 million building programme, partially

financed by a British Government loan, is under way for the period 1971-76.

While trade and tourism have obviously been affected by the closure of the frontier by the Spanish Government, Sir Joshua Hassan's Government, elected in June 1972, intends to develop further the private sector of the economy, in order to offset the effects of the restrictions, and to increase the number of companies having their registered offices in Gibraltar.

For the period 1973-76 a development programme is in train financed to a large extent by British aid and involving expenditure of approximately £6.5 million in the public sector. The most important item continues to be the provision of housing, and an estate comprising 650 new dwellings is being built on reclaimed land. Work continues on a sports centre which will provide facilities for most indoor sports. British aid to Gibraltar during the financial year ended March 1974 amounted to approximately £2.2 million. In late 1974 Gibraltar sought a further £12 million in aid for a three-year programme but eventually accepted a development grant of over £7.6 million from the British Government. This request was made against a background of serious inflation and industrial unrest on the Rock.

Transport and Communications

The Port offers good anchorage for ships of all tonnages. Wharf space is ample for both landing passengers and handling cargo, and there are dry dock facilities and a commercial ship repair yard. Tax concessions are available to ship-owners who register their ships at Gibraltar. Since the closure of the Suez Canal sea communication with North European and Mediterranean ports is limited, and there are now no regular passenger services, though P. and O. and British India lines make occasional calls. However some 90 cruise ships per annum call at Gibraltar and will on occasion take passengers, and a passenger and car-ferry service operates between Gibraltar and Tangier on week-days. Air services are frequent to the United Kingdom and Tangier. There are bus services and taxis but no railway.

Social Welfare

The Social Security system consists of two contributory schemes covering employment injuries insurance and social insurance and non-contributory schemes financed from the general revenue and covering unemployment benefits and retirement pensions, family allowances and supplementary benefits. There are special arrangements to cater for blind persons, the aged and discharged prisoners.

Education

Education is compulsory between the ages of 5 and 15 and provided free in government schools. There are several

nursery schools, eleven government primary schools, two Services schools administered by the Ministry of Defence for the children of military personnel, two private schools and two comprehensive schools—one for boys and one for girls. Scholarships for university students are provided by the Government and from private sources.

Tourism

The airport and sea facilities have made Gibraltar a centre of communications for the West Mediterranean countries and North Africa. The restriction of land communications with Spain has stimulated the development of Gibraltar as a tourist centre in its own right, where the transient visitor is being replaced by the long-stay tourist and package holidays are increasing. The expansion of hotels and the casino, the improvement of beaches and the provision of amenities have all contributed to this change. Conference facilities are being provided including a conference hall with 160 seats already in use in one of the large hotels. Cruise traffic is growing, and the virtually duty-free shopping facilities in Gibraltar have led to an increase in the number of cruise passengers taking excursions ashore.

Visas are not required except for: (a) stateless persons, (b) nationals of Albania, Bulgaria, People's Republic of China, Cuba, Czechoslovakia, German Democratic Republic, Hungary, Mongolia, Democratic People's Republic of Korea, Poland, Romania, U.S.S.R. and Democratic Republic of Viet-Nam, who will not, however, require visas when travelling in direct transit by air.

Sport

There is a great variety of sport including fishing, swimming, water-skiing, football, hockey, tennis, athletics, rowing and cricket.

Public Holidays

1975: May 1st (Spring Bank Holiday), May 26th (Commonwealth Day), June 16th (Queen's Official Birthday), August 25th (Late Summer Bank Holiday), December 25th (Christmas Day), December 26th (Boxing Day).

1976: January 1st (New Year's Day), April 16th (Good Friday), April 19th (Easter Monday).

Weights and Measures

Imperial weights and measures are in use (see United Kingdom).

Currency

100 pence = 1 Gibraltar pound.

Exchange rates (December 1974):

£1 sterling = G£1.00;

U.S. \$1 = 42.82 pence.

THE CONSTITUTION

Gibraltar is a Crown Colony, and the supreme authority is vested in the Governor and Commander-in-Chief, who is the representative of the Queen. Relations with the British Government are maintained through the Foreign and Commonwealth Office.

On December 1st, 1921, the creation of the City Council gave the inhabitants of Gibraltar a certain representation in the management of municipal affairs. In addition a Legislative Council, defined by an Order-in-Council, was inaugurated in 1950, and included elected members. Its composition was modified several times, notably by the Gibraltar (Constitution) Order, 1964, and the Gibraltar Royal Instructions, 1969, which gave it greater control of internal affairs.

Since 1969 Gibraltar has had full control over most of her own internal affairs, while Britain continues to be responsible for matters of external affairs, defence and internal security. Following the Referendum of September, 1967, in which the people of Gibraltar showed their overwhelming support for remaining under British sovereignty, discussions on appropriate constitutional changes took place between the British Government and representatives of Gibraltar during 1968. The resultant new Constitution was introduced in August, 1969, as an Annex to the Gibraltar Constitution Order 1969 and in conjunction with the Gibraltar Royal Instructions 1969. The Constitution contains a code of human rights and provides for its enforcement by the Supreme Court of Gibraltar. The other main provisions are described below.

BRITISH SOVEREIGNTY

The Preamble to the Gibraltar Constitution Order contains assurances that Gibraltar will remain part of Her Majesty's dominions unless and until an Act of Parliament otherwise provides and that Her Majesty's Government will never enter into arrangements under which the people of Gibraltar would pass under the sovereignty of another state against their freely and democratically expressed wishes.

THE GOVERNOR AND COMMANDER-IN-CHIEF

As representative of the Queen, the Governor and Commander-in-Chief is responsible for matters which directly relate to external affairs, defence and internal security and certain other matters not specifically defined as domestic matters. He is also head of the executive and administers Gibraltar in accordance with the Gibraltar Constitution Order 1969 and the Gibraltar Royal Instructions 1969, acting generally on the advice of the Gibraltar Council. In exceptional circumstances he has special powers to refuse any advice from the Gibraltar Council which may not be in the interests of maintaining financial and economic stability. His formal assent on behalf of the Crown is required for all legislation and in some cases the prior concurrence of the Crown conveyed through the Secretary of State.

THE GIBRALTAR COUNCIL

Consists of the Deputy Governor, the Deputy Fortress Commander, the Attorney-General, the Financial and Development Secretary, ex-officio, the Chief Minister, who is appointed by the Governor as the Elected Member of the House of Assembly most likely to command the confidence of the other Elected Members, and four other Ministers designated by the Governor after consultation with the Chief Minister. Advises the Governor, who usually acts on its advice.

COUNCIL OF MINISTERS

Consists of the Chief Minister and not less than four nor more than eight other Ministers appointed from the Elected Members of the Assembly by the Governor in consultation with the Chief Minister. It is presided over by the Chief Minister and deals with domestic matters which have been defined as such by the Constitution. Individual Ministers may be given responsibility for specific business. Heads of Departments and other government officials appear before it when required.

GIBRALTAR

HOUSE OF ASSEMBLY

The House of Assembly is composed of a Speaker, 15 elected members and two ex-officio members (the Attorney-General and the Financial and Development Secretary). The Speaker is appointed by the Governor after consultation with the Chief Minister and the Leader of the Opposi-

The normal life of the House of Assembly is four years. Elections are open to all adult British subjects and citizens of the Republic of Ireland who have been ordinarily resiThe Constitution, The Government, Political Parties

dent in Gibraltar for a continuous period of six months up to the date for registration as an elector. The voting age is 18. The system of proportional representation formerly used for Legislative Council elections has been abandoned in favour of a new system where each elector may vote for a maximum of eight candidates.

The Elected Members of the House of Assembly elect the Mayor from amongst themselves, and he carries out ceremonial and representational functions on behalf of the City of Gibraltar.

THE GOVERNMENT

(December 1974)

Governor and Commander-in-Chief: Marshal of the Royal Air Force Sir John Grandy.

THE GIBRALTAR COUNCIL

President: H.E. THE GOVERNOR.

Ex-Officio Members: The Deputy Governor, the Deputy FORTRESS COMMANDER, the ATTORNEY-GENERAL, the FINANCIAL & DEVELOPMENT SECRETARY.

Elected Members: The Hon. Sir Joshua Hassan, The Hon. A. W. SERFATY, The Hon. A. P. Montegriffo, The Hon. M. K. Featherstone, The Hon. A. J. Canepa.

Clerk of the Council: I. Neish.

THE HOUSE OF ASSEMBLY

The Speaker: The Hon. A. J. VASQUEZ.

Elected Members: There are fifteen Elected Members: The Council of Ministers (see below), and the Opposition: The Hon. M. XIBERRAS, The Hon. Major R. J. Peliza, The Hon. P. J. Isola, The Hon. W. Isola, The Hon. J. Bossano, The Hon. J. Caruana, The Hon. L. DEVINCENZI.

Ex-Officio Members: The Attorney-General, the Finan-CIAL AND DEVELOPMENT SECRETARY.

Clerk to the House of Assembly: P. A. GARBARINO.

THE COUNCIL OF MINISTERS

Chief Minister: The Hon. Sir Joshua Hassan.

Minister for Tourism, Trade and Economic Development: The Hon. A. W. SERFATY.

Minister for Medical and Health Services: The Hon. A. P. MONTEGRIFFO.

Minister for Education: The Hon. M. K. FEATHERSTONE.

Minister for Labour and Social Security: The Hon. A. J. CANEPA.

Minister for Housing: The Hon. I. ABECASIS.

Minister for Public Works and Municipal Services: The Hon. Lt.-Col. J. L. HOARE.

Minister for Information and Sport: The Hon. H. J. ZAMMITT.

CIVILIAN ESTABLISHMENT

Deputy Governor: E. H. DAVIS.

Financial and Development Secretary: A. MACKAY.

Attorney-General: J. K. HAVERS.

Administrative Secretary: T. L. PITALUGA.

Director of Public Works: F. SHARRATT.

Director of Medical and Health Services: Surgeon Captain E. H. MURCHISON.

Director of Education: A. W. JOHNS.

Accountant-General: A. J. GAREZE.

Principal Auditor: N. HARRISON.

Captain of the Port: R. L. RICKARD.

Director of Labour and Social Security: C. J. GAREZE.

Commissioner of Police: J. D. O. BIRD.

City Electrical Engineer: V. Bensadon.

Director of Tourism: J. E. A. VAUGHAN.

Postmaster: J. L. HOARE.

Chief Fire Officer: H. E. SMITH.

Superintendent of Telephones: W. C. BISHOP.

ARMED FORCES

ROYAL NAVY

Flag Officer, Gibraltar: Rear-Admiral F. R. SANDFORD.

ARMY

Deputy Fortress Commander: Brigadier J. R. D. SHARPE.

ROYAL AIR FORCE

Air Commander, Gibraltar: Air Commodore D. Sutton.

POLITICAL PARTIES

The Gibraltar Labour Party and Association for the Advancement of Civil Rights: 31 Governor's Parade; Leader Sir Joshua A. Hassan; Gen. Sec. Isaac

Integration with Britain Party: Leader M. XIBERRAS; Gen. Sec. O. DRAGO.

JUDICIAL SYSTEM

COURT OF APPEAL

President: Sir Alistair Granville Forbes.

Justices of Appeal: Sir Paget Bourke, Sir Michael Hogan.

SUPREME COURT

Chief Justice: Sir Edgar Ignatius Unsworth.

Registrar: F. PIZZARELLO.

COURT OF FIRST INSTANCE

Judge: John Ernest Alcantara.

MAGISTRATES' COURT

Stipendiary Magistrate: John Ernest Alcantara.

Gibraltar Trades Council: c/o 31 Governor's Parade; associates unions representing 90 per cent of the working population; affiliated to the U.K. Trades Union Congress; Pres. D. Matthews; Sec. J. C. Perez.

TRANSPORT AND TOURISM

There are no railways in Gibraltar.

ROADS

The Public Works Department, Gibraltar: is responsible for the maintenance of all public highways. There are 8 miles of such roads in the City, and a total road mileage of 31, including 4.25 miles of footpaths.

SHIPPING

M. H. Bland and Co. Ltd.: Cloister Bldg., Gibraltar; f. 1810 brs. in Casablanca, Tangier; mail, passenger and cargo services between Gibraltar and Tangier; ship agents, salvage and towage contractors, engineers and ship repairers, aviation, travel and insurance agents; Chair. and Man. Dir. J. J. GAGGERO.

Many long-distance liners call at Gibraltar.

CIVIL AVIATION

Gibraltar Airways Ltd.: Cloister Building; f. 1947; owned by M. H. Bland & Co. Ltd. (51 per cent) and BEA; frequent services between Gibraltar and Tangier; aircraft: Vickers Viscount; Chair. and Man. Dir. J. J. GAGGERO.

British Airways fly regular services to Gibraltar.

TOURISM

Gibraltar Tourist Office: Head Office: Cathedral Square, P.O.B. 303; Main Information Office: The Piazza, Main St; London Office: 2 Grand Bldgs., Trafalgar Square, WC2N 5EJ; Minister for Tourism, Trade and Economic Development, The Hon. A. W. SERFATY; Dir. of Tourism J. E. A. VAUGHAN.

GREECE

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Hellenic Republic is a mountainous peninsula between the Mediterranean and Aegean, bounded to the north by Albania. Yugoslavia and Bulgaria and to the east by Turkey. Numerous Greek islands lie to the south, east and west, of which the largest is Crete. The climate is Mediterranean with mild winters and hot summers. The language is modern Greek, of which there are two forms—katharevoussa, the formal language, and demotiki, the language commonly spoken and, since October 1974, taught in schools. The Greek Orthodox Church is the established religion. The Greek national flag (proportions 12 by 7) consists of nine horizontal stripes (five blue and four white, alternating), with a white cross dividing a blue square into four equal parts in the top left-hand corner. The capital is Athens.

Recent History

The liberation of Greece from the German occupation was followed by a civil war which lasted until 1949. The Communist forces were defeated, and the constitutional monarchy re-established. A succession of weak governments and conflicts between King Constantine and his ministers, student disorder and the discovery of a leftwing conspiracy within the army led a group of right-wing army officers to stage a coup in April 1967. An attempted counter-coup led by the King failed, and Constantine went into exile. Colonel George Papadopoulos emerged as the dominant personality in the new régime, becoming Prime Minister in December 1967 and Regent in March 1972. The regime produced nominally democratic constitutional proposals, but all political activity was banned, the press was strictly controlled, political dissidents were imprisoned and tortured and opponents of the régime were expelled from all positions of power or influence. The administration, church and judiciary were filled with supporters of the junta, and Greece was ruled by cabinet decree and martial law.

Following an abortive naval mutiny, said to be supported by the exiled King, Greece was declared a republic in June 1973. In July 1973 Papadopoulos was appointed President, and he began to move towards a restoration of parliamentary rule. Martial law was ended and a civilian cabinet appointed in preparation for elections to be held by the end of 1973. A student uprising at the Athens Polytechnic in November 1973 was bloodily repressed by the army, and another military coup overthrew Papadopoulos. Lieut.-Gen. Phaidon Ghizikis was appointed President, and a mainly civilian cabinet led by Adamantios Androutsopoulos installed, but effective power lay with a small group of officers and the military police under Brig.-Gen. Demetrios Ioannides. The military junta became involved in the conspiracy in the Cypriot National Guard to overthrow President Makarios and forcibly to unite Cyprus with Greece. Greece was unable to prevent Turkey's intervention in Cyprus and the Androuksopoulos cabinet

disintegrated as the failure of the junta's Cyprus adventure became apparent. In July 1974 President Ghizikis called Constantine Karamanlis, a former Prime Minister, back from exile to form a civilian Government of National Salvation.

The junta's repressive system of government was dismantled and its supporters purged from positions of influence in the army and elsewhere. Martial law was ended, the press freed and political parties, including the Communists, were allowed to emerge. Elections were held in November 1974 which gave Karamanlis' New Democracy party an overwhelming majority in Parliament. A referendum in December 1974 rejected proposals for a return to constitutional monarchy, and Karamanlis announced that a republican constitution would be introduced in 1975. Parliament chose Michael Stasinopoulos to be President until the new constitution came into force.

Government

Until a new republican constitution is introduced Greece is ruled under a modified version of the 1952 Constitution, with the clauses relating to the monarchy in abeyance. The cabinet is appointed by the prime minister, who is nominated by the president and must have the support of the single-chamber parliament.

Defence

Greece withdrew from military obligations to NATO in July 1974. Military service is compulsory and lasts two years. The armed forces number 161,200, of whom 112,000 are conscripts, and consist of an army of 121,000, a navy of 17,500 and an air force of 22,700; there is a gendarmeric of 30,000 and also a National Guard of 69,000. Defence estimates for 1974 totalled 18,000 million drachmae.

Economic Affairs

Greece has traditionally been an agricultural nation, producing most of its own needs and exporting a considerable amount of produce. Although only about a quarter of the land is cultivable, the rest being mountain and marshland, Greece produces large quantities of wheat, barley, maize, tobacco, sugar beet, tomatoes and other fruit.

In 1970 manufactures contributed more to the gross domestic product than agriculture for the first time, as a result of a government policy of rapid industrialization. The marked growth in both investment and production following the army coup in 1967 was particularly effective in the fields of metallurgy, chemicals, textiles, rubber, plastics and electrical machinery and appliances. Mineral resources are intensively exploited, and a major development in the progress of the Greek economy has been the processing of an expanding proportion of the ores in Greece, rather than exporting raw materials. Electricity output nearly doubled between 1966 and 1971, new power

stations having been built to use lignite deposits and reduce dependence on imported fuel oil, and hydroelectric power resources are being developed. Exports of manufactures accounted for 36.5 per cent of all exports in 1973; in 1962 the figure was only 6.1 per cent.

Industrialization and the expansion of exports, which quadrupled in ten years from 1962-3 to 1972-3, have not saved Greece from a large balance of payments deficit. On the other hand, invisible earnings from the merchant fleet and tourism have risen rapidly in recent years. Over one-fifth of Greek exports go to the Federal Republic of Germany. The EEC countries provide almost half of Greek imports, and take more than 55 per cent of exports (1973). The association agreement between Greece and the EEC, which came into force in 1962, protects Greek industry from EEC imports but allows Greek industrial products to enter the EEC duty-free. Progress towards full membership of the EEC was "frozen" following the 1967 coup.

The economic growth of the 1960s helped to reduce unemployment and emigration, and for some years the drachma was exceptionally stable, but in 1973 the cost of living rose by 30 per cent. The military junta left behind a stagnant economy, stifled by bureaucratic controls, and galloping inflation. Having reached a political settlement, it remains to be seen whether the elected government will have a similar success in dealing with these economic problems.

Transport and Communications

Although Greece's railways were almost completely destroyed during the Second World War, there is now 2,572 km. of track. A network of over 39,000 km. of roads now covers the country, but many of these are unclassified; there are 8,042 km. of main roads and 27,248 km. of secondary roads. The three-mile Corinth Canal shortens the sea journey from the Adriatic to Piraeus (port of Athens) by 202 miles. Greece has a large mercantile marine of over 23 million tons. Important towns and islands are connected by air transport.

Social Welfare

There is a state social insurance scheme for wagecarners. Salaried staff are provided for by voluntary or staff insurances. Everyone is entitled to an old-age pension and sickness benefit.

Education

Education is free at all levels, and compulsory for all children between the ages of 6 and 12. Just under one million children receive primary education and some 478,000 secondary (1971-72). The illiteracy rate has been reduced from 72 per cent to less than 10 per cent in the last thirty years. There are five universities attended by 62,000 students.

Tourism

The sunny climate, the natural beauty of the country and its great history and traditions have made Greece a magnet for tourists. There are numerous islands of archaeological interest. The industry is expanding rapidly with the improvement of transport and accommodation facilities. The number of tourists visiting Greece has risen dramatically in recent years, from 1,017,621 in 1968 to 2,731,587 in 1972 and 3,177,682 in 1973. Earnings have risen still faster; U.S. \$120 million in 1968, \$329.7 million in 1972 and \$514.9 million in 1973, representing 19.1 per cent of Greece's total visible and invisible exports.

Visas are not required for nationals of the following countries: Argentina, Australia, Austria, the Bahamas, Bahrain, Barbados, Belgium, Belize, Bolivia, Botswana, Brazil, Brunei, Canada, Chile, Colombia, Costa Rica, Cyprus, Denmark, the Dominican Republic, Ecuador, El Salvador, Fiji, Finland, France, Federal Republic of Germany, Ghana, Guatemala, Guyana, Haiti, Honduras, Iceland, Iran, Ireland, Israel, Italy, Japan, Kuwait, Lesotho, Liechtenstein, Luxembourg, Malawi, Malta, Mauritius, Mexico, Monaco, Morocco, The Netherlands, New Zealand, Nicaragua, Norway, Oman, Pakistan, Panama, Paraguay, Peru, Portugal, Qatar, Rhodesia, San Marino, South Africa, Spain, Swaziland, Sweden, Switzerland, Tanzania, Tunisia, United Arab Emirates, the United Kingdom and Dependencies, the U.S.A., Uruguay, Venezuela and Zaire.

Sport .

Football is the most popular game.

Public Holidays

1975: May 1st (May Day), May 2nd (Good Friday), May 5th (Easter Monday), June 23rd (Holy Spirit Day), August 15th (Assumption of the Virgin Mary), October 28th ("Ochi" Day), December 25th (Christmas Day), December 26th (Boxing Day).

1976: January 1st (New Year's Day), January 6th (Epiphany), March 9th (First Day of Lent), March 25th (National Day), April 23rd (Good Friday), April 26th (Easter Monday).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

roo leptae = r drachma.
Exchange rates (December 1974):
 £r sterling = 69.735 drachmae;
 U.S. \$r = 30.00 drachmae.

FINANCE

100 leptae (singular, lepta) = 1 drachma.

Coins: 10, 20 and 50 leptae; 1, 2, 5, 10 and 20 drachmae.

Notes: 50, 100, 500 and 1,000 drachmae.

Exchange rates (December 1974): £1 sterling=69.735 drachmae; U.S. 1=30.00 drachmae. 100 drachmae=£1.434=\$3.333.

Note: The new drachma, equal to 1,000 old drachmae, was introduced in May 1954. From April 1953 the exchange rate was U.S. \$1=30,000 old drachmae, so the initial rate for the new currency was \$1=30 drachmae. Despite two devaluations of the U.S. dollar, this exchange rate has remained in force ever since, except when the drachma was allowed to "float" between October and December 1973. In terms of sterling, the exchange rate was £1=72.00 drachmae from November 1967 to August 1971; and £1=78.17 drachmae (1 drachma=1.279p) from December 1971 to June 1972.

THE CONSTITUTION

The military régimes which ruled Greece between 1967 and 1974 produced a number of constitutional arrangements, abolishing democratic processes and permitting the Government to rule by decree, and in 1973 establishing the Hellenic Republic. All these arrangements were abrogated on August 1st, 1974, when Greece returned provisionally to the 1952 Constitution, with the clauses relating to the monarchy suspended. This interim arrangement provided for the election of a single-chamber legislature and for the President to continue to act as head of

state. The Government regained full control over the armed forces and the judiciary was freed from undue interference by the executive or the military.

A referendum offering the Greek people a choice between the return of the monarchy and a republican constitution was held in December 1974. Nearly 70 per cent voted against the monarchy. The Prime Minister then announced that a new republican constitution would be produced early in 1975.

THE GOVERNMENT

HEAD OF THE STATE

President: MICHAEL STASINOPOULOS. (Elected by Parliament December 18th, 1974)

THE CABINET

February 1975

Prime Minister: Constantine Karamanlis.

Minister to the Prime Minister: George Rallis.

Minister of Foreign Affairs: Demetrios Bitsios.

Minister of Planning and Co-ordination: Panayotis Papaligouras.

Minister of National Defence: Evanguelos Averoff-Tossiza.

Minister of the Interior: Constantine Stefanopoulos.

Minister of Justice: Constantine Stefanakis.

Minister of Public Order: Solon GHIKAS.

Minister of Culture and Science: Constantine Trypanis.

Minister of Education and Religion: PANAYOTIS ZEPPOS.

Minister of Finance: Evanguelos Devletoglou.

Minister of Agriculture: HIPPOCRATES IORDANOGLOU.

Minister of Industry: Constantine Konofagos.

Minister of Trade: IOANNIS BOUTOS.

Minister of Employment: Constantine Laskaris.
Minister of Social Services: Vassilios Derdemezis.

Minister of Public Works: Christoforos Stratos.

Minister of Transport and Communications: George Voyatzis.

Minister of Merchant Shipping: ALEXANDROS PAPADO-GONAS.

Minister for Northern Greece: NIKOLAOS MARTIS.

DEFENCE

Commander-in-Chief of the Armed Forces: Gen. Dionysios Arbouzis.

Chief of the Army: Licut.-Gen. IOANNIS DAVOS.

Chief of the Navy: Rear-Admiral Constanting Engoldopoulos

POLITICAL PARTIES

All political parties were banned between April 1967 and July 1974. The restoration of civilian rule was followed by the reappearance of political parties which had been dissolved or had been operating illegally as resistance movements, and the creation of a number of new political movements in preparation for the elections held in November 1974.

Centre Union-New Forces Party: f. 1974; liberal republican party, merging Centre Union f. 1961 by George Papandreou and New Political Forces f. 1974 by Prof. John Pesmazoglou and Prof. G.-A. Mangakis; Leader George Mayros.

National Democratic Union: f. 1974; right-wing, royalist, pro-NATO; includes some former supporters of the military régime; Leader Petros Garoufalias.

New Democracy: f. 1974; broadly-based party with policy of pragmatic social and economic reform, Greek sovereignty and military independence; Leader Constantine Karamanlis.

Panhellenic Socialist Movement—PASOK: f. 1974; incorporates Democratic Defence and Panhellenic Liberation Movement resistance organizations; anti-NATO, anti-EEC, republican, socialist; favours agricultural co-operatives, abolition of private education and health services; Leader Andreas Papandreou.

United Left: electoral alliance for 1974 elections, incorporating:

Communist Party of Greece—KKE ("Orthodox" C.P., C.P. "of the Exterior"): banned 1947, reappeared 1974; Moscow-line Communist Party; First Sec. HARILAOS FLORAKIS.

United Democratic Left—EDA: f. 1951, banned 1967—74; broad left-wing parliamentary grouping, acted as front for banned Communist Party 1951-67; Leader ILIAS ILIOU; merged 1974 with Communist Part of the Interior (KKES), f. 1968 as more liberal Marxist movement, free from U.S.S.R. domination; Leader Charalambos Drakopoulos.

DIPLOMATIC REPRESENTATION

EMBASSIES ACCREDITED TO GREECE

(In Athens unless otherwise stated)

(E) Embassy.

Afghanistan: Rome, Italy (E).

Albania: 1 Odos Karachristou (E); Ambassador: Lik Seiti.

Argentina: 59 Vassilissis Sofias (E): Ambassador: José

Argentina: 59 Vassilissis Sofias (E); Ambassador: José Maria Rosa.

Australia: 8 Odos Makedonon (E); Ambassador: Donald Horne.

Austria: 26 Leoforos Alexandras (E); Ambassador: Dr. Simon Koller (also accred. to Cyprus).

Bangladesh: Belgrade, Yugoslavia (E).

Belgium: 3 Odos Sekeri (E); Ambassador: Emile Vander-Borght.

Brazil: 4 Vassilissis Sofias (E); Ambassador: Mario Alves Barbosa.

Bulgaria: 63 Odos Ypsilantou (E); Ambassador: Gueorgui Dimitrov Petrov.

Burma: Belgrade, Yugoslavia (E).

Canada: 4 Ioannou Ghenadiou (E); Ambassador: Michel GAUVIN.

Central African Republic: Rome, Italy (E).

China, People's Republic: 18 Odos Lymberopoulou, Palaion Psychico; Ambassador: Chou Po-ping.

Costa Rica: Rome, Italy (E).

Cuba: Beirut, Lebanon (E).

Cyprus: 16 Odos Herodotou (E); Ambassador: Nicos Kranidiotis (also accred. to Bulgaria and Yugoslavia).

Czechoslovakia: 1 Odos Sekeri (E); Ambassador: Dr. Rudolf Cvik.

Denmark: 15 Platia Philikis Etairias (E); Ambassador: (vacant).

Dominican Republic: Rome, Italy (E).

Egypt: 3 Vassilissis Sofias (E); Ambassador: Yehia Hassan Abdel Kader.

El Salvador: Rome, Italy (E).

Ethiopia: 25 Vassilissis Sofias (E); Ambassador: Abebe Mesfin.

Finland: Belgrade, Yugoslavia (E).

France: 7 Vassilissis Sofias (E); Ambassador: Christian de Margerie.

German Democratic Republic: 7 Vassileos Pavlou (E);
Ambassador: Ernst Kube.

Germany, Federal Republic: 3 Odos Caraoli kai Dimitriou (E); Ambassador: DIRK ONCKEN.

Guatemala: Jerusalem, Israel (E).

Hungary: 10 Odos Calvou, Psychico (E); Ambassador: Béla Szilagyi (also accred. to Cyprus).

Iceland: Bonn-Bad Godesberg, Federal Republic of Germany (E).

India: Belgrade, Yugoslavia (E).

Indonesia: Belgrade, Yugoslavia (E).

Iran: 29 Odos Antinoros (E); Ambassador: Azizollah Beklik.

Iraq: 19 Odos Amaryllidos, Psychico (E); Ambassador: DHIAB AL-ALGAWI.

Israel: 4 Odos Coumbari; Diplomatic Representative: RAHAMIN TIMOR.

Italy: 2 Odos Sekeri (E); Ambassador: Luigi Valdettaro Della Rocchetta.

Japan: 59 Vassilissis Sofias (E); Ambassador: Томинко Канвака.

Jordan: Beirut, Lebanon (E).

Diplomatic Representation, Judicial System

Korea, Republic: 105 Vassilissis Sofias; Ambassador: MYUNG SHIN CHAE.

Kuwait: 14 Odos Antheon, Psychico (E); Ambassador: Ahmed A. al Marzouk.

Lebanon: 26 Leoforos J. Metaxa (E); Ambassador: EMILE MATTAR (also accred. to Romania).

Libya: 2 Odos Hirodotou (E); Ambassador: Ahmed Ragab Feitur.

Madagascar: Rome, Italy (E).

Malta: Rome, Italy (E).

Mauritania: Tunis, Tunisia (E).

Mexico: 21 Vassilissis Sofias (E); Ambassador: (vacant).

Morocco: Rome, Italy (E).

Netherlands: 4 Vassilissis Sofias (E); Ambassador: CARL D. BARKMAN.

Nepal: Bonn-Godesberg, Federal Republic of Germany (E).

Nigeria: Rome, Italy (E).

Norway: 40 Odos Ypsilantou (E); Ambassador: Arne Gunneng (resident in Rome, Italy).

Pakistan: Belgrade, Yugoslavia (E).

Panama: 82 Vassilissis Sofias (E); Ambassador: Elio V. Ortiz (resident in Jerusalem, Israel).

Peru: Rome, Italy (E).

Philippines: Rome, Italy (E).

Poland: 22 Odos Chryssanthemon, Psychico (E); Ambassador: Stanislaw Dobrowolski (also accred. to Cyprus).

Portugal: 19 Odos Loukianou (E); Ambassador: Albertino pos Santos Matias.

Romania: 14-16 Odos Ravine (E); Ambassador: Ion Brad (also accred. to Cyprus).

Saudi Arabia: 71 Odos Marathonodromon, Psychico (E);
Ambassador: (vacant).

Somalia: Rome, Italy (E).

South Africa: 69 Vassilissis Sofias (E); Ambassador: PAUL RICHARD LINDHORST.

Spain: 29 Vassilissis Sofias (E); Ambassador: Fernando Rodriguez-Porrero de Chavarri.

Sri Lanka: Rome, Italy (E).

Sudan: Belgrade, Yugoslavia (E).

Sweden: 4 Odos Meleagrou (E); Ambassador: AGDA Rössel.

Switzerland: 2 Odos Iassiou (E); Ambassador: Egbert de Graffenried.

Syria: 5 Leoforos Kifissias (E); Ambassador: (vacant).

Thailand: Rome, Italy (E).

Tunisia: Rome, Italy (E).

Turkey: 8 Odos Vassileos Gheorghiou II (E); Ambassador: Kāmuran Gürün.

Uganda: Paris, France (E).

U.S.S.R.: 7 Odos Hirodou Atticou (E); Ambassador: IGOR M. EJOU.

United Kingdom: 1 Odos Ploutarchou (E); Ambassador: Francis Brooks Richards.

U.S.A.: 91 Vassilissis Sofias (E); Ambassador: Jack B. Кивізси.

Uruguay: 7 Vassilissis Sofias (E); Ambassador: (vacant).

Venezuela: 115 Vassilissis Sofias (E); Ambassador: (vacant).

Viet-Nam, Republic: 40 Odos Alopekis (E); Ambassador: Nguyen Van Hieu.

Yugoslavia: 106 Vassilissis Sofias (E); Ambassador: MILOVAN MARKOVIC.

Zaire: 3 Odos Digheni Griva, Filothei (E); Ambassador: NYOKA Busu-NOENGO.

Greece also has diplomatic relations with Chile.

JUDICIAL SYSTEM

The Courts of Law administering justice in Greece are as follows:

The Supreme Court. This is the supreme court in the State, having also appellate powers. It consists of four sections, three Civil and one Penal, and adjudicates in quorum.

Courts of Appeal. These are eleven in number. They have jurisdiction in cases of Civil and Penal Law of second degree, and, in exceptional cases, of first degree.

Courts of First Instance. There are fifty-eight Courts of First Instance with jurisdiction in cases of first degree, and in exceptional cases, of second degree. They are mixed courts, functioning both as Courts of First Instance and as Penal Courts.

In towns where Courts of First Instance sit there are also Criminal Courts and Juvenile Courts. Commercial Tribunals do not function in Greece, and all commercial cases are tried by ordinary courts of law. There are, however, Tax Courts in some towns.

Courts of the Justice of Peace. There are 360 of these courts throughout the country.

Magistrates' Courts (or simple Police Courts). There are 48.

In all the above courts, except those of the Justice of Peace and the Magistrates' Courts, there are District Attorneys. In Magistrates' Courts the duties of District Attorney are performed by the Public Prosecutor.

The State Council. In addition to the above there is a State Council, with competence over the following cases:

Administrative disputes

Administrative contraventions of law in force Revision of Disciplinary procedure on permanent Civil Servants (1952 Constitution, Articles 87-97).

RELIGION

THE ORTHODOX CHURCH OF GREECE

The Greek branch of the Holy Eastern Orthodox Church is the officially established religion of the country, adhered to by nearly 97 per cent of the population. The administrative body of the Church is the Holy Synod of ten members, elected by the 66 bishops of the Hierarchy. In January 1974 the President chose the Primate from among three candidates presented by the synod. Archbishop Scraphim restored discipline within the Church, and reestablished relations with the Occumenical Patriarchate of Constantinople. In September 1974 the law of 1969, giving the state control over the Church, was annulled, and the Church recovered its liberty from the temporal power.

Primate of Greece: Archbishop Seraphim of Athens.

Within the Greek State there is also the semi-autonomous Church of Crete, composed of seven Metropolitans and the Holy Archbishopric of Crete. The Church is administered by a Synod consisting of the seven Metropolitans under the Presidency of the Archbishop; it is under the spiritual jurisdiction of the Occumenical Patriarchate of Constantinople, which also maintains a degree of administrative control.

Archbishop of Grete: The Most Reverend Eugenius Psallidakis (whose See is in Heraklion).

There are also four Metropolitan Sees of Dodecanese, which are spiritually and administratively dependent on the Oecumenical Patriarchate and, finally, the peninsula of Athos, which constitutes the region of the Holy Mountain (Mount Athos) and comprises twenty Monasteries. These are dependent on the Oecumenical Patriarchate of Constantinople, but are autonomous and are safeguarded constitutionally.

OTHER CHURCHES

- The Roman Catholic Church (Latin Rite): 50 secular priests, 42 religious priests, 42,270 Catholics (December 1972 estimates by diocesan curias); the Church in Greece is divided into the following dioceses and archdioceses:
 - Archdiocese of Athens: Archbishopric, Odos Omirou 9, Athens 135; Archbishop Most Rev. NICOLAUS FOSCOLOS.
 - Archdiocese of Rhodes: Archbishopric, Odos Dragoumi 43, Rhodes; Archbishop (vacant).
 - Metropolitan Archdiocese of Corfu, Zante and Gefalonia: Catholic Archbishopric, Corfu; Archbishop Mgr. Antonio Varthalitis.

- Metropolitan Archdiocese of Naxos, Andros, Tinos and Micone: Archbishopric, Tinos (summer residence); Naxos (winter residence); includes the suffragen dioceses of Chios, Santorino and Syra and Milo; Archbishop Mgr. Giovanni Perris.
- Diocese of Candia (Grete): Catholic Bishopric, Syra, Cyclades Islands; suffragan diocese of Izmir, Turkey; Bishop (vacant).
- Apostolic Vicariate of Salonika (Thessalonika): Leoforos Vassilissis Olgas 120B, Thessaloniki; Vicar Apostolic (vacant).
- The Roman Catholic Church (Byzantine Rite): 2 parishes (Athens and Jannitsa, Macedonia); 16 secular priests, 2 religious priests, some 3,000 Catholics (December 1972 estimate); a seminary, a hospital, 3 student hostels, an old people's home; Kalos Typos publishing co.; publ. Katholiki (weekly), circ. 2,500.
 - Apostolic Exarchate for the Byzantine Rite in Greece:
 Odos Acharnon 246, Athens 815; Exarch Apostolic
 Mgr. Hacinthus Gad, Titular Bishop of Gratianopolis.
- The Roman Catholic Church (Armenian Rite): 2 secular priests, 640 Catholics (December 1972 estimate).
 - Ordinariate for the Armenian Rite in Greece: René Pyo St., Athens 409; Ordinary (vacant).
- The Greek Evangelical Church (Presbyterian): Bd. Amélie 50, Athens; f. 1886; comprising 30 organized churches; embraces about 1 per thousand of population; member of World Alliance of Reformed Churches: Moderator Rev. Stellos Kaloterakis; publ. Star of the East (monthly).
- Muslims: their status is regulated by Law 2345, "On Minorities"; the law provides as religious head of the Muslims a Chief Mufti; the Muslims in Greece possess a number of mosques and schools.
- The Jewish Community: the Jewish population of Greece, estimated in 1943 at 75,000 people, was decimated as a result of the German occupation. In 1973 there were about 5,000 Jews in Greece. The Rabbi of Athens is Jacob D. Arar; temple and offices: 5 Melidoni Street, Athens. The officially recognised representative body for the community is the Central Board of the Jewish Communities of Greece, Odos P. Tsaldari 46, Athens; f. 1945; Pres. Joseph M. Lovinger.

THE PRESS

At the beginning of 1967, 123 dailies were being published in Greece, 13 being based in Athens and competing for a share in a total circulation of only 700,000. After the coup d'état of April 1967, the number of papers in Athens was halved, total circulation dropped by a third and the remainder of the press was subject to censorship.

Despite constitutional guarantees of press freedom, the Papadopoulos régime exercised strict control over Greek newspapers and magazines. After publication of articles offensive to the Government, issues could be seized, writers and editors arrested and papers closed. Statecontrolled advertising, a means of subsidizing friendly

papers, could be withdrawn as an economic sanction. Post-publication censorship proved an effective means of controlling the dissemination of news.

The 1973 coup was followed by further restrictions on the freedom of the press, imposed by the military police. After the fall of the military régime press freedom was restored, and soveral newspapers which had been banned reappeared. This sudden return to democratic conditions encouraged a rapid expansion of the Greek press; consequently, accurate details of the newspapers now appearing are difficult to obtain and to keep up to date.

DAILY PAPERS

Morning papers are not published on Mondays, nor afternoon papers on Sundays.

ATHENS

- Acropolis: Odos Fidiou 12; f. 1881; morning; Independent-Conservative; Publishers N. and D. Botsis; circ. 108,500.

TRADE FAIR

International Fair of Thessaloniki: Thessaloniki; annually for three weeks starting on the Sunday between Aug. 28th and Sept. 3rd; Gen. Man. Dr. RIGAS D. TZELEPOGLOU.

TRANSPORT

RAILWAYS

Hellenic Railways Organization Ltd.: I Karolou St., Athens 107; f. 1920; state railways. Total length of track: 2,572 km.. Gov. P. Christopoulos; Vice-Gov. AL. MALASPINAS; Gcn. Dirs. M. KALLIANIS, G. MES-SOLOGUITIS.

ROADS

There are 39,000 km, of classified roads in Greece. Of this total 8,042 km. are main roads. Several major roads are under construction, including the Egnatia highway (800 km.) linking all districts in north and north-west Greece and a major road connecting eastern and western Crete. The Athens-Lamia-Larissa-Thessaloniki highway, and the Corinth-Patras highway are now in use. Work is also in progress on the Thermopylai-Antirion road.

MOTORING ORGANIZATION

Automobile and Touring Club of Greece (ELPA): 2-4 Mesogion St., Athens 610; f. 1924; 14,500 mems.; publ. Road Assistance.

INLAND WATERWAYS

There are no navigable rivers in Greece.

The Corinth Canal: built 1893; over three miles long, links the Corinthian and Saronic Gulfs; depth 261 ft., bottom width 69 ft., surface width 81 ft. The Canal shortens the journey from the Adriatic to the Piracus by 202 miles; it is spanned by two single-span bridges, one for road and one for rail. During 1972, 10,367 ships with a total tonnage of 5,479,502 n.r.t. passed through the Corinth Canal. In the first cleven months of 1973 10,618 ships used the canal.

SHIPPING

Merchant shipping accounted for 27.1 per cent of the country's total "invisible" earnings in 1972 with an inflow of some \$433.5 million; these earnings increased by 34.3 per cent in the first nine months of 1973. The development of the merchant fleet has led to the emergence of the shipbuilding and repairing industry. Hellenic Shipyards at Skaramanga, with its 250,000 d.w.t. graving dock, has a capacity of 6 bulk carrier ships of 25,000 tons each a year.

A 500,000 ton d.w. dock is under construction. Eleusis Shipyards are building a bulk carrier of 43,000 tons, and larger ships are planned.

In June 1974 there were 3,095 merchant ships under the Greek flag, including 2,108 cargo vessels, 463 tankers and 306 passenger ships, totalling 23,783,578 g.r.t. On September 30th, 1973, a further 1,342 Greek-owned and crewed ships were sailing under foreign flags.

Three of the largest shipping companies are:

Hellenic Lines, Ltd.: 79-81 Filonos St., Piracus; U.S. Atlantic and Mexican Gulf ports; Mediterranean, Red Sea, Persian Gulf, India, south and east Africa; Black Sea and Mediterranean-U.K. and north European ports; Adriatic ports; Gen. Man. P. G. CALLIMANO-POULOS.

Hellenic Mediterranean Lines Co. Ltd.: Electric Railway Station Building, Piracus; f. 1929; passenger and cargo services in Mediterranean; Man. Dirs. A. G. YANNOU-LATOS, CONST. A. RINGAS.

Michail A. Karageorgis S.A.: Karageorgis Building, Akti Kondylis and Aitolikou, Piraeus; 10 cargo vessels, 1 bulk carrier, 3 passenger and car ferries, 23 tankers.

CIVIL AVIATION

There are international airports at Athens, Thessaloniki, Alexandroupolis, Corfu, Lesbos, Andravida, Rhodes and Heraklion/Crete, and 18 domestic airports. During the period 1967-71 3,271 million drachmae were spent on expanding their facilities.

Olympic Airways S.A.: 96-100 Syngrou Ave., Athens 402; f. 1957; privately owned; domestic services linking principal cities and islands in Greece, and international services to Europe, the Middle East, U.S.A., Canada, South Africa and Australia; fleet of two Boeing 747. eight Boeing 707, seven Boeing 720, six Boeing 727, seven YS-11A, two Skyvan, one Alouette III and three Alouette II helicopters, two Piper Aztec, three Piper Cherokee and one Islander: Pres. THEODORE GARA-FALIDIS: Vice-Pres. and Man. Dir. CONSTANTINE KONIALIDES; Dir.-Gen. Capt. Paul Ioannidis.

Greece is also served by over 70 foreign airlines.

TOURISM

Ellinikos Organismos Tourismou (National Tourist Organization of Greece): Odos Amerikis 2, Athens; Pres. G. D. DASKALAKIS: Sec.-Gen. G. L. KONTOGEORGIS.

OFFICES ABROAD

Austria: Griechische Zentrale für Fremdenverkehr, 10 Krugerstr., 1010 Wien.

Belgium: Office National Hellénique du Tourisme, 62-66 Boulevard de l'Impératrice, Brussels 1000.

Sweden: Grekiska Statens Turistbyra, Grev Turegatan 2, Stockholm 5.

Switzerland: Griechische Zentrale für Fremdenverkehr.

Gottfried Keller Str. 7, 8001 Zurich.
United Kingdom and Ireland: National Tourist
Organization of Greece, 195-197 Regent St., London, WIR 8DL.

U.S.A.: Greek National Tourist Organization, 601 Fifth Ave., New York, N.Y. 10017; 627 West Sinth St., Los Angeles, California 99017.

CULTURAL ORGANIZATIONS

Chamber of Plastic Arts of Greece: 38 Mitropoleos Street, Athens; f. 1944; state owned; aims at the promotion and protection of its members' interests, study of all artistic subjects, the artist's representation of the state, foundation of mutual-assistance and pension system.

National Organization for Hellenic Handicrafts: Odos Mitropoleos 9, Athens; f. 1958; aims at stimulating growth of traditional Greek handicrafts such as leatherwork, embroidery, basket weaving and metalwork, and promoting these abroad; has a training centre and awards scholarships for the study of art abroad.

Ypourghion Paedias (Ministry of Education): 15 rue Mitropoleos, 126 Athens.

Departments: Higher Education, Literature and the Arts, General Education, Professional and Technical Education, International Cultural Relations.

PRINCIPAL THEATRES

National Theatro of Greece; Athens; ancient and modern drama.

Greek Art Theatre: Stoa Orpheos, Odos Stadiou, Athens; Dir. KAROLOS KOUN. Lyriki Skini: Odos Akadimias, Athens; opera and ballet; sponsored by the State.

Piraikon Theatron: Piraeus ancient theatre; ancient drama; Founder Dir. Dimitrios Rondiris, 9 rue Anthiniou Gazi, Athens 124.

Dora Stratou Greek Dance Group: summer performances (May-Sept.) at the Dora Stratou Theatre, Philopappos.

Hellinikon Chorodrama: 6 Psylla Street, Athens 118; Athens City Ballet Company; two dance schools, one for amateurs and one for professionals; Classical, Greek and Modern dance; Dir. and Chorographer Mrs. RALLOU MANOU.

PRINCIPAL ORCHESTRAS

Athens State Orchestra; Odos Mavromichali 3, Athens.

State Orchestra of Salonika: Salonika: f. 1959 as Symphony Orchestra of Northern Greece, became State Orchestra in 1966; repertoire includes classical, romantic and modern works; Gen. Dir. and Permanent Conductor George Thymis.

Symphony Orchestra of the City of Athens: Dimarcheion Athinon, Athens; fmrly. Peiramatiki Orchistra Athinon; Patron G. PLYTAS; Dir. TH. ANTONIOU.

ATOMIC ENERGY

Greek Atomic Energy Commission (Elliniki Epitropi Atomikis Energias): Aghia Paraskevi, Attikis, Athens; f. 1954; five-member administrative cttee.; Pres. Prof. D. A. Kappos; Vice-Pres. Prof. Th. Kouyoumzelis.

"Democritos" Nuclear Research Centre: Aghia Paraskevi Attiki, near Athens; laboratories for: radio-chemistry, physics, electronics, high energy physics, radioisotope production, biology, technology, health physics, radioactive waste treatment installations; also reactor and accelerator (see below); Pres. Prof. L. Zervas.

REACTOR AND ACCELERATORS

The "Democritos" research reactor is of the swimming pool type using M.T.R. fuel elements and having a maximum thermal power of r MW. Built with components supplied by AMF Atomics, U.S.A., and with a U.S. subsidy, the reactor started operation in July 1961. Its power has been increased to 5 MW.

A 400 KeV Van de Graaf accelerator has been in operation since 1962, and a particle accelerator 11 MeV and an electron accelerator of 3 MeV were installed at the "Democritos" Centre during 1971.

By 1990, Greece hopes to have seven nuclear power stations in operation.

UNIVERSITIES

Athinisin Ethnikon Kai Kapodistriakon Panepistimion (National Capodistrian University of Athens): Athens; 500 teachers, 25,000 students.

Aristotelion Panepistimion Thessalonikis (Aristotelian University of Salonika): Salonika; 248 professors, 29,732 students.

Ethnikon Metsovion Polytechneion (National Technical University): Athens; 450 teachers, 4,000 students.

University of loannina: Ioannina; 119 professors, 2,176 students.

University of Patras: Patras; 1,000 students.

HUNGARY

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Hungary is a state in Eastern Europe, bounded to the north by Czechoslovakia, to the east by the U.S.S.R. and Romania, to the south by Yugoslavia and to the west by Austria. Its climate is Continental with long, dry summers and severe winters. The language is Hungarian (Magyar). Roman Catholics are the largest single religious denomination with over six and a half million adherents. Other groups are the Hungarian Reformed Church, the Lutheran Church and the Hungarian Orthodox Church. The national flag (proportions 3 by 2) consists of three horizontal stripes of red, white and green. The capital is Budapest.

Recent History

Hungary allied herself with Germany during the Second World War, and having sought to break the alliance in 1944 was occupied by German forces. Liberated in 1945 by Soviet troops, Hungary became a Republic a year later. Land redistribution and nationalization measures followed, despite opposition from the Roman Catholic Church under Cardinal Mindszenty, until in 1949 a People's Republic was declared. Mátyás Rákosi became the leading figure as First Secretary of the Workers' Party. Opposition was subsequently removed by means of purges and political trials. Rákosi became Prime Minister in 1952 but after the death of Stalin a year later lost this post to the more moderate Imre Nagy, and a short period of liberalization followed. Rákosi, however, remained as First Secretary of the Party and in 1955 Nagy was forced to resign and András Hegedüs, sponsored by Rákosi, was appointed Prime Minister. In-fighting between the Rákosi and Nagy factions increased in 1956 after the revelations of the 20th C.P.S.U. Congress in Moscow; in July Rákosi was forced to resign but was replaced by a close associate Ernő Gerő. The consequent discontent led to demonstrations in October 1956 which resulted in the return as Prime Minister of Nagy, who promised reforms and in November formed a coalition government. Soviet troops had already entered Hungary, however, and when they had occupied Budapest, a new government was announced under János Kádár, who had taken over as Party leader shortly before. Kádár held the premiership until 1958 and then from 1961 to 1965, and under his leadership government has become less severe and more stable. Economic reforms, in particular those introduced in 1968, have brought a considerable increase in the standard of living and they have been accompanied by modest social and political reforms. The National Assembly elections of 1971 proved to be a cautious experiment in extending democracy, strengthening the right of the electorate to nominate candidates and giving them the opportunity to nominate two or more candidates for a given constituency, thus providing wider representation in the Assembly. The results showed a 98.9 per cent vote in favour of the People's Patriotic Front.

Hungary was admitted to the United Nations in 1955, and is closely aligned with the countries of Eastern Europe through her membership of the Warsaw Pact, whose forces she joined in entering Czechoslovakia in 1968.

Government

The highest organ of state power is Parliament elected every four years by all citizens over 18 years. Parliament elects the Presidential Council consisting of the President, who is the Head of State, two Vice-Presidents and 17 members. The Council exercises power between sessions of Parliament but it is responsible to it. The highest organ of state administration is the Council of Ministers, elected or removed by Parliament at the suggestion of the Presidential Council. The Hungarian Socialist Workers' Party plays an important part in government through its Central and Political Committees.

Under modifications to the electoral law which came into effect for the 1971 elections, the sole right to nominate candidates for the National Assembly is vested in public pre-election nomination meetings open to all voters. Two or more candidates can be nominated for a single seat, provided each receives the backing of at least 30 per cent of those present, and where the seat is contested the successful candidate must gain 50 per cent or more of the votes cast. Any elector is entitled to stand.

Defence

Hungary was a founder member of the Warsaw Pact in 1955 and in 1969 joined the Geneva Disarmament Commission. Military service starts at the age of 18 years and lasts for a maximum of three years. Total regular forces in 1974 numbered 103,000: army 90,000, air force 13,000 and a marine force There is also an armed force of 27,000 security troops and border guards known as Workers' Guards, and a Workers' Militia of 250,000. The 1974 budge provided 10,610 million forints for defence expenditure.

Economic Affairs

In 1968 a new system of economic management was introduced, known as the "new economic mechanism". The official definition of the plan is "to harmonize State planning and market development". Until then the economy had been based on the standard Soviet central planning system, but under the new scheme industry is being decentralized to a certain extent. The aim is to evolve a Socialist market economy in which business enterprises produce what they want, engage in competition on the domestic and foreign markets and share profits among the workers. The reform was introduced during the country's third Five-Year Plan (1966-70) in which all major targets, with the exception of labour productivity, were exceeded. National income in 1970 was 39 per cent higher than in 1965, representing an average annual growth of 7 per cent, and foreign trade turnover went up by more than 50 per cent. Real wages rose by an average of almost 17 per cent, while prices were only 3.5 per cent higher. Targets for the fourth Five-Year Plan (1971-75) highlight the modernization of existing industry and the continued expansion of both national and personal incomes. Specific aims include an increase in the use of natural gas and oil as sources of

power and of computers in industry, and plans to make Hungary one of the largest exporters of buses in Europe.

Hungary was formerly a predominantly agricultural country but since the war, industry has come to account for more than half of her total economy. Hungary is an exporter of engineering products, machine tools, buses, telecommunications and electrical equipment, electronic and other instruments. She is still a large exporter of meat, fruit and vegetables and half her exports to Western European countries consists of agricultural produce. Following record crops in 1969 and the export of large amounts of wheat and maize, serious floods brought about a considerable drop in production in 1970. The 1971 harvest showed an 11 per cent increase while in 1972 the increase was 4 per cent. In 1973 there was a further overall increase in agricultural production of 5 per cent, with a record grain harvest of 11,500,000 tons. Industrial production rose by 7.2 per cent and national income by about 7 per cent. In 1974 the Government reduced import subsidies, at the same time lowering the levy on companies' capital assets, in order to counteract the price inflation of imports from the West. Over 97 per cent of the total arable area of the country is collectivized. Vineyards cover 500,000 acres. Chief imports are coal, iron ore, crude oil, coke, cotton, timber and consumer goods.

Hungary is a member of the Council for Mutual Economic Assistance (COMECON) and, since 1973, of GATT. In 1973 trade with members of COMECON and other socialist countries accounted for 66 per cent of total foreign trade.

Transport and Communications

The Hungarian State Railways operate 8,820 kilometres of track of which 1,100 kilometres are electrified. Budapest's first deep-level underground railway started operation in April 1970, when the first 7 kilometers out of a total of 10 opened. The second section of this east-west line, running under the Danube and linking Pest with Buda, opened in December 1972. Work is now in progress on a north-south line, due to open in 1976. There are about 29,900 kilometres of main or secondary roads, representing about 27 per cent of the total road network. Navigable inland waterways total some 1,688 kilometres. There is a small merchant fleet using mainly Hungarian-built vessels of an average tonnage of 1,100 tons. These operate from the Danube to Mediterranean ports and the United Kingdom. The state airline MALEV has an extensive network of flights to Europe and the Middle East, but there are no internal flights in Hungary.

Social Welfare

Since April 1st, 1972, all Hungarian citizens have been covered by the country's social insurance network; in the same month the right to care in sickness, old age or disability was written into the Constitution. Before that date about 97 per cent of the population were covered automatically through their employment or membership of a co-operative, while self-employed persons were free to contribute if they wished.

Today the national insurance scheme is largely non-contributory. The employed person, whatever his job, pays a contribution to the pension fund—3 per cent of wages for the average worker, higher for those earning more up to a maximum of 10 per cent of salary. The employer pays

4 per cent into the pension fund for each person employed. Cost of health services and other social services are met by state subsidies and contributions for the place of work. Members of agricultural and handicraft co-operatives pay a small monthly contribution, while under the new regulations introduced in April 1972, self-employed persons must now pay a monthly contribution which varies with income. Those who earn below a certain limit, however, are exempt.

Social insurance covers sickness benefits which are available from the first day of sickness. Patients are entitled to sick pay for one year, or two years in the case of tuberculosis. All medical consultation and treatment is free, although a charge of 15 per cent of the total price is generally made for medicines and medical appliances. The social insurance scheme also covers maternity benefits—insured women are paid confinement grants for 20-24 weeks—free layettes, child care allowance (a new service which allows a mother to look after her child at home until he is 3 years old), and family allowances which vary according to the number of children in the family.

In Hungary special pension laws determine the right of employed workers, members of agricultural co-operatives, and private tradesmen to pensions. Male workers are entitled to old-age pensions at the age of 60 years (55 for women), if they have been employed for at least ten years. Workers who have been employed in heavy or unhealthy work may qualify for pension five years earlier than this. The employment period for a full pension is 25 years and this pension amounts to 50 per cent of the worker's average wage prior to retirement, plus 1 per cent of this basic pension for every year worked. Various other pensions are paid under the Hungarian social insurance scheme; these include invalid pensions, widows' pensions, and orphans' allowances.

Education

The Educational Act of 1961 modernized the Hungarian educational system and provided the basis of the presentday system. Various changes have been made since 1961, including the revision of the basic school system in 1963, and the introduction of a uniform curriculum in the grammar school in 1965. Children under the age of 3 years attend creches (bölcsödék), and those between the ages of 3 and 6 years attend kindergartens (ovoddk). Neither of these schools is compulsory and, although attendance is increasing, they are not so well-attended as elsewhere in Eastern Europe. Compulsory education begins for the Hungarian child at 6 years of age when he attends the basic school (dltaldnos iskola). Basic education continues until the child is 14, during which time he will be taught general subjects together with some practical training. Provision is made in the basic school for talented children, particularly those who are linguistically inclined. Facilities for secondary education were improved as a result of the 1961 Educational Act. Children are now required to attend school until the age of 16 years. There are four types of secondary school, excluding special schools for the very gifted or, alternatively the backward or abnormal child. Children who do not wish to continue with their schooling after the age of 16 years attend the toudbbkepző iskolák for two years, in order to complete their compulsory schooling. The majority of children prefer to continue with their education after 16 years of age. The most popular types of

secondary school are the grammar school (gimndrium) and the technikum. The gimndrium provides a four-year course of mainly academic studies, although some vocational training does figure on the curriculum. The technikum offers full vocational training together with a general education, emphasis being laid on practical work. Apprentice training schools (ipari tanulók gyakorló iskoldi), are attached to factories, agricultural co-operatives, etc., and lead to full trade qualifications. General education is less important as part of the curriculum in this type of school. Further educational reform (1973-74) is now being directed at revising the curricula and the way in which the performance of pupils is assessed.

Over the past few years demand for education in Hungary has been increasing at an exceptional rate and this is reflected in the government's promotion of educational expansion. Both the number of higher educational institutes and the number of students have increased considerably since before the Second World War, and there are now about 96,000 students in 55 higher institutes, including 9 universities and 9 technical universities.

Tourism

Tourism is developing rapidly. Lake Balaton is the main holiday centre for boating, bathing and fishing. The cities have great historical and recreational attractions. Budapest has numerous swimming pools watered by thermal springs. In 1973 there were 7,200,779 foreign visitors. Since January 1975 the special exchange rate available for tourists has been 51 forints to £1.

Nationals of Czechoslovakia, Finland, Poland, Romania, U.S.S.R. and Yugoslavia do not require visas to enter Hungary.

Sport

Football is the most popular sport. Swimming, athletics and fencing are also much favoured. Winter sports are popular. Hunting in many parts of the country attracts large numbers of foreign visitors, notably from Germany.

Public Holidays

1975: May 1st (May Day), August 20th (Constitution Day), November 7th (October Revolution Day), December 25th and 26th (Christmas).

1976: January 1st (New Year's Day), April 4th (Liberation Day), April 19th (Easter Monday).

THE CONSTITUTION

(Adopted in August 1949; amended April 1972.)

NATIONAL STATUS

Hungary is a People's Republic, a State of workers and working peasants, in which all power belongs to the working people and is exercised through elected representatives. The Republic defends the power and liberty of the working people and the independence of the country and opposes the exploitation of man.

SOCIAL STRUCTURE

The bulk of the means of production is owned by the State, by public bodies or by co-operative organizations, and state and co-operative ownership enjoy equal status. Means of production may also be privately owned. The national economy is directed by the State power of the people. The economic life of the Republic is determined by a State national economic plan in which the State strives to expand the forces of production, increase national wealth, raise material and cultural standards and strengthen the defences of the country. All natural resources, means of communication and agricultural enterprises are the property of the State. Foreign trade is carried out both by state trading companies and by companies and enterprises with export-import rights.

The Republic recognizes and guarantees the right of the working peasants to the land and regards it as its duty to assist the socialist development of agriculture. The State supports every genuine co-operative movement of the workers that is directed against exploitation. The Constitution recognizes and protects all property acquired by labour and guarantees the right of inheritance. Private enterprise is not allowed to run counter to the public interest.

Labour is the base of the social order and every ablebodied citizen has the right and the duty to work to the best of his ability. By their labour, the workers serve the cause of socialist construction.

PARLIAMENT

The highest organ of State authority in the Hungarian People's Republic is Parliament which exercises all the rights deriving from the sovereignty of the people and determines the organization, direction and conditions of government. Parliament enacts laws, determines the State budget, decides the national economic plan, elects the Presidential Council and the Council of Ministers, directs the activities of ministries, decides upon declaring war and concluding peace and exercises the prerogative of amnesty.

Parliament is elected for a term of four years and members enjoy immunity from arrest and prosecution without parliamentary consent. It meets at least twice a year and is convened by the Presidential Council or by a written demand of one-third of its members. It elects a speaker, two deputy speakers and six recorders from among its own members, and it lays down its own rules of procedure and agenda. As a general rule, the sessions of Parliament are held in public.

Parliament has the right of legislation which can be initiated by the Presidential Council, the Council of Ministers or any member of Parliament. Decisions are valid only if at least half of the members are present, and they require a simple majority. Constitutional changes require a two-thirds majority. Acts of Parliament are

signed by the President and the Secretary of the Presidential Council. Parliament may set up committees.

Parliament may pronounce its dissolution before the expiration of its term, and in the event of an emergency may prolong its mandate or may be re-convened after dissolution. A new Parliament must be elected within three months of dissolution and convened within one month of polling day. At its first sitting Parliament elects from among its members the Presidential Council, consisting of a President, two Vice-Presidents, a Secretary and seventeen members. The Chairman of the Council of Ministers, its Deputy Chairmen and its members are ineligible for election to the Presidential Council.

The Presidential Council may issue the writ for a general election, convene Parliament, initiate legislation, hold plebiscites, direct local government, conclude international treaties, appoint diplomatic representatives, ratify international treaties, appoint higher civil servants and officers of the armed forces, award orders and titles, and exercise the prerogative of mercy. It may annul or modify by-laws, dissolve local organs of government and, when Parliament is not in session, may enact laws. The Presidential Council is responsible to Parliament, which can recall it.

Members of Parliament are elected on the basis of universal, equal and direct suffrage by secret ballot, and they are accountable to their constituents, who may recall them. All citizens of eighteen years and over have the right to vote, with the exception of those who are unsound of mind, and those who are deprived of their civil rights by a court of law.

COUNCIL OF MINISTERS

The highest organ of State administration is the Council of Ministers, responsible to Parliament and consisting of a Chairman, Deputy Chairmen, Ministers of State and other Ministers who are elected by Parliament on the recommendation of the Presidential Council. The Council of Ministers directs the work of the ministrics (listed in a special enactment), and ensures the enforcement of laws and the fulfilment of economic plans; it may issue decrees and annul or modify measures taken by any central or local organ of government.

LOCAL ADMINISTRATION

The local organs of State power are the county, district, town, borough and town precinct councils, whose members are elected for a term of four years by the voters in each area. Local councils direct economic, social and cultural activities in their area, prepare local economic plans and budgets and supervise their fulfilment, enforce laws, supervise subordinate organs, maintain public order, protect public property and individual rights, direct local economic enterprises and support co-operatives. They may issue regulations and annul or modify those of subordinate councils. Local Councils are administered by an Executive Committee elected by and responsible to them.

JUDICATURE

Justice is administered by the Supreme Court of the Hungarian People's Republic, county and district courts. The Supreme Court exercises the right of supervising in principle the judicial activities and practice of all other courts.

The Constitution, The Government, National Assembly

All judicial offices are filled by election; Supreme Court, county and district court judges are all elected for an indefinite period; the President of the Supreme Court is elected by Parliament. All court hearings are public unless otherwise prescribed by law, and those accused are guaranteed the right of defence. Under a new law on criminal procedure which came into force on January 1st, 1974, an accused person must be considered innocent until proved guilty.

PUBLIC PROSECUTOR

The function of the Chief Public Prosecutor is to watch over the observance of the law. He is elected for a period of six years by Parliament, to whom he is responsible. The organization of public prosecution is under the control of the Chief Public Prosecutor, who appoints the public prosecutors.

RIGHTS AND DUTIES OF CITIZENS

The Hungarian People's Republic guarantees for its citizens the right to work and to remuneration, the right

of rest and recreation, the right to care in old age, sickness or disability, the right to education, and equality before the law; women enjoy equal rights with men. Discrimination on grounds of sex, religion or nationality is a punishable offence. The State also ensures freedom of conscience, religious worship, speech, the Press and assembly. The right of workers to organize themselves is stressed in order to promote democracy, socialist construction, cultural and educational development and international solidarity. The freedom of the individual, and the privacy of the home and of correspondence are inviolable. Freedom for creative work in the sciences and the arts is now also guaranteed by the Constitution under the amendments adopted in 1972.

The basic freedoms of all workers are guaranteed and foreign citizens enjoy the right of asylum.

It is the fundamental duty of all citizens to defend the property of the people, consolidate social assets, increase economic strength, raise the living standards and cultural level of the workers, and strengthen the people's democratic system. Military service and the defence of their country are the duties of all citizens.

THE GOVERNMENT

(February 1975)

PRESIDENTIAL COUNCIL

President: PAL LOSONCZI.

Vice-Presidents: SANDOR GASPAR, ÖDÖN KISHAZI,

Secretary: LAJOS CSETERKI.

Members: Sándor Barcs, Dr. Tibor Bartha, Mrs. Pál Bodonyi, Dr. István Horváth, Dr. Richárd Horváth, János Kádár, Gyula Kállat, László Nánási, Károly Németh, Dr. Gyula Ortutay, Dr. Gábor Petri, Dr. István Sályi, József Somogyi, István Szabó, Dr. Rezső Trautmann, Gyula Uszta, Mrs. István Vass.

POLITICAL COMMITTEE OF THE HUNGARIAN SOCIALIST WORKERS' PARTY

Members: György Aczél, Antal Apró, Valéria Benke, Béla Biszku, Lajos Fehér, Jenő Fock, Sándor Gáspár, János Kádár, Gyula Kállai, Dezső Nemes, Károly Németh, Rezső Nyers.

COUNCIL OF MINISTERS

Prime Minister: Jenő Fock.

Deputy Prime Ministers: György Aczél, János Borbándi, Dr. Mátyás Timár, György Lázár, Dr. István Huszár.

Minister of Foreign Affairs: FRIGYES PUJA.

Minister of Home Affairs: András Benker.

Minister of Defence: LAJOS CZINEGE.

Minister of Agriculture and Food: Dr. IMRE DIMÉNY.

Minister of Finance: Lajos Faluvégi.

Minister of Health: EMIL SCHULTHEISZ.

Minister of Education: Dr. KAROLY POLINSZKY.

Minister of Culture: László Orbán.

Minister of Internal Trade: ISTVÁN SZURDI.

Minister of Metallurgy and Machine Industry: Dr. GYULA Horgos.

Minister of Heavy Industry: Dr. Gyula Szekér.

Minister of Light Industry: Mrs. Janos Keserg.

Minister of Foreign Trade: Dr. József Biró.

Minister of Construction and Planning: József Bóndor.

Minister of Labour: László Karakas.

Minister of Justice: Dr. MIHALY KOROM.

Minister of Transport and Post: KAROLY ROEDÖNYI.

President of the Technical Development Committee: Dr.

Miklós Ajtai.

President of the National Planning Office: György Lazar.

NATIONAL ASSEMBLY

The National Assembly consists of a single chamber of 352 members, elected every four years on a territorial basis. The last elections (April 1971) were the first to be held under the new electoral law, and about two and a half million people, more than a third of the total electorate, took part in the meetings at which candidates were

nominated. Two or more candidates stood in 49 constituencies.

Speaker of the National Assembly: Antal Apro.

Deputy Speakers: JANOS PETER, Mrs. GABOR VARGA.

POLITICAL PARTIES

In Hungary there is no parliamentary opposition. Opposition parties have been either absorbed in the Patriotic People's Front or dissolved.

Magyar Szocialista Munkáspárt (Hungarian Socialist Workers' Party): Budapest V, Széchenyi rkpt. 19; f. November 1956 to replace the Working People's Party (merger of the Communist and Social Democratic Parties). Membership in November 1972 was 750,000; First Sec. of the Central Committee János Kádár; Secs. Béla Biszku, Imre Gyóri, Károly Németh Miklós, Övári, Árpád Pullai; publ. Népszabadság.

Hazafias Népfront (Patriotic People's Front): f. 1954; socio-political mass movement formed as a successor to the Hungarian Independent People's Front. It is composed of Party and non-Party people, and represents mass organizations such as trade unions, peasants and youth movements. It compiles the lists of candidates, on the basis of nominations from public meetings, for national and local elections. There are over 3,700 local committees; Pres. Gyula Kállai; Sec.-Gen. István Sarlós; publs. Magyar Nemzet (daily), Szabad Föld (weekly), Képes Újság (weekly), Népfront (monthly).

POLITICAL ORGANIZATIONS

Magyar Kommunista Iijúsági Szövetség (Communist Youth Union of Hungary): Budapest V, Balassi Bálint u. 16; f. 1957 to replace the Union of Working Youth-DISZ; membership in 1971 was over 800,000; First Sec. of Central Committee Dr. László Marotiny; publs. Magyar Ifjúság (weekly), Ifjú Kommunista (monthly).

Magyar Nők Országos Tanácsa (National Council of Hungarian Women—MNOT): Budapest VI, Népköztársaság utja 124; f. 1957 to replace Hungarian Democratic Women's Union; Pres. Edit Erdei; Sec. Zsuzsa Ortutay.

DIPLOMATIC REPRESENTATION

Yugoslavia: Dózsa György u. 92/B (E); Ambassador: Dr. ZIGA VODUŠEK.

Zambia: (E); Ambassador: (vacant).

Zaire: (E); Ambassador: Futu Tangu Moju.

Hungary also has diplomatic relations with Guinea-Bissau and the Philippines.

JUDICIAL SYSTEM

The Hungarian judicial system was established by a law passed in 1954. This was modified by acts of parliament passed in 1962 and 1973. The administration of justice is the function of the county district courts, the municipal district courts, the county courts, the Municipal Court of Budapest and the Supreme Court. The system of appeal is as follows: appeals against the decisions of county district courts and municipal district courts are considered by the county courts or the Municipal Court of Budapest. Appeals against the decisions of the latter as court of first instance are considered by the Supreme Court. The Chief Public Prosecutor and the President of the Supreme Court have the right to submit to the Supreme Court protest on legal grounds against the final decision of any court.

Under the new 1973 act which came into force on January 1st, 1974, procedure is now differentiated for criminal offences which cover minor infringements of the law, and for crimes. In the first instance, cases involving

a criminal offence can be dealt with by a professional judge. Where a crime is involved, the case is heard before a Council of Three, consisting of one professional judge and two lay assessors, and, in major cases, before a Council of Five, consisting of two professional judges and three lay assessors. In the second instance and at the Supreme Court, only regular judges may preside. The president of the Supreme Court is elected by Parliament for four years and all judges are elected by the Presidential Council for an indefinite period. The lay assessors are elected by the local councils.

The Chief Public Prosecutor is responsible for exercising supervision over legality in all fields except the function of the courts.

President of the Supreme Court: Dr. Ödön Szakács. Minister of Justice: Dr. Mihály Korom. Chief Public Prosecutor: Dr. Géza Szénási.

RELIGION

Allami Egyházügyi Hivatal (State Office for Church Affairs):
Budapest VI, Lendvay utca 28; f. 1951; deals with
Church-State relations; Chair. IMRE MIKLÓS.

THE PRESS

The Hungarian Constitution guarantees freedom of the Press and freedom of speech and many aspects of the organization of the Press including provisions of law have been established to secure these ends. Printing works, publishing houses and paper mills have been nationalized. Failures in public administration, economic, cultural and other fields, are commonly criticized in editorials and grievances publicized in letters from members of the public. Since 1963 all official institutions so criticized have been legally obliged to investigate the matter promptly. In addition close relations are maintained between journalists and readers by means of frequent conferences held in factories and farms.

Conversely, considerable legislation is designed to prevent the abuse of Press rights; Article 127 of the penal code penalizes the provoking of hatred of minorities by the Press; incitement and libel are similarly dealt with. Since a decree in 1959 persons and institutions victimized by false Press reports may claim rectification which a government minister is empowered to enforce.

A period of growing liberalization, a reaction to the personality cult which had developed under Rákosi, began around 1954 but was brought to an abrupt end after the crisis of 1956. The following year the Information Office

was founded with the functions of granting licences, guiding papers, distributing newsprint and controlling the national news agency, Magyar Távirati Iroda, which monopolizes the reception and distribution of news. The scope of the Press is further curtailed by extensive legal provisions regarding state secrets.

As in many East European countries most papers are the organs of political parties, trade unions, youth and social organizations. A wide range of specialist periodicals are published by societies, factories, scientific institutions, etc. There is no private ownership of publications but since 1957 independent commercial organizations have received publishing licences.

The high circulation of daily papers enables publishing houses to produce high standard specialized periodicals. Moreover, the state gives direct subsidies to certain education, medicine and literature publications, to the religious press and to the four minority language papers. As a result at least six literary periodicals of 132-460 pages each are enabled to appear monthly. Some 80 per cent of newspapers are sold by subscription.

There are 20 dailies with an average total circulation of 2,500,000. This averages sixteen dailies per hundred people.

which compares with twenty-eight per hundred in Czechoslovakia. Four of the five Budapest dailies sell a total of about 1,415,000 copies and circulate nationally. In order of popularity they are: Népszabadság (750,000), Népszava (284,000), the evening Esti Hirlap (273,000) and Magyar Nemzet (113,000). Népszabadság, the most important daily, central organ of the Socialist Workers' Party and required reading for members, consists of twelve pages (twenty on Sundays) and is read aloud in farm and factory and over the radio. Otherwise the paper most respected for the quality of its news coverage and commentary is Magyar Nemzet.

Weekly newspapers and periodicals number 468. Among the most popular are the illustrated weeklies, which have recently experienced considerable increases in circulation, and of which the most significant are the satirical Ludas Matyi (565,000), the women's magazine Nôk Lapja (634,000) and the political paper Szabad Föld (363,000). A news magazine giving a high standard of reporting and political discussion is Magyarország. Specialized periodicals include 20 cultural publications, 24 medical journals, 26 scientific papers, 14 agricultural and 13 religious publications. Of this last category Uj Ember, Evangélikus Élet and Uj Elet for Catholic, Lutheran and Jewish congregations respectively are representative.

DAILIES

(Selected List)

- Daily News: Budapest I, Fém utca 5-7; f. 1967; published by the Hungarian Telegraph Agency; in English and German; Editor György Lénart; circ. 8,000.

PUBLISHERS

The structure of the book trade in Hungary closely resembles that of the U.S.S.R. Books are regarded primarily as vehicles for education, culture and information rather than as commercial goods, and publishers and booksellers are controlled by the state. The Board of Publishers in the Ministry for Culture is the directive organ of publishing and distribution. It controls financial matters and all publishing programmes must gain its approval. The Board expects to show a yearly overall profit but may instruct a publishing house to budget for a loss if the Board considers it socially desirable to publish certain uneconomic works. The Council of Publishers, an adjunct of the Board of Publishers, is an advisory board composed of experts, specialists, and representatives of state and social organs. It offers suggestions in connection with publishing policies and expresses opinions on annual and long-term plans of the publishing houses.

Export and import of books is handled by Kultura Hungarian Company for Books and Newspapers. Three million books a year, both Hungarian and foreign language publications, are exported by Kultura which maintains business relations with eighty-six countries. Five million books per year are imported, mainly from socialist countries, United Kingdom, U.S.A., France and the Federal Republic of Germany. Kultura also deals in periodicals, exporting about fifteen million copies and importing seven million.

Negotiations for the sale or purchase of translation rights between Hungarian authors and publishers, and foreign publishers are conducted by Artisjus.

PRINCIPAL PUBLISHING HOUSES

- Akadémiai Kiadó: (Publishing House of the Hungarian Academy of Sciences): H-1054 Budapest, Alkotmány u. 21; f. 1828; humanities, social, natural and technical sciences, dictionaries, encyclopaedias, periodicals of the Academy and other institutions, issued partly in foreign languages; Manager György Bernát.

REACTOR AND ACCELERATOR

Research Reactor. An experimental reactor at Csillebérc, near Budapest, started in 1959. Supplied by the U.S.S.R., it is of the "VVR-S" type, fuelled by enriched uranium, and cooled and moderated by ordinary water. It is used for research in nuclear physics and biology, and the production of radio isotopes.

Training Reactor. In 1970 Hungarian universities inaugurated a low-power reactor of Hungarian design at the Technical University of Budapest for university and postgraduate training and research.

Accelerators. A 5 MeV electrostatic accelerator, a 200 kev and 180 kev cascade accelerator, in Budapest, and a 2.2 MeV electrostatic accelerator, as well as a 800 kev, 300 kev and 100 kev accelerator, in Debrecen, are in operation.

Co-operation. Agreements have been signed for co-operation in the peaceful uses of atomic energy with Czechoslovakia, the German Democratic Republic, India, Poland, Romania and the U.S.S.R. Hungary is a member of the International Atomic Energy Agency, Vienna, and of the Joint Institute for Nuclear Research, Dubna, near Moscow.

UNIVERSITIES

Ečivos Lorand Tudományegyetem (Lorand Ečivos University): Budapest; 834 teachers, 6,450 students.

Marx Károly Közgazdaságtudományi Egyetem (Karl Marx University of Economic Science): Budapest; 328 teachers, 4,008 students.

Semmelweis Orvostudományi Egyetem (Semmelweis Medical University): Budapest: 1,155 teachers, 3,538 students.

Kossuth Lajos Tudomanyegyetem (Lajos Kossuth University): Debrecen; 277 teachers, 2,000 students.

Debreceni Orvostudományi Egyetem (Debrecen University of Medicine): Debrecen; 440 teachers, 1,152 students.

Pécsi Tudományegyetem (University of Pécs): Pécs; 45 teachers, 966 students.

Pécsi Orvostudományi Egyetem (Medical University of Pécs): Pécs; 355 teachers, 1,184 students.

dózsef Áttila Tudományegyetem (Attila József University): Szeged; 380 teachers, 3,067 students.

Szegedi Orvostudományi Egyetem (Medical University of Szeged): Szeged; 457 teachers, 1,658 students.

Budapesti Műszaki Egyetem (Technical University of Budapest): Budapest; 1,635 teachers, 10,304 students.

There are also eight other technical universities.

ICELAND

INTRODUCTORY SURVEY.

Location, Climate, Language, Religion, Flag, Capital

Iceland is a volcanic island situated near the Arctic Circle in the North Atlantic. The island lies 155 miles south-east of Greenland, 645 miles west of Norway and 500 miles north of Scotland. The Gulf Stream keeps Iceland warmer than might be expected, with average temperatures ranging from 10°C (50°F) in summer to 1°C (34°F) in winter. Icelandic is the official language. The Evangelical Lutheran Church is the established church and embraces 98 per cent of the population. The national flag (proportions 25 by 18) is blue with a red cross bordered with white. The capital is Reykjavík.

Recent History

Iceland became independent in 1944 when the Convention linking it with Denmark under the Danish throne was terminated. Iceland is a founder member of the Nordic Council (1953) and has belonged to both NATO and the Council of Europe since 1949.

Iceland was governed by a coalition of the Independence Party and the Social Democratic Party from 1959 to 1971. Following the death of Prime Minister Benediktsson, an interim government was formed in July 1970 by Mr. Jóhann Hafstein. However, there was a swing to the left in the general elections in June 1971 and Ólafur Jóhannesson, the leader of the Progressive Party, formed a coalition government with the People's Union and the Union of Liberals and Leftists.

The limit of Iceland's territorial waters was fixed at 12 miles in 1964, but economic dependence on the fishing industry and the need to exclude competition from foreign trawlers were demonstrated by the failure of the herring catch in 1967 and 1968, when the national income dropped by 16 per cent. The Jóhanneson Government unilaterally extended fishing limits to 50 miles in September 1972. Following the "Cod War", in which foreign trawlers were harassed by Icelandic gunboats, compromise agreements with Britain and Norway were reached in 1973, but Federal German fishing rights off Iceland remain in dispute. The Marxist members of the left-wing coalition government demanded the total withdrawal of U.S. forces from the NATO base at Keflavik, and inconclusive negotiations were begun. When the government attempted to freeze wages and prices in May 1974, the Union of Liberals and Leftists withdrew their support and the government

Elections held in June 1974 showed a swing to the right, the Independence Party gaining at the expense of the Liberals and Leftists. In August the Independence and Progressive Parties formed a coalition government, led by Geir Hallgrimsson. The new government immediately devalued the krona by 17 per cent, to lessen the trade deficit, and announced that the U.S.A. would be allowed to continue to use the Keflavik base and that fishing limits would be extended to 200 miles in 1975. Its most pressing problem is inflation, and the government is expected to introduce measures to dampen domestic demand and control wage increases.

Government

Executive power is vested in the President and the Cabinet consisting of the Prime Minister and other Ministers appointed by the President. The Althing (Parliament) is divided into an Upper and Lower House and is elected by universal suffrage.

Dofence

Iceland has no defence forces of her own but is a member of the North Atlantic Treaty Organization (NATO). There are units of United States Forces at Keflavik air base, which is used for observation of the North Atlantic, under an agreement of 1951 between Iceland and NATO. An agreement between Iceland and the U.S.A. in October 1974 limited U.S. troops in Iceland to 2,900.

Economic Affairs

Very little land is available for cultivation, but good grazing keeps Iceland self-sufficient in meat and milk products. Production costs are high and exports have to be subsidized. The Icelandic economy is excessively dependent on fishing, which provided 73.8 per cent of total visible export receipts and 51.3 per cent of total receipts from goods and services in 1973. The modernized and expanding trawler fleet supplies about 80 freezing plants, which produce white fish fillets, frozen shrimp, scallops, scampi and capelin. Other fish products such as oil, meal and salted fish are major exports. A volcanic eruption in January 1973 threatened to destroy the port of Vestmannaeyjar, which handled some 20 per cent of the total Icelandic catch of fish, but, despite considerable damage, reconstruction has been started, and there are plans for a new fish processing plant.

Iceland's only significant natural resource, apart from fish, is its potential for cheap hydro-electric and geothermal power production. Geothermal energy is used for home heating and in diatomite production, and may be more fully exploited as a substitute for increasingly expensive imported oil. Only some 8 per cent of the potential hydro-electric resources is yet exploited. This cheap electricity is used by the aluminium plant owned by the Swiss Alusuisse group, where imported ore is processed, producing ingots and rolling slabs for export. Aluminium exports contributed 17 per cent of total visible export receipts in 1973. There are plans for a ferro-silicon plant to be built in 1976-77, and other foreign companies have shown an interest in establishing plants in Iceland for energy-intensive processes.

The expansion of the Icelandic economy since the war and a rapid rise in the standard of living have been accompanied by a rising rate of inflation. Between 1960 and 1969 inflation averaged nearly 13 per cent a year, then 16 per cent a year in 1970-72, and rose still further in 1973. The cost of living in Reykjavík doubled between 1968 and 1973. As most wages and salaries are tied to the cost of living index the government traditionally did little to combat inflation. Standards of living remained high, with regular wage increases, low interest rates and frequent devaluations.

The króna was devalued by 10.7 per cent in December 1972 and by 10 per cent in February 1973. An unexpected rise in fish product prices brought a boom to the industry. Fearing that sharp export profit increases could have an inflationary effect, the Government reversed its usual policy. To hold import costs down it revalued the krona by 6 per cent in April, raised interest rates and cut all prices and wage rises by 2 per cent. The Government decided to maintain a restrictive fiscal policy and to reduce public expenditure. A four-day general strike in February 1974 was ended when the Government conceded wage rises averaging some 18 per cent, a return to its previous inflationary policy. Worsening inflation and a growing trade deficit as import costs rose faster than export prices in 1974 led to two devaluations, by 5 and 17 per cent, a shortage of foreign exchange reserves, higher purchase taxes and a freeze on automatic wage increases.

The major importer from Iceland is the U.S.A., but the United Kingdom, Denmark, Norway, Sweden and the Federal Republic of Germany export more to Iceland (1973). Having joined EFTA in 1970, Iceland protected her interests after Denmark and the United Kingdom joined the EEC by negotiating advantageous trade concessions. The EEC postponed the introduction of tariff concessions on Icelandic fish products until the fisheries dispute between Iceland and EEC members had been settled.

Transport and Communications

There are no railways. Much of the interior is uninhabited and the main roads follow the coast line. Regular motor coach services link the main settlements. Heavy freight is carried by coastal shipping. The development plans provide for new roads and harbour installations. Air transport is particularly important to Iceland and is used, for example, to transport agricultural produce from remote districts. There are regular air services between Reykjavík and outlying townships.

Social Welfare

There is a comprehensive system of social security providing a wide range of insurance benefits including old-age pensions, family allowances, maternity grants, widows' pensions, etc. Contributions to the scheme are compulsory. Pension and health insurance now apply to the whole population. Accident insurance applies to all wage and salary earners and self-employed persons—unless they request exemption—and unemployment insurance to the unions of skilled and unskilled workers and seamen in all towns and villages of over 300 inhabitants, as well as to several unions in villages of less than 300 inhabitants.

Education"

Education is compulsory and free for all children between the ages of η and 15 years. There is one university and six colleges. In urban regions primary education is available in day schools. In the more remote country districts, where there is no state boarding-school, instruction is provided by the "Travelling Teacher" scheme, whereby the pupil receives education in his own home. Three to four years of ordinary secondary education are then available. A good certificate of education after three years at a middle or general secondary school entitles entry to a High School (Menutaskóli) or a teachers' training college. The matriculation examination at the end of four years at High School provides the qualification for University entrance.

Tourism

Iceland's main attraction for tourists lies in the ruggedness of the interior with its geysers and thermal springs. Mountaineering and pony trekking are increasingly popular as well as skiing and the study of bird life. The number of foreign visitors to Iceland increased by 50 per cent between 1968 and 1971 and has since grown at a steady rate. Tourism contributed 1,146 million kronur to Iceland's balance of payments in 1973, 3 per cent of the total visible and invisible exports.

Visitors from Denmark, Finland, Norway and Sweden do not require a passport to enter Iceland.

Visas are not required by nationals of the following countries: Australia, Austria, Barbados, Belgium, Brazil, Bulgaria, Canada, Chile, Cyprus, Denmark, Fiji, Finland, France, The Gambia, Federal Republic of Germany, Greece, Guyana, Ireland, Israel, Italy, Jamaica, Japan, Republic of Korea, Lesotho, Luxembourg, Malawi, Malaysia, Malta, Mauritius, Mexico, Monaco, Morocco, The Netherlands, New Zealand, Norway, Portugal, Romania, San Marino, Singapore, Spain, Swaziland, Sweden, Switzerland, Tanzania, Trinidad and Tobago, Tunisia, Turkey, the United Kingdom and Dependencies, U.S.A., Vatican City, Yugoslavia.

Sport

The national sport is wrestling; but football, athletics and winter sports are universally popular. All children must, by law, learn to swim.

Public Holidays

1975: May 1st (Labour Day), May 8th (Ascension Day), May 19th (Whit Monday), June 17th (National Day), August 1st (Bank Holiday), December 24th, 25th and 26th (Christmas), December 31st (New Year's Eve).

1976: January 1st (New Year's Day), April 15th, 16th, 17th, 19th (Easter), April 18th (1st day of Summer).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

100 aurar=1 Icelandic króna.

Exchange rates (December 1974):

£1 sterling=274.50 krónur;

U.S. \$1=117.90 krónur.

FINANCE

100 aurar=1 Icelandic króna.

Coins: 10 and 50 aurar; 1, 5, 10 and 50 krónur.

Notes: 25, 100, 500, 1,000 and 5,000 krónur.

Exchange rates (December 1974): £1 sterling=274.50 krónur; U.S. \$1=117.90 krónur. 1,000 krónur=£3.64=\$8.48.

Note: From August 1961 to November 1967 the exchange rate was U.S. \$i=43 krónur. Between November 1967 and November 1968 the rate was \$i=57 krónur. From November 1968 to December 1972 it was \$i=88 krónur. In terms of sterling, the exchange rate between November 1968 and August 1971 was \$i=211.20 krónur. Since June 1973 the króna has been allowed to "float", though the Icelandic authorities have sometimes intervened to adjust the market rate of exchange.

THE CONSTITUTION

(in operation from June 17th, 1944)

THE GOVERNMENT

The President is elected for four years by universal suffrage. All those qualified to vote who have reached the age of 35 are eligible for the Presidency.

The Legislative power is jointly vested in the Althing and the President. The Executive power is exercised by the President and other governmental authorities in accordance with the constitution and other laws of the land.

The President summons the Althing every year and determines when the session shall close. He may adjourn meetings of the Althing but not for more than two weeks nor more than once a year. He appoints the Ministers and presides over the State Council. He may be dismissed only if a resolution supported by three-quarters of the Althing is approved by a plebiscite.

The President may dissolve the Althing. Elections must be held within two months and the Althing must reassemble within eight months.

The Althing is composed of 60 members, 49 of whom are elected by 8 proportionately represented constituencies for a period of four years, while 11 supplementary seats are allotted to the parties for equalization, intended to achieve as near a really proportional representation with regard to the total of votes gained by each party as possible, without raising the total number of members above 60. Substitute members are elected at the same time and in the same manner as Althing members. The Althing is divided into two houses, the efri deild, or Upper House, and the nedri deild, or Lower House; but sometimes both Houses

work together as a United Althing. The Upper House consists of a third of the members whom the United Althing chooses from amongst the representatives, the remaining two-thirds forming the Lower House. Each House and the United Althing elects its own Speaker. The voting age, both for local administrative bodies and for the Althing, is twenty and all citizens domiciled in Iceland may vote, provided they are of unblemished character and financially responsible.

The budget must be introduced in the United Althing but other bills may be introduced into either House. They must, however, be given three readings in each house and be approved by a simple majority before they are submitted to the President. If he disapproves a bill it nevertheless becomes valid but must be submitted to a plebiscite. Ministers may speak in either House, but may vote only in that of which they are members. The Ministers are responsible to the Althing and may be impeached by that body, in which case they are tried by the Court of Impeach-

LOCAL GOVERNMENT

For purposes of Local Government the country is divided into Provinces, Districts and Municipalities. The 8 Urban Municipalities are governed by Town Councils, which possess considerable autonomy. The Districts also have Councils and are further grouped together to form the Provinces, over each of which a centrally appointed Chief Official presides. The franchise for municipal purposes is universal above 20 years, conducted on a basis of proportional representation.

THE GOVERNMENT

HEAD OF THE STATE

President: Dr. Kristján Eldjárn.

THE CABINET

(December 1974)

(A coalition of the Independence Party (IP) and the Progressive Party (PP), formed on August 28th, 1974.)

UNIVERSITY

Háskoli Íslands: Reykjavík; 297 teachers, 2,232 students.

IRELAND

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Ireland is an independent state comprising 26 of the 32 counties making up the island. The remaining six counties in the north come under the jurisdiction of the United Kingdom Government. Ireland lies in the Atlantic, about 50 miles west of Great Britain. The climate is mild and equable. Irish is the official first language, but English is universally spoken. Official documents are printed in English and Irish. Ninety-five per cent of the population are Roman Catholic and 5 per cent Protestant. The national flag (proportions 2 by 1) consists of three vertical bands of green, white and orange. The capital is Dublin.

Recent History

The Republic remained neutral during the Second World War and has since joined no military alliances. The country has contributed to international affairs in many ways and is an active member of the United Nations.

In the Presidential election of June 1966 Éamon de Valéra, President since 1959, was re-elected. John Lynch, leader of the Fianna Fáil Party, became Prime Minister in November 1966 and was re-elected to that office following the general election of June 1969. Although opposed to the British Army's presence in Northern Ireland, Mr. Lynch pledged his Government to finding a peaceful solution there. Strong measures were taken against the illegal Irish Republican Army, including the setting up of special courts, authorized by the Offences Against the State (Amendment) Act of December 1972.

Mr. Lynch dissolved the Dáil on February 5th, 1973, on the grounds that a strong Government was needed with a popular mandate to deal with problems concerning Northern Ireland. In the elections of February 28th a National Coalition of Fine Gael and the Labour Party gained an overall majority in the Dáil, and a new Government took office on March 14th with Liam Cosgrave (Fine Gael) as Prime Minister. In June 1973 Erskine Childers succeeded Éamon de Valéra as Head of State and, on the former's death in November 1974, Carroll O'Daly, by an all-party nomination, became President.

A tri-partite conference at Sunningdale, England, in December 1973 led to agreement between Ireland and Britain on the status of Northern Ireland's new powersharing Executive (see Northern Ireland in the United Kingdom chapter), and to proposals for a Council of Ireland to represent both the Republic and Ulster. However, since the breakdown in May 1974 of the Executive, the chances of such a Council's existence have greatly receded, and the Irish Government, in an attempt to find reconciliation with the North, has been moved to propose unprecedented constitutional changes which would involve the Republic's renunciation of territorial claims on Ulster. This is seen by the Opposition Fianna Fáil Party and other federalists as an exaggerated gesture of despair and as a further threat to the already precarious position of the Catholic minority in Northern Ireland.

After consultation with the United Kingdom on the question of security, the Cosgrave government proposed further legislation against terrorist activity, including the extension of the courts' power to deal with terrorist offences committed extra-territorially in Ulster and Great Britain and, in keeping with past government policy, the strengthening of measures against proscribed organizations.

Government

The President is elected by direct adult universal suffrage for a seven-year term. As Head of State he summons or dissolves Parliament which consists of the House of Representatives and the Senate. The House of Representatives is elected by universal adult suffrage for a five-year term on the basis of proportional representation. Of the 60 members of the Senate, 49 are elected and 11 nominated by the Prime Minister. Executive functions are exercised by the Government which is responsible to Parliament. The voting age was lowered to 18 following a referendum in December 1972.

Defence

The regular armed forces total 12,300, of which the army comprises 11,300, the navy 430 and the air force 570. There is a regular army reserve of 1,200 and a territorial army reserve of 17,400. The defence budget for the first nine months of 1974 was £27 million. Military service is voluntary.

Economic Affairs

The economy is largely based on agriculture, which accounts for about one-sixth of the national income and for nearly 45 per cent of total exports. Ireland's accession in January 1973 to the EEC came at a time of a world beef shortage but since then the market has slumped dramatically and, despite some benefit from the EEC's common agricultural policy, Ireland's beef industry is facing great difficulty in exporting to continental Europe.

Major industrial expansion has taken place since 1960, and is promoted by the Industrial Development Authority. The principal industrial groups are food and drink, metals and engineering, textiles and tobacco. The average annual increase in GNP was for several years, following the introduction of the first Programme for Industrial Expansion in 1958, about 4 per cent but, after growth of nearly 7 per cent in 1973, the economy, like those of other EEC countries, faced a slowdown, with GNP for 1974 unlikely to exceed 2 per cent. Soaring oil and falling beef prices contributed to the large balance of payments deficit for 1974 of some £300 million, but against this and a trade deficit of over £500 million may be set a fairly strong international reserve and borrowing position. Domestic pressures contributed more than imports to the late 1974 rate of inflation of some 18 per cent and, although a five-year plan begun in 1973 by the Industrial Development Authority should provide 55,000 new jobs, unemployment in 1974 was up by 17 per cent on 1973 and seemed likely to increase in 1975.

IRELAND Introductory Survey

The main exports are processed food, live animals and machinery. The United Kingdom is the principal foreign trade partner, taking about 50 per cent of exports and providing approximately one-third of imports. In recent years, however, Ireland has diversified its external trade, and since its accession to the EEC has forged stronger trade links with other European countries. It is currently investigating offshore oil and natural gas resources and through a state-owned company will exploit the reserves that foreign enterprises are already working on under licence from Ireland.

Transport and Communications

There are 1,928 miles of railways operated by the State-owned Irish Transport Company (CIE). In 1972 the extent of the roads system was 54,544 miles, 9,908 miles of which were main roads. Chief sea ports are Dublin and Dun Laoghaire, Cork, Waterford, Rosslare, Limerick, Foynes, Galway, New Ross, Drogheda, Dundalk, Fenit and Whiddy Island. There are international airports at Shannon, Dublin and Cork, of which Shannon is used for transatlantic flights. The national airline is Aer Lingus.

Social Welfare

Social Welfare benefits in Ireland fall into two general categories: (1) those received under compulsory insurance schemes by contributors and their dependants and (2) those received on a non-contributory basis by people of inadequate means. Children's allowances are also paid to all households for each child without regard to family means.

Social Welfare Insurance is now compulsory for both manual and non-manual workers. The social insurance scheme provides for widows', retirement and old age pensions, unemployment, disability and invalidity benefits and death grants. The cost is shared by the employer, the employee and the State. An occupational injuries benefit scheme is also in operation.

People of inadequate means who are not entitled to benefit under these contributory schemes may receive non-contributory pensions or other benefits from the State or other public funds. These benefits include widows' pensions, deserted wives' allowances, old age and blind pensions, home assistance and unemployment assistance.

The Health Service in Ireland operates according to income: all services are available free to lower income groups while middle income groups receive certain services free and upper income groups generally pay for their health services. Approximately 85 per cent of the population are included in the lower and middle income groups. Extension of the free Health Service to include all sections of the population is under consideration.

Education

Education in Ireland is compulsory from the age of 6 to 15. Most children attend a National School of their own religious denomination, although religious instruction is optional. The State entrusts the local management of primary schools as much as possible to the various religious denominations, but meets most of the cost, and maintains a large measure of control by prescribing the programme and subjecting the schools to regular inspection. Irish history, music and traditions are emphasized and the Irish

language used as far as possible. There are a few private primary schools in urban areas.

Post-primary education takes place in four sorts of school. Secondary Schools are private institutions run by boards of governors or religious communities. However, the Department of Education pays a grant in respect of each eligible pupil, and in effect all but a very small proportion of secondary schools offer free education. £400 of a teacher's salary is paid by his school authority and the balance by the Department. The programme is prescribed by the Department of Education and courses last five or six years starting at the age of 12. Pupils take the Intermediate Certificate at 15 or 16 after a balanced, general curriculum and then specialize in five recognized subjects in which they sit the Leaving Certificate at 17 or 18. Vocational Schools provide primary school leavers with a general and practical training for employment. as well as providing more specialized courses in technical training. In each county these schools come under the management of a Vocational Education Committee elected by the local authority. Two-thirds of the cost is borne by the Department of Education and the balance by the local authority. In order to provide a curriculum that includes both academic and technical subjects, Comprehensive Schools, of which there are now 14, have been established in recent years. They are financed by the State and are run by a Board of Management, one member of which is nominated by the Minister of Education. The three-year curriculum includes a variety of compulsory and optional subjects, and may lead to the Intermediate Certificate. After this some pupils continue at a technical school, which may be part of the same school or a separate college. Community Schools which have been set up in 12 areas, provide the facilities available in comprehensive schools and also provide adult education. Their educational policy and financial arrangements are the same as those of the Comprehensive Schools. Their Boards of Management include members of the community they serve but no member nominated by the Minister. In general, the Community Schools have sought to replace existing vocational and secondary schools, but further ones are to be established in new city areas.

Regional technical colleges have been established in eight provincial centres: Athlone, Carlow, Cork, Dundalk, Galway, Leterkenny, Sligo and Waterford. The colleges provide senior, post-primary apprenticeship, technical, professional and other courses.

The gaining of certain prescribed successes in the Leaving Certificate examination qualifies for entrance to the two universities, which are both self-governing, though they receive annual state grants. The National University of Ireland is made up of University College Dublin, University College Cork and University College Galway. St. Patrick's, Maynooth, is also a recognized College of the University. The University of Dublin consists of Trinity College Dublin. The National Institute for Higher Education, at Limerick, was opened in September 1972 and runs degree courses of a largely technological nature, although the humanities are represented. The Department of Education provides university and other higher education grants to students.

The total education budget for 1973/74 was over £110 million.

Tourism

Tourism continues to be Ireland's second industry and in 1973 there were approximately 8.8 million visitors whose expenditure amounted to over £83 million—a substantial increase over 1972. The country has numerous beauty spots, notably the Killarney Lakes and the West Coast.

Nationals of the following countries do not require a visa: Antigua, Argentina, Australia and its dependencies. Austria, Bahamas, Bangladesh, Barbados, Belgium, Bermuda, Bolivia, Botswana, Brazil, Brunei, Canada, Chile, Colombia, Cook Islands, Costa Rica, Denmark, Dominica, Ecuador, El Salvador, Fiji, Finland, France, The Gambia, Federal Germany, Ghana, Gibraltar, Greece, Grenada, Guatemala, Guyana, Honduras, Hong Kong, Iceland, India, Italy, Jamaica, Japan, Kenya, Liechtenstein, Luxembourg, Malawi, Malaysia, Malta, Mauritius, Mexico, Monaco, Morocco, Nauru, Netherlands, New Zealand and its dependencies, Nicaragua, Norway, Pakistan, Panama, Peru, Portugal, St. Christopher-Nevis-Anguilla, St. Lucia, St. Vincent, Sierra Leone, Singapore, South Africa, Spain, Sri Lanka, Swaziland, Sweden, Switzerland, Tanzania, Tonga, Trinidad and Tobago, Tunisia, Turkey, United Kingdom and colonies, U.S.A., Uruguay, Venezuela, Western Samoa, Zambia.

Sport

Gaelic football and hurling (a form of hockey) are the most popular sports. Horse-racing is also very popular.

Public Holidays

1975: June 2nd (June Bank Holiday), August 14th (August Bank Holiday), December 25th (Christmas Day), December 26th (St. Stephen's Day).

1976: January 1st (New Year's Day), March 17th (St. Patrick's Day), April 16th (Good Friday), April 19th (Easter Monday).

Weights and Measures

The imperial system of weights and measures is in force, but metrication is planned for the near future.

Currency and Exchange Rates

roo pence=1 Irish pound.
Exchange rates (December 1974):

THE CONSTITUTION

The original Constitution of the Irish Free State came into operation on December 6th, 1922. Certain provisions which were regarded as contrary to national sentiments were gradually removed by successive amendments, with the result that by 1937 the text differed considerably from that of the original document. It was superseded by an entirely new Constitution, which was approved by Parliament on June 14th, 1937, and enacted by the people by means of a plebiscite on July 1st. This new Constitution came into operation on December 29th, 1937.

TITLE OF THE STATE

The title of the State is *Eire* or, in the English language, Ireland.

NATIONAL STATUS

The Constitution declares that Ireland is a sovereign, independent, democratic State. It affirms the inalienable, indefeasible and sovereign right of the Irish nation to choose its own form of government, to determine its relations with other nations, and to develop its life, political, economic and cultural, in accordance with its own genius and traditions.

The Constitution applies to the whole of Ireland, but, pending the re-integration of the national territory, the laws enacted by the Parliament established by the Constitution have the same area and extent of application as those of the Irish Free State.

THE PRESIDENT

At the head of the State is the President, elected by direct suffrage, who holds office for a period of seven years. He, on the advice of the Government or its head, summons and dissolves Parliament, signs and promulgates laws and appoints judges; on the nomination of the Dail he appoints the Prime Minister and, on the nomination of the Prime Minister with the previous approval of the Ddil, he appoints the other members of the Government. The supreme command of the Defence Forces is vested in him, its exercise being regulated by law.

In addition, the President has power to refer certain Bills to the Supreme Court for decision on the question of their constitutionality; and also, at the instance of a prescribed proportion of the members of both Houses of Parliament to refer certain Bills to the people for decision at a Referendum.

The President, in the exercise and performance of certain of his Constitutional powers and functions, has the aid and advice of a Council of State.

PARLIAMENT

The Oireachtas or National Parliament consists of the President and two Houses, viz. a House of Representatives, called Dail Eireann, and a Senate, called Seanad Eireann. The Dail consists of 144 members, who are elected for a five-year term by adult suffrage on the system of proportional representation by means of the single, transferable vote. Of the sixty members of the Senate, eleven are nominated by the Prime Minister, six are elected by the universities, and forty-three are elected from five panels of candidates established on a vocational basis, repre-

senting: (1) National Language and Culture, Literature, Art, Education, and such professional interests as may be defined by law for the purpose of this panel; (2) Agriculture and allied interests, and Fisheries; (3) Labour, whether organized or unorganized; (4) Industry and Commerce, including banking, finance, accountancy, engineering and architecture; (5) Public Administration and social services, including voluntary social activities.

A maximum period of ninety days is afforded to the Senate for the consideration or amendment of Bills sent to that House by the Dáil, but the Senate has no power to veto legislation.

EXECUTIVE

The Executive Power of the State is exercised by the Government, which is responsible to the *Dáil* and consists of not less than seven and not more than fifteen members. The head of the Government is the Prime Minister.

FUNDAMENTAL RIGHTS

The State recognizes the family as the natural, primary and fundamental unit group of Society, possessing inalienable and imprescriptible rights antecedent and superior to all positive law. It acknowledges the right and duty of parents to provide for the education of their children, and, with due regard to that right, undertakes to provide free education. It pledges itself also to guard with special care the institution of marriage.

The Constitution contains special provision for the recognition and protection of the fundamental rights of citizens, such as personal liberty, free expression of opinion, peaceable assembly, and the formation of associations and unions.

Freedom of conscience and the free practice and profession of religion are, subject to public order and morality, guaranteed to every citizen. No religion may be endowed or subjected to discriminatory disability. Since December, 1972, when a Referendum was taken on the issue, the Catholic Church is no longer granted a special, privileged position.

SOCIAL POLICY

Certain principles of social policy intended for the general guidance of Parliament, but not cognisable by the courts, are set forth in the Constitution. Among their objects are the direction of the policy of the State towards securing the distribution of property so as to subserve the common good, the regulation of credit so as to serve the welfare of the people as a whole, the establishment of families in economic security on the land, and the right to an adequate means of livelihood for all citizens.

The State pledges itself to safeguard the interests, and to contribute where necessary to the support, of the infirm, the widow, the orphan and the aged, and shall endeavour to ensure that citizens shall not be forced by economic necessity to enter occupations unsuited to their sex, age or strength.

AMENDMENT OF THE CONSTITUTION

No amendment to the Constitution can be effected except by the decision of the people given at a Referendum.

THE GOVERNMENT

HEAD OF THE STATE

President: CARROLL O'DALY.

THE CABINET

(A coalition of Fine Gael (F.G.) and the Labour Party (Lab.), formed March 1973.)

PARLIAMENT

(OIREACHTAS)

Two Houses—Dáil Éireann (House of Representatives), with 144 members, and Seanad Éireann (The Senate), with 60 members, of whom 11 are nominated by the Taoiseach and 49 elected (6 by the Universities and 43 from specially constituted panels).

Speaker of Dáil Éireann: SEAN TREACY, T.D. (Labour).

GENERAL ELECTION (March 1973)

PARTY	Seats in the Dail	No of Votes
Fianna Fáil Fine Gael	69 54	624,530 473,779
Labour Independents Sinn Fein	19 ,	185,117 n.a.
Aontacht Éireann	= .	15,366

POLITICAL PARTIES

Fianna Fáil (The Republican Party): was formed in 1926 and provided the Government of Ireland from 1932 to 1948, from 1951 to 1954, and 1957 to 1973. It has 2,500 branches and 68 members in the Dáil. Pres. JOHN LYNCH, T.D.; Gen. Sec. SEAMUS BRENNAN. Offices: 13 Upper Mount St., Dublin.

Fine Gasi (United Ireland Party): Formed in September 1933 by the amalgamation of Cumann na nGaedheal (the Cosgrave Party), the Centre Party (formerly the Farmers' Party), and the National Guard (formerly the Army Comrades Association). It has 55 members in the Dáil and since March 1973 governs in coalition with the Labour Party. Leader Liam Cosgrave, T.D.; Gen. Sec. Senator J. W. Sanfey; Hon. Secs. Gerry L'Estrange, T.D., Patrick J. Lindsay, s.c. Offices: 16 Hume St., Dublin 2.

The Labour Party: 16 Gardiner Place, Dublin 1. Originated with the addition of political functions to the Trade Union Congress in 1912. At the end of 1930 it was decided to separate the political and industrial func-

tions of the Party, and the Trade Union Congress and the Labour Party became separate bodies. It has 19 members in the Dáil and since March 1973 governs in coalition with Fine Gael. Chair. of the Party R. J. CONNOLLY; Vice-Chair. NIAL GREENE; Leader of Parliamentary Labour Party Brendan Corish, T.D.; Gen. Sec. Senator Brendan Halligan. Offices: 20 Earlsfort Terrace, Dublin.

Sinn Fein (Ourselves Alone): 30 Gardiner Place, Dublin; f. 1905; aims: to end British occupation of Irish Territory, to end partition rule in Ireland and to establish a Democratic Socialist Republic of all Ireland. Since January 1970 split from the Provisional Alliance (in Northern Ireland), on adopting a Marxist programme. Pres. Tomas Mac Giolla. Publ. United Irishman, circ. 70,000.

Aontacht Éireann (Republican Unity Party): 53 Adelaide Rd., Dublin 2; f. 1971; aims at reunification of Ireland; has no members in the Dáil; Leader Kevin Boland.

Spain: Ailesbury House, Ailesbury Rd., 4; Ambassador: Joaquín Juste Cestino.

Sweden: 31 Merrion Rd., Ballsbridge, 4: Ambassador: Bo Gunner Jarnstedt.

Switzerland: 6 Allesbury Rd., 4; Ambassador: Dr. Richard Aman.

Turkey: 5 Clyde Rd., Ballsbridge, 4; Ambassador: Celal Akbay.

United Kingdom: 30 Merrion Square, 2; Ambassador: Sir Arthur Galsworthy.

U.S.A.: 42 Elgin Rd., Ballsbridge, 4; Ambassador: John D. J. Moore.

U.S.S.R.: St. Bridget's, Sunbury Court, Dartry Rd., 6; Ambassador: Anatoly Kaplin.

Vatican: Apostolic Nunciature, Phoenix Park, 8; Papal Nuncio: Most Rev. Gaetano Alibrandi.

Diplomatic relations at ambassadorial level have also been established with Egypt, Israel and Singapore.

JUDICIAL SYSTEM

Justice is administered in public by Judges appointed by the President on the advice of the Government. The Judges of all Courts are completely independent in the exercise of their functions. The jurisdiction and organization of the Courts are dealt with in the Courts (Establishment and Constitution) Act, 1961, and the Courts (Supplemental Provisions) Acts, 1961 to 1973.

THE SUPREME COURT

The Supreme Court, consisting of the Chief Justice and four other Judges, has appellate jurisdiction from all decisions of the High Court. The President of Ireland may, before signing any. Bill, refer it to the Supreme Court to decide whether it is constitutional.

THE COURT OF CRIMINAL APPEAL

The Court of Criminal Appeal, consisting of the Chief Justice or an ordinary Judge of the Supreme Court and two Judges of the High Court, deals with appeals by persons convicted on indictment, where leave to appeal has been granted. The decision of this Court is final unless the Court or the Attorney-General certifies that a point of law involved should, in the public interest, be taken to the Supreme Court.

THE HIGH COURT

The High Court, consisting of the President of the High Court and seven other Judges, has full original jurisdiction in, and power to determine, all matters and questions whether of law or fact, civil or criminal. The High Court on circuit acts as an appeal court from the Circuit Court. The Central Criminal Court sits as directed by the President of the High Court to try criminal cases outside the jurisdiction of the Circuit Court. The duty of acting as the Central Criminal Court is assigned, for the time being, to a Judge of the High Court.

CIRCUIT AND DISTRICT COURTS

The civil jurisdiction of the Circuit Court is limited to £2,000 in contract and tort and in actions founded on hire-purchase and credit-sale agreements and to £5,000 in equity, and in probate and administration, but where the parties consent the jurisdiction is unlimited. In criminal matters the Court has jurisdiction in all cases except murder, treason, piracy and allied offences. One Circuit Judge is permanently assigned to each circuit outside Dublin and two to the Dublin circuit. The Circuit Court acts as an appeal court from the District Court, which has

a summary jurisdiction in a large number of criminal cases where the offence is not of a serious nature. In civil matters the District Court has jurisdiction in contract and tort (except slander, libel, criminal conversation, seduction, slander of title, malicious prosecution and false imprisonment) where the claim does not exceed \$250\$ and in actions founded on hire-purchase and credit-sale agreements.

All criminal cases except those dealt with summarily by a Justice in the District Court are tried by a Judge and a Jury of twelve. Juries are also used in very many civil cases in the High Court. In a criminal case the jury must be unanimous in reaching a verdict but in a civil case the

agreement of nine members is sufficient.

JUDGES OF THE SUPREME COURT Hon. WILLIAM O'B. FITZGERALD, Chief Justice.

Hon. Brian Walsh.

Hon. F. GARDNER BUDD.

Hon. SEAMUS HENCHY.

Hon. Francis Griffin.

JUDGES OF THE HIGH COURT

An tOnórach Aindrias Ó Caoimh, President.

Hon. JOHN KENNY.

Hon. George D. Murnaghan.

An tOnórach Seán de Buitléir.

Hon. THOMAS FINLAY.

Hon. SEAN GANNON.

Hon. Thomas F. O'Higgins. ..

Hon. KENNETH DEALE.

RELIGION

The organization of the churches takes no account of the partition of Ireland into two separate political entities. Thus the Catholic Primate of All-Ireland and the Protestant Episcopalian Primate of All-Ireland now have their seat in Northern Ireland at Armagh, and the headquarters of the Presbyterian Church in Ireland is at Belfast.

People professing religious beliefs in the Republic were divided as follows, according to the 1961 census:

 Catholic

ROMAN CATHOLIC CHURCH ARCHBISHOPS

Archbishop of Armagh and Primate of All Ireland: His Eminence Cardinal WILLIAM CONWAY, D.D., D.C.L., Archbishop's House, Ara Coeli, Co. Armagh, Northern Ireland.

Archbishop of Dublin and Primate of Ireland: His Grace Most Rev. Dermot Ryan, M.A., S.T.L., L.S.S., Archbishop's House, Dublin 9.

Archbishop of Cashel and Emly: His Grace Most Rev. Thomas Morris, D.D., Archbishop's House, Thurles, Co. Tipperary.

Archbishop of Tuam: His Grace Most Rev. Joseph Cunnane, St. Jarlath's, Tuam, Co. Galway.

Besides the Hierarchy, the Roman Catholic Church has numerous religious orders strongly established in the country. These play an important part, particularly in the sphere of secondary education.

CHURCH OF IRELAND (ANGLICAN)

Archbishop of Armagh and Primate of All Ireland: Most Rev. George Otto Simms, The Palace, Armagh, Northern Ireland.

Archbishop of Dublin: Most Rev. Alan Alexander Buchanan.

For Bishops see chapter on Northern Ireland.

Chief Officer and Secretary to the Representative Church Body: J. G. Briggs, Church of Ireland House, Church Ave., Rathmines, Dublin 6.

PRESBYTERIAN CHURCH IN IRELAND

Moderator: Rt. Rev. Dr. J. W. ORR.

Clerk of Assembly and General Secretary: Rev. Dr. A. J. Weir, Church House, Belfast, BT1 6DW.

METHODIST CHURCH IN IRELAND

President: Rev. R. Desmond Morris (until June 1975).
Secretary: Rev. H. Sloan, 3 Upper Malone Rd., Belfast 9.

THE PRESS

The Constitution of Ireland provides for the recognition and protection of the fundamental rights of the citizen, including free expression of opinion. Despite the powerful position of the Roman Catholic Church in Ireland there is open discussion on controversial issues. The right of a journalist's professional secrecy is not recognized by the Irish Courts.

Ireland has seven daily newspapers, five in Dublin and two in Cork, including four morning papers which are distributed nationally.

RADIO AND TELEVISION

Radio Telefis Eireann: Autonomous statutory corporation, f. under the Broadcasting Authority Act, 1960, controls and operates radio and television in the Republic. The capital is financed by repayable State loans to a permitted limit of £4m. and surpluses earned on the operating account, and the current expenditure by net licence revenue and sale of advertising time. Governed by Authority of seven, appointed by Govt.; Chair. of Authority D. O. Morain; Dir.-Gen. T. P. Hardiman.

RADIO

Radio Telefis Éireann: Donnybrook, Dublin 4; Controller of Programmes: S. MAC RÉAMOINN; Head of News W. Boyd; Head of Current Affairs D. Fisher.

Radio service began January 1, 1926: Now broadcasts on three medium frequency transmitters (Athlone, 530m., Dublin and Cork, 240m.) and 5 VHF-FM transmitters. Hours of broadcasting, approx. 114 hours weekly. Advertising limited to 10 per cent of transmission time.

Radio na Gaeltachta: Casla, Connemara, Co. Galway; Controller A. O Gallchoir.

Service for Irish-speaking communities began April 2nd, 1972. Broadcasts on three MF transmitters (Béal an Daingean 556m., Na Doirí Beaga 240m. and Baile na nGall 312m.) and nationwide on five VHF-FM transmitters. Approx. 16 hours of broadcasting weekly.

TELEVISION ...

Radio Telefis Éireann: Donnybrook, Dublin 4; Controller of Programmes M. Garvey; Head of News W. Boyd; Head of Current Affairs D. Fisher.

Transmission commenced with one 405 line transmitter at Kippure, December 31, 1961. Reception now available to 98 per cent of population from 5 main transmitter (Kippure, Co. Dublin, 405/625; Truskmore, Co. Sligo, 405/625; Mount Leinster, Co. Carlow; Mullaghanish, Co. Cork and Maghera, Co. Clare—all 625) and 16 low-power transposers. Advertising limited to 10 per cent of transmission time. Regular transmissions: approx. 46 hrs. weekly. Additionally, educational programmes for schools, amounting to 5-6 hours a week, are broadcast for about 25 weeks in the year.

Number of television sets (1973) 496,364.

UNIVERSITIES

University of Dublin, Trinity College: Dublin 2; 476 teachers (including part-time), 4,554 students.

National University of Ireland: 49 Merrion Square, Dublin. Three constituent colleges—University College, Dublin, e. 500 teachers, 9.653 students; University College, Cork, 469 teachers, 4,083 students; University College, Galway, 250 teachers, 3,409 students.

ITALY

INTRODUCTORY SURVEY

Location, Glimate, Language, Religion, Flag, Capital

The Italian Republic is a peninsula extending from southern Europe into the Mediterranean Sea. The peninsula is about 730 miles long and 150 miles at its widest point. The two principal islands are Sicily to the south-west and Sardinia to the west. The Alps form a natural boundary to the north where the bordering countries are France to the north-west, Switzerland and Austria to the north and Yugoslavia to the north-east. The climate is Mediterranean. The language is Italian. German is spoken in the Alto Adige region on the Austrian border, and in the Basilicata region of eastern Italy there is an Albanian-speaking minority. Roman Catholicism is the state religion. The national flag (proportions 3 by 2) has three vertical bands of green, white and red. The capital is Rome.

Recent History

In June 1946, as the result of a plebiscite, the monarchy was abolished and Italy became a republic. There have been 37 governments since 1946, all dominated by the Christian Democrats. The major opposition group, the Communist Party, has been excluded from participation in government since 1947. Until 1963 the Christian Democrats' hold on power was firm. Industry expanded rapidly in a liberal economic system supported by United States capital. Low wage-rates and lack of social reforms, however, created discontent and in 1963 the Right and Left made electoral gains at the expense of the Christian Democrats. Since then there has been a rapid succession of mainly coalition governments. Until 1970 no significant reforms were achieved, while strikes and labour unrest grew, supported by student agitation. In July 1970 Emilio Colombo revived a Centre-Left coalition which passed two controversial measures, the Divorce Bill and the Finance Bill. However, it could not halt the deterioration of the economy and resigned in January 1972.

Elections in May failed to resolve the political deadlock. A Centre-Right government under Giulio Andreotti was succeeded in July 1973 by a Centre-Left coalition of Christian Democrats, Republicans, Socialists and Social Democrats, headed by Mariano Rumor. The Communists and the trade unions adopted a tolerant attitude to the new government in its strenuous efforts to cope with the economic crisis. In February 1974, the Republicans withdrew from the government over economic policy. They favoured the deflationary strategy proposed by Italy's creditors, whereas the Socialist parties in the coalition demanded continued growth to avoid unemployment. A new Rumor administration was formed in March, excluding the Republicans but dependent upon their parliamentary support. As a political manoeuvre, the right wing of the Christian Democrats forced the Government to hold a referendum on the Divorce Law in May 1974. There was a large majority in favour of the law, a severe set-back for the Christian Democrats. A cabinet crisis developed in June since no economic policy could be found to unite the coalition parties. In October all efforts to maintain the coalition failed, and Italy was without a government. The Christian Democrats rejected the notion of Communist participation in government and all parties were agreed that elections would solve nothing. Finally, at the end of November, Aldo Moro formed a coalition government of Christian Democrats and Republicans enjoying the parliamentary support of other moderate parties.

The unresolved governmental and economic crises contributed to the precarious state of Italian society. In 1974 there were revelations of corruption in high office and scandals involving the magistrature and the secret police. The public services appeared to be on the point of collapse, while civil disobedience on a large scale resisted the government's efforts to enforce unpopular policies. The uncovering of right-wing plots against the government combined with acts of fascist terrorism to generate an atmosphere of insecurity in which the survival of the present political system was seriously questioned.

Government

Parliament consists of the Chamber of Deputies and the Senate. Both jointly exercise legislative functions. Deputies serve a five-year term and are elected by direct adult suffrage. Senators are elected for a six-year term on a regional basis. The President of the Republic, who is the Head of the State, is elected jointly by the Chamber of Deputies and the Senate for a period of seven years. The President nominates the Council of Ministers which forms the executive.

In five regions of Italy (Sicily, Sardinia, Trentin-Alto-Adige, Friuli-Venezia Giulia and Val d'Aosta) there is a large degree of regional autonomy. Each region has a Regional council and a *Giunta regionale* which holds executive power. The fifteen remaining regions have Regional Councils.

Defence

Italy, a NATO member, maintains an army of 306,500, a navy of 44,500 and an air force of 70,000. Military service lasts 15 months in the army and air force and two years in the navy. The 1974 defence budget totalled 2,373,000 million lire.

Economic Affairs

Although agriculture continues to represent an important part of the Italian economy, a substantial advance has taken place since the end of the war in the proportion of the gross national product contributed by the industrial sector, particularly engineering and other manufacturing industries. By 1972 less than 10 per cent of the G.N.P. was provided by agriculture, as against 40 per cent from industry. State-owned industries account for approximately half the total national industrial investment. Successive plans have been enacted in recent years to modernize the agricultural sector. The chief crops are rice, wheat, maize, grapes and olives. Tourism is also an important source of income; over 35 million tourists visited Italy in 1973.

ITALY Introductory Survey

Italy's long-term economic problem remains that of the integration of Southern Italy with the more industrially-developed North. The income per capita of the Southern population is just over half that of the country as a whole, while employment and production lag far behind. The Cassa per il Mezzogiorno was set up in 1950 to increase investment in the south.

Over five million Italians work abroad and their remittances form a valuable source of income; in 1971 they totalled over 550,000 million lire.

In 1969 and 1970 Italy was faced with severe inflation and stagnation. Successful measures were taken to stimulate growth, but inflation accelerated. By 1973 a large budgetary deficit and a worsening balance of payments problem had created a critical situation. In February 1973, the lira had to be floated and in July the government took steps to limit public spending and halt inflation. These measures were a partial success, but the trade deficit for the year was 1,603,000 million lire, the budgetary deficit estimated at almost 9,000,000 million lire and the inflation rate over 12 per cent. The massive oil price rises in late 1973 and early 1974 had a disastrous effect, despite swift government action to limit energy consumption. The trade deficit for the first half of 1974 was estimated at 3,940,000 million lire, almost treble the figure for the same period in 1973. Retail prices rose by 20 per cent between August 1973 and August 1974. In May 1974 the Government introduced a temporary import levy on a wide range of products and in August heavy tax increases and credit restrictions were imposed. Armed with these measures, the Italian Government was able to negotiate a \$2,000 million loan from the West German government in September. A loan is being sought from the International Monetary Fund to help cover the massive deficits for 1974. The policies designed to attract loans are certain to increase unemployment, however, and arouse opposition from the trade unions.

Transport and Communications

There are 16,218 km. of railways, nearly half of them electrified. In 1973 there were 288,400 km. of road in Italy, including 43,895 km. of major roads and 96,197 km. of secondary roads. There were 5,090 km. of motorway in 1973. When completed the network of motorways will total 6,146 km. Alitalia, the Italian airline, operates internally and throughout the world and there are four other airlines with scheduled services. In 1973 the merchant fleet had a displacement of over 9 million gross tons and was the world's ninth largest.

Social Welfare

The Istituto Nazionale della Previdenza Sociale (INPS) administers old-age pensions and unemployment benefits to employees in the private sector and to farmers and craftsmen. More than 3 million people draw old-age pensions, which are paid to employees who have been insured for at least 15 years. Unemployment benefits are paid for a maximum period of six months to workers who are unemployed because of slack periods and who have paid compulsory contributions for at least one year. The INPS also administers disability benefits and an insurance scheme against tuberculosis for workers and families. These benefits are financed by contributions from workers and employers, who pay half each, and by a state subsidy.

INPS administers family allowances which are paid to all employed persons for wife, children and any other dependants. These allowances, which are paid to about 7 million workers and vary in amount according to type of employment, are paid by the employer, who then recuperates the amount on the contributions which he pays to the INPS.

Medical insurance for most employed persons in the private sector and for certain self-employed persons is administered by the Istituto Nazionale per l'Assicurazione contro le Malattie (INAM). Payment for medical treatment and prescriptions is normally made directly by the patient who then obtains total or partial reimbursement. Industrial injuries benefits are paid by the Istituto Nazionale per l'Assicurazione contro gli Infortuni sul Lavoro (INAIL). The Opera Nazionale per la Protezione della Maternità e dell'Infanzia (ONMI) provides every child from birth to 6 years with free welfare and medical care at special clinics.

State employees and their families contribute to a compulsory insurance scheme covering medical treatment, prescriptions and maternity benefits as well as loans and scholarships, administered by the Ents Nazionale di Previdenza ed Assistenza per i Dipendenti dello Stato (ENPAS). About 2 million employees are insured under the scheme. The Ente Nazionale di Previdenza per i Dipendenti da Enti di Diritto Pubblico (ENPDEP) administers a similar scheme for employees of public bodies, such as the Institute for Industrial Reconstruction.

The foundations of a national health service were laid in a Finance Bill in December 1970, covering the next five years.

Education

Education is compulsory and free between the ages of 6 and 14. Books, equipment and meals are provided for a large number of needy pupils. There is a shortage of classrooms and many schools operate on double shifts. The curricula of all Italian schools are standardized by the Ministry of Education. There are 25,870 private and state nursery schools (scuole materne) with places for over 1,500,000 children. After primary school, which is from 6 to 11 years, the pupil enters the lower secondary school (scuola media unificata). An examination at the end of three years leads to a lower secondary school certificate, which gives access to all higher secondary schools. Pupils wishing to enter a classical lycée (liceo classico) must also pass in Latin.

Higher secondary education is provided by Classical, Artistic and Scientific Lycées, Training Schools for Elementary Teachers and Technical and Vocational Institutes (industrial, commercial, nautical, etc.). After five years at a lycée the student sits an examination for the higher secondary school certificate (maturità) which qualifies him for automatic entry into any university faculty, except the Faculty of Humanities, which requires the maturità classica from the Classical Lycée. Special four-year courses are provided at the Teachers' Training Schools and the diploma obtained permits entry to a special university faculty of education, the magistero, and a few other faculties. The istituti tecnici provide practical courses which prepare students for a specialized university faculty.

University courses last for a minimum of four years.

Examinations, which are mainly oral, are held three times a year. There are 282 establishments of higher education. In 1972-73 there were 802,603 students enrolled in higher education in Italy. Study allowances of up to 500,000 lire are awarded to students according to their means and merit.

Tourism

With Alpine and Mediterranean scenery, a sunny climate, Roman buildings, Renaissance towns and palaces, paintings and sculpture and famous opera houses, Italy attracts great numbers of tourists. During 1973 over 35 million foreign visitors went to Italy. There are about 1,400,000 hotel beds.

Visas are not required for nationals of the following countries: Algeria, Argentina, Australia, Austria, Barbados, Belgium, Bolivia, Botswana, Brazil, Canada, Chile, Colombia, Cyprus, Dahomey, Denmark, Dominican Republic, Ecuador, Finland, France, The Gambia, Federal Republic of Germany, Greece, Guyana, Iceland, Iran, Ireland, Jamaica, Japan, Kenya, Kuwait, Lesotho, Luxembourg, Malaysia, Malta, Mexico, Monaco, Morocco, The Netherlands, New Zealand, Norway, Peru, Portugal, Singapore, Spain, Sri Lanka, Sweden, Switzerland, Tanzania, Tunisia, Turkey, Uganda, United Kingdom, U.S.A., Uruguay, Yugoslavia.

Sport

Football is the most popular sport. Volleyball, handball, cycling and motor racing are also important.

Public Holidays

1975: May 1st (Labour Day), May 8th (Ascension Day), May 29th (Corpus Christi), June 2nd (National Day), June 29th (St. Peter and St. Paul), August 15th (The Assumption), November 1st (All Saints' Day), November 4th (National Unity Day), December 8th (The Immaculate Conception), December 25th (Christmas Day), December 26th (St. Stephen).

1976: January 1st (New Year's Day), January 6th (Epiphany), March 19th (St. Joseph), April 19th (Easter Monday), April 25th (Liberation Day).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

The Italian lira (nominally of 100 centesimi). Exchange rates (December 1974):

£1 sterling=1,543.5 lire.

U.S. \$1=661.1 lire.

THE CONSTITUTION

The Constitution of the Italian Republic was approved by the Constituent Assembly on December 22nd, 1947, and came into force on January 1st, 1948. The fundamental principles are set out in Articles 1-12 as follows:

Italy is a democratic republic based on the labour of the people.

The Republic recognises and guarantees as inviolable the rights of man, either as an individual or in a community, and it expects in return devotion to duty and the fulfilment of political, economic and social obligations.

All citizens shall enjoy equal status and shall be regarded as equal before the law, without distinction of sex, race, language or religion, and without regard to the political opinions which they may hold or their personal or social standing.

It shall be the function of the Republic to remove the economic and social inequalities which, by restricting the liberty of the individual, impede the full development of the human personality, thereby reducing the effective participation of the citizen in the political, economic and social life of the country.

The Republic recognises the right of all citizens to work, and shall do all in its power to give effect to this right.

The Republic, while remaining one and indivisible, shall recognise and promote local autonomy, fostering the greatest possible decentralisation in those services which are administered by the State, and subordinating legislative methods and principles to the exigencies of decentralised and autonomous areas.

The State and the Catholic Church shall be sovereign and independent, each in its own sphere. Their relations shall be governed by the Lateran Pact ("Patti Lateranensi"), and any modification in the pact agreed upon by both parties shall not necessitate any revision of the Constitution.

All religious denominations shall have equal liberty before the law, denominations other than the Catholic having the right to worship according to their beliefs, in so far as they do not conflict with the common law of the country.

The Republic shall do all in its power to promote the development of culture and scientific and technical research. It shall also protect and preserve the countryside and the historical and artistic monuments which are the inheritance of the nation.

The juridical system of the Italian Republic shall be in conformity with the generally recognised practice of international law. The legal rights of foreigners in the country shall be regulated by law in accordance with international practice.

Any citizen of a foreign country who is deprived of democratic liberty such as is guaranteed under the Italian Constitution, has the right of asylum within the territory of the Republic in accordance with the terms of the law, and his extradition for political offences will not be granted.

Italy repudiates war as an instrument of offence against the liberty of other nations and as a means of resolving international disputes. Italy accepts, under parity with other nations, the limitations of sovereignty necessary for the preservation of peace and justice between nations. To that end she will support and promote international organisations.

The Constitution is further divided into Parts I and II, in which are set forth respectively the rights and responsi-

bilities of the citizen and the administration of the Republic.

PART I

Section I-Civic Clauses (Articles 13-28)

The liberty of the individual is inviolable and no form of detention, restriction or inspection is permitted unless it be for juridical purposes and in accordance with the provisions of the law. The domicile of a person is likewise inviolable and shall be immune from forced inspection or sequestration, except according to the provisions of the law. Furthermore, all citizens shall be free to move wheresoever they will throughout the country, and may leave it and return to it without let or hindrance. Right of public meeting, if peaceful and without arms, is guaranteed. Secret organizations of a directly or indirectly political or military nature are, however, prohibited.

Freedom in the practice of religious faith is guaranteed. The Constitution further guarantees complete freedom of thought, speech and writing, and lays down that the Press shall be entirely free from all control or censorship. No person may be deprived of civic or legal rights on political grounds.

The death penalty is not allowed under the Constitution except in case of martial law. The accused shall be considered "not guilty" until he is otherwise proven. All punishment shall be consistent with humanitarian practice and shall be directed towards the re-education of the criminal.

SECTION II-Ethical and Social Clauses (Articles 29-34)

The Republic regards the family as the fundamental basis of society and considers the parents to be responsible for the maintenance, instruction and education of the children. The Republic shall provide economic assistance for the family, with special regard to large families, and shall make provision for maternity, infancy and youth, subject always to the liberty and freedom of choice of the individual as envisaged under the law.

Education, the arts and science shall be fruz, the function of the State being merely to indicate the general lines of instruction. Private entities and individuals shall have the right to conduct educational institutions without assistance from the State, but such non-State institutions must ensure to their pupils liberty and instruction equal to that in the State schools. Institutions of higher culture, universities and academies shall be autonomous within the limitations prescribed by the law.

Education is available to all and is free and obligatory for at least eight years. Higher education for students of proven merit shall be aided by scholarships and other allowances made by the Republic.

SECTION III-Economic Clauses (Articles 35-47)

The Republic shall safeguard the right to work in all its aspects, and shall promote agreement and co-operation with international organisations in matters pertaining to the regulation of labour and the rights of workers. The rights of Italian workers abroad shall be protected.

The worker shall be entitled to remuneration proportionate to the quantity and quality of his work, and in any case shall be ensured of sufficient to provide freedom and a dignified standard of life for himself and his family.

The maximum working hours shall be fixed by law, and the worker shall be entitled to a weekly day of rest and an annual holiday of nine days with pay. Women shall have the same rights and, for equal work, the same remuneration as men. Conditions of work shall be regulated by their special family requirements and the needs of mother and child. The work of minors shall be specially protected.

All citizens have the right to sickness, unemployment

and disability maintenance.

Liberty to organise in trade unions is guaranteed and any union may register as a legal entity, provided it is organised on a democratic basis. The right to strike is admitted within the limitations of the relevant legislation.

Private enterprise is permitted in so far as it does not run counter to the social well-being nor constitute a

danger to security, freedom and human dignity.

Ownership of private property is permitted and guaranteed within the limitations laid down by the law regarding the acquisition, extent and enjoyment of private property. Inheritance and testamentary bequests shall be regulated by law.

Limitation is placed by law on private ownership of land and on its use, with a view to its best exploitation for the benefit of the community.

The Republic recognises the value of mutual co-operation and the right of the workers to participate in management.

The Republic shall encourage all forms of saving, by house purchase, by co-operative ownership and by investment in the public utility undertakings of the country.

SECTION IV-Political Clauses (Articles 48-54)

The electorate comprises all citizens, both men and women, who have attained their majority. Voting is free, equal and secret, and its exercise is a civic duty. All citizens have the right to associate freely together in political parties, and may also petition the Chambers to legislate as may be deemed necessary.

All citizens of both sexes may hold public office on equal terms.

Defence of his country is a sacred duty of the citizen, and military service is obligatory within the limits prescribed by law. Its fulfilment shall in no way prejudice the position of the worker nor hinder the exercise of his political rights. The organisation of the armed forces shall be imbued with the spirit of democracy.

All citizens must contribute to the public expenditure, each in proportion to his capacity.

All citizens must be loyal to the Republic and observe the terms of the law and the Constitution.

PART II

SECTIONS I, II AND III (Articles 55-100)

These sections are devoted to a detailed exposition of the Legislature and legislative procedure of the Republic.

Parliament shall comprise two Chambers, namely the Chamber of Deputies and the Senate of the Republic.

The Chamber of Deputies is elected by direct universal suffrage, the number of Deputies being six hundred and thirty. All voters who on the day of the elections are twenty-five years of age, may be elected Deputies.

Seats are apportioned by dividing the number of inhabitants of the Republic, as shown in the last general census, by six hundred and thirty, and allocating the seats proportionally to the population of each constituency.

The Senate of the Republic is elected on regional basis, the number of eligible Senators being three hundred and fifteen. No Region shall have less than seven Senators. Val d'Aosta has only one Senator.

Seats are allocated proportionally among the Regions in the same way as for the Chamber of Deputies.

The Chamber of Deputies and the Senate of the Republic are elected for five years.

The term of each House cannot be extended except by law and only in the case of war.

Members of Parliament shall receive remuneration fixed by law.

The President of the Republic must be a citizen of at least fifty years of age and in full enjoyment of all civic and political rights. He shall be elected for a period of seven years (Articles 84-85).

The Government shall consist of the President of the Council and the Ministers who themselves shall form the Council. The President of the Council, or Prime Minister, shall be nominated by the President of the Republic, who shall also appoint the Ministers on the recommendation of the Prime Minister (Article 92).

Section IV (Articles 101-113) sets forth the judicial system and procedure.

Section V (Articles 114-133) deals with the division of the Republic into regions, provinces and communes, and sets forth the limits and extent of autonomy enjoyed by the regions. Under Article 131 the regions are enumerated as follows:

Piedmont Molise Lombardy Veneto Campania Puglia Liguria Basilicata 1 8 1 Emilia-Romagna Calabria Tuscany Sicily Umbria Sardinia Marche Trentino-Alto Adige Lazio Friuli-Venezia Giulia Abruzzi Val d'Aosta

The last five-named regions shall have a wider form of autonomy based on constitutional legislation specially adapted to their regional characteristics (Article 116). Each region shall be administered by a Regional Council, in which is vested the legislative power and which may make suggestions for legislation to the Chambers, and the "Giunta regionale" which holds the executive power (Article 121).

The final articles provide for the establishment of the "Corte Costituzionale" to deal with constitutional questions and any revisions which may be found necessary after the Constitution has come into operation.

THE GOVERNMENT

(February 1975)

HEAD OF THE STATE

President of the Republic: GIOVANNI LEONE (elected December 1971).

COUNCIL OF MINISTERS

(Coalition of the Christian Democrat Party (DC) and the Republican Party (PRI), formed in November 1974.)

^{*} The Italian Social Movement (M.S.I.) and the Monarchist Party contested the election jointly under the name of "National Right".

POLITICAL PARTIES

Partito Democrazia Cristiana (D.C.) (Christian Democrats):
Central Office: 00144 Rome, E.U.R. Piazzale Luigi
Sturzo 15; f. 1943; is successor to the pre-Fascist
Popular Party. While extending its appeal to voters of
all classes, the party attempts to maintain a centre
position. It is openly and militantly anti-Communist.
The party has 267 Deputies and 135 mems. of the
Senate.

Sec.-Gen. Amintore Fanfani; Political Sec. Arnaldo Forlani; Admin. Sec. Filippo Micheli.

Partito Comunista Italiano (P.C.I.) (Communist Party):
Central Office: 00186 Rome, Via delle Botteghe Oscure
4; f. 1921; number of members, 1,657.534; the largest
Communist party in Western Europe; advocates
far-reaching economic, social and democratic reforms,
to be implemented by a broad coalition of democratic
forces; programme includes development of the South,
democratic planning, agrarian reform, democratic
reform of the State and social services, and other
policies leading to an original Italian path towards
socialism; advocates an independent foreign policy for
peace and international détente and co-operation. Its
electoral appeal is not limited to the working class, but
extends to all popular strata. The party has 175
Deputies and 74 Senators.

Leaders: Luigi Longo (Pres.); Enrico Berlinguer (Gen. Sec.); Alessandro Natta (Leader in Chamber of Deputies).

Publs. L'Unità (daily), Rinascita (weekly), Critica Marxista (every 2 months), Politica ed Economica (every 2 months), Foreign Bulletin (every 2 months in English, French and Spanish).

Partito Socialista Italiano (P.S.I.) (Italian Socialist Party):
oor86 Rome, Via del Corso 476; f. 1966 as the Partito
Socialista Unificato by a merger of the Partito Socialista
Italiano and the Partito Socialista Democratico
Italiano; in 1969 the Social Democrats broke away. A
centre-left party at the service of the workers and of
the civil life of the nation, to create conditions for
greater prosperity, freedom and social justice in the

country; it adheres to the Socialist International. It believes that socialism is inseparable from democracy and individual freedom. The party has 61 Deputies and 36 Senators.

Pres. Pietro Nenni; Sec.-Gen. Francesco de Martino; publ. Avanti! (daily), Mondo Operaio (monthly).

Partito Socialista Democratico (P.S.D.I.) (Democratic Socialist Party): 00187 Rome, Via Santa Maria in Via 12; f. 1969 after breaking away from the former Unified Italian Socialist Party, of which it had been part since 1966. It is composed of former Social Democrats and stands to the right of the P.S.I. The party has 29 Deputies and 12 Senators.

Pres. Mario Tanassi; Sec. Flavio Orlandi; publ. Umanità (weekly).

Partito Liberale Italiano (P.L.I.) (Liberal Party of Italy): oo187 Rome, Via Frattina 89; f. 1848 by Cavour, its chief aim is the realization of the principle of freedom in all public and private matters; 150,000 mems.; 20 Deputies and 10 Senators.

Chair, GIOVANNI MALAGODI; Sec. AGOSTINO BIG-NARDI; publ. La Nuova Tribuna (monthly).

Movimento Sociale Italiano (M.S.I.) (Italian Social Movement): 00184 Rome, Via Quattro Fontane 22; f. 1946; 400,000 mems.; right-wing party; 56 Deputies and 26 Senators.

Pres. Augusto de Marsanich; Sec. Giorgio Almirante; Asst. Secs. Giorgio Bacchi, Pino Romualdi, Tullio Abelli; publ. Il Secolo d'Italia (daily).

Partito Republicano Italiano (P.R.1.) (Republican Party of Italy): Rome, Plazza dei Caprettari 70; f. 1897; followers of the principles of the Mazzinian school (social justice in a modern free society); 100,000 mems.; 15 Deputies and 5 Senators.

Pol. Sec. Ugo La Malfa; Asst. Pol. Secs. Adolfo Battaglia, Emanuele Terrana; daily paper, La Voce Repubblicana; weekly papers: La Voce de Romagna, Trapani Nuova, Partito e Società, Oggi, Come, Il Lucifero, Il Corriere Nuovo, Noi Repubblicani, 30 Giorni, Libera Cooperazione.

The Socialist Party of Proletarian Unity merged with the Communist Party in July 1972. The Monarchist Unity Party merged with the Italian Social Movement (M.S.I.) after the 1972 elections. There are also the following small parties and political movements: Radical Party; Südtiroler Volkspartei; Union Valdôtaine; Movement for National Reconstruction, Committee for Public Defence, National Front, Europe Civilization (all belonging to the extreme right); Marxist-Leninist Communist Party of Italy, Union of Italian Marxist-Leninist Communists, Lotta Continua, Potere Operaio, Partito di Unità Proletaria per il Communismo (all belonging to the extreme left).

JUDICIAL SYSTEM

Corte Costituzionale: Palazzo Della Consulta, Piazza del Quirinale 41, Rome; consists of 15 judges, one third nominated by the President of the Republic, one third elected by Parliament in joint session, one third by the ordinary and administrative supreme courts; Pres. Prof. Francesco Paolo Bonifacio (acting); Sec.-Gen. Cons. Dott. Aldo Monaco.

Gonsiglio Superiore della Magistratura: Piazza della Indipendenza 6, Rome; Pres. the President of the Republic; Vice-Pres. Prof. GIACINTO Bosco.

Consiglio di Stato: Palazzo Spada, Piazza Capo di Ferro 13, Rome; established in accordance with Article 10 of the Constitution; has both consultative and judicial functions; Pres. GAETANO VETRANO.

Gorie dei Gonti: Via Baiamonti 25, Rome, and Via Barberini 38, Rome; functions as the court of public accounts; Pres. Prof. Dott. GIUSEPPE CATALDI; Sec.-Gen. Dott. ERMINIO PIETRANERA.

Corte Suprema di Cassazione: Palazzo di Giustizia, Rome; supreme court of civil and criminal appeal; First Pres. Dott. Mario Stella-Richter; Vice-Pres. Dott. Luciano Pece.

The Constitutional Court was established in 1956 and is an autonomous constitutional body, standing apart from

the judicial system. Its most important function is to pronounce on the constitutionality of legislation both subsequent and prior to the present Constitution of 1948. It also judges accusations brought against the President of the Republic or ministers.

At the base of the system of penal jurisdiction are the Preture (District Courts), where offences carrying a sentence of up to three years imprisonment are tried. Above the Preture are the Tribunali (Tribunals) and the Corti di Assise presso i Tribunali (Assize Courts attached to the Tribunals), where the graver offences are dealt with. From these courts appeal lies to the Corti di Aspello (Courts of Appeal) and the parallel Corti di Assise d'Appello (Assize Courts of Appeal). Final appeal may be made, on juridical grounds only, to the Corte Suprema di Cassazione.

Civil cases may be taken in the first instance to the Giudici Conciliatori (Justices of the Peace). Preture or Tribunali, according to the economic value of the case. Appeal from the Giudici Conciliatori lies to the Preture, from the Preture to the Tribunali, from the Tribunali to the Corti d'Appello, and finally, as in penal justice, to the Corte Suprema di Cassazione on juridical grounds only.

Special departments for cases concerning labour relations or young persons may be attached to civil courts. Cases concerned with the public service and its employees are tried by the Consiglio di Stato.

RELIGION

More than 90 per cent of the population of Italy profess the Roman Catholic faith.

Under the terms of the Lateran Pact, signed in 1929 between Mussolini and the Papal Secretary of State, Cardinal Gasparri, the Catholic Apostolic Roman Religion was recognized as the official religion of Italy, and instruction in the Roman Catholic doctrine became compulsory in Italian schools. The Holy See was accorded sovereign rights in the Vatican City, which was granted extraterritorial rights as an independent State.

ROMAN CATHOLIC CHURCH

Primate of Italy, Archbishop and Metropolitan of the Roman Province and Bishop of Rome: His Holiness Pope Paul VI.

The Patriarch of Venice: H. E. Cardinal Albino Luciani.

Azione Cattolica Italiana (A.C.I.) (Catholic Action): Rome, Via della Conciliazione I.

. Most Rev. Albino Mensa.

Most of the nation-wide lay Catholic organizations in Italy are affiliated to Catholic Action, which has a total membership of one and a half million and is organized in the following divisions: Settore Adulti (Adult Section), Settore Giovani (Youth Section), Azione Cattolica Ragazzi (Children's Catholic Action), Federazione Universitaria—FUCI (University Federation), Movimento Laureati (Graduates' Movement), Movimento Maestri (Teachers' Movement), Movimento Laureatiori (Workers' Movement) and Movimento Studenti (Students' Movement).

The Presidency-General is the supreme executive body and co-ordinator of the different branches of Catholic Action. President: Prof. Mario Agnes. Chaplain: S. E. Mons. Luigi Maverna.

Secretary-General: Dott. Nelio Bertazzoni.

PROTESTANT CHURCHES AND MISSIONS

Rome, Via Firenze 38; the Federation was formed in 1967; total mems. 50,000 approx.; Pres. Pastor Aldo Comba; Sec. Pastor Salvatore Ricciardi; there are six constituent organizations including the following:

Chiesa Evangelica Valdese (Evangelical Waldensian Church): Rome, Via Marianna Diomigi 57; Moderator Pastor Aldo Sbaffi; Sec.-Treas. Pastor Roberto Comba; 21,700 mems.

Chiesa Evangelica Luterana (Evangelical Lutheran Church): Decanato: Rome, Via Toscana 7; Dean Wolfgang Enge.

Chiesa Evangelica Metodista d'Italia (Evangelical Methodist Church of Italy): 00184 Rome, Via Firenze 38; f. 1861; Pres. Pastor Sergio Aquilante; 4,000 mems.

Unione Cristiana Evangelica Battista d'Italia (Italian Baptist Union): Rome, Piazza in Lucina 35; f. 1873; 5,000 mems.; Pres. Pastor Dr. Piero Bensi; Sec. Pastor Nando Camellini.

The following are adherents in varying degrees to the Federation:

Salvation Army (Esercito della Salvezza): Headquarters: Rome, Via Ariosto 32; Officer Commanding for Italy Lieut.-Col. U. D'ANGELO; other centres in Catania, Florence, Lentini, Milan, Naples, Turin, Ariano Irpino, Atena Lucana, Brienza, Castelvetrano, Faeto, Mazara del Vallo, Pietragalla, Torre Pellice, Bobbio Pellice, Forio d'Ischia, Rome; publ. Il Grido di Guerra (bi-monthly).

Apostolic Church.

Seventh-Day Adventists: Rome, Lungotevere Michelangelo 7; Supt. Antonio Bueno; membership 8,000.

JEWISH COMMUNITY

An estimated 35,000 Italian Jews survived the war. They live scattered in many communities, the most numerous of which are in Rome, Milan, Turin, Genoa, Florence, Venice and Leghorn.

Union of Italian Jewish Communities: Rome 9, Lungotevere Sanzio; f. 1930; representing 22 Jewish communities in Italy; Pres. Dr. Sergio Piperno Beer; Chief Rabbi of Rome Dr. Elio Toaff; publ. La Rassegna Mensile di Israele (monthly).

Rabbinical Council: Chief Rabbi Dott. Elio R. Toaff (Via Catalana ra, Rome), Rabbi Dott. Giuseppe Laras (Via del Tempio 3, Livorno), Rabbi Dott. Sergio Sierra (Via San Pio V 12, Turin).

THE PRESS

In view of Italy's population the number of daily newspapers at 85 is rather small, with the bulk of them (46, of which 10 in Milan) appearing in the industrial north, 25 in central Italy (including 22 in Rome), seven in the south and the remainder on the islands. Between 1944 and 1967 no less than 161 newspapers ceased publication. The total daily circulation is 7.3 million, about 13 per 100 people, but the northern third of the population takes two-thirds of this circulation.

Rome and Milan are the only real press centres with 22 and 10 dailies each respectively. Only two dailies manage to sustain a national circulation, Corriere della Sera and Il Giorno, both in Milan, followed by Turin's La Stampa circulating in the north and centre. Otherwise the large dailies circulate in and reflect their own region; e.g. La Nazione serves Florence and its region, Il Tempo Rome and the centre, Genoa's Il Secolo XIX extends throughout the Italian riviera, Il Mattino serves the Naples region and l'Ora Palermo. Such papers make up for a general lack of smaller dailies; there are, however, many weekly papers.

The daily press has experienced economic difficulties for many years, but since 1973 rises in labour costs and the price of raw materials have created a critical situation. It has been calculated that the total deficit of the daily press in 1974 will reach 130,000 million lire. As a result the dailies have become entirely dependent on financial support from large industrial companies, political parties or other social groups with substantial capital who are prepared to stand a financial loss in return for a measure of control over an important information medium. In 1974 great concern was expressed in some quarters over the manoeuvrings of the Montedison chemical company which appeared to be deliberately taking over a section of the press in order to protect its own interests. Most notably it gained control of the Corriere della Serra which had previously been owned by the Crespi family. Montedison also has effective financial control of such important dailies as Il Messaggero, La Notte and Il Giornale, the new Milan paper. Eugenio Cefis, the head of Montedison, has close political links with the right of the Christian Democrat party. His influence is opposed by Gianni Agnelli, the head of Fiat, who is a left-wing Christian Democrat. Fiat or other Agnelli concerns control La Stampa, Stampa Sera, Corriere dello Sport and a number of magazines and regional newspapers. Other important papers backed by industry include Il Resto di Carlino and La Nazione, associated with Eridiana, Il Giorno owned by ENI, and Il Sole/21 Ore controlled by Confindustria. Financial institutions also have interests in the press. The Banco di Napoli, for example, has a large holding in La Gazzetta del Mezzogiorno and Il Mattino.

All the political parties represented in parliament have a daily or weekly paper as party organ. The most important are the Communist *Unità* and the Socialist *Avanti!* In addition political parties own or have a holding in papers which are not run as party organs. The Christian Democrats, for example, control seven provincial dailies. Catholic organizations have a controlling interest in several papers and *Avenire* is owned totally by the Church

The most important dailies in terms of circulation are: Milan's Corriere della Sera (600,000), Turin's La Stampa (404,000), L'Unità (Milan edition 450,000; Rome edition 150,000), Rome's II Tempo (250,000), and II Messaggero (225,000), Milan's II Gierna (230,000), Florence's La Nazione (250,000), Bologna's II Resto del Carlino (257,000)

and Rome's Paese Scra (181,000). The three dailies accorded most prestige for the standard of their articles and news coverage are the nationally circulating Corriere della Sera, La Stampa and Il Giorno, although the latter includes light features and cartoons. The most serious Rome daily is Il Tempo. The leading financial paper is Milan's Il Sole 24 Ore closely followed by Il Globo in Rome.

There are some 430 non-daily newspapers and over 4,000 periodicals. The illustrated weekly papers and magazines frequently have higher sales than the average daily. Ten of the largest appear in Milan, five in Rome and one in Turin. Many tend towards sensationalism, particularly the popular Domenica del Corriere, which has a circulation of almost one million, and the right wing Oggi and Gente. Other weekly illustrated periodicals with a large circulation include Tempo, Epoca, and Europeo. Among the serious and influential magazines should be mentioned Panorama, Il Borghese, the financial Mondo Economico, the small circulating political and cultural Il Ponte, the Socialist L'Expresso and the Communist Rinascita.

DAILIES

RADIO AND TELEVISION

Nederlandse Omroep Stichting (Netherlands Broadcasting Foundation): P.O.B. 10, Hilversum; f. 1969; Chair. E. A. Schüttenhelm.

The Board of N.O.S. consists half of leading members of the broadcasting corporations; a quarter of its members are appointed by the Crown and a quarter by cultural organizations; the Chairman is appointed by the Crown. The financial management is supervised by the Government.

There are seven associate companies (Algemene Vereniging Radio-Omroep, Nederlandse Christelijke Radio Vereniging, Omroepvereniging VARA, Katholieke Radio-Omroep, Omroepvereniging VPRO, Televisie Radio Omroep Stichting, Evangelische Omroep). All broadcasting companies and institutions, having obtained transmission-time, retain individual autonomy in planning and broadcasting their programmes during the hours allotted to them by the Government decree. The Nederlandse Omroep Stichting provides a joint programme (20 per cent of total broadcasting time). Advertising was started in 1968 and is supplied for both radio and television by Stichting Ether Reclame, Hilversum.

Television programmes are provided by seven private Broadcasting Corporations and N.O.S. Studios, staff and technical facilities are provided by N.O.S. and financed by Government-collected licence fees.

There are two television channels broadcasting daily in the evenings. Advertising is permitted up to 180 minutes per week.

The Nederlandse Omroep Stichting provides a joint TV programme for 25 to 40 per cent of broadcasting time. Colour television started in 1967.

There are six Medium Wave and twenty-three VHF transmitters broadcasting 404 hours a week over three networks.

At the end of 1973 there were 352,252 radio licences and 3,451,350 combined radio/TV licences issued.

- Algemeene Vereeniging 'Radio Omroep' (A.V.R.O.) (General Broadcasting Association): s'-Gravenlandseweg 52, Hilversum; f. 1923; independent; membership 830,000; Pres. M. J. Keyzer; Dirs. J. C. Bongenaar (Finance), S. K. van der Zee (Radio and Television); publs. AVRO-bode, TeleVizier.

 Lanschot Hubrecht; membership over 8,800; publ.
 Maatschappij Belangen (monthly); circ. 10,000.
- Bedriffscontact Nederland-Suriname (Trade Contact, Netherlands-Surinam): The Hague, Prinses Beatrixlaan 7; f. 1950; Sec. Th. S. Dankloff; membership 32; publ. Annual Report.
- Koninklijke Nederlandse Zuivelbond FNZ (Royal Netherlands Dairy Fed.): The Hague, Van de Spiegelstraat 16; f. 1900; a federation of 189 co-operative dairy factories and unions; Chair. Dr. R. ZIJLSTRA; Sec.

W. M. DIJKSTRA; publ. Officieel Organ van de Koninklijke Nederlandse Zuivelbond FNZ (weekly).

- Koninklijk Nederlandsch Landbouw Comité (Royal Netherlands Agricultural Board): The Hague, Prins Mauritsplein 23; Chair. C. S. KNOTTNERUS; Sec. E. KUYLMAN membership 57,600; publ. De Landbode.
- Nederlandse Tuinbouwraad (Netherlands Horticultural Council): The Hague, Schiefbaanstraat 29; f. 1908; Chair. R. Troost; Sec. Ir. A. Groot.
- Nederlands Elektronica- en Radiogenootschap: P.O.B. 39, Leidschendam; f. 1969.

TRADE UNIONS

Central Federations and affiliated unions are usually organized on a religious, political or economic basis.

The most important unions are those of the transport, metal, building and textile industries, and agriculture.

CENTRAL FEDERATIONS

Nederlands Verbond van Vakverenigingen (NVV) (Netherlands Federation of Trade Unions): Amsterdam, P.O.B. 8110; f. 1906; Pres. W. Kok; Vice-Pres. F. Drabbe; Gen. Sec. P. Damming; Treas. J. Kapper; Dir. Internat. Dept. O. G. De Vries Reillingh; membership 676,779; affiliated to International Confederation of Free Trade Unions 1949; publs. De Vahbeweging (The Trade Union Movement, weekly), De Band (fortnightly), International Information Bulletin (irregular), in English 600 copies.

Fifteen affiliated unions, of which the principal are:

- Algemene Bond van Ambtenaren (Civil Servants): Stadhouderslaan 9, The Hague; Pres. J. van Dijck; Gen. Sec. J. v. d. Ploeg; 152,406 mems.
- Algemene Bond van Onderwijzend Personeel (Teachers): Herengracht 56, Amsterdam; Pres. E. Steenber-Gen; Sec. J. van den Bosch; 29,510.
- Algemene Nederlandse Bond voor de Bouw- en Houtnijverheid (Building and Wood Workers): Houttuinlaan 3, Woerden; Pres. A. Buys; Gen. Sec. R. B. Voulon; 99,667 mems.
- Agrarische en Voedings Bedrijfsbond (Agricultural and Food Workers): Goeman Borgesiuslaan 77, Utrecht; Pres. A. J. Kuiper; Sec. P. Hoogerland; 34,184 mems.
- Algemene Bond Mercurius, Bedrijfsbond voor de Handel, het Bank- en Verzekeringswezen en de Vrije Beroepen (Shop Assistants, Administrative Workers, Commercial Travellers, etc.): Plein 40-45 I, Amsterdam-Slotermeer; Pres. C. Z. DE VRIES; Gen. Sec. T. DE LANDGRAAF; 48,968 mems.
- Algemene Nederlandse Grafische Bond (Printing and Allied Trades): Koninginneweg 20, Amsterdam-Z; Pres. H. J van der Werff; Gen. Sec. J. Schipper; 32,483 mems.
- Nederlandse Politiebond (Police): Plein 40-45 5, Amsterdam-Slotermeer; Pres. A. K. Mud; Gen. Sec. S. J. Brandsma; 11,849 mems.
- Industrictiond NVV (General and Factory Workers, Textile and Clothing Workers, Metal Workers, Electricians, etc.): Plein 40-45 I, Amsterdam; f. 1972; Pres. A. Groenevelt; Gen. Sec. C. de Hay 197,564 mems.
- Vervoersbond NVV (Railway, Tram, Inland Waterways, and Transport Workers): Goeman Borgesiuslaan 77, Utrecht; Pres. S. BARENDREGT; Gen. Sec. J. DE, VRIES; 49,772 mems.

Nederlands Katholiek Vakverbond (NKV) (Catholic Trade Union Federation): Utrecht, Oudenoord 12; f. 1909; affiilated to I.F.C.T.U.; Chair. W. J. L. Spit; Sec. P. J. J. VAN HOUT; membership 400,000; publs. Ruin Zicht (fortnightly), De Volkskrani (daily).

Nineteen affiliated unions, of which the principal are:

- Unie van Beambten, Leidinggevend en Hoger Personeel (Non-manual Employees, Managerial and Staff Personnel): Maliestraat 5, Utrecht; f. 1967; Pres. A. J. Hubben; Sec. G. J. H. Kriek; Treas. G. W. M. VAN KOUWEN; 35,000 mems.; publ. Medium (three issues weekly).
- Katholieke Bond van Personeel in de Handel (Personnel in retail and wholesale trade and auctions): Oudenoord 12, Utrecht; f. 1963; Pres. P. A. H. KAFOE; Sec. P. J. M. MALTHA; 9,500 mems.; publ. Handelpost (fortnightly review).
- Vereniging van Werknemers in Bank- en Verzekeringsbedrijf en Administratieve Kantoren (Workers in banking, insurance and administrative offices): Neudeflat, Neude 15, Utrecht; f. 1963; Pres. A. W. JANSSEN; Sec. TH. G. STEINMETZ; 7,500 mems.; publ. Perspectief (monthly review).
- Industriebond NKV (Industrial Workers): Maliebaan 34, Utrecht; Pres. P. Brussel; Sec. S. Th. van Bijsterveld; 140,000 mems.
- Bouw-en Houtbond NKV (Buildings): Houttuinlaan 3, Woerden; f. 1917; Pres. L. Brouwer; Sec. Gen. P. VAN DER VEN; 900,00 mems; publ. De Steiger (twice weekly).
- Ned. Kath. Grafische Bond (Printing): P. C. Hoofstraat 172, Amsterdam-Z; Pres. A. Meijer; Sec. A. J. M. MUTSAERS; 16,500 mems.
- Kath. Bond van Personeel in Agrarische- Voedings- en Genotmiddelen-, Tabakverwerkende- Horeca- en aanverwante bedrijven (Agriculture): Zaanenstr. 18, Haarlem; Pres. A. C. Bastiaansen; Sec. A. van der SLUIJS.
- Kath. Bond van Overheidspersoneel (Government Personnel): Mesdagstr. 118, The Hague; Pres. and Sec. M. J. H. VAES; 48,000 mems.
- Vervoershond NKV (Transport): Drift 10-12, Utrecht; Pres. J. H. Schroer; Sec. C. A. van der Waarden; 25,000 mems.
- Christelijk Nationaal Vakverbond in Nederland (CNV) (Christian Nat. Fed. of Trade Unions in the Netherlands): Utrecht Maliebaan 8-8a; f. 1909; Pres. J. Lanser; Vice-Pres. L. de Graaf; Gen. Sec. A. Hordijk; Secs. D. H. Grasman, H. v. d. Meulen, H. J. Moes; Treas. G. J. Vunderink; membership 240,000; Protestant; publs. De Gids (fortnightly), Evangelie en Maatschappij (monthly).

Fifteen affiliated unions, of which the principal are:

- Christelijke Bedrijfsbond voor de Handel, het Bank- en Verzekeringswezen, de Administratieve Kantoren en de Vrije Beroepen (HBV) (Civil Servants): De Lairessestr. 129, Amsterdam-Z; f. 1897; Pres. P. M. DE WIT; Sec. D. W. VAN DER WINDT: 12,500 mems.; publ. Beginsel en Bedrijf (fortnightly).
- Nederlandse Christelijke Grafische Bedrijfsbond (Printing). Valeriusplein 30, Amsterdam-Z; Pres. G. Jens; Sec. L. Blaauw; 6,300 mems.
- Hout- en Bouwhond CNV (Wood and Building): Kromme Nieuwe Gracht 22, Utrecht; Pres. J. D. VAN COMMENEE; Sec. P. H. DE KLEUVER; 44,000 mems.

Vereniging van Christelijke Leraren en Leraressen bij het Beroepsonderwijs (*Teaching*): Beneluxlaan 52, Utrecht; Pres. A. DE WIT; Sec. B. GROENEVELD; 3,500 mems.

Industriebond GNV: Nijenoord 2, Utrecht; Pres. C. VAN DIJK; Sec. F. DE VRIES; 57,000 mems.

Nederlandse Christelijke Bond van Overheidspersoneel (Government Personnel): Bankaplein 3, The Hague; Pres. H. Wieringa; Sec. L. Post; 60,000 mems.

Algemene Christelijke Bond van Vervoerspersoneel (Transport): Kromme Nieuwe Gracht 50, Utrecht; f. 1903; Pres. J. J. Dassel; Sec. W. H. Hendriks; 12,500 mems.

CONSULTATIVE ORGANIZATIONS

Stichting van de Arheid (Foundation of Labour): The Hague; 60 Bezuidenhoutseweg; f. 1945; central organ of cooperation between employers and employees; 18 mems.; Joint Pres. C. van Veen, W. Kok; Secs. Dr. P. S. Pels, H. P. Engel.

Sociaal-Economische Raad (Social Economic Council): The Hague, 60 Bezuidenhoutseweg; Tripartite advisory body f. 1950 to advise the Government on social and economic problems; 45 members, of which 15 belong to the Netherlands Federations of Trade Unions, 15 belong to the employers' organisations, and 15 independent experts in social and economic affairs; Pres. J. W. DE POUS, M.A.

INTERNATIONAL FAIR

Koninklijke Nederlandse Jaarbeurs (Int.) (Royal Netherlands Industries Fair): Utrecht; f. 1916; organizers of annual Utrecht Spring Fair and Autumn Fair (consumer goods) and of numerous specialized trade fairs; Man. Dir. J. H. D. VAN DER KWAST.

LAND RECLAMATION AND DEVELOPMENT

Ministry of Transport, Hydraulics and Public Works: The Hague, Plesmanweg 1-6; is the authority responsible for land reclamation and waterways.

Without intensive land protection schemes nearly the whole of the north and west of the Netherlands (about 40 per cent of the total area of the country) would be inundated by sea-water twice a day. A large part of the country (as, for example, the Zuyder Zee) has already been drained by the creation of polders—a piece of land surrounded by a dike from which all superfluous water can be drained off into a canal or the sea by the aid of pumps. Despite the vast system of sea-dikes, such as the Westhapeles Sea-Dike on the Island of Walcheren, and the Hondsbosse and Pettemer Sea-Dike to the north of Alkmaar in the province of North Holland, storm-tides can still create disaster.

The Delta Plan, which was accepted by the Second Chamber of the States General in 1957, will shorten the southern coastline by 435 miles and protect the estuaries of Zeeland and Southern Holland. The Scheme consists of 4 closing dams across the mouths of the Eastern Scheldt and 4 regulating dams, 3 in the Scheldt estuary and 1 on the Hollandse I Jssel. Roads crossing the dams will link the islands of the Scheldt estuary to the mainland. The whole scheme is expected to take 25 years to complete.

The main works under the Plan are:

 Haringvliet Closing Dam: between Voorne and Goeree Overflakkee; date of completion 1972.

 Brouwershavensche Gat Closing Dam: between Goeree Overflakkee and Schouven Duiveland; date of completion 1972.

 Eastern Scheldt Closing Dam: partial scaling of the Eastern Scheldt Estuary from the sca. Sca-water will be allowed through for fishing and for environmental reasons. Date of completion and final form of structure as yet unknown.

4. Veeregat Closing Dam: between Noord Beveland and Walcheren; closed by means of seven 5,000-ton caissons 1961; a dike in which the caissons disappear has been constructed.

5. Three Secondary dams: Volkerak (between the Hollandschdiep and the Eastern Scheldt estuary) (completed 1970); Grevelingen (between Goeree Overstakkee and Schouven Duiveland) (completed 1965); Zandkreek (between Noord and Zuid Beveland) (completed 1960). This dam, together with the Veeregat, forms the Three Islands Plan, linking the islands of Noord and Zuid Beveland and Walcheren.

 Kapelle Moveable Flood Barrier: on the Hollandse IJssel east of Rotterdam. This barrier was finished in 1958.

The total cost is estimated at about 3,000 million guilders (£250 million). Part of the cost will be defrayed by the use of counterpart funds, accumulated out of American economic aid to the Netherlands between 1948 and 1953.

Europoort: The original plan was put forward in 1955 to build an extensive port west of Rotterdam on the coast, at a cost of some 1,000 million guilders. A number of oil refineries have been built between the Europoort and Rotterdam and a channel in the North Sea bed has been dredged to accommodate the new giant tankers of up to 250,000 tons. Existing land area is not sufficient and new areas are being consolidated from dredged material, and projected uses of this land include additional refineries steelworks, shipyards for the repair of giant tankers and ore carriers and depots for repairing and refuelling the freighters of the future. The first 200,000 ton tanker arrived in December 1969.

Natural Gas has been found in extensive quantities in the Northern provinces of the Netherlands, and in the North Sea. A pipeline system has been extended throughout the country and natural gas is used in nearly all Dutch homes. It is also exported to Switzerland, Belgium, Germany, Italy, the United States, and France. Total reserves are estimated to be in excess of 2,400 billion cubic metres. Of total Dutch energy needs about 45 per cent is covered at present by natural gas, but there are plans to increase the use of gas in the Netherlands.

NETHERLANDS

TRANSPORT

RAILWAYS

Noderlandse Spoorwegen: Moreelsepark 1, Utrecht; length of lines 2,832 km.; Pres. and Man. Dir. Dr. M. G. DE BRUIN.

All railway lines in the Netherlands are operated by the Nederlandse Spoorwegen, a limited liability company of which the State is the sole shareholder. Most of the Dutch railway network is electrified; the remaining track carries diesel electric stock.

ROADS

Ministry of Transport, Hydraulics and Public Works: The Hague, Plesmanweg 1-6; there are some 1,400 km. of motorway and a total of 82,488 km. of roads in the Netherlands.

Tourist Associations

Koninklijke Nederlandse Toeristenbond ANWB: The Hague, Wassenaarseweg 220; f. 1883; 1,650,000 mems.; Dir. Gen, A. BLANKERT.

Koninklijke Nederlandsche Automobiel Club (K.N.A.C.):
The Hague, Sophialaan 4; f. 1898; 10,000 mems.; Pres.
Jhr. W. VAN ANDRINGA DE KEMPENAER; Secs. A. L.
ROSCAM ABBING, J. P. G. F. CORSMIT; publ. De Auto
(monthly).

INLAND WATERWAYS

Ministry of Transport, Hydraulics and Public Works:
Plesmanweg 1-6, The Hague; responsible for all
waterways, water control, construction of dikes and
land reclamation.

An extensive network of rivers and canals, totalling 5,587 km., has led to an outstanding development in Dutch inland shipping. Approximately 33 per cent of goods transported inside the Netherlands are carried on the canals and waterways. Dutch inland shipping has access to Germany and France along the Rhine and its branch rivers, and to France and Belgium along the Meuse and Scheldt. Ocean traffic reaches Rotterdam via the New Waterway, and Amsterdam is connected to the North Sea by the 18-mile-long North Sea Canal.

SHIPPING

PRINCIPAL COMPANIES

Holland Bulk Transport, B.V.: Rotterdam, van Vollenhovenstraat 3, P.O.B. 2606; a member of the Netherlands Shipping Union group; gross tonnage 375.789; world-wide tramp-shipping.

Hollandsche Stoomboot Maatschappij B.V.: Amsterdam, Oostelijke Handelskade 3; f. 1885; gross tonnage 3,047; regular freight services between Amsterdam/ Rotterdam/Antwerp/Ghent and British Isles; Man. Dir. G. L. Medendorp.

Koninklijke Hollandsche Lloyd N.V. tot Voortzetting van de: Amsterdam, Oostelijke Handelskade 12, P.O.B. 132;
f. 1936; gross tonnage 67,565; freight services from Hamburg, Bremen and Amsterdam to Brazil, Uruguay, and Argentina; Mans. P. de Vreede, J. B. Meyer.

Koninklijke Java-China-Paketvaart Lijnen B.V. (Royal Interocean Lines): Amsterdam, Het Scheepvaarthuis, Prins Hendrikkade 108-114; f. 1902; a member of the Netherlands Shipping Union group of companies; gross tonnage 299,291; passenger and freight services between the Far East and East, South and West Africa and South America (east coast), between the Far East and South America (west coast), between Australia/New Zealand and the Far East, South East Asia and India, between Australia/New Zealand and East and South Africa.

Koninklijko Nederlandsche Stoomboot-Maatschappij B.V.:
Amsterdam; Head Office: "Het Scheepvaarthuis",
Prins Hendrikkade 108-114, P.O.B. 209; f. 1856;
deadweight capacity 165,552 tons; regular freight and
passenger services to European and Transatlantic
ports; also inter-American services; Man. Dirs. A. J. C.
van Rietschoten, R. W. Le Poole, G. Vermeulen,
S. Doyer, H. G. Heuzeveldt, R. J. H. Fortuyn.

KPM-Lijnen N.V.: Amsterdam, Het Scheepvaarthuis, Prins Hendrikkade 108-114, gross tonnage 129,586; freight service between Singapore and Timor Dily; Mans. K.J.C.P.L. (q.v.).

N.V. Maatschappij Vrachtvaart: Rotterdam, Willemskade 14; f. 1916; gross tonnage 6,626; regular service: from Bremen, Hamburg, Antwerp and Rotterdam to Brazilian ports, Montevideo, Buenos Aires, Rosario Man. Dirs. D. G. VAN BEUNINGEN, W. WESTRA.

N.V. Maatschappij Zeevaart: Rotterdam, Willemskade 23; f. 1913; gross tonnage 2,303; liner service from Rotterdam to Belfast, Dublin, Waterford and Le Havre twice weekly; Man. Dir. W. Veder, G. A. Fontein.

Holland Amerika Lijn, N.V.: Rotterdam, Wilhelminakade 86; f. 1873; gross tonnage 203,689; freight and passenger services from Rotterdam/Antwerp/Hamburg/Bremen/Bremerhaven/LeHavre/Southampton/London/Ireland to and from the U.S.A. East Coast, Canada East Coast, Mexico, Gulf ports and North Pacific Coast, the West Coast of Central America and Mexico; cruises from U.S. to all parts of the world, and from Singapore to Indonesia; Mems, Exec. Board N. VAN DER VORM, A. M. LELS.

Nederlandsche Stoomvaart-Maatschappij "Oceaan" B.V.:
Amsterdam, Prins Hendrikkade 159; gross tonnage
46,409; associated with Ocean Transport and Trading
Ltd., see U.K.; freight services from Netherlands,
German and British ports to Indonesia and Malaya;
Man. Dir. T. G. GLEICHMAN.

Nedlloyd B.V., Koninklijke: Rotterdam, 3 Van Vollenhovenstraat, P.O.B. 240; f. 1970; a member of the Netherlands Shipping Union group; gross tonnage 823,756; freight services between Europe and East Africa, South and South-East Africa, Arabian Peninsula, Iran, India, Pakistan, Bangladesh, Sri Lanka, Malaysia, Singapore, Indonesia, Pacific Islands, Papua New Guinca, and New Zealand; from Gulf of Mexico and U.S. Atlantic Coast to Arabian Peninsula, Iran and back via Belawan, West Malaysia, Singapore, Taiwan and Hong Kong; between Pacific Coast U.S.A. and South, South-East, and East Africa and back to Pacific Coast via Red Sea area, Singapore and the Philippines; also participates in joint cargo ventures to and from the Far East, Australia and Central and West Africa.

Phs. van Ommeren N.V. (Nederland) B.V./(International) B.V.: Rotterdam, Westerlaan 10, P.O.B. 845; f. 1839; ocean-going tankers, bulk carriers, freighters, coastal vessels, inland tank shipping, tow- and push-boats; container handling, tank storage installations, warehousing, stevedores, underwriting agents, ship insurance and chartering brokers, ship managers; consulting naval architects and marine engineers; marine and

insurance agents; chartering brokers, consignment agents, forwarding agents, customs clearance; international road transport, air chartering and freight forwarding; agents for regular passenger services; Dirs. C. D. Matthijssen (Man.), P. van der Vorm, R. F. de Waal, M. J. Muller, P. F. M, Kraft.

- B.V. Scheepvaartbedrijf Kroonburgh: Rotterdam 3005, Calandstraat 49, P.O.B. 958; 4 vessels; freight services between the Netherlands and Bordeaux, Casablanca, Guernsey, Jersey, Copenhagen, Aarhus, Cyprus, Egypt, Gibraltar, Greece, Israel, Italy, Lebanon, Malta, Rhodes, Spain, Syria and Turkey; Man. Dir. J. Fransen.
- Shell Tankers B.V.: Rotterdam, P.O.B. 874; total d.w. tonnage on Jan. 1st, 1975, 3,228,406 (54 tankers); Man. Dir. W. H. BROUWER.
- 8.8.M. Transport B.V.: Rotterdam, Veerkade 5; gross tonnage 9,780; freight services from Rotterdam and Harlingen to British ports; Man. Dir. G. Vink.
- Stoomvaart Maatschappij Zeeland, Koninklijke Nederlandsche Postvaart N.V.: P.O.B. 2, Hook of Holland; f. 1875; gross tonnage 12,910, twice daily passenger and freight service between Holland and England; Gen. Man. WM. H. MÜLLER & Co. N.V., Rotterdam.
- Van Nievelt, Goudriaan & Co. B.V.: Rotterdam, Veerhaven 2, P.O.B. 825; f. 1905; regular services for cargo and passengers; United Kingdom Services: Rotterdam, Amsterdam, Harlingen to U.K.; Rotterdam South America Line: Rotterdam, Bremen, Hamburg, Antwerp, South America; The Holland Pan-American Line: East Coast South America, East Coast U.S.A., Ligues de l'Etoile Blanche: France, Italy, Morocco, Greece, Lebanon, Spain, Syria, Turkey; Portugal Line: Rotterdam, Antwerp, Portugal; Man. Dir. Dr. J. A. Reus.
- Van Uden's Scheepvaart-en Agentuur Maatschappij B.V.:
 Rotterdam, Veerhaven 14; gross tonnage 61,000;
 regular freight services between Netherlands and
 German ports and South America; from North France
 to Morocco; also between Netherlands and Belgium and
 Denmark and Sweden; Man. Dir. Ph. VAN 'T HOFF, Jr.;
 Dir. I. P. R. Niénhuys Mulder; Vice-Dirs. P. Hoegen,
 F. Meijer, G. H. de Boer.

Vinke and Co.: Amsterdam, De Ruyterkade 107; Rotterdam, Parklaan 28; br. offices at Antwerp, Cape Town; shipowners, shipbrokers, forwarding and passenger agents; service: Bermuda Express Service; Dirs. A. VINKE, E. VINKE, G. WARNDERINK VINKE, TH. E. WARNDERINK VINKE.

SHIPPING ASSOCIATION -

Koninklijke Nederlandse Redersvereniging (Royal Netherlands Shipowners' Assen.): The Hague 2006, Stationsweg 137; f. 1905; Deputy of Exec. Council Dr. G. H. Bast; 45 mems.

CIVIL AVIATION

The main Dutch airport is at Schiphol, near Amsterdam and there are international airports at Zestienhoven for Rotterdam, Beek for Maastricht and at Elde for Groningen.

- KLM/Royal Dutch Airlines (Koninklijke Luchtvaart Maatschappij N.V.): Schiphol Airport, P.O.B. 7700; f. 1919; regular air services throughout Europe; intercontinental services between Europe, Near, Middle and Far East, Australia, North, Central and South America, Africa; fleet of seven Boeing 747-B, six DC-10-30, 19 DC-8, 19 DC-9 and two Fokker F-27; Pres. S. ORLANDINI; Deputy Pres. J. F. A. DE SOET; Man. Dir. L. J. VAN AMEIJDEN.
- Air Benelux International B.V.: Rotterdam Airport; f. 1972 to operate services from Rotterdam to Zurich and Southend; fleet of two F-28.
- NLM Dutch Airlines (B.V. Nederlandse Luchtvaart Maatschappij NLM): P.O.B. 7700, Schiphol Airport, Amsterdam; f. 1966; subsidiary of KLM; scheduled domestic services from Amsterdam to Eindhoven, Enschede, Groningen and Maastricht; fleet of six F-27; Man. Dir. Dr. F. Lederder.

The Netherlands is also served by the following foreign airlines: Aeroflot, Aer Lingus, Air Anglia, Air France, Alitalia, AUA, British Air Ferries, British Airways, Canadian Pacific, CSA, Dan-Air, El Al, Finnair, Garuda Indonesian, Iberia, JAL, JAT, LOT, Lufthansa, Luxair, MALEV, Nigeria Airways, Northeast, Olympic, PIA, Pan American, Philippine Airlines, Qantas, Royal Air Maroc, Sabena, SAS, SAA, Swissair, TAP, TAROM, Tunis Air, THY and Varig.

TOURISM

Stichting Nederlands Nationaal Bureau voor Toerisme (Netherlands National Tourist Office): The Hague 2005, Mauritskade 17; f. 1969; Dir.-Gen. J. N. Strijkers.

EUROPEAN BRANCHES

Austria: Stubenbastei 12, A1010 Vienna.

Belgium and Luxembourg: Cantersteen 16, Central Station, Brussels 1000.

France: 91 rue de Richelieu, Paris 2e.

Germany (Federal Republic): 5 Cologne, Schildergasse 84; 1 Berlin 12, 39¹¹ Schlüterstrasse.

Great Britain and Ireland: 143 New Bond St., London, WIY OQS.

Sweden, Norway, Denmark, Finland: Kungsgatan 29 VI, Stockholm III 56.

Switzerland and Northern Italy: 8001-Zürich, Talstrasse 58.

There are also offices in New York, San Francisco, Toronto and Tokyo.

CULTURAL ORGANIZATIONS

- Ministry of Cultural Affairs, Recreation and Social Welfare: 370 Steenvoordelaan, Rijswijk, ZH, near the Hague; Minister H. W. van Doorn.
 - Nederlands Impresariaat: P.O.B. 5253, Amsterdam; government subsidized foundation; organizes concerts and other performances.
 - Council of the Arts (Raad voor de Kunst): R. J. Schimmelpennincklaan 3, The Hague; advises the Ministry of Cultural Affairs, Recreation and Social Welfare in all fields of the arts.

NATIONAL THEATRES

Publickstheater: Marnixstraat 427, Amsterdam.

De Haagse Gomadie: Schouwburgstraat 8, The Hague; f. 1947; Man. Carl van der Plas.

Koninklijke Schouwburg (Royal Theatre): Korte Voorhout 3, The Hague; used notably by De Haagse Comedie company.

OPERA AND BALLET

De Nederlandse Operastichting (Netherlands Opera Foundation): Stadsschouwburg, Amsterdam; f. 1965; Dir. HANS DE Roo; publ. Opera (monthly).

Stichting Het Nationale Ballet (National Ballet Foundation):

Marnixstraat 427, Amsterdam; f. 1961; Artistic Dir. R. van Dantzig; Man. A. L. Gerritsen.

PRINCIPAL ORCHESTRAS

Concertgebouworkest: Jacob Obrechtstraat 51, Amsterdam; Principal Conductor Bernard Haitink.

Residentie-Orkest: Statenlaan 28, The Hague; Principal Conductor Jean Martinon.

Rotterdams Philharmonisch Orkest: c/o De Doelen, Kruisstraat 2, Rotterdam-3002; Conductor Edo de Waart; Gen. Man. Dr. J. Oosterlee.

ATOMIC ENERGY

Wetenschappelijke Raad voor de Kernenergie (Scientific Council for Nuclear Affairs): Duinweg 24, P.O.B. 5086, The Hague; f. 1962; to advise state and private institutions on nuclear research; Chair. Prof. Dr. H. G. Van Bueren; Deputy Chair. Prof. Ir. D. G. H. Latzko.

Industrial Council for Nuclear Energy: 123 Laan van Nieuw Oost-Indie, The Hague; to advise the ministers on the industrial application of nuclear energy and ionizing radiation; Pres. H. H. Wemmers; Vice-Pres. H. W. BLOEMERS, LL.D.

The first nuclear power plant, a 54 MW boiling-water reactor, at Dodeward (nr. Nijmegen), was brought into operation at the end of 1968. A second power plant at Borssele (near Flushing), with a 477 MW pressurized water reactor, came into full operation in autumn 1973.

Public Health Council: P.O.B. 44 Rijswijk-ZH; to inform the ministers on the current state of science (nuclear research in particular) with regard to public health.

Interdepartmental Committee on Nuclear Energy: c/o
Ministry of Economic Affairs (Directorate of Nuclear
Energy), 123 Laan van Nieuw Oost Indie, The Hague;
f. 1964; co-operation between various ministries as to
measures to be taken towards peaceful uses of nuclear
energy; members: representatives of most ministries.

Stichting voor Fundamenteel Onderzoek der Materie (FOM)
(Foundation for Fundamental Research on Matter):
Lucasbolwerk 4, Utrecht; Dir. A. A. BOUMANS.

In the FOM Institute for Atomic and Molecular Physics at Amsterdam work on fundamental atomic physics with ion beams is carried out. The FOM Institute for Plasma Physics at Jutphaas (Utrecht) is a centre for thermonuclear research, established 1959. FOM organises and finances research on nuclear physics, atomic physics, metals, molecular physics, solid state physics, high energy physics, and plasma physics at the Universities in the Netherlands. A National Institute for Nuclear and High Energy Physics is being established.

Stichting Instituut voor Kernphysisch Onderzoek (Foundation Institute for Nuclear Physics Research): Ooster Ringdijk 18, Amsterdam; Exec. Dir. Prof. Dr. A. H. WAPSTRA.

The Institute is equipped with a 180-cm. cyclotron, a 85 MeV linear electron accelerator and a 14 MeV neutron generator. A 300 MeV linear electron accelerator will be completed in 1978. Both the Institute and FOM (above) also undertake radioisotope research.

Nederlandsche Gentrale Organisatio voor Toegopast-Natuurwetenschappelijk Onderzoek (TNO) (Netherlands Organization for Applied Scientific Research): Head Office, Juliana van Stolberglaan 148, P.O. Box 297, The Hague; 4,750 employees; Chair. Dr. L. B. J. STUYT.

Nijverheidsorganisatie TNO (The TNO Organization for Industrial Research): Head Office, Juliana van Stolberglaan 148, P.O.B. 297, The Hague; Groups, 14 institutes and three project groups; Chair. Dr. F. LAGERWEY.

The Project Group for Nuclear Energy TNO, Laan van Westenenk 501, P.O.B. 370, Apeldoorn, coordinates the research and development activities within TNO in the nuclear field. These are:

Development of large components for sodium-cooled fast reactors in co-operation with the industrial consortium Neratoom.

With Germany, Belgium and Luxembourg participation is the Debenelux fast breeder project, comprising a.o. design and construction of a prototype fast breeder reactor (300 MW) with sodium as a coolant.

Under contract from the Government, operation of a 50 MW sodium component test facility.

Association Euratom—ITAL (Institute for Atomic Sciences in Agriculture): Keyenbergseweg 6, Wageningen; f. 1957; 110 mems.; Dir. Dr. D. De Zeeuw; Tech. Dir. Drs. W. F. Oosterheert; Scientific Dir. Dr. A. RINGOET.

Irradiation facilities include a 100-kW reactor especially designed for agricultural research, a 1.7 MeV electron generator, gamma sources of 300 and 3,000 Curie Cs. 137, X-ray machine.

There is a pilot plant for food-irradiation with a 3MeV electron generator and a gamma source of 140,000 Curie Co. 60.

Reactor Centrum Nederland (RCN) (Netherlands Reactor Centre): Scheveningseweg 112, The Hague; f. 1955; Chair. Dr. Ir. H. Hoog; Man. Dir.s Prof. Dr. J. A. GOEDKOOP, Prof. Ir. J. Pelser, Dr. R. W. R. Dee.

The RCN organises and finances applied nuclear research. It is a foundation in which the government, electricity producing companies, a number of Dutch industries and the Foundation for Fundamental Research on Matter are represented. The RCN has a scientific and technical centre at Petten, with laboratories for chemistry and physics and a 10-kW research reactor. A laboratory for metallurgy and a laboratory for highly radioactive objects have been built.

NETHERLANDS

A 45 MW materials testing reactor has been built, but has been handed over to Euratom on the understanding that the RCN continues to operate and to maintain the reactor. Furthermore, a coupled fast thermal reactor system has been built. RCN also undertakes research on radioisotopes and organizes specialized training courses and a technical information centre.

In collaboration with the nuclear research centres at Karlsruhe (Germany) and Mol (Belgium) RCN undertakes research on fast breeder reactors.

An agreement with EURATOM was concluded in July 1961 to set up a nuclear research centre in Petten, adjacent to the RCN centre.

UNIVERSITIES

- Universiteit van Amsterdam (University of Amsterdam): Amsterdam; 285 professors, 19,927 students.
- Erasmus Universiteit Rotterdam (Erasmus University of Rotterdam): Rotterdam; 7,200 students.
- Vrije Universiteit (Free University): Amsterdam: c. 640 teachers, c. 8,000 students.
- Technische Hogeschool te Delft (Technical University of Delft): Delft; 1,726 teachers, 8,519 students.
- Technische Hogeschool te Eindhoven (Technical University of Eindhoven): 710 teachers, 6,000 students.
- Technische Hogeschool Twente (Technical University of Twente): Enschede; 2,300 students.
- Rijksuniversiteit te Groningen (State University of Groningen): Groningen; 350 teachers, 13,500 students.
- Katholieke Universiteit to Nijmegen (Catholic University of Nijmegen): Nijmegen; c. 1,000 teachers, c. 10,000 students.

- Rijksuniversiteit to Leiden (State University of Leiden): Rapenburg; 1,469 teachers, c. 13,150 students.
- Rijksuniversiteit to Utrecht (State University of Utrecht): Utrecht; 521 teachers, 12,932 students.

COLLEGES

(of University Standing)

- Institute of Social Studies: The Hague; c. 45 teachers, c. 200 students.
- Stichting Nijenrode Instituut voor bedrijfskunde (Netherlands School of Business): Nijenrode Breukelen; 31 teachers, 300 students.
- Katholieke Hogeschool to Tilburg (Catholic University of Tilburg): Tilburg; 79 teachers, 3,200 students.
- Landbouwhogeschool (State Agricultural University): Wageningen: 142 teachers, 3,250 students.

NORWAY

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Kingdom of Norway forms the western part of Scandinavia in Northern Europe, bordered to the East by Sweden and, within the Arctic Circle, by Finland and the U.S.S.R. A long, indented coast faces the Atlantic. Climate is temperate on the west coast but colder inland. There are two forms of the Norwegian language, which are officially recognized as equal. About 80 per cent of children in schools learn the older form Bokmdl as their principal language, whereas only 20 per cent learn the newer form Landsmal (Neo-Norwegian). The Evangelical Lutheran State Church is the established religion. The national flag (proportions 11 by 8) has a dark blue cross, bordered with white, on a red field, the upright of the cross being left of centre. The capital is Oslo.

Recent History

Norway was a founder member of the United Nations in 1945 and the country's Minister for Foreign Affairs, Trygve Lie, was elected as the first UN Secretary-General. Norway abandoned her traditional policy of neutrality and isolationism and joined in the talks which eventually led to the establishment of NATO in 1949.

Discussions continued with the other Scandinavian countries with a view to promoting co-operation in other spheres and in 1952 Norway was a founder member of the Nordic Council. In 1957 King Haakon VII died after a reign of 52 years and was succeeded by his son, Olav V. Norway continued her policy of promoting international co-operation, being a founder member of EFTA.

Norwegian political life was for a long time fairly stable. With only one month's interruption, the Labour Party formed the Government from 1935 to 1965. The 1965 elections resulted in the formation of a non-socialist coalition government under Per Borten, which lasted until 1971. The Labour Government led by Trygve Bratelli which then came to power resigned when its Treaty of Accession to the EEC was defeated in a referendum. A minority coalition of Liberals and the Centre and Christian People's Parties formed a Ministry with Lars Korvald as Prime Minister, but the general election of September 10th, 1973, produced a major redistribution of political power. The Labour Party had been split over EEC entry and lost many seats to the left-wing Socialist Electoral League, consisting of Communists, the anti-NATO Socialist People's Party which broke away from Labour in 1961 and AIK, an anti-EEC group which left the Labour Party in 1973. The Liberals, suffering from the defection of the New People's Party, also lost heavily. Four seats were won by a new Poujadist movement, Anders Lange's Party. Trygve Bratelli formed a minority Labour Government, dependent on the support of the Socialist Electoral League which would give it a majority of one vote in the Storting over the non-socialist parties. The Government has also obtained some support from the centre and right-wing parties for its policies of lower taxes and controlled, gradual economic development.

Government

The Kingdom of Norway is a constitutional monarchy. Executive power is nominally vested in the King, legislative power lies with the Storting (Parliament) and judicial power with the judicature. The King's executive power is exercised through the Government, headed by the Prime Minister. The King appoints the Government in accordance with the will of the Storting, which is elected for a four-year term by adult universal suffrage. The Storting votes a quarter of its number to form the Lagting, the remaining three-quarters being the members of the Odelsting.

Defence

Norway is a full member of NATO. Out of a total budget of 41,799 million kroner for 1975, 4,495 million kroner is allocated to defence. There is compulsory national service, lasting a minimum of twelve months, to which all men between the ages of 20 and 44 are liable. The total strength of the armed forces in 1974 was 34,900, including 22,900 conscripts: army 17,700, navy 8,300, and air force 8,900. There is also a mobilization reserve of 174,500 and a Home Guard of 80,000.

Economic Affairs

Both Norway's geographic structure and climate make farming difficult. Less than 3 per cent of the land surface is cultivated and the industry has to be both protected and subsidized by the Government. The Norwegians have naturally turned to the sea for a living and their merchant fleet, one of the largest and most modern in the world, now makes an important contribution to their economy. The fishing industry is still mainly confined to small boats operating off the west coast and contributed only 1.7 per cent of the Gross National Product and 7 per cent of the total exports in 1973. For a long while industry was based on local raw materials such as iron ore, timber and fish, Recently the plentiful sources of hydro-electric power have been utilized to expand industry rapidly and now aluminium has become a valuable export. Ship-building, engineering and electro-technical industries are also important.

The economy has been expanding steadily. Between 1966 and 1971 the Gross National Product showed an average annual increase of 4.65 per cent. It has continued to increase by about 4 per cent a year, and the standard of living has risen considerably. Imports have usually exceeded exports as most raw materials and many manufactures have to be imported, but most of the visible deficit has been made up by the earnings of the merchant fleet. The capital investment necessary for the development of Norwegian oil has worsened the trade deficit for 1974, but oil exports are expected to correct this problem within the next few years.

Prices have recently begun to rise faster, after some years when the annual rate of inflation was only 4 per cent, to around 10 per cent in 1974. This rise can be attributed in part to the high taxes necessary to pay for extensive social

welfare programmes; between 1960 and 1972, wages rose 172 per cent, prices 73 per cent, taxes 278 per cent and social costs 696 per cent.

Two of Norway's most important trade partners, Federal Germany and the United Kingdom, are now in the EEC. Following the popular decision not to join, the Government has negotiated a free trade agreement with the EEC, gaining trade advantages for Norway's major exports, particularly fish, aluminium, paper and steel.

An important new economic development has been the discovery of reserves of oil and gas in the Norwegian sector of the North Sea. The Government has set up a state oil company to exploit these resources in partnership with foreign oil companies. Norway is expected to become a net exporter of oil in 1975. The development of Norway's oil resources will be gradual, to avoid imposing undue strains on the economy. Revenues will be used to provide tax relief, improve social services, repay foreign debts and to allow the government to buy an interest in other economic sectors.

Transport and Communications

The Norwegian State Railways have a total length of 4,241 km., more than half of which is electrified. There are about 74,117 km. of roads, 24,739 km. of which are main roads. The Norwegian merchant fleet numbered 2,489 ships (Dec. 1973), totalling over 34.9 million gross tons. Norwegian Airlines has a two-sevenths share in the Scandinavian Airlines System (SAS).

Social Welfare

A compulsory National Pension Scheme came into force in January 1967, and covers old age, disability, widows, widowers, children and rehabilitation. Existing health insurance and other compensation schemes will be incorporated. Financed by premiums from those covered, employers' contributions and grants from local and central government, the Scheme provides a basic pension, irrespective of former income, as well as an additional pension calculated on previous earnings. The Trygderetten, an organization with a function similar to that of the Ombudsman, deals with complaints concerning state insurance and pension schemes.

Education '

Education is compulsory for all children between the ages of 7 and 16. Elementary education lasts from 7 to 9 years. General secondary education takes place at comprehensive schools (ungdomsskole). The pupil may then progress to an upper grammar school (gymnas) where a certain degree of specialization takes place. Success in the matriculation examination at the end of the gymnas course qualifies the pupil for university entrance and other forms

of higher education. After the age of 17, a pupil wishing to obtain further general education may apply for a 6 to 8-month course in one of the Folk High Schools (folkehogskolene). There are four universities and six colleges of university standing. Six regional colleges (distriktshogskole) have recently been established.

Tourism

Norway is a popular resort for tourists who prefer holidays in rugged, peaceful surroundings. It is also a centre for winter sports. Receipts from tourism in 1973 amounted to 1,385 million kroner.

Visitors entering Norway from Denmark, Finland, Iceland and Sweden do not require a passport.

Visas are not required for nationals of the following countries: Algeria, Argentina, Australia, Austria, Belgium, Bolivia, Brazil, Bulgaria, Canada, Chile, Colombia, Costa Rica, Cuba, Cyprus, Denmark, Dominican Republic, Ecuador, El Salvador, Finland, France, The Gambia, Federal Republic of Germany, Greece, Guatemala, Guyana, Haiti, Honduras, Iceland, India, Iran, Ireland, Israel, Italy, Jamaica, Japan, Kenya, Republic of Korea, Liechtenstein, Luxembourg, Malaysia, Malta, Mexico, Monaco, Morocco, The Netherlands, New Zealand, Nicaragua, Pakistan, Panama, Paraguay, Peru, Philippines, Portugal, Romania, San Marino, Senegal, Sierra Leone, Singapore, South Africa, Spain, Sweden, Switzerland, Tanzania, Thailand, Trinidad and Tobago, Tunisia, Turkey, Uganda, United Kingdom, U.S.A., Uruguay, Venezuela, Yugoslavia, Zambia.

Sport

Skiing originated in Norway and remains the most popular sport, closely followed by ice skating in which the Norwegians excel. Football is also popular. There is no professional sport.

Public Holidays

1975: May 1st (Labour Day), May 8th (Ascension Day), May 17th (Constitution Day), May 19th (Whit Monday), December 25th and 26th (Christmas).

1976: January 1st (New Year's Day), April 15th (Maundy Thursday), April 16th (Good Friday), April 19th (Easter Monday).

Weights and Measures

The metric system is in force.

Currency and Exchange Rates

100 ore=1 Norwegian krone.

Exchange rates (December 1974):
£1 sterling=12.47 kroner;

U.S. \$1=5.34 kroner.

THE CONSTITUTION

THE Constitution of the Kingdom of Norway was promulgated on May 17th, 1814, by the National Assembly at Eidsvold.

According to the Constitution, Norway is a "free, independent, indivisible, inalienable Kingdom"; its form of government a "limited and hereditary monarchy". The Evangelical-Lutheran religion is the established religion of the State.

Executive power is vested in the King, legislative power in the Storting (the Parliament), and judicial power in the Judicature.

EXECUTIVE POWER

The King exercises his power through the Statsråd (State Council). The State Council (the Government) is composed of a Prime Minister and not less than seven other Councillors of State, all above thirty years of age. The business to be dealt with in State Council is prepared by the various executive Ministries, each with a State Councillor at its head. These executive departments conduct the administrative work of the country.

The Government submits the budget estimates and introduces bills in the Storting.

Formally, the King appoints the Government, but since the introduction of the parliamentary system in 1884 it is the practice for him to act in accordance with the will of the Storting.

LEGISLATIVE POWER

The Storting is elected quadrennially by universal suffrage. All Norwegian citizens over 20 are eligible to vote and those over 21 are eligible to stand for election. The Storting has 155 members, who elect a quarter of their own body to constitute the Lagting; the other three-quarters compose the Odelsting. All bills must first be introduced in the Odelsting, either by the Government through a State Councillor or by a member of the Odelsting. Should the bill be passed by the Odelsting, it is sent to the Lagting, who may adopt it or return it with amendments. If a bill be passed twice by the Odelsting and rejected on both occasions by the Lagting, it is submitted to the entire Storting and decided by a two-thirds majority. When a bill has thus been passed it must receive the royal assent in State Council.

Bills for the revision of the Constitution must be introduced in the first, second or third session after a new election. But only the Storting, after the next election, has power to decide whether the proposed alteration should be adopted. Bills relating to the Constitution are dealt with only by the united Storting. For the adoption of a bill of this nature a two-thirds majority is required, and the measure becomes law without the royal assent.

The Storting votes all State expenditure and determines State revenue, taxes, customs tariffs and other duties; the Odelsting exercises control over government administration, government appointments and so forth.

The Storting prepares its business through its committees and settles such business, with the exception of bills, in plenum. The State Councillors (Ministers) may attend the Storting, having the right of speech but not of voting.

The Storting determines the duration of each session. It is opened and prorogued by the King each year. The Storting cannot be dissolved either by the King or by its own resolution until the expiry of the quadrennial period for which it has been elected.

THE GOVERNMENT

HEAD OF STATE

KING OLAV V (succeeded to the throne September 21st, 1957).

THE CABINET

(December 1974)

(Labour Party, formed October 15th, 1973)

Prime Minister: TRYGVE BRATTELI.

Yugoslavia: 105 Drammensveien; Ambassador: Gojko Žarković.

Zaire: Stockholm, Sweden. Zambia: Stockholm, Sweden.

JUDICIAL SYSTEM

Judges are appointed by the Crown. The Supreme Court, sitting in Oslo, deals with both civil and criminal cases.

Attorney-General: BJÖRN HAUG.

Supreme Court, Oslo: Pres. Rolv Ryssdal.

Superior Court for Civil and Criminal Cases, Bergen: Pres. Hans Fr. Marthinussen.

Superior Court for Civil and Criminal Cases, Oslo: Pres. Jens Fagereng.

Superior Court for Civil and Criminal Cases, Skien: Pres. Kristen Syvertsen.

Superior Court for Civil and Criminal Cases, Tromsø: Pres. Jon Fjalstad.

Superior Court for Civil and Criminal Cases, Trondheim: Pres. Mars Stensrud.

CIVIL

In each municipality there is a Conciliation Court (Forliksråd) consisting of three members elected by the municipal council for four years. As a rule, no case may be taken to a court of justice without mediation having been attempted by a Conciliation Court. In addition to mediation, the Conciliation Court has a judicial capacity and is intended to settle minor cases in a simple manner without great expense to the parties involved.

The ordinary lower courts are the District and Town Courts (Herredsrett, Byrett), which decide all cases not adjudicated upon by the Conciliation Court, and they also act as courts of appeal from judgments given in the Conciliation Court. The cases are adjudicated by a judge or magistrate, who sits either alone or with two lay judges.

Judgments delivered in the District and Town Courts may be taken, on appeal, to the Courts of Appeal (Lagmannsrett or "Lagmann's" Courts) or to the Supreme Court (Höyesterett). In the Courts of Appeal cases are judged by three qualified judges, but if requested by one of the parties, lay judges may be summoned.

The Supreme Court sits in Oslo and decides cases in the last instance. Five judges here participate in judging an appeal case.

CRIMINAL .

The criminal courts are: Examining Courts (Forhörsretten), the District and Town Courts, Courts of Appeal (Lagmannsrett) and the Supreme Court. In the Examining Courts the professional judge presides alone, but in the District and Town Courts two lay judges also sit. The more serious criminal cases must be brought directly before the "Lagmann's" Court. Cases originating in the lower courts may be retried by the Courts of Appeal (Lagmannsrett) when the question of guilt is at issue; otherwise they are appealed directly to the Supreme Court. The "Lagmann's" Court is presided over by three legally qualified judges, who judge the case with the assistance of a jury of ten jurymen. For the accused to be pronounced guilty, at least seven jurymen must vote that he is so.

The Supreme Court (Höyesterett) is the Court of Final Appeal. In criminal cases the competence of the Court is, however, limited to questions concerning the application of the law, the nature of the penalty, and procedural errors of the lower court.

Capital punishment has been abolished, except for certain military and treasonable offences in time of war.

OMBUDSMAN

Since the office was introduced by law in 1963, an Ombudsman has been elected by the Storting every four years. The Ombudsman provides a free service to all citizens to "try and ensure against the public administration committing any injustice to the individual citizen" and "that civil servants and others employed in the state administration do not make mistakes or fail in their duties". His field of activity does not cover private legal affairs, and he does not have the right to reverse an official decision. In practice, however, his pronouncements are normally complied with.

RELIGION

The Evangelical Lutheran Church is the established Church of Norway and is endowed by the State. The King is the head of the Church and nominates its clergy. There are 10 dioceses, 90 archdeaconries and some 600 clerical districts.

The salary and pensions of clergy are fixed by law, and clergymen are economically independent of the members of their congregation.

The Evangelical Lutheran State Church: Bishops: Kaare Stoeylen, Oslo; Alex Johnson, Hamar; Per Lønning, Borg; Dagfinn Hauge, Tunsberg; Erling Utnem, Agder; Olav Hagesaether, Stavanger; Per Juvkam, Björgvin; T. Godal, Nidaros; Bjarne O. Weider, Sör-Hålogoland; Kristen Kyrre Bremer, Nord-Hålogoland.

The United Methodist Church: Northern Europe Area, which

includes Denmark, Finland, Norway and Sweden; f. 1856; 35,000 mems.; see Sweden.

The Norwegian Baptist Union: f. 1860; 6,523 mems.; Gen.-Sec. Kare Lauveng, Hausmannsgt. 22, Oslo 1.

The Lutheran Free Church of Norway: f. 1877; 19,160 mems.; Head and Chair. of Synod Rev. Leif Nilsen, Sørnesv. 19, 6000 Ålesund; Sec. Eigil Alheim, Synod Office, Josefines gt. 5, Oslo 3.

The Roman Catholic Church: 11,000 members; Diocese of Oslo (est. 1953): Bishop Rt. Rev. J. W. Gran, Akersveien 5, Oslo 1; Vicariate Apostolic of Central Norway (est. 1953): Bishop Rt. Rev. Јонаннез Rüth, Prinsengate 2 a 2, Trondheim; Vicariate Apostolic of North Norway (est 1955); Bishop Rt. Rev. Јонаннез Wember, Storgaten 94, Tromso.

THE PRESS

The principle of press freedom is safeguarded in the Norwegian Constitution. There is no law specifically dealing with the Press; newspapermen are subject like any other citizen to the penal and other laws. Editors bear wide responsibility in law for the content of their papers, especially regarding such matters as libel. Although a journalist is legally entitled to conceal his source he may be required to disclose this information under penalty of imprisonment; but such instances are rare.

A three-member Council of Conduct gives judgements in cases of complaint against a paper or of disputes between papers. It has no powers of enforcement but its judgements are highly respected. The Press Association has a Code of Ethics aimed at maintaining the standards and reputation of the profession.

Norway has 156 newspapers with a total circulation of 1,884,200. Of these 77 are dailies accounting for some 1,553,100 copies. A few very large papers are responsible for the bulk of this circulation; the average daily sells some 5,000 copies. The non-dailies mostly appear three times a week, averaging 3,000 copies.

The Eastern region is the scene of most press activity. Oslo has eight dailies (total circulation 815,000 in 1974) which are especially influential throughout this area, and four of these—Aftenposten, Verdens Gang, Dagbladet and Arbeiderbladet—have a national readership. Nevertheless, in Norway's chief cities the large local dailies easily lead in their own districts. There are no Sunday newspapers but on Saturday the dailies usually have an extra large edition.

Daily and non-daily newspapers are characterized by a high proportion of serious and informative matter such as cultural, historical and economic articles, for the newspaper profession in Norway has traditionally felt its mission to be partly educational.

There are almost 2,000 periodicals with an estimated total circulation of two million copies. Women's magazines are particularly popular and make up over a quarter of this circulation figure.

There are no major publishing chains; newspapers are mainly privately owned. Most of the big papers are owned by corporations whose shares are held by individuals and political parties. The Labour Party and the Norwegian Federation of Trade Unions (LO) own and subsidize the Labour press. Certain papers with Conservative sympathies such as Morgenbladet are subsidized by the Conservative holding company, Libertos, but many Conservative papers insist on being financially independent. The chief organs of the parties are Aftenposten (Conservative), Dagbladet (Liberal), Nationen (Centre) and Arbeiderbladet (Labour).

A number of medium-sized papers which have been experiencing economic difficulties receive financial help from private individuals, parties and other organizations. Some papers economize by engaging in a form of coperation by which two papers sometimes with different political views, share the news copy while carrying different headings, editorials and sometimes one or two different pages. A State loan fund was set up in 1972 to ease newspapers' credit problems.

In 1974 the most popular newspapers were, in order of circulation, Aftenposten (Oslo), Verdens Gang (Oslo), Dagbladet (Oslo), Bergens Tidende, Adresseavisen (Trondheim), Arbeiderbladet (Oslo) and Stavanger Aftenblad.

The privately owned Conservative Aftenposten leads in prestige, followed by Arbeiderbladet, having a high standard of political coverage. The leading popular papers are Verdens Gang and Dagbladet. Outside the capital one should note among the serious papers Stavanger Aftenblad and Bergens Tidende.

PRINCIPAL NEWSPAPERS

λL

Hallingdolen: f. 1936; Independent; four times weekly; Editor Lars S. Strand; circ. 6,250.

RADIO

Broadcasting is a monopoly of the State, which operates two Long Wave, twenty-nine Medium Wave, forty VHF transmitters and 194 relay stations. One programme is broadcast for 126 hours per week. The foreign service broadcasts from one Medium Wave and two Short Wave transmitters.

There were 1,238,116 holders of licences at the end of December 1973.

TELEVISION

A non-commercial State monopoly. Regular service began in August 1960. Transmissions are obtainable by about 96.2 per cent of the population. In S.E. Norway it is possible to receive the Swedish TV programmes.

By the end of December 1973 there were 986,052 television licences, including 60,644 for colour, held in Norway.

All receive State subsidies.

PRINCIPAL ORCHESTRAS

Filharmonisk Selskap (Oslo Philharmonic Orchestra):
Tollbugt. 24, Oslo 1; f. 1919; Dir. Okko Kamu;
Man. Alv Rasmussen.

Musikselskabet Harmonien—Bergen Symphony Orchestra (Harmonien Music Society): Engen 15, 5000 Bergen; f. 1765; Conductors Karsten Andersen, Sverre Bergh; Dir. Sven Henning; Adm. Man. Laila Kismul.

ATOMIC ENERGY

A boiling heavy water reactor in Halden started operation in 1959. This reactor, the first of its type, is also being used for a joint programme of research undertaken by Austria, Denmark, Finland, Italy, The Netherlands, Norway, Sweden, Switzerland, United Kingdom, U.S.A., and a German Industrial Group under the auspices of OECD.

Norwegian Atomic Energy Council: Secretariat, P.O.B. 40, 2007 Kjeller; Chair. JENS CHR. HAUGE (acting); Exec. Sec. KNUT GUSSGARD.

Institutt for Atomenergi—IFA (Atomic Energy Institute):
P.O.B. 40, 2007 Kjeller; f. 1948; Chair. Finn Rafn; Man.
Dir. Viking O. Eriksen; Asst. Dir. N. G. Aamodt;
national institute for applied nuclear research with
emphasis on power reactor technology, reactor fuel
technology, process control and instrumentation,
nuclear safety, isotope technology, process chemistry,
basic physics; publ. Kjeller Reports.

Co-operation: Norway has bilateral agreements with the U.S.A. and Great Britain, and is a member of the International Atomic Energy Agency, the European Nuclear Energy Agency, the European Organisation for Nuclear Research, the Nordic Institute for Theoretical Atomic Physics and the European Atomic Energy Society.

UNIVERSITIES

Universitetet i Bergen: Bergen; 78.4 teachers, 7,850 students.

Universitetet i Oslo: Oslo: 1,407 teachers, 19,000 students.
Universitetet i Tromsø: Tromsø; 180 teachers, 900 students.
Universitetet i Trondheim: Trondheim; 708 teachers, 8,500 students.

POLAND

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Situated in Eastern Europe the Polish People's Republic is bounded to the north by the Baltic Sea, to the west by the German Democratic Republic, to the south by Czechoslovakia and to the east by the U.S.S.R. The climate is temperate. Most of the population is Roman Catholic but there are 13 other religious denominations, the largest being the Polish Autocephalous Orthodox Church. The language is Polish. The national flag (proportions 8 by 5) has two horizontal bands of white and red. The capital is Warsaw.

Recent History

A people's democracy was set up after the defeat of the German forces in 1944. Under the Potsdam Agreement signed by the major Allied powers in 1945, the former German territories along the line of the rivers Oder and Neisse and now forming one-third of Poland's total area, came under Polish sovereignty. Józef Cyrankiewicz led a Communist-dominated government elected in 1947, with Władysław Gomulka as deputy premier. As the control of the Communists increased and allegiance to the Soviet Union strengthened, Gomulka was dismissed. The Government's strict control eased slightly with the death of Stalin, but no significant change was felt until 1956, when "bread riots", started by the industrial workers of Poznań, brought a political crisis which resulted in Gomulka's return to office. Soviet intervention was resisted by the new leaders and a period of liberalization followed in which control of the army was given to Poles, the secret police lost much of its power, political prisoners were rehabilitated, the collectivization of agriculture was stopped, censorship was eased and freedom of movement was restored. This period of relaxation was followed by a tightening of control, although Poland remained more liberal than most other members of the Communist bloc.

In December 1970 "bread riots" again broke out in three Baltic towns, sparked off by a sudden increase in food prices and by a feeling of dissatisfaction with economic affairs generally. The situation led to the resignation of several leading members of the Government, including Gomulka, who was succeeded as First Secretary of the Workers' Party by Edward Gierek. The latter strengthened his position in 1971 with several government reshuffles, and by giving priority to raising living standards and involving the working class in economic management. As a result of elections held in March 1972, most of Gomulka's former supporters were removed from the Government and from the Seym. Subsequently the Government has continued to pay careful attention to the economic needs of the population and to adopt a tolerant line on religious and cultural issues.

The steady improvement in foreign relations reached a peak in September 1972 when, following the signing of a treaty with Federal Germany in December 1970 and its subsequent ratification by the Bonn parliament, diplomatic relations were established between the two countries.

Earlier in the same year, the Vatican had normalized relations by recognizing Poland's post-war frontiers.

Government

The supreme legislative organ is the Seym (Parliament), a unicameral body elected by all citizens of 18 years and over for a four-year term. From its number the Seym elects the members and President of the Council of State. Supreme executive power lies with the Council of Ministers, who are appointed or recalled by the Seym. The Council of Ministers is responsible for its activities to the Seym and to the Council of State between sessions of parliament. The Supreme Chamber of Control exercises state control. It is responsible to the Seym and the Council of State, but remains independent of the government whose activities it supervises.

Defence

Poland is a member of the Eastern European Mutual Aid Treaty (the Warsaw Pact). Military service lasts for two years in the army and air force, and for three years in the navy. The strength of the armed forces in 1974 was 303,000: army 220,000, navy 25,000, air force 58,000. There are also 73,000 security and border troops. The defence budget for 1974 totalled 45,200m. zlotys.

Economic Affairs

Poland is one of the world's leading agricultural nations. Although co-operative and state farms exist, 53.5 per cent of agricultural land remains in private hands. Livestock production is important, and meat and meat products such as ham, bacon, sausage, etc. make significant contributions to Polish exports. The principal crops are rye, wheat, oats, sugar beet and potatoes. Polish farming provides about 8 per cent of European agricultural production.

Nevertheless, Poland now finds itself in a phase of intensive industrialization based on socialist principles. Over 70 per cent of the country's population now earns its living in industry and non-agricultural activities, and industrial growth is among the ten fastest in the world. Poland is one of the world's richest countries in copper and sulphur deposits, and there are also deposits of natural gas. Coal output was 156.6 million tons in 1973, of which 35.9 million tons were exported. Poland ranks among the world's ten leading shipbuilding nations and is the fourth largest exporter of ships. Other important industries are textiles, engineering, steel, cement, chemicals and foodstuffs. The main exports are coal, ships, steel and clothing.

Many of the targets of the 1966—70 Five-Year Plan were not achieved. This Plan aimed to increase industrial production by more than 40 per cent, raise the standard of living, modernize economic structure and expand foreign trade. The 1971—75 Five-Year Plan, drawn up during the latter part of 1970, aims at concentrating industrial effort on increasing exports and satisfying the home market. With management of the economy more in the hands of the working class, industrial production was planned to increase by nearly 50 per cent over the five-period, while real

incomes were to rise by 18 per cent. These targets have already been exceeded. Total agricultural production rose from 305,476 million zlotys in 1970 to 440,615 million in 1973; industrial production increased from 1,167,866 million zlotys to 1,580,812 million over the same period. National income increased by 32.9 per cent in the first three years of the plan which envisaged a 40 per cent increase over the five-year period. Food prices have been frozen since 1970, and are planned to remain so at least until the end of 1975.

Poland is a member of the Council for Mutual Economic Assistance (CMEA), and a contracting party to the General Agreement on Tariffs and Trade (GATT). About 60 per cent of Poland's foreign trade is with Eastern Europe and about 30 per cent with the Soviet Union.

Transport and Communications

Transport is by rail, road, inland waterway and air. There are nearly 27,000 km. of railways, 4,700 km. of which are electrified. There are about 90,000 km. of main roads in Poland and 4,573 km. of navigable waterways. The Polish airline LOT maintains internal and international services to the Middle East and throughout Europe and U.S.A. There are three large ports on the Baltic coast at Gdynia, Gdańsk and Szczecin. A merchant fleet of 289 ships in 1973 with a displacement of nearly 1,709,100 gross tons runs services to Great Britain, the Middle East, South America, the Far East, Scandinavia, North America and Australia.

Social Welfare

The Polish social welfare system is controlled by the Ministry of Health and Social Welfare. Locally the system is administered by the Health and Social Welfare Departments of the Presidiums of the People's Councils. Medical care is provided free for all workers and rural population. There is a special system of dispensaries for infants, women and school children, as well as an all-embracing industrial health service. Health services for pregnant women have improved; women in Poland receive maternity leave with full pay, free time for nursing, and free medical care. Social relief benefits are available to all who are in need. These benefits take the form of either cash payments, goods or services. Cash payments are made to invalids, old people without retirement pay, or any person who is unable to provide for himself. Benefits in kind are supplied to the needy; these take the form of food, clothing, fuel, medicine, dressings, etc. The Polish Red Cross organizes and carries out the care of the sick at home and general home assistance to those who are incapacitated through ill-health, etc. Alimony is assured by law to single mothers who are unable to enforce payment of alimonies due to them. Pensions are organized and managed by the Union of Pensioners, Invalids and Retired Persons. Special houses for social relief are a basic part of the Polish social welfare system. These include homes for pensioners and the aged, homes for blind people, for the mentally deficient, and for those suffering from chronic disease.

Education

Education is free and compulsory for children between the ages of 7 and 14 years. Before the age of 7, children may attend creches (zlobki) and kindergartens (przedszhola); however, there are not enough of this type of school to meet the demand. Basic schooling begins at 7 years of age

when a child enters the eight-year school (szkola podstawowa). Curricula are uniform throughout Poland and prepared with a view to continuity between each level. There is a small number of private schools run under state supervision. On completing his compulsory education at the eight-year school the child is free to go to work. Secondary education is free to candidates successful in the entrance examination and more than 90 per cent of pupils continue their studies. Of these, 79 per cent go to vocational and technical schools (technika zawodowa), or to basic vocational schools (zasadnicze szkoly). The latter kind, organized by both the government and by work establishments, provide three-year courses consisting of three days theoretical and three days practical training per week, and in addition some general education is given. Those leaving the basic vocational school generally go straight into industry, agriculture, etc. Vocational technical schools provide five-year courses of general education and vocational training together, and can lead to qualifications for entering higher educational establishments. The remaining 25 per cent of children who leave the eight-year school to continue with their education enter general secondary schools (liceum ogólnoksztatcące), where four-year courses lead to college or university entrance. Here, as in vocational technical schools, the student may receive his leaving certificate (Matura). There are 88 higher educational establishments in Poland, including ten universities and 18 technical universities. Current expenditure from the government budget on education for 1973 was expected to be about 40,876 million złotys.

Tourism

The Polish Tourist Society is responsible for tourism and itself maintains about 250 tourist hotels and hostels throughout the country. Poland is rich in historic cities such as Wrocław, Cracow and Warsaw. There are 30 health and climatic resorts while the mountains, forests and rivers provide splendid scenery and excellent facilities for sporting holidays. Poland was visited by 6,912,400 foreign tourists in 1973. Tourists enjoy a favourable exchange rate of about 80 zlotys to £1.

Snort

Sport in Poland is directed by the Central Committee of Physical Culture and Tourism and the Polish Sports' Federation, and every sport discipline has its own union. In 1973 these unions had a total membership of 3,548,108. The most popular sports are football, boxing, and cycling.

Public Holidays

1975: May 1st (Labour Day), May 9th (Victory Day), May 29th (Corpus Christi), July 22nd (Polish National Day), November 1st (All Saints' Day), December 25th and 26th (Christmas).

1976: January 1st (New Year's Day), April 19th (Easter).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rates

100 groszy=1 złoty.
Exchange rates (December 1974):
£r sterling=7.80 złotys;
U.S. \$1=3.35 złotys.

Pure and mixed yarns. Cotton includes tyre cord yarn.
 Pure and mixed fabrics, after undergoing finishing processes. Cotton and wool include substitutes.
 Tyres for passenger motor cars and commercial vehicles, including inner tubes and tyres for animal-drawn road vehicles,

Tyres for passenger motor cars and commercial venicles, including inner tubes and tyres for animal-drawn road vehicles, and tyres for non-agricultural machines and equipment.
 Fertilizer production is measured in terms of (a) nitrogen or (b) phosphorus pentaoxide. Phosphate fertilizers include ground rock phosphate.
 Including synthetic products.
 Including blast-furnace ferro-alloys.
 Figures refer to both primary and secondary metal. Zinc production includes zinc dust and remelted zinc.

FINANCE

100 groszy=I złoty.

Coins: 1, 2, 5, 10, 20 and 50 groszy; 1, 2, 5, 10 and 20 zlotys.

Notes: 20, 50, 100, 500 and 1,000 złotys.

Exchange rates (December 1974): I złoty=22.5 Soviet kopeks.

fr sterling=7.80 zlotys (basic rate) or 78.00 zlotys (non-commercial rate);

U.S. \$1=3.35 zlotys (basic rate) or 33.50 zlotys (non-commercial rate).

100 złotys=22.50 roubles=£12.82=\$29.86 (basic rates).

Note: Prior to August 1971 the official exchange rate was U.S. \$1=4.00 złotys (1 złoty=25 U.S. cents). Between December 1971 and February 1973 the rate was \$1=3.68 złotys (1 złoty=27.14 U.S. cents). In terms of sterling, the basic exchange rate between November 1967 and June 1972 was £1=9.60 złotys.

THE CONSTITUTION

Political Structure

Article 1-(1) The Polish People's Republic is a State of People's Democracy.

(2) In the Polish People's Republic, the power belongs to the working people of town and country.

Article 2—(1) The working people rule the State through their representatives elected to the Seym (Parliament) of the Polish People's Republic and to the People's Councils on the basis of universal, equal and direct suffrage by sccret ballot.

(2) The people's representatives in the Seym of the Polish People's Republic, and in the People's Councils, are responsible to their constituents and may be recalled by them.

Article 3—The Polish People's Republic:

(1) safeguards the achievements of the Polish working people of town and country and protects their power and freedom against forces hostile to the people;

(2) secures the development and continuous growth of the productive forces of the country by industrialization and through elimination of economic, technical and cultural backwardness;

(3) organizes a planned economy based on enterprises constituting social property;

(4) limits, ousts and abolishes those classes of society which live by exploiting the workers and peasants; (5) ensures a continual rise in the welfare, health and

cultural level of the people; (6) secures an all-round development of national culture.

Article 4-(1) The laws of the Polish People's Republic express the interests and the will of the working people.

(2) Strict adherence to the laws of the Polish People's Republic is the fundamental duty of every organ of the State and of every citizen.

(3) The functioning of all organs of State power and administration is based on the rule of law.

Article 5—All organs of State power and administration are supported in their work by the conscious and active co-operation of the people, and they are bound:

(1) to account to the nation for their work;

(2) to examine carefully and take into consideration, in accordance with existing legislation, reasonable proposals, complaints and wishes of the citizens;

(3) to explain to the working people the chief aims and guiding principles of the policy of the people's authority in the diverse fields of State, economic and cultural activity.

Article 6-The armed forces of the Polish People's Republic safeguard the sovereignty and independence of the Polish nation and its security and peace.

Social and Economic Structure

Article 7-(1) The Polish People's Republic, on the basis of socialised means of production, trade, communications and credit, develops the economic and cultural life of the country in accordance with the National Economic Plan, and, in particular, through the expansion of Socialist State industry, which is the decisive factor in the transformation of social and economic relations.

(2) The State has the monopoly of foreign trade. (3) The principal aim of the planned economic policy of

the Polish People's Republic is the constant development

of the productive forces of the country, the continuous raising of the standard of living of the working people and the consolidation of the power, defence strength and independence of the country.

Article 8—The national wealth—that is, the mineral deposits, waters, State forests, mines, roads, rail, water and air transport, means of communication, banks, State industrial establishments, State farms and State machinery centres, State commercial enterprises and communal enterprises and utilities—is subject to the special care and protection of the State and of all citizens.

Article 9—(I) The Polish People's Republic strengthens in a planned way the economic union between town and country, founded on brotherly co-operation between

workers and peasants.

(2) For this purpose, the Polish People's Republic secures a continuous increase in the production of State industry, serving to meet the all-round needs of the rural population both as producers and consumers; at the same time planning the constant growth of production of agricultural commodities, supplying industry with raw materials and the urban population with foodstuffs.

Article 10—(1) The Polish People's Republic protects the individual farms of working peasants and assists them in order to protect them against capitalist exploitation, to increase production, raise the technical level of agriculture,

and improve their welfare.

(2) The Polish People's Republic gives special support and all-round aid to co-operative farms set up, on the principle of voluntary membership, as forms of collective economy. By applying methods of efficient collective cultivation and mechanised work, collective farming enables the working peasants to reach a turning point in production and contributes to the complete elimination of exploitation in the countryside and to a rapid and considerable rise in its welfare and culture.

(3) The main forms of State support and help for cooperative farms are State machine stations which make possible the application of modern techniques, and State

credits on easy terms.

Article II—The Polish People's Republic promotes the development of different forms of the co-operative movement in town and country and gives it every help in the fulfilment of its tasks. It also extends special care and protection to co-operative property as constituting public property.

Article 12—The Polish People's Republic recognises and protects, on the basis of existing legislation, individual property and the right to inherit land, buildings and other means of production belonging to peasants, craftsmen and

persons engaged in domestic handicrafts.

Article 13—The Polish People's Republic guarantees to citizens full protection of personal property and the right to inherit it.

Article 14—(1) Work is the right and the duty of, and a matter of honour for every citizen. By their work, by the observance of work discipline, by work competition and the perfecting of methods of work, the working people of town and country increase the strength of the country, raise the level of well-being of the nation and hasten the full realisation of the socialist system.

(2) Work champions enjoy the respect of the whole

nation.

(3) The Polish People's Republic puts into practice, to an increasing degree, the principle: "From each according to his ability, to each according to his work".

The Supreme Organs of State Authority

Article 15—(1) The supreme organ of State authority is the Seym of the Polish People's Republic.

(2) The Seym, which is the highest representative of the will of the working people of town and country, gives form to the sovereign rights of the nation.

(3) The Seym passes laws and exercises control over the work of other organs of State authority and administration.

Article 16—(1) The Seym is made up of 460 deputies.
(2) The validity of the election of a Deputy is confirmed

by the Seym.

(3) A Deputy may neither be brought before a Court, nor arrested, without the consent of the Seym, and when the Seym is not in session, without the consent of the Council of State.

Article 17—(1) The Seym meets in sessions. The Council of State convokes a session of the Seym at least twice a year. Likewise, on a written motion by one-third of the total number of Deputies, the Council of State is bound to convoke a session.

(2) The first session of a newly-elected Seym must be convoked within a period of one month from the date of the elections.

Article 18—(1) The Seym elects from among its members a Chairman, Deputy Chairmen, and Committees.

(2) The Chairman or his deputy presides over the debates and supervises the course of the work of the Seym.

(3) The debates of the Seym are open to the public. The Seym may vote the holding of a secret session if this be required in the interests of the State.

(4) The order of work of the Seym, the kind and number of committees, are defined by rules of procedure adopted by the Seym.

Article 19—(1) The Seym adopts the national economic plans for a period of several years.

(2) The Seym adopts the State budget every year.

Article 20—(1) The right to propose legislation is vested in the Council of State, the Government and the Deputies.

(2) Acts passed by the Seym are signed by the President and Secretary of the Council of State. Acts are published in the Journal of Laws by order of the President of the Council of State.

Article 21—The Seym may appoint a Committee to examine a specified matter. The terms of reference and procedure of the Committee are established by the Seym.

Article 22—The Chairman of the Council of Ministers or individual Ministers are bound to answer, within seven days, a question put by a Deputy.

Article 23—(I) The Seym is elected for a term of four years.

(2) The decision to hold elections to the Seym is adopted by the Council of State not later than one month before the expiry of the term of office of the Seym, the polling day to be fixed on a day free from work within two months after the expiry of the term of office of the Seym.

Article 24—(1) At its first sitting, the Seym elects a Council of State composed of the President of the Council of State, four Deputy Presidents, the Secretary of the Council of State, and eleven Members.

(2) The Chairman and Deputy-Chairman may be elected to the Council of State as Deputy Presidents or as Members.

(3) After the expiry of the term of office of the Seym, the Council of State acts until the election of a Council of State by the newly-elected Seym.

Article 25—(1) The following functions are vested in the Council of State:

(i) the ordering of elections to the Seym;

(ii) the convocation of sessions of the Seym;

- (iii) the establishment of universally binding interpretation of laws;
- (iv) the issuing of decrees with the force of law;
- (v) the appointment and recall of plenipotentiary representatives of the Polish People's Republic in other States:
- (vi) the acceptance of letters of credence and of recall of diplomatic representatives of other States accredited to the Council of State;
- (vii) the ratification and denouncing of international agreements;
- (viii) the appointment to civilian and military posts specified by law;
 - (ix) the awarding of orders, decorations and titles of honour:
 - (x) the exercise of the right to grant pardon;
 - (xi) the exercise of other functions vested in the Council of State by the Constitution or assigned to it by special laws.
- (2) The Council of State is accountable to the Seym for all its activities.
 - (3) The Council of State acts as a body.
- (4) The Council of State is represented by the President or his deputy.

Article 26—(1) In the intervals between the sessions of the Seym, the Council of State issues decrees with force of law. The Council of State submits the decrees to the Seym at its next session for approval.

(2) Decrees issued by the Council of State are signed by the President of the Council of State and its Secretary. Decrees are published in the *Journal of Laws* by order of the President of the Council of State.

Article 27—(1) The Council of State exercises ultimate supervision over the local People's Councils. The specific powers of the Council of State in this matter are determined by law

Article 28—(1) A declaration concerning a state of war can be issued only in the event of armed aggression having been committed against the Polish People's Republic, or if, in pursuance of international agreements, the necessity ahould arise of common defence against aggression. Such a declaration is voted by the Seym or, if the Seym is not in session, by the Council of State.
